INDUSTRY-SPECIFIC REMEDIAL AFFIRMATIVE PROCUREMENT INITIATIVES

The Goal Setting Committee (GSC) has considered the following in the course of reaching a determination regarding which, if any, SBE or M/WBE industry-specific remedial programs shall be applied to this RFQ and resulting contract:

- a. Whether the most recent data on M/WBE utilization in the absence of race-conscious APIs indicate that construction contracts of this type have exhibited significant disparities in the utilization of M/WBE subcontractors and/or M/WBE prime contractors;
- b. Whether race- and/or gender-neutral remedies alone are likely to fully eliminate any such disparities in the utilization of M/WBE subcontractors and/or M/WBE prime contractors based upon past contract award and payment data;
- c. Whether a particular API is the least burdensome available remedy to non-M/WBE Respondents that is narrowly-tailored and that can effectively eliminate the disparities in the utilization of M/WBEs in construction contracts; and
- d. The experiences of other jurisdictions within the District's relevant marketplace for construction services.

Accordingly, the GSC has applied the terms and conditions of the following Industry-Specific Remedial Affirmative Procurement Initiatives to this RFQ and the resulting contract:

INSTRUCTIONS TO SUBMITTING FIRMS

1. In accordance with SBBC Policy No. 3330, Section E.2.e., the GSC has established the following Evaluation Preferences in the scoring of proposals submitted in response to this Construction Management at Risk RFQ. M/WBE and Non-M/WBE CM firms may respond as a team to collectively fulfill the responsibilities of the Construction Manager. CM Firms responding to this solicitation as a team must submit a completed Statement of Intent for M/WBE Construction Manager Participation (Attachment A.5). Individual respondents that are not submitting as a team will not be eligible to receive evaluation points for M/WBE CM participation as indicated in Section 5.2.3.

2. All respondents must complete Attachment B.1, Bidder/Proposer Assurance Statement (Document 00471), to commit during the construction phase, signed by the Submitting Firm. Failure to submit Document 00471 will render the submittal non-responsive to the M/WBE requirements.

4.2.6.1 Section E1 Combined Prime and M/WBE CM Team (Fifteen (15) Points Maximum)

In the selection process for the award of this construction manager at risk services contract, the percentage of combined prime and sub-consultant M/WBE participation proposed on its team by the consultant shall be considered by the QSEC in awarding up to fifteen (15) out of twenty (20) total M/WBE Evaluation Preference Points, and out of a total of hundred (100) overall available evaluation points. The fifteen (15) M/WBE Evaluation Preference points shall be awarded on a pro rata basis for each ten percent (10%) increment of CMAR contract participation that M/WBE firms are committed to perform under the proposal and contract (e.g., zero (0) M/WBE evaluation preference points are awarded for M/WBE combined prime and sub-consultant participation that is less than ten percent (10%) of the total proposal price or value; apportioned M/WBE evaluation preference points are awarded for M/WBE combined prime and subconsultant participation that is at least ten percent (10%), but less than twenty percent (20%), of the total proposal price; and all fifteen (15) M/WBE combined prime and subconsultant Evaluation Preference points are awarded for M/WBE participation that is equal to hundred (100%) of the total proposal price). Moreover, any M/WBE prime Submitting Firm that is awarded a contract pursuant to this Affirmative Procurement Initiative may not subcontract more than forty-nine percent (49%) of the full contract value to non-M/WBE subconsultants.

4.2.6.2 Section E2 Past Performance of M/WBE Inclusion (Five (5) Points Maximum)

As part of its application of the "Minority Inclusion Language in RFQs" API to this RFQ, the GSC has determined that up to five (5) out of the twenty (20) M/WBE Evaluation Preference points (and out of the total one hundred (100) overall evaluation points) allocated to this solicitation shall be awarded based upon the strength of the consultant's past performance and track record over the most recent three-year period in achieving or exceeding economic inclusion requirements (including, but not limited to, M/WBE subcontracting goals applied during hard bid solicitations or the Invitation to Bid Phase established by the project's owners). This track record shall include public sector and private sector contracts for the Submitting Firm's past projects and shall be taken into consideration by the evaluation panel in awarding up to five (5) out of twenty (20) M/WBE Evaluation Preference Points, and out of the total one hundred (100) evaluation points.

The Submitting Firm shall submit in its proposal adequate contact information for prior clients and customer references to enable the evaluation panel to verify the Submitting Firm's claimed achievements in this regard. The required information is shown in the table below. Submit this information on a separate page.

Project Name / Number	Customer / Owner	Owner's Contact Name /Phone #	Email	Assigned M/WBE Participation Goal	% M/WBE Participation Achieved	Cumulative Dollars Paid to M/WBEs

The full scoring matrix for assignment of M/WBE Evaluation Preference points for CMAR M/WBE team participation is located in Section 5.2.3 of this RFQ.

4.2.6.3 SDOP Goals

As a condition of being awarded the contract for this CMAR RFQ, the Submitting Firm agrees and commits to using its best efforts to achieve or fully satisfy all the requirements for each Affirmative Procurement Initiative that has been applied by the GSC to this contract. Such compliance is understood to be a material term of the CMAR contract, and shall include, but not be limited to, the CMAR consultant's responsibility to ensure compliance with M/WBE Subcontracting Goals or M/WBE Segmented Subcontracting Goals that the GSC applies during the GMP phase for various construction trade contracts to be awarded and/or managed by the selected CMAR consultant.

Minority and/or Women-Owned Business Enterprise (M/WBE) Segmented Subcontracting Program:

M/WBE Segmented Subcontracting Goals:

In accordance with SBBC Policy No. 3330, Section E.2.c., the GSC has established segmented M/WBE goals for this Construction Manager at Risk Contract in accordance with SBBC Policy No. 3330, Section E.2.c. based upon relative M/WBE availability data collected by the SBBC through its Centralized Bidder Registration system and from other jurisdictions within its three-county relevant marketplace for construction contracts, and the SBBC's utilization of M/WBEs for similar contracts. Such segmented goals are specifically targeting the participation of particular segments of business enterprises owned and controlled by WBEs or certain minority group members (e.g., African-Americans or Hispanic-Americans) based upon relative availability and significantly greater patterns of underutilization and disparity within an industry as compared to other gender and minority group member categories of M/WBEs. The application of segmented M/WBE goals is intended to ensure that those segments of M/WBEs that have been most significantly and persistently underutilized receive a fair measure of remedial assistance.

For this RFQ and the resultant contract, the following terms and conditions shall apply:

Contract awards made by the selected CMAR consultant during the GMP Preparation Phase of this construction project shall be made to the most qualified, responsive, responsible bidder or Submitting Firm that commits to subcontracting **at least twenty-nine percent (29%) of the Total GMP** to be performed by M/WBE subcontractors. Moreover, out of this goal, **eight percent (8%)** subcontractor participation shall be performed by SBBC Certified African Americans businesses, and **eight percent (8%)** Women-Owned businesses. Such contract award shall be contingent upon a commercially useful function being assigned by the Submitting Firm to the M/WBE subcontractors. **M/WBE Second (2nd) Tier SBBC - Certified Subcontractors are counted towards the overall goal.**

Such contract award is contingent upon a commercially useful function being assigned by the Submitting Firm to the certified M/WBE sub-consultants/contractors. Any bid submitted at the GMP Phase with an inadequate commitment for M/WBE subcontract participation must provide sufficient documentation of good faith efforts to satisfy the M/WBE Segmented Subcontracting Goal.

Submission of Subcontractor Utilization Plan

Identify all M/WBE (if any) firms which will be utilized as Subcontractors in this Procurement. Subcontractor also refers to Subconsultants and team members that are utilized during the course of this procurement. The CM must provide SBBC M/WBE certificates for each firm to be utilized as a prime or subcontractor. Each M/WBE subcontractor and prime shall be listed in the Subcontractor Utilization Plan (as defined below) and submitted together with the proposal. The listing of M/WBEs in the Subcontractor Utilization Plan shall constitute the CM's representation to SBBC that the certified firms are technically and financially qualified and available to perform the assigned work. **Failure to provide complete and accurate information shall result in the proposal being deemed non-responsive to the M/WBE Requirements.**

The Subcontractor Utilization Plan, consisting of the following documentation, must be attached to the qualifications statement, if the document applies:

1. **Attachment A.1**, S/M/WBE Subcontractor Participation Schedule (Document 00475), signed by the Submitting Firm.
2. **Attachment A.2**, Statement of Intent to Perform as an S/M/WBE Subcontractor Form for each M/WBE firm (Document 00470), signed by each Subconsultant/Subcontractor that has been selected for the project.
3. **Attachment A.4**, S/M/WBE Good Faith Effort (Document 00480), must be submitted by the Submitting Firm if the assigned subcontracting goals is not met.
4. **Attachment A.5**, Statement of Intent for M/WBE Construction Manager Participation (Document 00477), signed by the Submitting Firms that intend to form a Prime Firm Team for this project.
5. **Attachment B.1**, Bidder/Proposer Assurance Statement, (Document 00471), to commit during the construction phase, signed by the Submitting Firm.

Should there be any discrepancy between percentages indicated in Attachments A.1 and A.2, the percentages indicated in Attachment A.2 shall be used to determine participation. If Attachment A.2 is not signed by the Subcontractor, participation attributed to the listed vendor **will not be included even if they are listed on A.1**. If no percentage is listed, the Submitting Firm will not receive points. If a percentage range instead of fixed percentage is provided for a particular Subcontractor on the Statement of Intent to Perform as a S/M/WBE Subcontractor Form, the highest percentage in the range will be used to calculate participation, thereby effectively representing the Submitting Firm's commitment to the contract goal.

Good Faith Effort

If the Submitting Firm, after a good faith effort, cannot meet the MWBE participation requirements from eligible, SBBC-certified Minority/Women Business Enterprise (M/WBE) subcontractors, the Submitting Firm shall submit a fully completed and executed **M/WBE Good Faith Effort Form** with its draft GMP prior to approval. See the Supplier Diversity Outreach Program Guidelines for more information.

5.2 **Initial Screening:** School District staff will review factors for each Qualification Statement on the Qualification Statements Evaluation Checklist Form.

5.2.1 **Responsiveness:** Submitting Firms' Qualifications Statements shall be evaluated by District staff to determine whether each Submitting Firm is responsive and responsible. Submitting Firms determined by District staff to be non-responsive or non-responsible shall be notified of such determination in advance of the applicable QSEC meeting. Staff shall present its recommendation to find applicable Submitting Firm(s) non-responsive or non-responsible to QSEC for consideration at the QSEC meeting. Should the recommendation of waivers and technicalities for a Submitting Firm(s) not be accepted by QSEC, the applicable Submitting Firm(s) will be deemed non-responsive and discussions with the Submitting Firm(s) will not take place. QSEC will recommend to SBBC, that SBBC reject the applicable Submitting Firm(s) Qualifications Statement.

