

F-3 Agreement between The School Board of Broward County, Florida and South Broward Hospital District d/b/a Memorial Healthcare System (summary and background explanation con't.)

In accordance with a School Board request, staff in the Career, Technical, Adult and Community Education Department developed a survey to measure the effectiveness of the clinical experience. This survey was completed by students, Health Science teachers, and selected staff of the facility. The results of the survey will be used to make recommendations for modifying clinical agreements that will strengthen the student's job-site clinical experience and strengthen the overall Health Science Program. A summary of the survey responses from each group indicates an overall rating of 89% or higher as outstanding/above average for each survey question.
