**EXHIBIT A2  
TO CONSTRUCTION MANAGER AT RISK AGREEMENT**

**GMP #2 AMENDMENT**

THIS **GMP #2 Amendment**, made and entered into as of this 24th day of April 2018, (GMP #2 Amendment") amends that certain Agreement between Owner, The School Board of Broward County, Florida and Construction Manager, Gilbane Building Company, made as of the 1st day of November 2016 for the following described project: Stranahan Senior High School SMART Project, (the "**Project**").

WHEREAS, the Owner and the Construction Manager have agreed to amend the Agreement in the manner set forth herein.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, in the Agreement and the other Contract Documents and for such other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Owner and the Construction Manager do hereby agree as follows:

1. This **GMP #2 Amendment** is executed in connection with, and is deemed to be a part of the Agreement and the Contract Documents. Wherever the terms of this GMP #2 Amendment and the terms of the Contract Documents are in conflict, the terms of this GMP #2 Amendment shall govern and control. The terms used herein, unless otherwise defined in this GMP #2 Amendment, shall have the meanings ascribed to them in the Contract Documents.
2. The following are hereby incorporated into the Contract Documents and made part thereof:
  - a. The drawings listed on **Attachment I** attached hereto, which drawings are made a part of the Contract Documents by this reference (the "Drawings"); and
  - b. The specifications listed on **Attachment II** attached hereto, which specifications are made a part of the Contract Documents by this reference (the "Specifications").
  - c. Those documents listed on **Attachment III**, Additional Contract Documents, attached hereto, are made a part of the Contract Documents by this reference.
3. The entire Scope of the Work for the Project is hereby incorporated into the work.
  - .1 The **Date of Commencement** for the Project shall be: April 25, 2018.  
The Construction Manager shall achieve Substantial Completion of the entire Work not later than 868 calendar days from the Date of Commencement (the "Contract Time") and Final Completion not later than 90 calendar days from the Date of Substantial Completion. Failure to meet either the Substantial Completion or Final Completion dates shall be a material breach of the Agreement.

.1 The Owner and the Construction Manager acknowledge and agree that the

Owner will suffer damages if the Construction Manager fails to achieve Substantial Completion of the entire Work, as defined in the Contract Documents, on or before the expiration of the Contract Time, which damages are difficult, if not impossible, to ascertain with any degree of certainty. Accordingly, if the Construction Manager fails to achieve Substantial Completion of the Work for this Project on or before the expiration of the Contract Time, liquidated damages (which are not intended as a penalty) shall be assessed against the Construction Manager in an amount of one thousand dollars (\$1,000.00) per calendar day.

.2 To the extent that the Contract Documents include specific provisions for liquidated damages to be applied separately for any Phase, Building or other portion of the Work prior to the required completion date or within the Contract Time for the entire Project, such liquidated damages shall be assessed based on the required completion dates and construction time durations set forth in the approved schedule for each such separate portion of the Work.

.3 The Guaranteed Maximum Price for GMP#1 Amendment (for the SPE Project) is Four hundred twenty one hundred forty three dollars and Zero Cents (\$420,143.00). **The Guaranteed Maximum Price for GMP #2 Amendment for the Stranahan High School SMART Project is Twenty four million two hundred eighty thousand one hundred eight Dollars and Zero Cents (\$24,280,108.00)** The Project is hereby guaranteed by the Construction Manager not to exceed the combined sum of GMP #1 Amendment and GMP #2 Amendment equaling Twenty four million seven hundred thousand two hundred fifty one Dollars with Zero Cents (\$24,700,251.00) (the "Project GMP"), based upon the entire Scope of Work for the Project as described in the Contract Documents, including, but not limited to, the Drawings and the Specifications, subject only to additions and deductions by Change Order or Construction Change Directive, as provided in the Contract Documents. The Project GMP is more particularly itemized in the Schedule of Values prepared in accordance with the terms of the Agreement, which Schedule of Values is attached hereto and made a part of the Contract Documents by this reference. Included in the Schedule of Values and specifically identified herein, the contingency included in this guaranteed maximum price is the amount of One million forty one thousand two hundred forty eight Dollars and Zero Cents (\$1,041,248.00).