5.2.2 **Initial Scoring:** Sections C1 Current Work Load with SBBC, C3 Relevant Projects / References, and E Supplier Diversity Outreach Program will be scored by District staff, not by QSEC, and such scores shall be provided to QSEC on the day of the meeting after QSEC members have completed their individual scoring.

5.2.3 **Scoring of M/WBE Participation – Section E**

The SBBC shall award a maximum of fifteen (15) points out of twenty (20) for Combined Prime and M/WBE CM Participation as listed in the Evaluation Point Tables below. At the time the Qualifications Statement is submitted, the Submitting Firm shall identify all SBBC-certified M/WBE CM firms (if any) which will be utilized by completing Attachment A.1, S/M/WBE Subcontractor Participation Schedule (Document 00475) and Attachment A.2, Statement of Intent to Perform as an S/M/WBE Subcontractor (Document 00470). If the Submitting Firm forms a team, the Statement of Intent for M/WBE CM Participation must be signed by both Submitting Firms; see Attachment A.5 (Document 00477).

<u>Combined Prime and M/WBE CM Team Percentage of Total CMAR Contract Value</u>	<u>Assigned # of M/WBE Preference Points</u>
0% – 9%	0
10% – 19%	2.5
20% – 29%	5
30% – 39%	10
40% – 49%	15

Scoring of proposals for the award of these five (5) M/WBE evaluation points shall be as follows:

For each Submitting Firm, the M/WBE compliance percentage shall be calculated by taking the total number of projects from the last three years with assigned M/WBE project goals wherein that Submitting Firm has met or exceeded the assigned M/WBE project goal, and then dividing that number by the total number of projects with assigned M/WBE project goals that were performed by that Submitting Firm. (Those contracts and projects wherein no M/WBE participation goals were assigned will be excluded from the M/WBE compliance percentage analysis.) Submitting Firms will then be scored and awarded M/WBE evaluation preference points based upon their M/WBE compliance percentage calculations as follows:

- Five (5) points shall be awarded to Submitting Firm that have an M/WBE compliance percentage that is equal to ninety percent (90%) or greater;
- Four (4) points shall be awarded to Submitting Firm that have an M/WBE compliance percentage that is equal to, or greater than, eighty percent (80%), but is less than ninety percent (90%);

- Three (3) points shall be awarded to Submitting Firm that have an M/WBE compliance percentage that is equal to, or greater than, seventy percent (70%), but is less than eighty percent (80%);
- Two (2) points shall be awarded to Submitting Firm that have an M/WBE compliance percentage that is equal to, or greater than, sixty percent (60%), but is less than seventy percent (70%); and
- One (1) point shall be awarded to Submitting Firm that have an M/WBE compliance percentage that is equal to, or greater than, fifty percent (50%), but is less than sixty percent (60%).
- All other Submitting Firm shall be awarded zero (0) points.

Table below is how the past performance of MWBE inclusion is counted:

<u>Past Performance of M/WBE Inclusion</u>	<u>Assigned # of M/WBE Preference Points</u>
Unsatisfactory	0
Below Average (Poor) \leq 50 %	1
Meets expected Goals	3
Exceeded Goals	5

A successful performance that exceeds the expected goal shall be awarded Five (5) points. Performance that meets the expected goal shall be scored at Three (3) points. Poor performance that attains less than 50% of the expected goal shall be awarded One (1) point. A total complete failure in achieving any M/WBE participation goal shall earn zero (0) points.

NOTE: Points for Category E shall be provided by the Supplier Diversity Outreach Program Staff for use by QSEC members.

5.3 **Evaluation Scoring – Part A:** QSEC members shall review the RFQ responses in order to rank the Submitting Firms. QSEC members shall be provided with the *Qualification Selection Evaluation Committee RFQ Scoring Rubric* attached to this solicitation to provide guidance during the evaluation of qualification statements. Each QSEC member shall complete a Final Evaluation Form – Part A and score independently. The highest and lowest scores given by a QSEC Member for each Submitting Firm shall be omitted and the remaining scores shall be averaged for each Submitting Firm.

Evaluation Scoring – Part B: Shortlisted firms shall give a 20 minute presentation to QSEC members which will be followed with a Question and Answer period. QSEC shall rank the Firms based on scoring of presentations. Each QSEC member shall complete a Part B Evaluation Form and score independently. The highest and lowest of the committee's scores for each Submitting Firm shall be dropped, and an average shall be taken of the remaining scores per Submitting Firm. The Presentation shall be provided via PowerPoint with twelve (12) hard copies provided as "leave behinds". No other hand-outs, display boards, models or any other props are to be utilized or even brought into the presentation. The presentation may not contain a reference to fees or construction costs.

5.3.1 **Scoring of Approach - Section AA** (Twenty-nine (29) Points Maximum) Discuss your firm's qualifications and approach for delivering this project and your firm's M/WBE commitment. Scoring of the approach will weigh greatly on a firm's ability to deliver a quality project within or ahead of the schedule provided in Section 6 of this Request for Qualifications. Discussion should include measures that will be taken to insure the firm will maintain an established construction schedule.

- Approach to pre-construction – Six (6) Points Maximum
- Approach to construction – Eight (8) Points Maximum
- Ability to meet schedule – Eight (8) Points Maximum
- Availability of resources – Seven (7) Points Maximum

- 5.3.2 **Scoring of Key Personnel – Section BB** (Eleven (11) Points Maximum) Discuss the key personnel, including both the CM professional staff and consultants' staff.
- 5.4 **Submitting Firm Ranking and Tie-breakers:** Responsive and responsible Submitting Firms shall be ranked based on the total of: a) the points received from the initial screening completed by conducted by District staff, and b) the QSEC's averaged final evaluation Part A. The Submitting Firms receiving the most combined points shall be considered to be the **most qualified** Submitting Firm ("**Firm 1**"). All remaining Submitting Firms shall be ranked in descending order based on total combined points received (**Firm 2, Firm 3, Firm 4**, and etc.). A Short List of **three (3)** firms, comprised of the Top Ranked Firms in Part A shall be invited back to a second QSEC where they will make presentations.
- Part B:** The Shortlisted Firms shall be ranked based on QSEC's averaged final evaluation scores for Part B. The Submitting Firm receiving the most combined points in Part B shall be considered to be the **most qualified** Submitting Firm ("**Firm 1**"). All remaining Submitting Firms shall be ranked in descending order based on total combined points received (**Firm 2 and Firm 3**).
- 5.4.1 The first tie-breaker between identically scored Submitting Firms shall be the total number of times the applicable Submitting Firms are ranked as the **most qualified ("Firm 1")** by individual QSEC committee members.
- 5.4.2 The second tie-breaker between identically scored Submitting Firms shall be the total number of times the applicable Submitting Firms are ranked as the **second most qualified ("Firm 2")** by individual QSEC committee members.
- 5.4.3 The third tie-breaker between identically scored Submitting Firms shall be the total number of times the applicable Submitting Firms are ranked as the **third most qualified ("Firm 3")** by individual QSEC committee members.
- 5.4.4 The fourth tie-breaker shall be a coin flip, to be called in the air, by the tied Firm that held its discussions with QSEC first.
- 5.5 After scoring has been completed, QSEC shall recommend that:
- 5.5.1 District staff negotiate a contract for preconstruction services with Firm 1 at compensation which staff determines is fair, competitive, and reasonable. CM Fees that will be applicable during the construction phase of the project shall also be part of the negotiations prior to initial award.
- 5.5.2 Should staff be unable to negotiate a satisfactory contract with Firm 1, negotiations with Firm 1 shall be formally terminated.
- 5.5.3 Staff shall then undertake negotiations with Firm 2. Should staff be unable to negotiate a satisfactory contract with Firm 2, staff shall formally terminate negotiations with Firm 2, and then undertake negotiations with Firm 3.
- 5.5.4 This process shall continue with the remaining, most qualified firms until a satisfactory contract is negotiated. If no negotiations are successful, the procurement shall automatically terminate.
- 5.6 After successful negotiations with the applicable Submitting Firm, an Agreement shall be submitted to the Board for approval and award.
- 5.7 **Award:** The Agreements resulting from these negotiations shall be governed by the laws of the State of Florida, and shall have venue established in the Circuit Court of the 17th Judicial Court in and for Broward County, Florida, or the United States District Court of the Southern District of Florida.

The Contractor shall contact SDOP to provide the updated information.

Compliance:

The School District shall monitor performance and compliance in accordance with School Board Policy 3330. During the term of any subsequent contract, the awardee shall comply with the S/M/WBE Subcontractor Utilization Plan made in its response to the solicitation. Each contract/agreement containing certified firm commitment must include a requirement of periodic reporting of both certified and non-certified subcontractor participation. For construction projects, reporting is monthly through e-Builder. For Design and Pre-construction CMAR Awards, reporting should be provided at each phase being invoiced through e-Builder. Further, non-receipt of utilization reporting may result in breach of contract. The submission of reporting is further identified to be a condition for payment of the contractor.

SDOP will monitor and record non-receipt of required reports on a quarterly basis. The report will include the name of the prime, the project(s) involved, and the report(s) missing. Compliance for use of S/M/WBEs shall include tasks and proportionate dollar amounts throughout the term of the contract, including amendments and change orders. After contract execution, the awardee shall maintain the level of utilization as established in the contract's S/M/WBE Subcontractor Utilization Plan. Failure to comply with the SDOP requirements in the contract will be considered a material breach resulting in recommendation for sanctions, penalties and which could include debarment proceedings pursuant to School Board Policy.

Prime & Subcontractor Terms and Conditions

In keeping with the objective of Policy 3330 and Chapters 9 and 13 of the Standard Operating Procedures, SBBC requires the terms and conditions that are included in the Prime Contractor or Prime Consultant or Prime Vendor's (Prime) Agreement between the Prime and SBBC be extended in similar or equal capacity in the contracts between the Prime and all lower tier Subcontractors. Refer to Document 00472 - Prime/Subcontractor Contract Terms & Conditions. All Bidders must comply with the Prime/Subcontractor Terms & Conditions Document 00472.

The Subcontractors Utilization Plan shall consist of the following documentation, which must be attached to the Bid solicitation:

1. S/M/WBE Subcontractor Participation Schedule (Document 00475)
2. Statement of Intent to Perform as an S/M/WBE Subcontractor (Document 00470)
3. Bidder/Proposer Assurance Statement (Document 00471) – ***(Only Applicable to CSMP and CMAR projects)***
Note: For projects utilizing a CMAR project delivery method, exact M/WBE or SBE participation during construction phase will not be known until proposals are received, subcontractors are selected, and the Guarantee Maximum Price (GMP) is developed. Please state the CM's commitment for M/WBE or SBE participation during the construction phase **on the Bidder/Proposer Assurance Statement (Document 00471)**. The Construction Manager (CM) will be obligated to meet this commitment as a condition to gain SBBC approval of the GMP.

