

Continuation of School Health Services Plan 2016-2018

Continuation of Summary Explanation and Background

Chapter 64F-6.002 Florida Administrative Code (FAC) requires the plan to be completed on a two-year cycle. The previous plan 2014-2016 was approved by the Board on October 21, 2014. The State School Health Program conducts an annual audit with the Florida Department of Health and the District to review the provision of the School Health Program services. Recent audit conducted in April 2016 reflected the District met all standards. This plan is a collaboration with all healthcare entities to facilitate the provision of the mandated health services in the District public schools.
