SCOPE OF WORK

Applicants are required to provide a description of the key elements and primary focus of the project.

Project Abstract

Response: Pursuant to Section 1006.04, Florida Statutes, the Multiagency Service Network for Students with Emotional/Behavioral Disabilities (SEDNET) provides an intensive integrated educational program to include a continuum of mental health treatment services to enable students with or at risk of emotional/behavioral disabilities (E/BD) to develop appropriate behaviors and demonstrate academic and career education skills. SEDNET is a network of 19 regional projects that are comprised of the major child-serving agencies, community-based service providers, students and their families. Local school districts serve as fiscal agents for each local regional project. Within this framework, SEDNET focuses on developing interagency collaboration and sustaining partnerships among professionals and families in the education, mental health, substance abuse, child welfare and juvenile justice systems serving children and youth with and at risk of E/BD.

Collaboratively, local school boards provide educational programs and the state department and agencies administer children's mental health funds to provide mental health treatment and residential services when needed. This multiagency network approach is essential to comprehensive, school- and community-based planning to provide education; mental health treatment; and, when needed, residential services for students with or at risk of E/BD.

As requested by the Florida Department of Education (FDOE), Bureau of Exceptional Education and Student Services (BEESS), SEDNET Region 10 will use research-based best practices to support local district efforts addressing the following 2018-23 BEESS Strategic Plan Indicators:

Indicator 1 – Percentage of youth with individual educational plans (IEPs) graduating from high school with a regular diploma;

Indicator 2 – Percentage of youth with IEPs dropping out of high school;

Indicator 4 – Rates of suspension and expulsion;

Indicator 9 – Disproportionate Representation in Special Education;

Indicator 10 – Disproportionate Representation in Specific Disability Categories;

Indicator 13 – Percentage of youth with IEPs aged 16 and above with an IEP that includes

coordinated, measurable, annual IEP goals and transition services that will reasonably enable the student to meet the postsecondary goals;

Indicator 14 – Percentage of youth with IEPs who are no longer in high school who are transitioning into the community, enrolled in higher education and world of work; Reducing the need for restraint and seclusion.

Established Need

The 2018 Local Education Agency (LEA) Profile, Section Five information summarizes the identified SEDNET State Performance Plan (SPP) indicators (1, 2, 4, 9, 10, 13 and 14) for school districts served by SEDNET Region 10, state targets for 2016-17 for these selected indicators, district data and whether targets have been met by the district. Data for the selected SPP Indicators 1, 2 and 4 are based on the prior year 2015-16. This state-level information assists in establishing need for local project initiatives and activities in SEDNET Region 10.

Indicator 1 – Graduation Rate

The state has identified the 2016-17 state-level target for SPP Indicator 1 - G raduation Rate as the percentage of students with IEPs graduating with a standard diploma in 2015-16 will increase to 58.3%. In SEDNET Region 10, the following county has met the target for Indicator 1 - G raduation Rate: Broward 58.42%.

Indicator 2 – Dropout Rate

The state has identified the 2016-17 state-level target for SPP Indicator 2 - Dropout Rate as the dropout rate for students with disabilities in 2015-16 will decrease to 13.40%. In SEDNET Region 10, the following county has met the target for Indicator 2 - Dropout Rate: Broward 12.50%.

Indicator 4 – Rates of Suspension and Expulsion

The state has identified for the 2016-17 state-level target for SPP Indicator 4 – Rates of Suspension and Expulsion that 3% of districts are identified by the state as having a significant discrepancy (a risk ratio of 3.0 or higher) in the rates of suspension and expulsion of students with IEPs for greater than 10 days 2015-2016. In SEDNET Region 10, the following county has met the target for Indicator 4 – Rates of Suspension and Expulsion: Broward 0.51.

Indicator 9 – Disproportionate Representation in Special Education

The state has identified for the 2016-17 state-level target for SPP Indicator 9 - Rates of Disproportionate Representation of Racial and Ethnic Groups in Special Education and related services, the disproportionality can be attributed to inappropriate identification as 0%. In SEDNET Region 10, the following county has met the target for Indicator 9 - D Disproportionate Representation in Special Education: District Name Broward County.

