

Executive Summary
Policy 5307: Secondary School Parking
July 28, 2015

Policy 5307 was first adopted in 1969 to provide uniform guidelines for student parking on secondary school campuses. The last revision to this policy occurred in 1974. Administrative processes and practices relating to student parking have evolved significantly over the decades. Additionally, multiple revisions to state statutes that govern motor vehicle operations have been passed. Recommended amendments to the policy address the following items:

- Revising the policy title
- Adding a definitions section
- Aligning language with current statutes, policies and administrative practice
- Maintaining school-based discretion for establishing process and procedures for student parking
- Providing guidelines to schools for establishing fees for student parking
- Establishing expectations for communicating student parking procedures to communities

The recommended revisions were discussed at the February 10, 2015 School Board Workshop and the May 26, 2015 School Board Workshop. A detailed matrix of the recommended revisions is included in the attachments. The appropriate public notice was advertised for this item.
