Project Description	The Department of Juvenile Justice, Sheriff and Chiefs of Police are required by Florida State Statute 985.04 (1) to enter into an interagency agreement with the School Board for the purpose of sharing information about juvenile offenders. Locally, the agreement was expanded to include additional stakeholders to increase the effectiveness of the sharing of information and the intent of the statute. The Juvenile Circuit Court will enter into an agreement that is a companion to the Interagency Agreement due to the distinction that the Juvenile Circuit Court is not an agency. The Chiefs of Police Association has formally agreed in spirit, but does not believe they have the authority to bind the individual police agencies to the Agreement. The district shall provide student information as per statute and rule and as defined by this Agreement. The intent of all the parties is the reduction of juvenile crime in Broward County.
Evaluation Plan	Each party will participate in an annual work group to manage, review and evaluate the sharing of information between agencies participating in this Interagency Agreement.
Research Methodology	Florida State Statute 985.04 (1) support the rationale of this agreement which required the Department of Juvenile Justice, Sheriff and Chiefs of Police to enter into an interagency agreement for the purpose of sharing information regarding juvenile offenders.