Indicator 10 – Disproportionate Representation in Specific Disability Categories

The state has identified for the 2016-17 state-level target for SPP Indicator 10 - Rates of Disproportionate Representation of Racial and Ethnic Groups in special education and related services, the disproportionality can be attributed to inappropriate identification as 0%. In SEDNET Region 10, the following county has met the target for Indicator 10 - Disproportionate Representation in Specific Disability Categories: Broward County.

Indicator 13 – Secondary Transition IEP Components

The state has identified the 2016-17 state-level target for SPP Indicator 13 as 100% of youth with IEPs aged 16 and above have an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age-appropriate transition assessment, transition services, including courses of study that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student's transition service needs.

In SEDNET Region 10, the following county has not met the target for Indicator 13 – Secondary Transition IEPs: Broward 93.3%.

FDOE/BEESS implements a statewide monitoring self-assessment system that includes Indicator 13. Districts selected for targeting will receive assistance from FDOE/BEESS and Project 10 in developing and monitoring an improvement plan to focus on evaluation of self-assessment data, local policies and procedures, and needed training and technical assistance for the purposes of continuous improvement and sustaining effective transition planning. SEDNET Region 10 collaborates with other discretionary projects (i.e., Project 10) on regional and local district levels to provide technical assistance and relevant information related to the transition needs of youth with and at risk of E/BD and their families.

Indicator 14 – Post-School Outcomes

Florida's baseline for SPP/Annual Performance Report (SPP/APR) processes reflects post-school outcomes of the 2014-15 exiters using data collected during the subsequent school year. Factors influencing the baseline data include Florida's expanded efforts to promote access to postsecondary education for students with disabilities. The Florida Education and Training Placement Information Program (FETPIP) is an interagency data collection system that obtains follow-up data on former students. The most recent FETPIP

data available reports on students who exited Florida public schools during the 2014-15 school year.

The state has identified the state-level target for post-school outcomes for students with disabilities as follows:

[A] 35% of youth exiting in 2014-15 who are no longer in secondary school, had IEPs in effect at the time they left school, and were found enrolled in higher education within one year of leaving high school;

[B] 48% of youth exiting in 2014-15 who are no longer in secondary school, had IEPs in effect at the time they left school, and were found in higher education or competitively employed within one year of leaving high school; and

[C] 63% of youth exiting in 2014-15 who are no longer in secondary school, had IEPs in effect at the time they left school, and were found enrolled in higher education or in some other postsecondary education or training program; or competitively employed in some other employment within one year of leaving high school.

District-level improvement activities include technical assistance, training, information and support from FDOE/BEESS and Project 10 to facilitate agency involvement and linkages in transition planning processes and development and implementation of meaningful transition services for students with disabilities. SEDNET Region 10 collaborates with other discretionary projects (i.e., Project 10) on regional and local district levels to provide technical assistance and relevant information related to the transition needs of youth with and at risk of E/BD and their families.

In SEDNET Region 10, the following county has not met the target for Indicator 14 – Post-School Outcomes—Higher Education: Broward 34.99%; Higher Education or Competitively Employed: Broward County 47.46%; and Employment or Continuing Education: Broward County 56.00%.

Description of Alternate Methods for Trainings/Meetings

Alternate methods of conducting meetings and training events must be considered by applicants in an effort to reduce the number of events requiring participants to travel outside of their district. Please describe alternate methods of training used and any new methods to be used for the upcoming fiscal year. Use the Use the Request for Application for more specific information.

Response: Alternate methods of conducting meetings and training events must be considered by applicants in an effort to reduce the number of events requiring participants to travel outside of their district. Please describe alternate methods of training used and any new methods to be used for the upcoming fiscal year. Use the Request for Application for more specific information.

Response: SEDNET projects utilized a variety of alternative technology-based formats for conducting meetings and training events for the 2018-19 fiscal year. This included

participating in statewide and regional SEDNET meetings via Adobe Connect, video conferencing, and teleconference calls to reduce the number of face-to-face events.

