## RESOLUTION IN SUPPORT OF ATTENDANCE AWARENESS MONTH SEPTEMBER 2018

**WHEREAS**, good attendance is essential to student achievement and graduation, and we are committed to dedicating our resources and attention to reducing chronic absenteeism rates, with a focus starting as early as prekindergarten and kindergarten; and

**WHEREAS**, chronic absenteeism is identified as a student that is absent for 10 percent or more of school days for any reason, including excused and unexcused absences. Just two or three days a month is a proven predictor of academic trouble and dropout rates; and

**WHEREAS**, improving attendance rates and reducing chronic absenteeism in a community takes commitment, collaboration, and tailored approaches to barriers and strengths in each community; and

**WHEREAS**, the impact of chronic absence hits low-income students and children of color particularly hard if they do not have the resources to make up for lost time in the classroom and are more likely to face systemic barriers to getting to school; and

**WHEREAS**, chronic absence can be significantly reduced when schools, families, and communities work together to monitor and promote good attendance and address hurdles that keep children from getting to school; and

**WHEREAS**, schools and community partners can more frequently attempt to engage absent students to determine what barriers they face to attending school and what would help them attend more regularly; and

**WHEREAS**, health care providers and school nurses can share the importance of school attendance with families and can offer proactive, preventive care to reduce absences; and

**WHEREAS**, schools and districts must do more to track, calculate, and share the data on how many students are chronically absent so that we can see the attendance gaps and can deliver the right interventions to the right students;

**NOW, THEREFORE, BE IT RESOLVED**, that The School Board of Broward County, Florida, in conjunction with students, parents, educators, school social workers, health care agencies, social service agencies, and community partners, hereby declares:

### September 2018 as Attendance Awareness Month

## RESOLUTION IN SUPPORT OF CONCUSSION MANAGEMENT PROTOCOLS INCLUDING NEUROCOGNITIVE TESTING FOR HIGH SCHOOL STUDENT ATHLETES

**WHEREAS**, a concussion is a disturbance in brain function that occurs following either a blow to the head, face, or neck or as a result of the violent shaking of the head or body; and

**WHEREAS**, a concussion resulting from playing in interscholastic sports may result in the rapid onset of neurological impairment and acute clinical symptoms such as chronic headache, fatigue, mental sluggishness, sleep difficulties, personality changes (e.g. increased irritability), sensitivity to light or noise, dizziness, and coordination difficulties as well as deficits in short term memory, concentration, problem solving, and general academic functioning that reflect a functional neurological disturbance; and

**WHEREAS**, the incidence of concussion leaves student-athletes vulnerable to conditions such as Second Impact Syndrome, which can result in death or permanent disability, or Post-Concussion Syndrome, which involves thinking, behavioral, and emotional difficulties that can last up to weeks, months, or even years after injury to the brain, should a student-athlete sustain a second concussion prior to the complete resolution of the primary injury; and

**WHEREAS**, the School Board of Broward County implements a series of concussion management protocols designed to prevent and manage concussions including the implementation of baseline and post injury neurocognitive testing; and

**WHEREAS**, concussion management protocols include:

- Annual pre-participation physical for all student athletes with medical history requirements on head injuries, concussions, severe headaches, tingling in extremities and memory loss,
- Agreement with Memorial Healthcare to provide state/nationally certified athletic trainers at all twenty-nine high schools. Athletic trainers serve as first responders for sports medicine issues including concussions,
- Adhere to Florida High School Athletic Association rule that any athlete who exhibits signs, symptoms or behaving consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion or balance problems) shall be immediately removed from the contest or practice and shall not return to play until cleared by an appropriate health care professional,
- All head coaches and student athletes are required to view the online education course, "Concussion in Sports-What You Need to Know." An affidavit of compliance for the concussion course must be maintained by each high school and signed by the school principal and athletic director,

- Contest officials shall be cognizant of athletes who display signs, symptoms or behaviors of a concussion and immediately stop play for injury evaluation within the rules of the game. Once the patient has been removed from a contest due to a suspected concussion, the coach, athletic trainer and appropriate health care professional shall assume full responsibility for that athlete's evaluation and safety. - High school football players must sit out one play if their helmet comes off unless a penalty was issued,
- All student athletes participating in interscholastic sports shall be required as a participating condition to take a baseline neurocognitive test. Neurocognitive tests which are brief, computer-administered, neurocognitive screening devices developed by experts in the field of sport-related concussion, scientifically validated to measure the effects of concussive injuries, and designed to help clinicians evaluate an athlete's recovery following concussion by assessing aspects of an athlete's cognitive functioning such as working memory, sustained and selective attention and reaction time, can be used to help objectively evaluate a concussed athlete's post injury condition and track their recovery for a safe return to play and thereby help to prevent or minimize the cumulative effects of concussion,
- Three NCAA parent eligibility nights sponsored by the Department of Sports Medicine at Nova Southeastern University, Memorial Healthcare and the Broward County Athletic Association will be held this Fall. Parents and students will have the opportunity to interact with staff around concussion symptoms and overall health awareness,
- No athlete shall return to play or practice on the same day of a suspected concussion,
- Any athlete suspected of having a concussion shall be evaluated by an appropriate health care professional,
- Any athlete with a suspected concussion shall be medically cleared by an appropriate health care professional prior to resuming participation in any practice or competition,
- After medical clearance, return to play shall follow a graduated protocol with provisions for delayed return to play based upon the return of any signs or symptoms,
- Adhere to National Operating Committee on Standards for Athletic Equipment (NOCSAE) to annually recondition every football helmet,
- Limit the lifespan of helmets to five years, and destroy all helmets after the five-year period,