In response to an RFQ If percentages vary between the Participation of Schedule (Document 00475) and the M/WBE Statement of Intent (Document 00470), the percentage listed on the Statement of Intent (Document 00470) will be used to determine participation. If the M/WBE Statement of Intent (Document 00470) - is not signed by the Subcontractor, participation attributed to the listed vendor will not be included even if they are listed on Participation Schedule Form (Document 00475). If no percentage is listed, Submitting Firm will not receive points. If a percentage range is provided for an M/WBE Subcontractor on the M/WBE Statement of Intent Form (Document 00470), the higher determined percentage in the range will be used to calculate participation and therefore, effectively, represents the prime's commitment to the contract goal.

Document 00467: Supplier Diversity Outreach Program Guidelines

Nondiscrimination:

The respondent hereby certifies and agrees that the following information is correct:

In preparing its response on this project, the respondent has considered all proposals submitted from qualified, potential subcontractors and suppliers, and has not engaged in "discrimination" as defined in School Board Policy 3330 – Supplier Diversity Outreach Program, Section D.1; to wit: discrimination in the solicitation, selection, or commercial treatment of any subcontractor, vendor, supplier, or commercial customer on the basis of race, color, religion, ancestry or national origin, sex, age, marital status, sexual orientation or on the basis of disability or other unlawful forms of discrimination. Without limiting the foregoing, "discrimination" also includes retaliating against any person or other entity for reporting any incident of "discrimination." Without limiting any other provision of the solicitation for responses on this project, it is understood and agreed that, if this certification is false, such false certification will constitute grounds for SBBC to reject the response submitted by the respondent on this project, and terminate any contract awarded based on the response. As a condition of submitting a response to SBBC, the respondent agrees to comply with SBBC's Nondiscrimination Policy as described under its School Board Policy 3330 – Supplier Diversity Outreach Program, Section D.1.

Affirmative Procurement Initiatives (APIs) for Professional Services:

"Affirmative Procurement Initiatives (API)" – refers to various SDOP tools and solicitation incentives that are used to encourage greater prime and subcontract participation by S/M/WBE firms, including bonding assistance, evaluation preferences, subcontracting goals, and joint venture incentives. (For full descriptions of these and other SDOP tools, see, Section E of School Board Policy 3330 and the SDOP Standard Operating Procedures.)

Penalties and Sanctions:

Upon the receipt of a recommendation from the Superintendent of Schools regarding the failure of the prime or its authorized agents to comply with any portion of the SDOP policy and Section 13 of the Standard Operating Procedures, the SBBC may take actions regarding the non-complying party, including, but not limited to, suspension of contract, withholding payments due, rescission or termination of contract based upon the failure to comply with SDOP policy requirements, refusal to accept bids, responses, Qualification Statements and proposals, disqualification of a respondent, contractor, or other business entity from eligibility for providing goods or services to the SBBC for a period not to exceed two (2) years (upon SBBC's approval) and/or liquidated damages equal to the difference between the committed versus actual dollar value of S/M/WBE participation.

Any person who violates these provisions shall be subject to penalties and sanctions established by SBBC and to the maximum penalty provided by law.

Good Faith Efforts:

If the information submitted in the response demonstrates that a Contractor does not meet the S/M/WBE Subcontractor Goal, then the Contractor shall submit information supporting its good faith efforts that is sufficient to satisfy SDOP.

If a respondent is unable to comply with the API requirements imposed by SBBC under the terms of the SDOP policy, as required in the solicitation, such respondent shall complete and submit an S/M/WBE Good Faith Effort Waiver Request Form, at the time the solicitation is due. The Form shall include specified documentation which demonstrates a good faith effort to comply with the requirements as described under the selected API.

In making the required judgment, SDOP will consider some or all of the following good faith efforts. Other factors or types of efforts may be relevant in appropriate cases. In determining whether a Contractor has made good faith efforts, SDOP will evaluate the efforts that a Contractor has made and the quantity and intensity of these efforts.

Document 00467: Supplier Diversity Outreach Program Guidelines

SBBC has developed concise, detailed, and quantifiable good faith effort requirements for prime contractors to ensure they are making a legitimate attempt to meet the APIs. Meeting the goal, or making good faith efforts to meet the goal, is a condition of being issued a Notice to Proceed (NTP) or Authorization to Proceed (ATP).

The listing of S/M/WBE Subcontractors by a Contractor shall constitute a representation by the Contractor that such entity is qualified and available, and a commitment by the Contractor that, if it is issued a NTP or ATP, it will enter into a subcontract in the amount set forth in its submission, subject to the terms of these Guidelines.

Respondents must obtain a total of **seventy (70) or more points out of One Hundred (100)** to indicate that the Good Faith Efforts were sufficient and to be deemed compliant

The following actions outline evidence of the minimum good faith effort to meet the SDOP S/M/WBE subcontracting goal and describe the criteria to quantify good faith efforts.

Advertising (5 points)

Effort: Bidders must advertise opportunities for SBBC-certified S/M/WBEs in a minimum of three (3) separate print newspapers and post ten (10) digital media notices using various combinations of Twitter, Facebook, Trade Associations, and ethnic focused media outlets by no later than ten (10) business days once the bid is advertised. The Bidder is highly encouraged to effectively use the services of available small/minority/women community organizations; small/minority/women contractors' groups; local, State, and Federal small/minority/women business assistance offices; and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and placement of S/M/WBEs. Bidders are required to publish these opportunities in the general circulation media, minority-focused media, trade association publications, or trade-related publications, unless the SBBC waives this requirement due to time constraints. Pro forma mailings to S/M/WBEs requesting bids are not alone sufficient to satisfy good faith efforts.

Documentation: The advertisement shall include the name and location of the project, the location where plans and specifications can be viewed, the subcontractor proposal due date, and the items of work or specialties being solicited. (i.e. Newspaper Tear Sheet and copy of Social Media Post).

Outreach to Identify S/M/WBEs (15 points)

Effort: The bidder should solicit this interest as early in the solicitation process as practicable, but no later than ten (10) business days after the Pre-bid Conference to allow the S/M/WBEs to respond to the solicitation and submit a timely offer for the subcontract. The bidder should determine with certainty if the S/M/WBEs are interested by taking appropriate steps to follow up initial solicitations.

The bidder should attempt to reach out to S/M/WBEs by utilizing the SDOP approved online databases of certified firms. The scope of work required should be identified, and the contractor needs to seek out relevant companies to perform the specified work.

Documentation: The Contractor should retain dated documentation of any correspondence targeting S/M/WBE.

Document 00467: Supplier Diversity Outreach Program Guidelines

Pre-Bid Meeting Attendance (5 points)

Effort: Attendance at the pre-bid meeting is mandatory to comply with the good faith effort requirement in order to be awarded the 5 points. If a pre-bid meeting is not offered, five (5) points will be deducted from the seventy (70) point minimum score.

Documentation: The Contractor's name should appear on SBBC's pre-bid meeting sign-in sheet to document the company presence.

Timely Written Notification (20 points)

Effort: Selecting portions of the work to be performed by S/M/WBEs in order to increase the likelihood that the assigned goals will be achieved. This includes, where appropriate, breaking out contract work items into economically feasible units (for example, smaller tasks or quantities) to facilitate S/M/WBE participation, even when the prime bidder might otherwise prefer to perform these work items with its own forces. This may include, where possible, establishing flexible timeframes for performance and delivery schedules in a manner that encourages and facilitates S/M/WBE participation

Documentation: Written correspondence with the subcontractor's name, address, contact person, and the date of the written notice should be documented. Written notification must be dated and transmitted at least ten business days prior to the bid due date and include verification of transmission date. Such verification may include emails and copies of certified mail return receipts.

Initial Contact Follow-up (15 points)

Effort: The contractor should follow-up on initial solicitations by contacting S/M/WBE subcontractors prior to the bid opening to determine with certainty whether the subcontractors are interested in performing the specific items of work on the project. Such contact shall be within a reasonable amount of time to allow the prospective S/M/WBE subcontractor an opportunity to submit a competitive sub-bid. The content of the initial letter, email, or facsimile should be different for the follow-up correspondence to indicate the additional effort expended to secure bidders.

Documentation: The list of subcontractors that were contacted, including results of that contact, documented by a telephone log, e-mail printout, automated facsimile journal, or fax transmittal documents, is required. The record should include the S/M/WBE's name, telephone number, contacted person, dates of contact, and the outcome.

Identify Items of Work (15 points)

Effort: Bidder is to provide interested S/M/WBE's with adequate information about the plans, specifications, and requirements of the contract in a timely manner, not less than five (5) days, to provide their Sub-Contractor Proposal.

Documentation: The list utilized to define the specific items of work solicited, including the identification process for S/M/WBE firms from which such work was solicited, is required. Documents should be reviewed to determine if the work is specific to that listed in the goal-setting document for the specific work item.

Document 00467: Supplier Diversity Outreach Program Guidelines

Negotiate in Good Faith (15 points)

Effort: The contractor should negotiate in good faith with the S/M/WBE, and not unjustifiably reject bids, quotes, and proposals prepared by the S/M/WBE as unsatisfactory.

Documentation: Written statements of the names, addresses, and telephone numbers of subcontractors contacted by the contractor to negotiate price or services should be submitted. Dates of the negotiations and the results should be included, as well as documentation of the quotes and/or proposals received from S/M/WBEs; and evidence as to why additional Agreements could not be reached for S/M/WBEs to perform the work.

Bonding Requirements (5 points)

Effort: Waive or reduce bonding requirements for subcontractors where possible

Documentation: Copies of Respondent's commitment to waive or reduce bond requirements.

Assist in Financing, Bonding, and Insurance (5 points)

Effort: Where applicable, the contractor should advise and make efforts to assist interested S/M/WBEs in obtaining bonds, lines of credit, or insurance that SBBC requires.

Documentation: Written statements of the type of assistance offered to S/M/WBEs are required. The contractor should provide the name, contact person, and telephone number of the bonding company or financial institution offering assistance.

Acceptability of S/M/WBE Subcontractor Good Faith Efforts Submission:

1. If the SDOP questions the acceptability of the Firm's S/M/WBE subcontractor submissions, the Contractor shall present information to substantiate its compliance with the applicable requirements to SDOP within five (5) consecutive business days.
2. Not later than seven (7) calendar days after the communication with the Contractor, SDOP shall make a written recommendation. Recommendations to reject the Firm's Good Faith Efforts Submission may be submitted to the Director of Procurement & Warehousing Services for review and acceptance. The rejection will result in the Firm's response being deemed nonresponsive.
 - a. For RFQs, in the event, the highest ranked firm is deemed nonresponsive by PWS, District Staff will evaluate and negotiate with the next responsive /responsible firm/
 - b. For Construction Hard Bids, in the event the or lowest bidder is deemed nonresponsive, district staff will evaluate the next responsive / responsible bidder

Calculation of S/M/WBE Subcontractor Participation toward Contract Goal:

For projects utilizing a CMAR project delivery method, exact M/WBE or SBE participation during construction phase will not be known until proposals are received, subcontractors are selected, and the Guarantee Maximum Price (GMP) is developed. Please state the CM's commitment for M/WBE or SBE participation during the construction phase. The Construction Manager (CM) will be obligated to meet this commitment as a condition to gain SBBC approval of the GMP.

