PWS is responsible for the control of the District contracts' spending authority. This action is performed through the unique Bid Id issued per solicitation, which only has a new number assigned when a new solicitation is awarded. In a renewal, the original Bid Id assigned to the contract does not change, therefore spending authority analysis is performed in its totality.

The amount requested was determined based on PPO's requirements to satisfy the needs of the District, and a comparison of expenditures from the previous bid term. The financial impact amount represents an estimated contract value; however, expenditures for this contract will not exceed the contract award amount.