Methods of alternative technology-based formats will be broadened for 2019-20 as regional SEDNET meetings are expanded, in addition to monthly statewide meetings via teleconference and web-based formats. Resource and document exchange will utilize the SEDNET statewide website and web-based storage formats such as Google Docs and Drop Box. Utilization of web-based meetings, such as Adobe Connect and GoToMeeting will be continued to reduce face-to-face events.

Support of the BEESS Strategic Plan/State Performance Plan (SPP)

Applicants must describe how specific project activities address the indicators of Florida's IDEA, Part B SPP, and the BEESS Strategic Plan as applicable. For each SPP Indicator and BEESS Strategic Plan target addressed by the project:

□ Include reference to the measurable target for each indicator, as stated in the current SPP and BEESS Strategic Plan; and

Describe the collaboration activities with other discretionary projects with regard to the SPP indicators and BEESS Strategic Plan.

Utilization of web-based meetings, such as Adobe Connect and GoToMeeting will be continued to reduce face-to-face events.

Evaluation Plan

Applicants will describe their methods to evaluate the product, service delivery, and training they provide. This description must address, if applicable, how the applicant will determine whether

□ Recipients implemented or used the product, service delivery, and training received; and that

□ The product, service product, and training achieved their intended outcomes

Response: For 2019-20, SEDNET will utilize the following evaluation elements for program evaluation:

[1] Quantitative and qualitative data may be collected through various methods, such as evaluations, consumer satisfaction surveys, teacher rating scales and monthly provider

reports. In addition, informal needs assessments and surveys from stakeholder groups may be reviewed;

[2] Outcome data may include student academic and behavioral data, discipline data, graduation rates, and target SPP indicator data as reflected in the SPP/APR or LEA Profiles;

[3] Data analysis will allow for identification of barriers to fidelity of implementation and need for change or revision of project activities;

[4] Projects will facilitate an assortment of follow-up activities to determine whether educational and community stakeholder recipients of applicable deliverables, service delivery, and training, implement what they receive where appropriate. These activities may include coaching, checklists and on-line surveys. Projects may examine changes in school- and community-level outcome data (e.g., learning gains in reading, discipline incident data and community mental health data) to determine whether applicable deliverables, service deliverables, service delivery and training meet their objectives;

[5] Projects are expected to achieve minimum performance targets for each deliverable. Project staff will document the completion of each deliverable in the PTS. Projects are required to update their performance in the PTS within 15 days of the end of each project quarterly period. The BEESS project liaisons will track each project's performance based on the data reported by the project and the stated criteria for successful performance, and verify the receipt of required deliverables as required by Sections 215.971 and 287.058(1)(d)-(e), Florida Statutes; and

[6] At the request of BEESS, for 2019-20, projects will develop and provide an annual summative report. Technical assistance will be provided by BEESS and the SEDNET Administration Project. Individual reports will then be compiled into a statewide report.

For projects funded via Cash Advance, the BEESS project liaisons will verify that the project's deliverables are progressing in a satisfactory manner consistent with the scope of work and performance targets on a quarterly basis. At least four weeks prior to the end of any quarter during the award period, the discretionary project must contact the BEESS project liaison in writing to discuss changing or delaying meeting a specific performance target or unit for a deliverable. A justification for this request must be provided to the project liaison. The BEESS project liaison shall review the progress made on the deliverables approved in the agreement (award). In the event the project liaison determines that changes must be made to one or more deliverables on the Schedule of Deliverables document, the discretionary project will be instructed to complete and submit a program amendment request to the FDOE Office of Grants Management. Changes to deliverables must be requested in writing, via a program amendment request, prior to the end of the quarter in which the deliverable units are to be completed.

In the event that performance targets or deliverable units are not met within the quarter in which they are scheduled, and the discretionary project fails to submit an amendment request, as stated previously, the FDOE may deem it necessary to notify the fiscal agency head, in writing. Failure to complete or achieve performance targets for a deliverable will result in payment reduction in accordance with the cost per unit of deliverables, as stated in the agreement (award).

