~~that requires maintenance type medicine, and when failure to take prescribed medication could jeopardize the student's health and when the medication administration schedule cannot be accommodated before or after school.~~

### 3. TRANSPORTATION OF MEDICATIONS

All prescribed medications, ~~including over the counter~~, must be transported by parents/guardians, unless the student has a special health condition. In accordance with F.S. 1002.20, students with special health conditions e.g., asthma, diabetes, ~~and~~ hypersensitivity; and cystic fibrosis or pancreatic insufficiency; regardless of the grade, may carry medication on self if approved by their physician and noted on the Medication/Treatment Authorization form as trained to perform. ~~Refer to the Medication Administration handbook in the Health Services Manual under the specific health condition for the proper procedure.~~ Medications are not to be transported on a school bus, unless the student is accompanied by trained personnel or has permission as outlined above to self-administer emergency medications.

### 4. RECEIVING AND STORING MEDICATIONS

In accordance with F.S. 1006.062(2), all prescribed medications, ~~both prescription and over the counter, to be administered by school staff that are trained and designated by the principal~~, shall be received from the parent/guardian and counted (number of tablets or amount of liquid) and recorded on the area designated on the *Student Medication Log*. The medication shall be properly labeled and stored in the original container in a locked cabinet.

### 5. TRAINING

Training shall be provided to the principal or to the school personnel designated by the principal to assist students in the administration of medication. Training shall be provided by a registered nurse, or advanced registered nurse practitioner, a licensed practical nurse, a licensed physician, or a certified licensed physician assistant. ~~Personnel who have completed the initial medication training must participate in a refresher course every two years.~~ A minimum of two people per school, including schools that have a designated school nurse, must be trained for administration of medications. School personnel must receive child specific training for emergency injectable medications e.g., glucagon and epi-pen, when ordered for students.