S/M/WBE subcontractor participation shall be calculated as follows:

1. Once the SBBC has determined that a firm is an eligible S/M/WBE subcontractor, the total dollar value of the contract awarded to the S/M/WBE subcontractor is counted toward the goal.
2. The SBBC shall count toward the goal only expenditures to S/M/WBE Subcontractors that perform a commercially useful contractual function in the work. An S/M/WBE Subcontractor is considered to perform a useful function when it is responsible for execution of a distinct element of the work of a contract and carrying out the responsibilities by actually performing and supervising the work involved.
3. Consistent with normal industry practices, an S/M/WBE subcontractor may enter into subcontracts. If such an entity subcontracts a significantly greater portion of the work of the contract than would be expected on the basis of normal industry practices to non-S/M/WBE subcontractors, the entity shall not be considered as an S/M/WBE subcontractor.

Issuance of an NTP or ATP:

Provided the Firm submitted the completed forms and information as required by these Guidelines and submitted information to satisfy SDOP that it has met the API or has made good faith efforts to meet the API, an NTP or ATP may be issued.

Requirements and Procedures Subsequent to the Issuance of a NTP or an ATP:

Subcontracts:

After issuance of an NTP or an ATP, the Firm shall submit, executed subcontract agreements corresponding in all respects to its S/M/WBE Subcontractor Utilization Plan (including authorized substitutions).

If there is a change to the S/M/WBE Subcontractor Utilization Plan, the prime contractor/prime consultant shall submit a request for change to EDDC. Only EDDC approved Termination/Deletions/Additions & Substitution of S/M/WBE Subcontractors will be counted towards the committed participation goal.

Termination/Deletions/Additions & Substitution of S/M/WBE Subcontractors:

Changes are not accepted pre-award. Post-award, the School Board Policy 3330 and Section 9 of the Standard Operating Procedures requires that a prime may not deviate from the accepted certified subcontracting team on the project without the written approval of EDDC and Program Manager or designee. The reason for review of such requests is to prevent bid shopping and prevent undue or arbitrary removal of Broward Schools certified small businesses.

1. Termination of a S/M/WBE Certified Firm: A certified firm may not be removed from a subcontracting team without the prior written consent of EDDC and the Program Manager or designee. The acceptance of the request shall be in writing to the requesting prime contractor/prime consultant.
 - a. If a request to delete or substitute a certified firm is granted by EDDC, the prime must replace the removed firm with another M/WBE of at least equal contracting value to the overall project. Failure to do so will result in a notice to cure from EDDC and potentially a notice of violation if the matter is not resolved. The prime

Document 00467: Supplier Diversity Outreach Program Guidelines

contractor/prime consultant is responsible for utilizing good faith efforts to obtain the level of certified participation agreed upon at project inception.

2. Additions, Deletions, & Substitutions: Changes are not accepted pre-award. Post-award, the School Board Policy 3330 requires that a prime may not deviate from the accepted certified subcontracting team on the project without the written approval of the Program Manager or designee. The reason for review of such requests is to prevent undue or arbitrary removal of S/M/WBE certified small businesses.
3. Reasons to request a substitution of S/M/WBEs in a Contractor's S/M/WBE Subcontractor Utilization Plan include, but are not limited to the following:
 - b. Subcontractor is no longer qualified, Subcontractor has unreasonably refused to execute the subcontract agreement without cause, Subcontractor is no longer able to perform the work, Subcontractor materially breaches its subcontract agreement with the contractor.
4. If after a "reasonable" good faith effort measures, the Prime is unable to find a substitute S/M/WBE, a post-award waiver may be requested, which documents the reasons for the contractor's inability to meet the goal requirement. In the event the contractor is found not to have performed good faith efforts to find a suitable substitute for the initial S/M/WBE Subcontractor Utilization Plan (Doc.00485) the contract may, in the District's sole discretion, be terminated for material breach.
 - c. The prime shall make every reasonable effort to propose and enter into an alternative subcontract agreement or agreements for the same work to be performed by other certified S/M/WBE subcontractor(s) for a contract price for such work equal to or less than the price originally scheduled for such work (less all amounts previously paid thereof).
5. Compliance with Contract Goal:

The Contractor shall be deemed to be in continued compliance with the established goal for the S/M/WBE Subcontractor Utilization Plan if the Contractor meets or exceeds the goal established in the S/M/WBE Subcontractor Utilization Plan or if the Contractor's good faith efforts are approved.

6. Monthly Monitoring Report:

The Contractor shall submit a S/M/WBE Monthly Subcontractor Utilization Report as required in section XXX of these guidelines) when the Contractor's agreement with SBBC includes an S/M/WBE Subcontractor Utilization Plan. The S/M/WBE Monthly Subcontractor Utilization Report can be obtained from SDOP.

Should the Contractor fail to comply with the provisions required for monthly reporting requirements, it shall be considered in default of its contract. (See Sanctions and Penalties)

Document 00467: Supplier Diversity Outreach Program Guidelines

Non-Compliance with Contract Goal:

1. Should the Contractor fail to comply with the provisions required by its S/M/WBE Subcontractor Utilization Plan, this shall be considered a material breach and therefore the Contractor shall be considered in default of its Contract.

2. **Compliance Requests for Information; Non-Receipt of Compliance Information**
 - a. The EDDC may request information to assist with producing compliance reviews/reports. Requests for information must be properly titled, sufficiently detailed, printed on letterhead or via internal email (including staff name and contact information), and must have a date for response within five (5) business days or less as determined by compliance staff.

 - b. After efforts to ascertain the information have been exhausted and the information requested has not been provided, the compliance process will proceed with the information on hand. Mention will be made of any missing information, in official correspondence, and the status of the request(s).

Prime/Subcontractor Contract Terms & Conditions

SBBC has adopted School Board Policy 3330 - Supplier Diversity Outreach Program. The provisions of the Policy shall apply to all competitive solicitations for construction, professional services, commodities, and other contractual services and any resulting contract documents, including change orders and amendments.

In keeping with the objective of Policy 3330 and Chapters 9 and 13 of the Standard Operating Procedures, SBBC requires the terms and conditions that are included in the Prime Contractor or Prime Consultant or Prime Vendor's (prime) Agreement between the prime and SBBC be extended in similar or equal capacity in the contracts between the prime and all lower tier subcontractors.

 - Prime shall submit an invoice to the Owner no less frequently than once per month.
 - Invoices submitted by the prime shall include all unpaid line items from subcontractor invoices that are not in dispute.

 - The prime shall deliver payment to subcontractor within five (5) business days after receiving payment from the Owner.
- **Retainage**
 - All retainage of subcontractor fees shall be released no later than three (3) months after (i) work completed and (ii) final invoice submitted by subcontractor unless there is an open dispute related to work covered by retainage.
 - Retainage amount shall be reduced by half after the subcontractor's work is certified as reaching fifty percent (50%) completion.

_____ dollars, \$_____, per day for each and every calendar day of unexcused delay in achieving final completion beyond the date set forth for final completion of the Work.
- .2 Any sums due and payable hereunder by the Construction Manager shall be payable, not as a penalty, but as liquidated damages representing a reasonable estimate of delay damages, inconvenience, additional overhead and costs likely to be sustained by the Owner, as estimated at or before the time of executing this Contract. When the Owner reasonably believes that final completion will be inexcusably delayed, the Owner shall be entitled, but not required, to withhold from any amounts otherwise due the Construction Manager an amount then believed by the Owner to be adequate to recover liquidated damages applicable to such delays.
- .3 Prior to being entitled to receive final payment, and as a condition precedent thereto, the Construction Manager shall provide the Owner, in the form and manner required by Owner, the following:
 - .1 An affidavit that Construction Manager's obligations to all subcontractors, laborers, equipment or suppliers, or other third parties in connection with the Project, have been paid or otherwise satisfied;

ARTICLE 6 GUARANTEED MAXIMUM PRICE FOR CONSTRUCTION

6.1 The Construction Manager shall submit a written Guaranteed Maximum Price (GMP) for Construction to the Owner when the Construction Documents are 100% complete. Work shall not commence prior to the issuance of a Building Permit by the Chief Building Official. This indicates that all mandatory requirements have been met (defined as Building Department code requirements.) Further, all agreed upon comments from all design phases are required to be incorporated into the drawings at this stage. If design review “approval” is withheld, the documents must be resubmitted. The GMP shall guarantee the maximum price for the construction cost of the project or designated part thereof, for phased projects, and shall be approved by the Owner. Such Guaranteed Maximum Price will be subject to modification for changes in the project as provided in Article 27 of the General Conditions. However, the actual price paid for the Work by the Owner shall be the actual cost of all Work subcontracts, supply contracts, direct labor costs, **direct supervision costs**, and direct job costs as defined under Article 26 of the General Conditions, plus the Construction Manager’s fee or the GMP, **whichever is less when the Work is complete. OWNER SHALL NOT BE LIABLE FOR NOR SHALL IT PAY CONSTRUCTION MANAGER ANY SUMS IN EXCESS OF THE GUARANTEED MAXIMUM PRICE. CONSTRUCTION MANAGER AGREES THAT ANY AND ALL SAVINGS BELONG AND REVERT BACK TO THE OWNER.**

- .1 At the time of submission of a GMP, the Construction Manager will verify the time schedule for activities and work which were adopted by the Construction Team and used to determine the Construction Manager’s cost of Work. In addition to the cost of Work, the GMP will include an agreed upon sum as the construction contingency which is included for the purpose of accounting for unforeseen increases or decreases in the construction cost at the time bids are received and approved by the Construction Manager and Owner and/or unforeseen circumstances. The Construction Manager will be required to furnish documentation evidencing expenditures charged to this contingency prior to the release of funds by the Owner. The use of the contingency shall be subject to School Board approval as noted in General Conditions Article 1, Paragraph 1.1.12, if the amount requested exceeds Fifty thousand dollars (\$50,000.00) prior to disbursement to Construction Manager. The use of the contingency where the request does not exceed Fifty thousand dollars (\$50,000.00) shall be subject to the unanimous approval of the Chief Facilities Officer, Director of Construction, Project Manager, and Project Consultant, prior to disbursement to Construction Manager. In the event that there is a disagreement amongst the Construction Manager and the aforementioned staff, the request for use of the contingency shall be determined by the Owner. Documentation for use of the Contingency shall be determined by the Owner, included in the Project Manual and displayed in the monthly applications for payment. The Project Consultant and Owner shall verify actual costs. All Contingency Use Directives (CUDs) arising from the same cause and conditions shall be combined into one (1) CUD whenever possible.
- .2 During the Construction Phase, subsequent to initial buyout procedures conducted in accordance with Article 3.4 of this agreement, an adjustment shall be made by the

Construction Manager every month to increase or decrease the Buyout / Owner's Savings line of the schedule of values for subcontracts awarded during the period. This adjustment is to be supported by a reconciliation including any and all supporting documentation required by the Owner to verify its accuracy.