Baseline Data

Yearly baseline and trend data related to performance measures for the Multiagency Service Network for Students with Emotional/Behavioral Disabilities (SEDNET) initiatives utilize qualitative and quantitative data information from the Florida Department of Education, Bureau of Exceptional Education and Student Services (BEESS) Local Education Agency (LEA) Profiles; Local District Student Information Systems; BEESS data reports related to restraint and seclusion; Local Professional Development Learning Management Systems; and Florida Positive Behavior Support Project: Response to Intervention and Positive Behavior Supports Evaluation System (FLPBIS: RtIB) Positive Behavior Supports and Student Engagement [PBS/ES]). Data collection may include the following: [1] Participant Training Evaluation Summary forms summarized and analyzed to determine the impact of SEDNET-provided in-service training and follow-up activities; [2] Student performance outcome data, which may be collected to determine the impact of SEDNET-provided resources on outcomes and when assessing the effectiveness of school-based or school-related services. When appropriate, these data shall include student academic and behavioral data; systemic data, such as reduction in dropout rate, in-school suspension and out-of-school suspension; and increase in graduation, promotion and vocational opportunities, for students who are identified as emotionally and behaviorally disabled (E/BD); [3] Quantitative and qualitative data may be collected to assess the continuous multiagency planning, implementation and evaluation of education, mental health treatment and residential services for students with E/BD. Data collected will assess the effectiveness and may include consumer satisfaction surveys and impact assessments; [4] Quantitative and qualitative data may be collected to determine the effectiveness of sharing information, materials and resources for services for students with E/BD within the project geographic delivery area; [5] For active FLPBIS districts: FLPBIS: RtI:B Database and PBIS provides midyear and end-of-year data reports to district multi-tiered systems of support (MTSS) leadership teams and local schools implementing MTSS. Data reports graph district wide and individual school-year information, as well as trend information related to Team Process, School wide PBS Activities, Coaches Self-Assessments, PBS Implementation Checklist, Benchmarks of Quality, Benchmarks for Advanced Tiers and Student Outcome Data. These reports allow for progress monitoring on the district and local school levels to evaluate fidelity of implementation efforts and to guide district action planning and prioritizing of activities. Local district-developed behavior data collection systems may also be utilized.

2017 Discretionary Project Survey

Based on the BEESS-conducted discretionary project survey data from 2017, the majority of districts who responded indicated that SEDNET is responsive to district needs and provides high-quality services.

Specific feedback in the Discretionary Project survey for SEDNET Region 10 were: "The SEDNET Project in Broward County provides exceptional leadership and support to the school district and community at large. SEDNET continuously provide resources that are current, relevant, and best practices in the areas of social emotional learning, suicide prevention and trauma informed care. The SEDNET Coordinator has received a plethora of accolades for presentations delivered at local, state, and national events. In addition, SEDNET provides strong leadership to the development of the Broward County Behavioral Health Children's Strategic Plan. SEDNET is highly regarded as an asset to Broward County by school district and community agencies." SEDNET Region 10 will

continue to provide technical assistance and support so that these services will continue to be responsive to district needs and will conduct further activities with relevant contacts from districts in the state this year to further individualize supports to their needs. The project will provide quality technical assistance and professional development support based on requests from the district contacts for students with or at risk of E/BD.

Based on input from Exceptional Student Learning Support Executive Director (ESLS) Director, ESLS Support Services Director, and ESLS Elementary and Secondary and Support Services Directors, SEDNET is working in areas of need in school and community. First, SEDNET should continue to increase work in the area of suicide prevention for elementary school students, specifically fifth grade. This year SEDNET reached six elementary schools for suicide prevention. The total number of fifth grade students was approximately four hundred (400) a decrease from the previous year but this was due to the change of focus needed in the district due to the tragedy. Moreover, SEDNET needs to increase education in suicide prevention and Baker Act to principals and school area Directors by connection with threat assessment teams and other areas. In addition, SEDNET should provide education and support around Baker Act and understanding ESLS student's needs. This training and support request has come from increased questions and needs after recent legislation connected to the tragedy in the District and recent concerns related to suicide. strict (Marjory Stoneman Douglas shooting). Training in trauma is requested to increase for the district helping all to make the connection with students who have a disability, not just for teachers but for families in the community. Increased education in the schools on the area of Mindfulness as a strategy and support for trauma and overall wellness to increase in the next academic year. SEDNET, based on ESLS leadership communication, should continue to actively participate in district level meetings regarding ESLS needs district wide; district level meetings regarding social emotional learning, mindfulness, trauma informed care schools, mental health, electronic portal, and suicide prevention; counseling for students who have counseling on the Individualized Education Plan and other areas as identified by District leadership.