.4 Whether or not the Construction or Contract Documents enumerated in the Attachments to this GMP #2 Amendment have actually been completed to the level of 100% as defined by this Agreement, the Guaranteed Maximum Price includes all Work reasonably inferable from such Construction and Contract Documents, the documents referenced in section paragraph 1.4 of the Construction Manager At-Risk Agreement and all responses issued by the Design Consultant to CM's bidding inquiries and requests for information, as necessary to deliver a fully completed

and finished working Project. To the extent there exists a conflict between the Construction and Contract Documents and any of the other aforementioned referenced documents, the item of higher price, quantity or quality shall be included in the Guaranteed Maximum Price, without use of any Contingency.

- .5 Procedures and expenditures related to use of any Contingency and any Allowances included in this PROJECT GMP shall comply with CMAR Agreement Section 6.1.1, Specification Section 01250 respectively, and all provisions of such documents are incorporated into and made a part of this Contract.
- .6 Procedures and expenditures related to direct purchases of materials by the Owner for this Project shall comply with Specification Section 01295, and all provisions of such documents are incorporated into and made a part of this Contract.
- .7 The Construction Manager shall provide Commercial General Liability Insurance, Automobile Liability Insurance, Professional Liability Insurance and Worker's Compensation Insurance in compliance with the provisions of Article 9 of the CMAR Agreement and Article 29 of the General Conditions of the Contract for Construction, satisfactory to the Owner's Office of Risk Management.
- .8 By executing this GMP #2 Amendment, the Construction Manager acknowledges that it has ascertained all correct locations for points of connection for all utilities, if any, required for this Project; and has identified all clarifications and qualifications for this Project, if any.
- .9 The Construction Manager's on-site management and supervisory personnel for this Project are set forth on **Attachment IV**, attached hereto and made a part hereof by this reference.
- .10 To the extent that the Owner has authorized the Construction Manager, in writing, to perform a portion of the Work for this Project; with the Construction Manager's own forces, the salary and wage schedule for the Construction Manager's personnel performing such portion of the Work, agreed upon by the Owner and the Construction Manager, shall be as set forth on **Attachment IV**, attached hereto and made a part of the Contract Documents by this reference. The Construction Manager warrants and represents that the salary and wage schedule includes the lowest comparable market rates (including any and all benefits, contributions and insurance) charged by the Construction Manager for comparable contracts to other businesses and individuals for similar services, and that such rates are not higher than the standard paid at the place of this Project.
- .11 The Construction Schedule for this Project is set forth on **Attachment V**, attached hereto and made a part hereof by this reference. The final accepted schedule for construction as required in the Construction Manager At-Risk Agreement and included in this GMP #2 Amendment shall not be construed as the Detailed Initial or Baseline Schedule as set forth in the General Conditions of the Contract for Construction which schedule shall be prepared by the CM and separately submitted for review and approval after approval of the GMP #2 Amendment by the Owner, as set forth in the General Conditions of the

Contract for Construction.

- .12 Except as expressly provided herein above, all of the terms, conditions, covenants, agreements and understandings contained in the Contract Documents shall remain unchanged and in full force and effect, and the same are hereby expressly ratified and confirmed by the Owner and the Construction Manager.
- .13 This Amendment may be executed in several counterparts, each of which shall be deemed an original but not all of which shall constitute one and the same instrument.
- .14 Delete all text in Article 3.4.1 of CMAR Agreement and replace with "Not Used".
- .15 Revise Article 3.4.3 of CMAR Agreement as follows:

3.4.3 Upon receipt of 100% Construction Documents from the Project Consultant, Owner approval of the latest Statement of Probable Construction Cost, and Owner approval to bid, the Construction Manager shall prepare and issue the bid packages to cover the scope of the Work for this contract.

- .16 Add Article 6.1.4 to the CMAR Agreement as follows:

6.1.4 In addition to the Cost of Work and construction contingency, the GMP may include one or more allowance to be used for work items that are identified, but not quantifiable at the time of GMP submission. The Construction Manager must request and receive prior written approval by the Owner, through an Allowance Expenditure Proposal ("AEP"), to use funds contained in each allowance prior to expenditure of funds. The use of any allowance is subject to the unanimous approval of the AEP by the Chief Facilities Officer, Director of Construction, Owner's Representative, and Project Cost Consultant, prior to disbursement to Construction Manager.