- .3 All uses of the authorized contingency shall be authorized by Contingency Use Directive approved by the Owner before the contingency use is implemented. Any use of Buyout / Owner Savings shall be authorized by Change Order, approved by the School Board and subject to the provisions of this agreement for Change Orders.
- 6.2 The GMP will only include those taxes in the cost of the project which are legally enacted at the time the GMP is established.
- 6.3 The Construction Manager shall submit the GMP Addendum on the Owner's approved form (Agreement Exhibit A) for approval by The School Board of Broward County, Florida.
- 6.4 **IF THE GMP PROPOSAL IS UNACCEPTABLE TO THE OWNER, OWNER MAY TERMINATE THE CONSTRUCTION MANAGER AS SET FORTH IN ARTICLE 36 OF THE GENERAL CONDITIONS.**

ARTICLE 7 CONSTRUCTION MANAGER'S FEES

- 7.1 In consideration of the performance of the contract, the Owner agrees to pay the Construction Manager as compensation for his services, fees as set forth in Agreement Exhibit B. These fees may later be amended through the incorporation of the GMP.
 - .1 Preconstruction Phase - In the case where preconstruction phase fees are agreed upon and the Construction Manager's GMP is not accepted by the Owner and the Agreement is terminated, the Construction Manager shall be entitled to receive only that portion of the preconstruction phase fees representing all Work performed to date relating to the project. The Construction Manager may request payment for that part of the Contract Price allocable to Contract requirements properly provided during the preconstruction phase.
 - .2 Construction Managers fees – will be applied as a percentage of Cost of Work.
 - .3 Costs for Project General Conditions shall be set as a Lump Sum Cost and shall be included in the GMP. See Article 8 for Application for Payment procedures. Prior to incorporation into the approved GMP, the Construction Manager shall prepare a detailed schedule of General Conditions items and appropriate supporting documentation for review and approval by the Owner and Owner's Representative. The General Conditions listing and supporting documentation shall be provided in a format acceptable to Owner.
 - .4 Fee for Change Orders – In the event that the Owner approves an additive change in the work, the Construction Manager shall receive from the Owner Overhead and Profit, at the percentage of the cost of the work of the change order agreed upon in the GMP. This amount shall be the

Construction Manager's exclusive remedy for such changes in the Work. In the event that the Owner approves a deductive change order for a reduction in the scope of work, the Construction Manager shall deduct Overhead and Profit at the percentage of the cost of work deducted in the change order.

**ARTICLE 8
PAYMENTS TO THE CONSTRUCTION MANAGER**

- 8.1 Schedule of Values:
 - .1 Before the first Application for Payment for the Work, the Construction Manager shall submit to Owner a schedule of values allocated to various portions of the Work. Construction Manager's Schedule of Values shall be prepared in such form, with such detail, and supported by such data as Owner may, at its option, require. Construction Manager shall not front-end load its Schedule of Values and shall not imbalance its Schedule of Values. The allocated value of each item in the Schedule of Values shall only include its total cost. The Schedule of Values shall be used only as a basis for Construction Manager's Applications for Payment and shall only be so used after it has been approved in writing by Owner.
 - .2 The Construction Manager shall maintain and update the Schedule of Values originally provided to the Owner with the GMP Addendum, as modified for approved Buyout Savings.
 - .3 The Construction Manager's Schedule of Values apportions the GMP among the different

elements of the required Work for purposes of periodic and final payments and shall be submitted as detail in support of the Contractor's monthly Application for Payment.

- .4 The Schedule of Values shall be presented with such detail, and supported with whatever information the Owner reasonably requests as addressed in Article 8.5 of this Agreement.
- .5 The Construction Manager shall not imbalance its Schedule of Values nor artificially inflate any element thereof.
- .6 The Construction Manager shall supply a Schedule of Values as reflected in his CPM schedule to the OWNER. The Schedule of Values shall be updated monthly, only to reflect all subcontracts, buyouts, approved change orders and change directives.
- .7 No payments shall be made to the Construction Manager prior to the receipt of all insurance policies that are required by this agreement and the work being performed.
- .8 In addition to all other conditions precedent contained herein, it shall be a condition precedent to payment of any Application for Payment that (i) Construction Manager have submitted updated schedules for the performance of its Work and Design Services as required by this Agreement, and (ii) Construction Manager shall have furnished to Owner, if required by Owner, other data establishing payment or satisfaction of obligations, such as receipts, releases and waivers of bond, claims, security interests or encumbrances arising out of the Contract Documents, to the extent and in such form as may be designated by Owner. If a Subcontractor refuses to furnish a release or waiver required by Owner, Owner, at Owner's discretion, may permit Construction Manager to furnish a bond satisfactory to Owner in lieu of such release or waiver indemnifying Owner against such claim. If such claim remains unsatisfied after payments are made, Construction Manager shall refund to Owner all money that Owner may be compelled to pay in discharging such claim, including all costs and reasonable attorneys' fees.
- .9 Withholding Payment. Owner may appropriately adjust Construction Manager's Applications for Payment if Owner reasonably believes that any portion of the Work has not progressed to the point indicated in Construction Manager's Application for Payment, if adequate supporting documentation is not provided as addressed in Article 8.5 of the Agreement, or the quality of the Work covered is not in accordance with the Contract Documents. In addition, Owner may decide not to pay Construction Manager an appropriate amount because of subsequently discovered evidence or subsequent observations, to the extent necessary to protect itself from loss, because of but not limited to: (i) defective Work of which the Construction Manager has knowledge; (ii) third party claims filed or evidence indicating the filing of such claims; (iii) failure of the Construction Manager to make payments to Subcontractors or others for labor, materials or equipment pursuant to Construction Manager's contracts with such persons or entities; (iv) evidence that the Work cannot be completed for the unpaid balance of the Guaranteed Maximum Price allocable to the Work; (v) damage to Owner or another contractor, caused by Construction Manager or its subcontractors, and not paid by Construction Manager's insurance; (vi) evidence that the Work will not be completed by the Scheduled Final Completion Date, as the same may be adjusted by Modification and that the unpaid balance would not be adequate to cover actual

or liquidated damages for the anticipated delay; or (vii) persistent failure to carry out the Work in accordance with the Contract Documents.

- 8.2 Prompt Payment Act – Payments to the Construction Manager will be made pursuant to the Contract Documents and the Local Government Prompt Payment Act, Chapter 218, Florida Statutes, and any subsequent amendments thereto (“Prompt Payment Act”). To the extent that the provisions of Contract Documents differ with the requirements of the Prompt Payment Act, the provisions of the Prompt Payment Act will govern.
- 8.3 On or before the 25th day of each month after commencement of performance, but no more frequently than once monthly, the Construction Manager may submit an Application for Payment for the period ending the last day of the previous month or other pay period as mutually defined and agreed to by the Construction Manager and Owner.
- 8.4 Said Application for Payment shall be in the format required in the Specification 01290 and include whatever supporting information as may be required by the Owner. Except for Applications for Payment for Design Services and pre-construction services, retainage shall be withheld from each monthly payment request, in an amount not to exceed ten percent (10%) of the approved payment. Pursuant to the requirements of Florida Statutes Section 255.078 (5), upon fifty percent completion, the retainage withheld from future payment applications will be reduced to five percent until the project has reached final completion and accepted by the Owner. Owner may, in Owner’s sole discretion, upon written request of Construction Manager, release portions of the retainage allocable to portions of the Work, which have been finally completed prior to Final Completion for all of the Work. Retainage shall be withheld and released in accordance with Section 218.70, as amended, Florida Statutes, Local Government Prompt Payment Act Retainage shall not be withheld on fees as set forth in Article 7.1.
- 8.5 Applications for Payment shall be notarized and supported by such data substantiating Construction Manager’s right to payment as Owner may reasonably require. This shall include, but not be limited to invoices, subcontractor pay applications, subcontractor releases of lien, buyout savings reconciliation, allowance usage log, contingency usage log, and other documents as required by Owner. The format of the Application for Payment shall be the American Institute of Architects G702© certified and notarized by the Construction Manager and supported by the American Institute of Architects form G703© which shall agree to the schedule of values as described in this agreement. The Construction Manager’s final acceptance of the supportability and allowability of the charges submitted in the applications for payment is not inferred through the approval and signature of each monthly pay application that includes the referenced charges.
- 8.6 Each Application for Payment shall be signed by the Construction Manager and shall constitute the Construction Manager’s representation that the quantity of Work has reached the level for which payment is requested, that the Work has been properly installed or performed in strict compliance with the requirements of the Contract Documents, that the costs being billed have actually been incurred and that the Construction Manager knows of no reason why payment should not be made as requested.
- 8.7 Thereafter, the Owner shall:

- .1 Review the Application for Payment and review the Work at the Project site or elsewhere to determine whether the quantity and quality of the Work is as represented in the Application for Payment and is as required by the Contract Documents.
 - .2 Approve in writing the amount which, in the opinion of the Owner, is properly owing to the Construction Manager.
- 8.8 The amount of each such payment shall be the amount approved for payment by the Owner less such amounts, if any, otherwise owing by the Construction Manager to the Owner or which the Owner shall have the right to withhold as authorized by the Contract Documents.
 - 8.9 The submission by the Construction Manager of an Application for Payment also constitutes an affirmative representation and warranty that all Work for which the Owner has previously paid is free and clear of any lien, or other encumbrance by any person whatsoever.
 - 8.10 As a condition precedent to partial payment, the Construction Manager shall, as required elsewhere in the Contract Documents and as required by the Owner, also provide to the Owner documents relating to the Project, including but not limited to, updated schedules and daily logs, and/or properly executed documents reflecting that all subcontractors, materialmen, suppliers or others having rights, have acknowledged receipt of all sums due pursuant to all prior Payment Requests.
 - 8.11 Furthermore, the Construction Manager warrants and represent that, upon payment of the Payment Request submitted, title to all Work included in such payment shall be vested in the Owner.
 - 8.12 Not Used
 - 8.13 When payment is received from the Owner, the Construction Manager shall pay all subcontractors, materialmen, laborers and suppliers the amounts justly due for all Work covered by such payment in accordance with Section 218.70, as amended, Florida Statutes, Local Government Prompt Payment Act. In the event such payments are not made in a timely manner the Owner may, in its discretion, invoke reasonable procedures in order to protect Owner's interest or Owner's desire to assist in having subcontractors, laborers, suppliers, materialmen or others paid. By the Owner invoking reasonable procedures, it shall not relieve the Construction Manager of its responsibilities for payments under the contract.
 - 8.14 It is mutually agreed that any payments made under this Contract, including but not limited to final payment, shall not constitute acceptance of defective or improper materials or workmanship nor shall same act as a waiver or release of future performance in accordance with the Contract Documents.
 - 8.15 Final Payment. Construction Manager's application for final payment shall be accompanied by a completed and notarized Certificate of Contract Completion. Any items required by the Contract Documents not previously submitted shall accompany the Application for Final Payment. Neither final payment nor amounts retained, if any, shall become due until Construction Manager submits to Owner: (i) an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which Owner or Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied or shall be paid from funds received from Owner; (ii) a certificate evidencing that insurance required by the

Contract Documents to remain in force after final payment is currently in effect and will not be canceled or allowed to expire until at least thirty (30) days' prior written notice has been given to Owner; (iii) a written statement that the Construction Manager knows of no substantial reason that the insurance will not be renewable to cover the period required by the Contract Documents; (iv) consent of surety, if any, to final payment and (v) a final accounting of the Cost of Work. Acceptance of final payment shall constitute a waiver of all claims by Construction Manager.