Based on input received through Survey Monkey and face to face District SEDNET meetings, Broward County Community leadership would like to see SEDNET continue increased involvement in area of support to cross over youth (youth who are involved in foster care and juvenile justice system) and placement. This specifically looks at access to educational needs and supports, funding, redirection and education for Department of Juvenile Justice. Broward County Community leadership also indicated that SEDNET should continue involvement in the areas of: Adverse Childhood Experiences and Resilience, mental health training in area of trauma focused cognitive behavioral therapy, suicide prevention and connections across school and community; Baker Act and Connections, Youth Mental Health First Aid, transition support for special needs youth by attending special needs advocacy work groups; collaboration and support between families, community providers and school; provide training and support to schools and families regarding Medicaid funding changes for behavioral health services in community and chair a resource fair for the academic year.

SEDNET Region 10 will continue to provide technical assistance and support so that these services will continue to be responsive to district needs and will conduct further activities with relevant contacts from districts in the state this year to further individualize supports to their needs. The project will provide quality technical assistance and professional development support based on requests from the district contacts for students with or at risk of E/BD.

These efforts include: training new community partners staff who offer support for students and families in home, school and community; suicide prevention training for school administrators and school based; training in trauma focused interventions using mindfulness; training using promising best practice from the Crisis Clinic (formerly called Youth Suicide Prevention Program) for High School: Helping Every Living Person (HELP), Middle School Look, Listen and Link and Riding the Waves in up to fifteen elementary schools; continued training in schools and community on mental health with evidenced based best practice training Youth Mental Health First Aid, Question Persuade Refer (QPR). SEDNET will continue involvement in senior leadership committee for trauma focused clinical interventions for sustainability in Broward County; senior leadership activity in rating committees for funded programs in community behavioral health; senior leadership in Broward County Behavioral Health Partnership Committee which is made up of twenty three (23) community providers who provide clinical support in home, school and community to over 20,000 students annually; senior leadership in the area of connection to community from school by educating in electronic referral system; senior leadership in Exceptional Education in area of counseling (provide supervision, training, and guidance to staff who provide counseling to students in the ESE department). These areas will help to increase the area of student graduation and dropout rate.

The LEA Profile provides districts with a tool to use in planning for systemic improvement in exceptional education programs. The profile contains a series of data indicators that describe measures of educational benefit, educational environment, prevalence and parent involvement and also provides information about state-level targets in Florida's State Performance Plan (SPP). Required by the Individuals with Disabilities Education Act of 2004, Florida's SPP establishes annual benchmarks and targets for 20 indicators. For each year of the SPP, the Annual Performance Report will be submitted to report progress in these performance areas. As part of the process, Florida publicly reports data for both the state and each LEA.

Trends discussed related to SEDNET Region 10 are for a three-year period: 2014-15 to 2016-17.

Indicator 1 – Federal Uniform High School Graduation Rate

State-Level Target for 2015-16: Percent of students with disabilities with a standard diploma in 2014-15 will increase to 56.3%. The number of first-time ninth graders from four years ago, plus incoming transfer students on the same schedule to graduate, minus students from this population who transferred out or left to enroll in a private school or home education divided into the number of standard diploma graduates from the same group. The resulting percentages are reported for 2014-15 through 2016-17 for students with disabilities and all students.

