

Executive Summary G-6 October 3, 2017

Teachers who appear on the attached lists have been carefully reviewed by staff representing Human Resources and the School Performance and Accountability Office. It is necessary to recommend teachers to be placed out-of-field per State Board of Education Rule 6A-1.0503. Below are some of the reasons teachers have been placed out-of-field:

1. ESE students assigned general education courses require the teacher to be certified in both ESE and the specific subject area being taught (i.e. ESE and Social Sciences; ESE and Math, etc.).
2. ESE teachers assigned to teach reading to ESE students must be certified in either Elementary or Reading in addition to ESE certification.
3. Teachers assigned students identified as having autism spectrum disorders (ASD) are required to have the ASD endorsement on their certificate in addition to ESE certification. If the ASD students are assigned general education courses, then the teacher must additionally be certified in Elementary education.
4. There are not enough courses being offered to hire a full-time teacher; therefore, the periods are covered by a teacher on staff.
5. Teachers are certified in a related area but not in the specific area they are assigned to teach. For example: certified in middle grades English 5-9 and out-of-field for English 6-12; certified in chemistry and out-of-field for physics or biology.
6. Teachers providing gifted services must hold the gifted endorsement. Gifted out-of-field teachers are identified by the office of Innovative Learning via the EASYEP system. The school determines the appropriate gifted model to be utilized at their location based on the needs of their students.
7. There is a small applicant pool for Educational Media Specialists. Teacher's out-of-field in this area will receive support through Innovative Learning to ensure they have the educational technology experience required to fulfill their role.

The out-of-field teachers have been advised of the need for state-mandated training and have been provided with information on completing requirements. Professional development for ESOL, Gifted, and Reading is provided by the district. Teachers that do not comply with training will not be able to continue in the out-of-field assignment.

A total of 671 teachers are identified as out-of-field, which includes four (4) teachers at contracted community agencies. The information in the table below reflects the 667 Broward County Public School teachers recognized as out-of-field in one or more of the subjects shown below.