IN WITNESS, WHEREOF, the parties have affixed their signatures, effective on the date first written above.

Clarifications & Assumptions

## INCLUDED AS PART OF ATTACHMENT III ADDITIONAL CONTRACT DOCUMENTS

### Stranahan High School SMART Project - GMP #2 Amendment

Guaranteed Maximum Price Estimate

April 13, 2018

Contract Provisions

1. Preamble: It is understood and agreed by all Parties that the CM established its GMP #2 prior to the issuance of a permit to accommodate the design schedule and facilitate the CM's purchasing of the subcontracts and materials; As a result, the Owner and CM agree that the following assumptions and clarifications are for the benefit of the Project, and that GMP #2 Amendment, shall control and govern as follows:
2. The Owner and CM acknowledge and agree that because the GMP was established before issuance of the permit, the CM may be entitled to a Change Order to the extent the CM is impacted from the discovery of any condition or issue not reasonably visible at the time of this GMP #2 Amendment or resulting from requirements added during the Permit review, which could not have been reasonably anticipated.
3. Pursuant to Article 3.3.9 of the Agreement, and subject to architect's response and resolution to the comments of Building Department dated 2/1/18, Heery's Review Comments, Outstanding RFIs, Gilbane IDC Final Report No.2 022318 (36-101), the CM, without assuming the Project Consultant's responsibilities, hereby attests and confirms that that the plans and specifications (Attachments I and II) are consistent, practical, feasible and constructible and that the work described in the plans and specifications for the various bidding packages is constructible within the scheduled construction time.
4. The CM shall proceed with obtaining bids and to award subcontractors and purchase orders with the consent of the Owner's Representative prior to the Letter of Intent to Permit.
5. Notwithstanding any other term or provision in the Contract Documents, the Owner shall permit the CM to commence certain work such as mobilize, purchasing, procurement prior to Letter of Intent to Permit.
6. The date for Substantial Completion shall not be less than 868 days after Board Approval of GMP #2 Amendment and Notice to Proceed (for mobilization).

7. The Intent to Permit, together with the construction documents associated with the Intent to Permit, and Notice to Proceed (For the entire Construction Phase) shall be issued by Owner to the CM on or before April 30, 2018. If such documents have not been issued to the CM by such date, the CM shall prepare and transmit a Time Impact Analysis to the Owner which may show the need to accelerate and/or entitle the CM to an extension of time and the right to file for additional compensation through a request for potential cost adjustment, which shall be considered by the Owner. Potential cost adjustment may include labor, material, and/or general condition items
8. Due to the GMP #2 being established before the issuance of a permit, as set forth above, the Owner and CM agree that certain GMP amounts are based on Allowances. If the actual Cost for Allowance item(s) is more or less than the Allowance Amount(s) set forth in this GMP Amendment, then the Allowance Amount(s) shall be amended and increased or reduced equal to the actual Costs of the Allowance Item. Actual cost of an Allowance item shall be limited to labor, materials, equipment, subcontractor costs, bonds and insurance, and GC Fee associated with the specific Allowance item.
9. The contract agreement, General Conditions Article 44 indicates the basis of the Right to Audit Provisions. Per CMAR Agreement Article 7.1.3, the General Conditions are included as a lump sum cost in the GMP. As with all lump sums it is anticipated that some line items in the originally proposed budget will be exceeded while others result in a savings. The intended result is that there is a balanced budget within the line items.
10. Pursuant of the project design delay, Gilbane has incurred in Additional Preconstruction Services that are included as part of the General Conditions of this GMP
11. It is assumed that all furnishings and owner equipment will be relocated out of the construction and/or staging area by the owner prior to construction start within each Phase.
12. It is assumed that Construction Manager (CM) and Trade Contractors shall be able to utilize part of the existing campus for delivery of materials, staging of materials, and storage of materials as necessary to complete the construction work as referenced in the Site Logistics plan, which is included as part of Attachment III – Additional Contract Documents of this GMP Amendment. These areas will not be available for use by the public, including any students, staff, and/or parents.
13. It is anticipated the project will operate during normal construction business hours from Monday through Friday 7am to 4pm and that access will be provided by school staff. The CM reserves the right to perform work off-hours as required to achieve the project milestones in coordination with school staff at no additional cost to the Owner.
14. It is intended that the CM and Trade Contractors shall utilize current onsite electrical and water service for the completion of the Project as a cost saving measure to the District for the entire project duration. The CM is including temporary power for the installation of one office trailer for onsite staff.
15. One general project permit for Gilbane Building Company is included as part of this GMP and the roofing sub-permit as part of the trade contractor.
16. Bonds and Insurance shall be paid based on actual cost and may be invoiced on the first application for Payment following payment of premiums by CM.
17. The GMP is utilizing CDI/Subguard for all of the trade contractors in lieu of subcontractor Payment and

