

**Continuation of the Final Adoption Administration of Medication/
Treatments Policy 6305**

Continuation of Summary Explanation and Background

The administration of selected over the counter (OTC) medications at school with parental approval for certain grade levels, extenuating circumstances for consideration of parental request for selected OTC medications and selected topical OTC products for student self-carry and self-administration is included in the amended Policy 6305.

School staff will study the impact of policy changes for one year on staff time, number of parental request and cost for locked cabinets for storage of medications.
