**Topic:** EE-4 - Piggyback Recommendation of \$500,000 or Less - 59-105R - Relocating Modular and Portable Classroom

**Staff Follow Up:** Staff to clarify the distinction relative to the reference of two piggy-back agreements: St. Lucie County Schools and Palm Beach County Schools. **(P. Good) SBOM-050719-10**

**Prepared by:** Frank Girardi, Task Assigned, Executive Director, Capital Programs, Office of Facilities and Construction

**Response:** This item covers two (2) different but related demands, therefore, two (2) piggyback contracts with two (2) different agencies and vendors are recommended under this item. There is a need for a relocation of three (3) steel portables and five (5) concrete modules at Cypress Bay High School during the summer months of 2019. The services to relocate the three (3) steel portables will be performed by Brownie Companies, LLC under the St. Lucie School District piggyback, and the services to relocate the five (5) concrete modules will be performed by Palm Beach Trucking, LLC d/b/a Merchant Transport under the Palm Beach School District piggyback. Both vendors were identified based upon their experience, expertise, and available equipment required to perform the specific scope of work to relocate the different types of module classroom.