- 8.16 Within seven (7) days of receipt of payment from the Owner, Construction Manager shall pay each Subcontractor, the amount to which said subcontractor is entitled, reflecting the percentage actually retained, if any, from payment to Construction Manager on account of such Subcontractor's work. The Construction Manager will, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in a similar manner.
- 8.17 Final payment may be made to certain select subcontractors whose work is satisfactorily completed prior to the total completion of the Project but only upon approval of the Owner in writing.
- 8.18 Withholding Payments to Subcontractors. The Construction Manager shall not withhold payments justly due to subcontractors if such payments have been made to the Construction Manager. Should this occur for any reason, the Construction Manager shall immediately return such monies to the Owners, adjusting pay requests and project bookkeeping as required. Payments to subcontractors shall comply with Section 218.70, as amended, Florida Statutes, Local Government Prompt Payment Act.
- 8.19 Warranty Payments. To the extent a percentage of Construction Manager's fee or a dollar amount is due for services rendered during the warranty phase, Construction Manager shall receive 50% of said fee if the six (6) month warranty inspection work is satisfactorily completed and the balance due if the eleventh (11th) month warranty inspection work is satisfactorily completed.
- 8.20 Delayed Payments by Owner. Payments will comply with Section 218.70, Florida Statutes, and other relevant provisions of the Local Government Prompt Payment Act, as amended.
- 8.21 Underpayment by Construction Manager. If, in the performance of the Agreement, there is underpayment of moneys due from Construction Manager to consultants, Subcontractors, materialmen, laborers or suppliers, Owner may, at its option, withhold from Construction Manager, out of payments due it, an amount sufficient to pay to consultants, Subcontractors, materialmen, laborers or suppliers underpaid the difference between the amounts required to be paid to such consultants, Subcontractors, materialmen, laborers or suppliers and the amounts actually paid. The amounts withheld shall be disbursed by Owner to the respective consultants, Subcontractors, materialmen, laborers or suppliers to whom they are due, provided Owner shall consult with Construction Manager before disbursing such amounts to determine whether there are any outstanding disputes between Construction Manager and such persons or entities justifying the withholding of such amounts.
- 8.22 Right to Require Documentation and Audit. Owner may, as deemed necessary, require from the Construction Manager, support and documentation for any submission, including but not limited to applications for payment. Upon execution of this Agreement, the Construction Manager agrees that Owner shall have unrestricted access during normal working hours to all of Construction Manager's records relating to this project including but not limited to hard copy as well as electronic records for a period of three years after final completion.

This Article describes the procedures by which this program will be implemented and administered if the Owner subsequently determines to do so. Pursuant to these procedures, Owner may order and pay for all such purchases, as well as take title to all such purchases, directly from the supplier or manufacturer.

At the time the GMP is established, but not later than concurrently with submission of the required Schedule of Values, Owner, Owner's Representative, and Construction Manager shall endeavor to identify the specific items and the estimated costs of the potential Owner Direct Purchases ("ODP"). Construction Manager shall identify a separate line item cost for each potential ODP item. Construction Manager must clearly and separately identify any contingency or allowance amount associated with any ODP line items. The GMP must include the total cost of the Work, including the cost of the ODP items and their associated sales taxes.

Based upon its review of the Contract Documents, Construction Manager shall recommend potential ODP items to Owner and Owner's Representative. After reviewing the Construction Manager's recommendations and the applicable Contract Documents, and after consultation with the Owner's Representative, Owner shall make the final determination as to which items, if any, will be purchased as ODP items.

20.3 After Owner identifies the ODP items, Construction Manager shall prepare a standard purchase order requisition on a purchase order form provided by Owner, to specifically identify the materials which Owner has elected to purchase directly. The purchase order requisition form shall include the following information:

1. Project Name;
2. Construction Manager Name;
3. Manufacturer/Supplier Name;
4. Name, address, telephone number and contact person for Manufacturer/ Supplier;
5. Manufacturer or brand model or specification number of the item;
6. The quantity and unit of measure needed as estimated by Construction Manager;
7. The price quoted by the Manufacturer/Supplier for the materials or equipment identified;
8. All sales tax associated with the price quote;
9. Delivery address;

10. Delivery dates;
11. Delivery instructions;
12. Vendor identification number;
13. Mailing address for invoices.

All purchase order requisitions prepared by Construction Manager must be sent to Owner's Office of Facilities & Construction, with a copy to the Owner's Representative, and they must be expressly approved by Owner before they will be sent by Owner to the applicable Manufacturer/Supplier. In preparing the standard purchase order requisition, the Construction Manager shall include all terms and conditions, which may have been negotiated by the Construction Manager with the Manufacturer/Supplier {e.g. payment terms, warranties, etc.}. To the extent any such terms or conditions differ from the standard terms and conditions included in Owner's standard purchase order requisition form, such differences must be specifically identified to Owner by the Construction Manager at the time the Construction Manager forwards the requisition to Owner for its review. All shipping expenses associated with any ODP item (including all freight insurance) must be included in the cost of that item and not charged as a separate item.

All purchase order requisitions prepared by Construction Manager must be submitted to Owner and Construction Manager no less than twenty-one (21) calendar days prior to the need for the ordering of the subject ODP item, in order to provide sufficient time for their review. Construction Manager is responsible for ensuring that all necessary attachments to the purchase order requisition {e.g., shop drawings, details, specification sheets, etc.} required to properly place the order with the Manufacturer/Supplier, have been attached to the purchase order requisition at the time it is sent to Owner for their review. Once approved by Owner, Owner shall forward the completed purchase order requisition, with all attachments, to the Manufacturer/Supplier, with a copy to Construction Manager.

The Owner shall take title to ODP items from the Manufacturer/Supplier at the time of purchase or delivery, as applicable, according to the terms of purchase and delivery. The Owner assumes the risk of loss with respect to ODP items in that it bears the economic burden of insurance for loss or damage, and directly enjoys the economic benefit of proceeds of such insurance as an additional named insured.

- 20.4 As ODP items are delivered to the job site, the Construction Manager shall visually inspect all shipments from Manufacture/Suppliers, and approve the vendor's shipping record for material delivered. The Construction Manager shall assure that each delivery of an ODP item is accompanied by the appropriate documentation to adequately identify the purchase order number against which the purchase is made and to confirm that the correct type and quantity of the ODP item has been delivered in the appropriate condition. The Construction Manager's approval will include a legible signature (printed) of the person who inspected the delivered items, dated as of the date of delivery.

All invoices from the Manufacturer/Supplier must be directed and sent to Owner's Representative and Owner's Office of Facilities & Construction via the Construction Manager. It is the responsibility of the Construction Manager to review all such invoices and confirm their correctness before forwarding them on to the Owner's Representative and Owner for processing and payment. The Construction Manager shall verify in writing to Owner the accuracy of the invoice in relation to the delivery ticket and the ODP items actually delivered. The Construction Manager shall obtain from the Manufacturer/Supplier all releases, warranties and other necessary supporting documentation which may be required by Owner and shall insure that all such

releases, warranties and supporting documentation have been attached to the invoice before forwarding the invoice to Owner for processing and payment. The Construction Manager also is responsible for obtaining from the Manufacturer/Supplier all operating information and manuals, spare parts and all other items required to be provided by the Manufacturer/Supplier. The Construction Manager shall review all such items for compliance with the requirements of the Contract Documents and shall organize and deliver all such items to Owner as part of its requirements for achieving Substantial Completion of the Work.

Each month the Construction Manager, Owner and the Owner's Representative shall review the ODPs that have been delivered and paid for during that month. Construction Manager's shall prepare a log of ODPs, showing the amount equal to the value of any ODPs, including sales taxes, paid for by Owner. At a time of its choosing, but prior to completion of the Work, Owner shall prepare an appropriate Change Order, for Construction Manager's execution, which reduces the Contract Sum by the total cost paid by Owner for the ODPs, together with the amount of sales tax savings that have been realized as a result of Owner Direct Purchases. Further, the Change Order shall deduct from the GMP any remaining contingency or allowance balance associated with the subject ODP item.

Nothing in this Article 20 relieves the Construction Manager from its responsibility for the requisitioning of the order, scheduling, coordinating, insuring, delivery, unloading, storage, installation, repair, operation and warranty of all ODP items. All such obligations remain the responsibility of the Construction Manager and have been pay for by Owner as a part of the Contract Price (which always included these responsibilities and obligations) as fully as if there had been no Owner ODP purchase whatsoever.

In witness thereof, the said _____ (Construction Manager), and

the Owner, The School Board of Broward County, Florida have caused this Agreement to be executed and their corporate seal affixed by and through their proper offices, thereunto duly authorized, on this day and year first above written.

WHEREAS, the Owner and the Construction Manager have agreed to amend the Agreement in the manner set forth herein.

NOW, THEREFORE, in consideration of the mutual promises and covenants contained herein, in the Agreement and the other Contract Documents and for such other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Owner and the Construction Manager do hereby agree as follows:

1. This GMP Amendment is executed in connection with, and is deemed to be a part of the Agreement and the Contract Documents. Wherever the terms of this GMP Amendment and the terms of the Contract Documents are in conflict, the terms of this GMP Amendment shall govern and control. The terms used herein, unless otherwise defined in this GMP Amendment, shall have the meanings ascribed to them in the Contract Documents.
2. The following are hereby incorporated into the Contract Documents and made part thereof:
 - a. The drawings listed on **Attachment I** attached hereto, which drawings are made a part of the Contract Documents by this reference (the “Drawings”); and
 - b. The specifications listed on **Attachment II** attached hereto, which specifications are made a part of the Contract Documents by this reference (the “Specifications”).
 - c. Those documents listed on **Attachment III**, Additional Contract Documents, attached hereto, are made a part of the Contract Documents by this reference.
3. The entire Scope of the Work for the Project is hereby incorporated into the work.
 - .1 The **Date of Commencement** for the construction shall be: _____ .
The Construction Manager shall achieve Substantial Completion of the entire Work not later than _____ calendar days from the Date of

Commencement (the “Contract Time”) and final completion not later than _____ calendar days from the date of Substantial Completion. Failure to meet either the Substantial Completion or Final Completion dates shall be a material breach of this Agreement.

