

Summary Explanation and Background

In accordance with a School Board request, the Broward Technical Colleges administer surveys to aid in measuring the effectiveness of the clinical experience. These surveys are completed by students, Health Science Education teachers, and select staff of the facility. The results of the surveys are used to make recommendations for modifying clinical agreements that will strengthen the student's job-site experience and the overall Health Science Education Program. The results of the surveys indicated an overall rating of 90% above average, for each survey question.
