ID	Name	Responses
1	anonymous	Pricing and access to a variety of supplies should be considered. Consider school budget for science materials and supplies.
2	anonymous	All vendors have comparable discounts for similar products they make available on bid so we do not have to always split orders to purchase what is needed for school.
3	anonymous	Insist that vendors take care in invoicing.
4	anonymous	The only suggestion I have is that when items are ordered for dissection for there to be more communication from the vendors as far as if the item is back ordered instead of just sending an invoice with no item stating that it is back ordered.
5	anonymous	Science equipment is varied. There should be many more approved vendors.
6	anonymous	PASCO needs to be included. The other vendors do not have equivalent equipment.
7	anonymous	need bid to include robotics and stem programs
8	anonymous	none
9	anonymous	I am pleased with Fisher. I still think they have are overpriced even giving us a 32% discount
10	anonymous	#6 should have an option for n/a. We have not problems with the companies we work with.