Performance Bonds. By acceptance of this Clarification, the Owner is accepting these costs as required per article 24.13 of the General Conditions. CDI/Subguard is separate from the Payment and Performance Bond that the Construction Manager will provide to the Owner as per Article 29 of the CMAR Agreement.

18. In accordance with the agreement at 3.4.2 and at Exhibit C, we attach our list of subcontractors and their MWBE participation percentage and value. The MWBE participation extends from subcontractors to sub-subcontractors and sub-material suppliers. The calculated total percentage participation is the amount of participation divided by the subtotal of costs of work, CM Fee, Contingency, and General Conditions. Owner Direct Purchase orders deducted from the trade contracts are an accounting function and will not reduce the calculated percentage of MBWE participation contracts.
19. Items not incorporated into this GMP Amendment (not required, or by others)
- a. Asbestos and/or any other hazardous materials abatement- by owner, except in roofing applications as indicated in below clarifications.
  - b. RFIs and responses not incorporated into the contract drawings and specifications
  - c. Any use of or cost for licenses by eBuilder or any other document control software not included in these clarifications.
  - d. FF&E: Section 01710 - remove, store and protect furniture as instructed by the project consultant. (All existing FF&E shall be removed by owner prior to construction start within each Phase).
  - e. Independent testing, material testing, threshold inspections, special inspections and monitoring
  - f. As -Builts are included as Red-Line documents. Costs associated to develop CAD or Revit type As-Built drawings are by Owner. If Signed and Sealed As-Builts will be required on this project the cost associated with the implementation of the As-Builts is not included.
  - g. Partnering Sessions, Groundbreaking ceremony, Owner and Project Consultant's Office per Section 01520.

**The following items represent further clarifications that have been included in the Guaranteed Maximum Price:**

**Specification for allowances only:**

1. The following list of specifications are not applicable to the scope of work on this GMP. They may become applicable for the STEM Labs and Media Center Allowances once those components are fully development:
  - i. 06400 Architectural Woodwork
  - ii. 08400 Entrances and Storefronts
  - iii. 09450 Resilient Tile Flooring
  - iv. 09683 Carpet Tile
  - v. 09951 Resinous Flooring
  - vi. 10100 Visual Display Boards and Cases
  - vii. 12354 Laboratory Casework and Equipment
  - viii. 13801 Clock Control (Existing)

**Division 1:**

1. Section 01810 Commissioning applies only as to new equipment, not existing equipment and becomes effective per Phase of construction completion.
2. Warranties to become effective upon issuance of Building Department's Certificate of Completion for each phase.

3. Fee not to be reduced if Cost of Work is reduced via Direct Purchase Order by Owner.

**BID PACKAGES:****02A: Selective Demolition**

1. All items scheduled for demolition become the property of the construction manager or contractor. If owner wishes to retain ownership of any materials or equipment, owner shall notify the construction manager prior to demolition and shall be responsible to remove from site.
2. Abatement of hazardous materials shall be complete prior to construction start, e.g., chilled water pipe insulation at all buildings and roof.
3. 2,500 square feet of hard ceiling demolition are included for a total budget of \$12,500.

**03A: Concrete and Masonry**

1. Concrete and masonry reinforcement included for 66 windows to be replaced as per detail S7.0 for a total budget of \$100,000.