Standard Diploma Graduation Rate: The number of standard diploma graduates divided by the number of students with disabilities who completed their education (received either a standard diploma, GED[®], special diploma, certificate of completion or special certificate of completion) or dropped out. This graduation rate is calculated based on the total number of students with disabilities who exited school in a given year, rather than using the four-year cohort model described in the federal uniform graduation rate. The data are reported for the three-year period from 2014-15 through 2016-17.

Indicator 2 – Dropout Rate

State-Level Target for 2015-16: The dropout rate for students with disabilities in 2015-16 will decrease to 15.1%.

Indicator 4 – Discipline Rates

Discipline Rates and Risk Ratios

Discipline rates for students with disabilities are calculated by dividing the number of students who received out-of-school suspension or expulsion that total more than 10 days by total-year enrollment as reported at the end of the school year (survey 5). Discipline rates are calculated for both students with disabilities and nondisabled students. Discipline risk ratios are calculated by dividing the discipline rate of students with disabilities by the discipline rate of nondisabled students. Risk ratios indicate the risk that students with disabilities will be suspended and expelled for greater than 10 days compared to nondisabled students. A risk ratio of 1.0 indicates that students with disabilities and nondisabled students are equally likely to be suspended and expelled.

The resulting rates are reported for students with disabilities and nondisabled students for three years from 2014-15 through 2016-17 along with risk ratios for students with disabilities.

Indicators 4A and 4B – Suspension and Expulsion

The Indicator 4A State-Level Target for 2015-16: 9% of districts are identified by the state as having a significant discrepancy (a risk ratio of 3.0 or higher) in the rates of suspension and expulsion of students with IEPs for greater than 10 days in 2015-16.

Discipline risk ratios by racial or ethnic group are calculated for students with disabilities by dividing the discipline rate of a specific racial or ethnic group by the rate of all nondisabled students. A risk ratio of 1.00 indicates that, for instance, Hispanic students with disabilities are equally likely to be suspended and expelled as all nondisabled students. The resulting risk ratios are reported for students with disabilities by race or ethnicity for the state during the 2015-16 school year. Cells with an asterisk (*) indicate that there are less than 10 students with disabilities for a specific racial or ethnic group suspended and expelled for greater than 10 days.

Indicator 13 – Secondary Transition IEPs

State-Level Target for 2015-16: 100% of youth with IEPs aged 16 and above have an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age-appropriate transition assessment and transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals and annual IEP goals related to the student's transition services needs .

Indicator 14 – Post-School Outcomes

The Florida Education and Training Placement Information Program (FETPIP) is an interagency data collection system that obtains follow-up data on former students. The most recent FETPIP data available, reports on students who exited Florida public schools during the 2015-16 school year. The following table displays the percentage of students with disabilities exiting school in 2013-14 through 2015-16 who were found during the fall and winter following the school year and were (1) enrolled in higher education, (2) enrolled in higher education or competitively employed, and (3) enrolled in higher education or some other postsecondary education or training program or competitively employed or employed in some other employment.

State-Level Target for Students with Disabilities for 2015-16

[A] 33% of youth exiting in 2014-15 who are no longer in secondary school, had IEPs in effect at the time they left school, and were found enrolled in higher education within one year of leaving high school.

[B] 46% of youth exiting in 2014-15 who are no longer in secondary school, had IEPs in effect at the time they left school, and were found in higher education or competitively employed within one year of leaving high school.

[C] 60% of youth exiting in 2014-15 who are no longer in secondary school, had IEPs in effect at the time they left school, and were found enrolled in higher education or in some other postsecondary education or training program; or competitively employed or in some other employment within one year of leaving high school.

Restraint and Seclusion

REDUCING THE NEED FOR RESTRAINT AND SECLUSION

The 2018-2023 BEESS Strategic Plan outlines performance indicators for restraint and seclusion as: 100% of districts will [1] meet their goals, as stated in ESE policies and procedures (SP&P) for reducing the use of restraint and [2] meet their goals as stated in their SP&P for reducing the use of seclusion.

A brief summary of BEESS data reports for incidents of restraint and seclusion for school years 2015-16 (August-July), 2016-17 (August-July) and 2017-18 (August-July) are outlined in the following table for Broward County served by SEDNET Region 10.
