SUMMARY EXPLANATION AND BACKGROUND:

The funded research project aims to increase the frequency and quality of Broward County Public Schools elementary teachers (grades K-5) enactment of three specific key practices to support elementary students' critical thinking. Additionally, it seeks to uncover the factors that may increase teachers' implementation of these practices. This project is interested in understanding how teacher facilitation of student engagement in critical thinking spreads across teachers and schools within the District. As such, staff will investigate the District's organizational readiness and willingness to support teachers' implementation of the studies' practices with students. The School Board reviewed and approved the \$349,875 grant from the University of Chicago on December 4, 2018 (Item EE-3). The Agreement has been reviewed and approved as to form and legal content by the Office of the General Counsel. This Agreement will be executed after School Board approval.
