**MEMORANDUM**

**TO:** School District Superintendents  
**FROM:** Hershel Lyons  
**DATE:** March 17, 2017  
**SUBJECT:** Certification and Documentation Regarding Instructional Materials

Section 1006.28(2)(b), Florida Statutes (F.S.), requires that by April 1 of each year, the district school superintendent shall notify the department of the state-adopted instructional materials that will be requisitioned for use in his or her school district. The notification shall include a district school board plan for instructional materials use to assist in determining if adequate instructional materials have been requisitioned.

Additionally, statutory requirements contained in sections (ss.) 1006.283(1) and 1006.283(4), F.S., call for districts to certify that all instructional materials for core courses used by the district are aligned with applicable state standards and that they have been reviewed, selected and adopted by the district school board in accordance with the school board hearing and public meeting requirements. A list of the core instructional materials that will be used or purchased for use by the school district needs to be included in the certification.

Please complete and return the attached certification document related to the requirements in ss. 1006.283(1) and 1006.283(4), F.S., by March 31, 2017. When returning this certification, the following will also need to be provided:

- A list of the state-adopted instructional materials that will be requisitioned for the school district for 2017-18;
- A district school board plan for instructional materials use; and
- A list of the core instructional materials that will be used or purchased for use in 2017-18.
