

Topic: EE-14 Recommendation of \$500,000 or Greater – FY20-017 – Milk, Other Dairy Products and Fruit Juices

Staff Follow Up: Staff to indicate whether this contract is also used to procure almond, soy, and other milk alternatives.
(N. Rupert) SBOM-050719-19

Response: Lactose milk is included in the bid, listed in the Recommendation Tabulation Section. Lactose milk is offered daily at each meal at all schools.

Students requiring soy milk are considered allergy substitution and require a doctor's note, verified by a District dietician. Soy milk is sourced from the awarded Grocery Vendor, currently U.S. Foods.

Almond milk is not a high volume substituted item. Due to the limited shelf life and extremely low demand, Food and Nutrition Services Managers would source the product with petty cash.
