

## **Continuation of Summary Explanation and Background**

In the current Plant Survey, McArthur High School (Parcel 20) is designated as a senior high primary use, housing grades 9-12, and is recommended for continued use. In May 7, 2004, a Castaldi report, which the Broward County Public Schools (BCPS) authorized, regarding McArthur High School, was submitted to the FDOE; and upon FDOE review of the report, FDOE approved the replacement of Buildings 6, 7 and 8.

The planned demolition and restoration/renovation of certain buildings, and construction of 18 classrooms at McArthur High School was presented to the School Board at the May 14, 2019 Board Workshop and the June 25, 2019 Regular School Board Meeting.

Thus, staff is recommending that the School Board should give the authorization to conduct the Spot Survey to enable the implementation of the project as stated herein.