**05A Misc. Metals**

1. Temporary catwalk and existing auditorium seats removal and storage included as an allowance.
2. Nine locations for guard rails at roof for equipment within 10 feet of roof edge are included as a total budget of \$48,744.
3. 210 linear feet of permanent chain link fence with gates are included for exterior electrical and mechanical equipment enclosures for a total budget of \$10,500.
4. Temporary catwalk/work platform at building 2 above auditorium for fire protection and mechanical equipment installation and seat removal are included for a total budget of \$50,000.

**07B: Roofing****The GMP was developed with the following considerations;**

1. Only non-hazardous non-friable roofing components are included as part of the roofing demolition.
2. Tectum roof decking is assumed to be structurally adequate for the roof assembly.
3. Separate roof permits or roofing phased permitting is allowed by the Building Department.

**09B: Drywall, Metal Framing and Sheathing**

1. Replacement of Acoustical Ceiling Tile and Grid is included for the following Buildings:
  - a. Building 1 2<sup>nd</sup> Floor corridor – total budget \$20,030
  - b. Building 5 corridor – total budget \$57,900
  - c. Building 6 corridor – total budget \$45,850
  - d. Building 7 corridor – total budget \$44,490
2. Patch of drywall returns at window replacement for Building 1 1<sup>st</sup> and 2<sup>nd</sup> Floors are included for a total budget of \$41,000.
3. Ceiling tile (only) replacement due to new Fire Protection work at Buildings 1 and 9 at classroom locations only for a total budget of \$100,000. If directed by the owner.

**23A: HVAC and Controls**

1. Sheet M1.02 HVAC summary is for informational purpose only. Floor plan scope will supersede.
2. Curb extensions to existing fans, air intake vents, and goosenecks so that top of extended curb is 12" above the new finish roof in lieu of detail 1/A8.01 which shows 18".

**26A Electrical, Fire Alarm, Telecommunications**

1. Fire alarm installation included on a building by building basis. New fire alarm system to be run and operate parallel with existing system. Existing system to be de-commissioned as new system comes on line per Phase, pending SBBC Fire Chief approval.

The following is a list of Items not incorporated into this GMP Amendment (not required, or by others)

**General**

1. Several details on the construction documents have no applicability to the project.

**05A Misc. Metals**

1. Specification Section 15300 1.5, K: Structural verification of existing buildings to support the load of new systems such as fire protection.

**23A: HVAC and Controls**

1. Air leakage of existing ductwork per section 15810-3.1R.
2. Laptop for graphics for mechanical controls per spec section 15900-2.4B
3. Interface of existing building network master controller. The existing equipment will interface with the existing building network master controller by SBBC.
4. NOA for existing equipment being reinstalled per notes on detail 1/A8.01.

**26A Electrical, Fire Alarm, Telecommunications**

1. AV, CATV, CCTV, Security, Data or Telephone scopes, if needed are included in the STEM and Media Center allowances.
2. Fire watch since work will not disrupt existing fire alarm system in occupied areas. Construction areas will have fire alarm disconnected during construction phase.

**PRE-BID RFIs WITH REPLIES**

RFIs answered through 3/8/2018 have been included as indicated in list below. Subsequent "pre-bid" RFIs will be addressed after the GMP and shall be included in an ASI.

<p>Clarifications: Per Article 13.1.09 of CMAR Agreement Jobsite Employee Travel is included in the Field Office Expense for Gilbane's staff to account for miscellaneous travel associated with the project and does not includes travel from home office to the project site. The value for this is a set monthly rate that is established per employee and calculated utilizing standard mileage rates. Auto allowance is included in the Field Office Expense for the operation's staff to account for the individual staff member's use of a personal vehicle, which is separate from the travel referenced above. The value for this auto allowance is a set monthly rate per employee.</p>				
<p>Clarifications: As per article 25.2.05 of the CMAR Agreement-General Conditions, the following software has been included as part of the Quality Control Systems: CMIC, iBidPro, Bluebeam, BIM-360, iBuild, SmartApp and Docbuilder. These software are calculated based on a monthly rate.</p>
