With the guidance of a teacher-facilitator and a business partner, VEI students establish and manage a virtual company, conducting business with other "firms" domestically and internationally. Students are involved in all aspects of running the business, including human resources, accounting, product development, production, distribution, marketing, and sales. Guided by a task-based curriculum rather than a textbook, VEI students produce the key deliverables that are required in a real business. The VEI approach emphasizes learning in four key areas:

- (a) Ownership: Students take responsibility for their own learning.
- (b) Experiential: Students' learning is authentic and realistic.
