AGENDA REQUEST FORM THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

THE	Meeting Date	1		Agenda Item Number	
Digital 5 Project REQUESTED ACCROMOND Approve funding for the Digital 5 Project. SUMMANY EXPLANATION AND SACKGOOND The Instruction & Interventions Department is collaborating with the Information & Technology Department to implement a one-to-one technology pilot program to include approximately 160 fifting grade classrooms. The pilot would be implemented in a phased deployment starting with 4,000 mobile devices for the start of the 2013-2014 school year. Elementary schools will apply to participate and professional learning would begin this summer in preparation for the start of the school year. Additionally, professional learning would begin this summer in preparation for the start of the school year. This pilot fully supports and emphasizes the implementation of Common Core State Standards, provides students with real world, inquiry-based learning experiences, focuses on 21 standards, provides students with real world, inquiry-based learning experiences, focuses on 21 standards, provides students with real world, inquiry-based learning experiences, focuses on 21 standards, provides students with real world, inquiry-based learning experiences, focuses on 21 standards, provides students with real world, inquiry-based learning or all Broward students, which, is the trend and direction for all modern educational instruction, and provides opportunities for blended learning practices. The expectation is that the evaluative results of this project will be used to continuously refine strategies and processes leading to one-to-one learning for all Broward students, which, is the trend and direction for all modern educational institutions across the world who are charged with preparing today's students for tomorrow's world. This aligns with the District Education Technology to provide meaningful real-world learning experiences that engage and prepare students in a personalized learning environment to be college and career ready. **Central Provided Learning Formation** **Continuous Improvement** **District Formati	5/21/13		Special Order Request	FF-2	
Digital 5 Project REQUISITED ACTION: Approve funding for the Digital 5 Project. SUMMANY EXPLANATION AND BACKGROUND. The Instruction & Interventions Department is collaborating with the Information & Technology Department to implement a one-to-one technology pilot program to include approximately 160 fifth grade classrooms. The pilot would be implemented in a phased deployment starting with 4,000 mobile devices for the start of the 2013-2014 school year. Elementary schools will apply to participate and professional learning would begin this summer in preparation for the start of the school year. Additionally, professional learning will be integrated into the professional learning communities of the school year. This pilot fully supports and emphasizes the implementation of Common Core State Standards, provides students with real world, inquiry-based learning experiences, focuses on 21st school year. This pilot fully supports and emphasizes the implementation of Common Core State Standards, provides students with real world, inquiry-based learning experiences, focuses on 21st century literacy skills, utilizes student achievement data to drive instruction, and provides opportunities for blended learning practices. The expectation is that the evaluative results of this project will be used to continuously refine strategies and processes leading to one-to-one learning for all Broward students, which, is the trend and direction for all modern educational institutions across the world who are charged with preparing today's students for tomorrow's world. This aligns with the District Education Technology to provide meaningful real-world learning experiences that engage and prepare students in a personalized learning environment to be college and career ready. The Lenovo contract language was submitted to the Board as a post approval on April 23, 2013 as a priggyback with Broward College.
