

Executive Summary G-6 October 5, 2016

Teachers who appear on the attached lists have been carefully reviewed by staff representing Human Resources and the School Performance and Accountability Office. It is necessary to recommend teachers to be placed out-of-field per State Board of Education Rule 6A-1.0503. Below are some of the reasons teachers have been placed out-of-field:

1. ESE students assigned general education courses require the teacher to be certified in both ESE and elementary or the specific subject area being taught (i.e. ESE and Social Sciences; ESE and Math, etc.).
2. ESE teachers assigned to teach reading to ESE students at the elementary and middle grades must be certified in either Elementary or Reading in addition to ESE certification.
3. ESE teachers assigned students identified as having autism spectrum disorders (ASD) are required to have the ASD endorsement on their certificate in addition to ESE certification.
4. There are insufficient courses to hire a full-time teacher; therefore, the periods are covered by a teacher on staff.
5. Teachers are certified in a related area but not in the specific area they are assigned to teach. For example: certified in middle grades English 5-9 and out-of-field for English 6-12; certified in chemistry and out-of-field for physics or biology.
6. Teachers teaching science at the middle school level must have a certificate in middle grades science or the specific science area to match their assignment. Certification in Elementary Education is no longer acceptable. The majority of teachers' out-of-field in science are certified in an area of science or elementary. These teachers have been encouraged to pass the middle grades science subject area exam, which will allow them to teach all areas of science at the middle school level.
7. Teachers providing direct or indirect gifted services must hold the gifted endorsement. Gifted out-of-field teachers are identified by the office of Innovative Learning via the EASYEP system. The school determines the appropriate gifted model to be utilized at their location based on the needs of their students.
8. Teachers have completed requirements to have the subject added to their certificate but are waiting for the Department of Education to issue the updated certificate. Per the FL Course Code Directory, the subject area must be on the educator's certificate in order for them to be considered "in-field"

The out-of-field teachers have been advised of the need for state-mandated training and have been provided with information on completing requirements. Professional development for ESOL, Gifted, and Reading, as well as certification exam preparation and exam reimbursement, is provided by the district. Teachers that do not comply with training will not be able to continue in the out-of-field assignment.

A total of 770 teachers are identified as out-of-field, which includes four (4) teachers at contracted community agencies. The information in the table below reflects the 766 Broward County Public School teachers recognized as out-of-field in one or more of the subjects shown below.
