

EXECUTIVE SUMMARY

Recommendation to Reject all Bids 18-153V – High School Co-enrolled Credit Recovery

This request is to approve the recommendation to reject all bids regarding Request for Proposal (RFP) 18-153V High School Co-enrolled Credit Recovery that was released to replace the existing agreement 56-007V with Apex Learning, Inc. which expires on June 30, 2018. The intent for releasing the RFP was to competitively procure this service by evaluating technology currently available in the market.

However, in accordance with Special Condition 6.8.1 of the solicitation, it is recommended that all proposals are rejected as multiple proposers stated exceptions to the minimum requirements, leading to their disqualification. Upon review of these exceptions, we intend to revise aspects of the current RFP that resulted in proposer confusion and re-release with updated specifications. As stated in the solicitation, “SBBC reserves the right to reject any or all proposals that contain material deviations from the RFP or that fail to meet all mandatory requirements. SBBC may reject any or all proposals when it serves the best interest of SBBC.”

In the interim, the District will renew the existing agreement for six (6) months through December 31, 2018. Procurement & Warehousing Services believes this will provide invaluable time in order to complete the RFP process and if applicable, collaborate with Information & Technology to implement a new system. Item EE-10 is also being presented at this meeting for the six (6) month renewal.
