Supporting Summary Explanation and Background (for I-2) Continuation:

The State requires each District to develop a District Improvement & Assistance Plan that describes how the District will provide assistance and intervention to schools at risk of not meeting state standards or not making annual measurable objectives by implementing the required support and interventions under Differentiated Accountability. The District Improvement & Assistance Plan was developed collaboratively with District divisions and departments. It is designed to deliver a single voice of support services to the District's most critical schools and students performing below proficiency levels and reflects the requirements under Differentiated Accountability.