.1 The Owner and the Construction Manager acknowledge and agree that the Owner will suffer damages if the Construction Manager fails to achieve Substantial Completion of the entire Work, as defined in the Contract Documents, on or before the expiration of the Contract Time, which damages are difficult, if not impossible, to ascertain with any degree of certainty. Accordingly, if the Construction Manager fails to achieve Substantial Completion of the entire Work for this Project on or before the expiration of the Contract Time, liquidated damages (which are not intended as a penalty) shall be assessed against the Construction Manager in an amount of five hundred dollars (\$500) per calendar day.

.2 To the extent that the Contract Documents include specific provisions for liquidated damages to be applied separately for any Phase, Building or other portion of the Work prior to the required completion date or within the Contract Time for the entire Project, such liquidated damages shall be assessed based on the required completion dates and construction time durations set forth in the approved schedule for each such separate portion of the Work.

.3 The Guaranteed Maximum Price for the Project is hereby guaranteed by the Construction Manager not to exceed the sum of _____ (the “Project GMP”),

based upon the entire Scope of Work as described in the Contract Documents, including, but not limited to, the Drawings and the Specifications, subject only to additions and deductions by Change Order or Construction Change Directive, as provided in the Contract Documents. The GMP is more particularly itemized in the Schedule of Values prepared in accordance with the terms of the Agreement, which Schedule of Values is attached hereto and made a part of the Contract Documents by this reference. Included in the Schedule of Values and specifically identified herein, the contingency included in this guarantee maximum price is the amount of _____.

.4 Whether or not the Construction or Contract Documents enumerated in the Attachments to this GMP Amendment have actually been completed to the level of 50% or 100% as defined by this Agreement, the Guaranteed Maximum Price includes all Work reasonably inferable from such Construction and Contract Documents, the documents referenced in section paragraph 1.4 of the Construction Manager At-Risk Agreement and all responses issued by the Design

Consultant to CM's bidding inquiries and requests for information, as necessary to deliver a fully completed and finished working Project. To the extent there exists a conflict between the Construction and Contract Documents and any of the other aforementioned reference documents, the item of higher price, quantity or quality shall be included in the Guaranteed Maximum Price, without use of any Contingency.

- .5 Procedures and expenditures related to use of any Contingency and any Allowances included in this GMP shall comply with CMAR Agreement Section 6.1.1, Specification Section 01250 respectively, and all provisions of such documents are incorporated into and made a part of this Contract.
- .6 Procedures and expenditures related to direct purchases of materials by the Owner for this Project shall comply with Specification Section 01295, and all provisions of such documents are incorporated into and made a part of this Contract.

The Construction Manager warrants and represents that the salary and wage schedule includes the lowest comparable market rates (including any and all benefits, contributions and insurance) charged by the Construction Manager for comparable contracts to other businesses and individuals for similar services, and that such rates are not higher than the standard paid at the

place of this Project.

- .11 The Construction Schedule for this Project is set forth on **Attachment V**, attached hereto and made a part hereof by this reference. The final accepted schedule for construction as required in the Construction Manager At-Risk Agreement and included in this GMP Amendment shall not be construed as the Detailed Initial or Baseline Schedule as set forth in the General Conditions of the Contract for Construction which schedule shall be prepared by the CM and separately submitted for review and approval after approval of the GMP Amendment by the Owner, as set forth in the General Conditions of the Contract for Construction.

- 23.6 In such event, the Contract Price shall be reduced, at Owner's option, by the greater of (i) the reasonable costs of removing and correcting the defective or nonconforming work, or (ii) the difference between the fair market value of the Project as constructed and the fair market value of the Project had it not been constructed in such a manner as to include defective or nonconforming work.
- 23.7 If the remaining portion of the unpaid Contract Price, if any, is insufficient to compensate the Owner for the acceptance of defective or nonconforming work, the Construction Manager shall, upon written demand from the Owner, pay the owner such remaining compensation for accepting defective or nonconforming work.

ARTICLE 24 SUBCONTRACTS

- 24.4 The Owner may at any time request from the Subcontractors, or any of them, a sworn statement of account with the Construction Manager and the Construction Manager shall cause to be included in all

Subcontracts a requirement that the Subcontractors provide said sworn statement upon Owner's request.

- 24.5 Each Subcontractor and supplier must agree to assign all of its warranties to Owner. In addition each Subcontractor and supplier must warrant all of its Work, equipment, materials and labor to Owner in accordance with the terms and provisions of its contractual obligations to Construction Manager and any legal or statutory provisions that apply to its work, materials or equipment.
- 24.6 Owner may at its discretion require Construction Manager to have major sub-subcontractors or suppliers comply with the requirements of this Article or other provisions of the Contract Documents.
- 24.7 Any disputes which may arise in this connection between the Construction Manager and any Subcontractor must be settled between the parties concerned and the Owner will not undertake, nor be in any way responsible for, the settlement of such disputes.

 - .05 Each subcontract shall require that any claims by subcontractor must be submitted to Construction Manager within the time and in the manner in which the Construction Manager must submit such claims to the Owner, and that failure to comply with the conditions for giving notice and submitting claims shall result in the waiver of such claims.
- 24.10 Responsibilities for Acts and Omissions - The Construction Manager shall be responsible to the Owner for the acts and omissions of his employees and agents and his subcontractors, their agents and employees, and all other persons performing any of the work or supplying materials under a contract to the Construction Manager.

He shall negotiate all change orders, field orders and request for proposals, with all affected subcontractors and shall review the costs of those proposals and advise the Owner of their validity and reasonableness, acting in the Owner's best interest prior to requesting approval of each change order from the Owner. Before any work is begun on any change order, a written authorization from the Owner

must be issued. However, when health and safety are threatened, the Construction Manager shall act immediately to remove the threat to health and safety.

- Roofing
- Shell Contractor

.01 If the value of a subcontract listed above is below \$200,000, the Subcontractor Bonding requirement for that respective subcontract may be waived by the Owner, at its sole discretion, for M/WBE Subcontractors participating in the Owner's M/WBE Subcontractor Programs as described elsewhere in the Contract Documents. The Construction Manager may bond any subcontractor whose contract exceeds \$100,000.00 which shall be an expense to the Owner if approved in writing by the Owner.

.02 The respective performance and payment bonds shall:

- a) Require the Surety to perform the Subcontract and to pay all bills and invoices for labor done and materials provided in the performance of the Work, including any guarantee or warranty period provided for in the Contract Documents.
- b) Be on the forms as provided by the Owner. No other forms will be acceptable.
- c) Executed under corporate seal of the surety and countersigned on the part of the surety by a qualified resident agent of the company or any attorney-in-fact. - d) In case of default or other proceedings on the part of the Subcontractor, actions for all expenses incident to ascertaining and collecting losses under the bond, including reasonable attorney's fees for same, shall be covered by the bond.

**ARTICLE 26
COST OF WORK**

26.1 Definition - The term Cost of Work shall mean direct costs necessarily incurred in the Project during the Construction Phase for Construction services, paid by the Construction Manager less any reimbursement for scrap value and cash or trade discounts. Cost of Work does not include those fees and other costs set forth in Article 25. Cost of the Work shall include the items set forth below in this Article.

THE OWNER AGREES TO PAY THE CONSTRUCTION MANAGER FOR THE COST OF WORK AS DEFINED IN THIS ARTICLE. SUCH PAYMENT SHALL BE IN ADDITION TO THE CONSTRUCTION MANAGER'S FEES STIPULATED IN ARTICLE 25 OF THE GENERAL CONDITIONS.

26.2 Direct Cost Items

- .01 Payments due to subcontractors from the Construction Manager or made by the Construction Manager to subcontractors for their work performed pursuant to contract under this Agreement.
- .02 Construction Manager supplied heavy equipment used on the project shall be priced for contractor owned equipment, the "bare" equipment rental rates allowed to be used for pricing change order proposals shall be 75% of the monthly rate listed in the most current publication of The AED Green Book divided by 173 to arrive at a maximum hourly rate to be applied to the hours the equipment is used. Further, for contractor owned equipment, the aggregate equipment rent charges for any single piece of equipment used in any change order work shall be limited to the fair market value of the piece of equipment when first brought on to the job site. Fuel necessary to operate the equipment will be considered as a separate direct cost. Maintenance and Repairs on owned equipment are reimbursed through the rental rate.

EXCEPTION: Tools and equipment with a cost less than \$1,000 shall be considered part of the Construction Manager's General Conditions and shall not be considered to be part of Project

Costs.

- .03 Not Used
- .04 Cost including transportation and maintenance of all materials, supplies, equipment and tools not owned by the workmen, which are employed or consumed in the performance of the work. Charges for material shall be the Construction Manager's net actual cost for the purchase of the material required to complete the Work. A reasonable allowance shall be made for waste and scrap. All materials purchased that exceed the quantities required to complete the work shall be returned or sold for scrap, with the proceeds credited to the Owner. Credits for cost reductions available to the Construction Manager due to trade discounts, free material credits, and/or volume rebates will accrue to the benefit of the Owner. Cash discounts available on material purchases shall be credited to Owner if the Construction Manager is provided Owner funds in time for Construction Manager to take advantage of any such cash discounts. The Construction Manager is required to notify the Owner should the cash discount on a particular purchase equal or exceed \$1,000, to allow the Owner the opportunity to participate in the cash discount.
- .05 Rental charges on all necessary machinery and equipment, exclusive of hand tools used at the site of the Project, including installation, repairs and replacements, dismantling, removal, costs of lubrication, transportation and delivery costs thereof which are used in the support of a subcontractor or the Construction Manager's own forces in the performance of the work, at rental charges consistent with those prevailing in the area.
 - a) Proposed rental rates and related fair market values for Contractor owned (affiliate owned, subsidiary owned, or related party owned) equipment shall be submitted to and approved by Owner prior to being used in connection with the Work. The projected usage for each piece of equipment proposed to be rented, and estimated total rentals shall be submitted for approval in advance in a form satisfactory to Owner so that an appropriate lease versus buy decision can be made.
 - b) Equipment rented from third parties shall be priced at the net actual rental cost, considering all trade and other discounts available to the Construction Manager. Costs of third party or rental equipment supplier insurance shall be declined and the insurance of such equipment shall be under the insurance program for the entire project. Each piece of equipment to be rented shall have hourly, daily, weekly, and monthly rates submitted to and approved by Owner in advance before equipment rental charges will be considered reimbursable.
 - c) The reimbursable equipment rental rates shall not exceed 75% of the published rates based on the latest edition of "Rental Rates and Specifications" published by the Associated Equipment Distributors (AED). If the AED publication does not contain information related to the type of equipment rented, the Owner and Contractor will use the applicable portions of the latest edition of the Army Corps of Engineers equipment rental rate guide (Construction Equipment Ownership and Operating Expense Schedule exclusive of the costs for fuel, filters, oil and grease) to mutually agree in advance on hourly, daily, weekly, and monthly rental rates to use during the project. If these two reference sources do not contain specific listings for pieces of equipment to be rented, the two parties may mutually agree to reimburse the Contractor up to 75% of the current competitive rental rates from local third party equipment rental companies.
 - d) The aggregate rentals chargeable for each piece of Contractor owned tools or equipment shall not exceed 75% of the fair market value of such equipment at the time of its commitment to

the Work. The original purchase price and date of purchase of the equipment will be documented with a copy of the purchase invoice and submitted to the Owner along with a proposed fair market value in accordance with the procedure outlined above. The fair market values to be used for purposes of this contract clause will be subject to advance written approval of the Owner. Such aggregate limitations will apply and no further rentals shall be charged even if a piece of equipment is taken off the job and is later replaced by a similar piece of equipment. For purposes of computing the aggregate rentals applicable to aggregate rental limitations, rental charges for like pieces of equipment will be combined if the pieces of equipment were not used at the same time.

