

I-4.

Agreement with the City of Coral Springs, Florida  
September 17, 2019

There are provisions included within the Agreements that identify the emergency circumstances authorizing real-time (live) and recorded video access. Additional provisions prohibit general surveillance and limit authority to capture video screen shots and recorded video images.

It is anticipated this Agreement will serve as a template for other municipal agencies to utilize, to reach agreement with SBBC, for the benefit of accessing live video feeds from the District's surveillance cameras to provide emergency response and services at a public District school or facility when needed.

This Agreement has been reviewed and approved as to form and legal content by the Office of the General Counsel.
