

EXECUTIVE SUMMARY

Donation Agreement between The School Board of Broward County, Florida and Fidelis Angels Network, Inc.

The Physical Plant Operation (PPO) Department continues to demolish portables that have been declared surplus by The School Board of Broward County, Florida (SBBC), and thus far has demolished two hundred thirty seven (237) portables. Also, the District continues to receive inquiries from various entities interested in obtaining available portables from the District to utilize for various purposes.

Section 274.05, Florida Statutes, permits the donation of surplus property to private non-profit agencies. In March 2017, Fidelis Angels Network, Inc. (FANI) approached staff in the Facility Planning and Real Estate Department and requested a portable with the intent of using it for educational services. Also, upon approval of the Agreement by SBBC, and in compliance with provisions of the Agreement, FANI will remove the portable from the District's premises (Walter C. Young Middle School at 901 NW 129 Avenue, Pembroke Pines, FL 33028) to 8441 NW 11 Street, Pembroke Pines, FL 33024.

It should be noted that allowing entities such as FANI to obtain portable(s) declared as surplus from the District's inventory results in cost savings to the District, because the District would no longer expend funds to demolish the portable(s) given the recipient's commitment to bear the full cost of moving the portable(s) from the District's premises.

Typically, to enable the entities to move the portable from the District school facility site, the PPO Department does the following:

1. Provide access to the campus by the way of opening and closing fences;
2. Disconnect all utilities and low voltage systems as required;
3. Remove concrete foundations; and
4. Upon removal of the portable(s) by the entities, restore the grounds and install sod to the affected area.