- e) Fair market value for used material and equipment as referred to in this contract shall mean the estimated price a reasonable purchaser would pay to purchase the used material or equipment at the time it was initially needed for the job. Note: This is usually lower than the price a reasonable purchaser would pay for similar new construction material or construction equipment.
 - f) Rental charges for equipment which is not owned by Contractor or any of its affiliates, subsidiaries, or other related parties and is rented from third parties for use in proper completion of the Work shall be considered reimbursable, will be reimbursable at actual costs, as long as rental rates are consistent with those prevailing in the locality. Arrangements such as rent-to-own shall be made known to and shall accrue to the benefit of the Owner. Any and all equipment acquired during this project due to a rent-to-own arrangement shall be the property of the Owner. At the conclusion of the project any of this equipment may, at the discretion of the Owner, be sold to the Construction Manager or others at a price to be negotiated at that time.
 - g) All losses resulting from lost, damaged or stolen tools and equipment shall be the sole responsibility of the Contractor, and not the Owner, and the cost of such losses shall not be reimbursable under this contract except as covered by insurance procured for the work
 - h) The Contractor shall be required to maintain a detailed equipment inventory of all job-owned equipment (either purchased and charged to job cost or job-owned through aggregate rentals) and such inventory shall be submitted to the Owner each month. For each piece of equipment, such inventory should contain at a minimum (1) original purchase price or acquisition cost (2) acquisition date (3) approved FMV at the time the piece of equipment was first used on the job and (4) final disposition. At the completion of the project, the Contractor shall transfer title and possession of all remaining job-owned equipment to the Owner, or at Owner's option, Contractor may keep any such equipment for an appropriate credit to job cost, which will be mutually agreed to by Owner and Contractor.
 - i) All costs incurred for minor maintenance and repairs shall be reimbursed at actual cost. Such costs include routine and preventative maintenance, minor repair and other incidental costs. Repairs and/or replacement of a capital nature are considered to be covered by the rental rates. Major repairs and overhauls are not considered routine and ordinary, consequently such costs are not reimbursable and are intended to be covered by the rental rates.
- .06 No costs shall be paid by the Owner to the Construction Manager for any expenses made necessary to correct defective workmanship or to correct any work not in conformance with the Plans and Specifications or to correct any deficiency or damage caused by negligent acts by the Construction Manager.

- .07 If pre-approved by the Owner in writing, the Construction Manager, when qualified, may perform all or a portion of the work for any item listed on the estimate or GMP Schedule of Values breakdown where it is deemed advantageous due to schedule or economic benefit. Bidding, documentation, and reimbursement of self-performed work is subject to the provisions outlined in Articles 3.4.9 and 3.5.4 of the Agreement.

Any personal computer applications and related costs or remote job entry data functions and related costs which will be incurred by personnel at the job site must receive advance written approval from the Owner to be considered a reimbursable cost, otherwise the associated cost will not be paid.

- .08 Costs of subcontractors bonds not required by this agreement or approved in writing by Owner.

Deductibles paid by Construction Manager on any insurance claim will not be reimbursed unless the loss could not have been reasonably avoided by Construction Manager and/or all subcontractors had it reasonably performed all contractual safeguards.
- .10 Costs due to negligence or willful misconduct of the Construction Manager, Subcontractors, or suppliers or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable.

 - .20 Costs of accelerating the Work to the extent caused by the negligence or default of the Contractor or any subcontractor of any tier.
- 26.4 Any non-reimbursable cost(s) line item that inadvertently is included in a Cost of Work item and appears on the approved Cost of Work Schedule of Values Application for Payment forms shall be removed immediately and any payment made to the CM of this line item shall be reimbursed to the Owner upon being identified on the subsequent Payment Application.

ARTICLE 27
CHANGE ORDERS AND CONSTRUCTION CHANGE DIRECTIVES

- 27.1 The Owner, without invalidating this Agreement, may order Changes in the Project within the general scope of this Agreement consisting of additions, deletions or other revisions, the GMP, and the Construction Completion Date, being adjusted accordingly. All changes in the Project shall be authorized by Change Order (CO) or Construction Change Directive (CCD) signed by the Owner before the change is implemented.
- 27.2 A Change Order or Construction Change Directive is a written order to the Construction Manager signed by the Owner issued after the execution of this Agreement, authorizing a Change in the Project, the Construction Manager's fees, or the Construction Completion date. Each adjustment in the GMP

- 27.3 If none of the methods set forth in General Conditions Exhibit C is agreed upon, the Construction Manager, provided he receives a written Construction Change Directive signed by the Owner, shall promptly proceed with the Work involved. The cost of such Work shall then be determined on the basis of the reasonable expenditures and savings of those performing the Work attributed to the change. However, in the event a Construction Change Directive is issued under these conditions, the Project Consultant will establish an estimated cost of the work and the Construction Manager shall not perform any work whose cost exceeds that estimate without prior written approval by the Owner. In such case, the Construction Manager shall keep and present, in such form as the Owner may prescribe, an itemized accounting together with appropriate supporting data of the increase in the Cost of Work as outlined in Article 26 of the General Conditions. The amount of decrease in the Guaranteed Maximum Price to be allowed by the Construction Manager to the Owner for any deletion or change which results in a net decrease in cost will be the amount of the actual net decrease.
- 27.4 The cost of the Change in work shall be computed in accordance with General Conditions Exhibit C.
- 27.5 Should concealed conditions encountered in the performance of the Work below the surface of the ground or should concealed or unknown conditions in an existing structure be at variance with the conditions indicated by the Drawings, Specifications, or Owner furnished information or should unknown physical conditions below the surface of the ground or should concealed or unknown conditions in an existing structure of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Agreement, be encountered, the Guaranteed Maximum Price and the Construction Completion date shall be equitably adjusted by Change Order upon a request for Change Order in accordance with General Conditions Exhibit C.
- 27.6 Claims For Additional Construction Costs or Time - All claims for additional costs or time shall be made by request for a change order submitted as provided in Article 27 of the General Conditions. Additional time shall be considered only if the approved CPM critical path is impacted by the change.
- .01 If the Construction Manager is delayed at any time in the progress of the work by any act or neglect of the Owner or the Project Consultant or of any employee of either or by any separate Construction Manager employed by the Owner or by any changes ordered in the work by labor disputes, fire, or unusual delay in transportation, unavoidable casualties or any causes beyond the Construction Manager's control or by delay authorized by the owner pending resolution of disputes, and such delay extends the completion date, the Substantial Completion shall be extended by Change Order for such time as the Owner may reasonably determine.
- .02 Only delays which are determined to extend the critical path for the schedule for constructing the project will result in a time extension. Neither the Owner nor the Construction Manager shall be considered to own the schedule float time.
- 27.7 Minor Changes In The Project - The Facilities Project Manager will have authority to order minor changes in the Project not involving an adjustment in the Guaranteed Maximum Price or an extension of the Construction Completion Date and not inconsistent with the intent of the Drawings and Specifications. Such changes shall be effected by written order.
- 27.8 Emergencies - In any emergency affecting the safety of persons or property, the Construction Manager shall act at his discretion, to prevent threatened damage, injury or loss. EXHIBIT C
CHANGE ORDERS, EXTRA WORK AND CLAIMS

1. The contract language contained in this Article will supplement and take precedence over all other change order pricing contract provisions in file contract documents provided by either the Owner or the Construction Manager and/or Architect/Engineer. It is understood that these contract provisions will govern the pricing and administration of all change order proposals to be submitted by the Construction Manager, Prime Contractors, Trade Contractors or Subcontractors (Subcontractor), and all other lower tier Contractors (Sub-Subcontractors) working on the Project. In the event of a conflict between the language in this Exhibit and the other contract documents used for the project, the change order pricing and contract provisions in this Exhibit shall govern.
2. The Construction Manager agrees that it will incorporate the provisions of this Exhibit into all agreements with lower tier Contractors, Subcontractors, etc. It is understood that these change order pricing provisions apply to all types of contracts and/or subcontracts specifically including lump sum (or fixed price contracts), unit price contracts, and/or cost plus contracts with or without a guaranteed maximum. It is further understood that these change order provisions will apply to all methods of change order pricing, specifically including lump sum change order proposals, unit price change order proposals, and cost plus change order proposals.
3. The term change order shall include Extra Work and Claims unless specifically excluded or further described.
4. Whenever change order proposals to adjust the contract price become necessary, the Owner will have the right to select the method of pricing to be used by the Construction Manager in accordance with the pricing provisions found in this Exhibit. The options will be (1) lump sum change order proposal, (2) unit price change order proposal, or (3) cost plus change order proposal as defined in the following provisions:
 - a. **Lump Sum Change Order Proposals** - The Construction Manager will submit a properly itemized Lump Sum Change Order Proposal covering the additional work and/or the work to be deleted. This proposal will be itemized for the various components of work and segregated by labor, material, and equipment in a detailed format *satisfactory* to Owner. The Owner will require itemized change orders on all change order proposals from the Construction Manager, subcontractors, and sub-subcontractors regardless of tier. Details to be submitted will include detailed line item estimates showing detailed materials quantity take-offs, material prices by item and related labor hour pricing information and extensions (by line item by drawing as applicable).

Labor: Estimated labor costs to be included for self-performed work shall be based on the actual cost per hour paid by the Construction Manager for those workers or crews of workers who the Construction Manager reasonably anticipates will perform the change order work. Estimated labor hours shall include hours only for those workmen and working foremen directly involved in performing the change order work. Supervision above the level of working foremen (such as general foremen, superintendent, project manager, etc.) is considered to be included in the agreed upon Markup Percentages as outlined in paragraph 6 of this Article.

Labor Burden - Labor burden allowable in change orders shall be defined as employer's net *actual* cost of payroll taxes (FICA, Medicare, SUTA, FUTA), net actual cost for employer's cost of union benefits (or other usual and customary fringe benefits if the employees are not

union employees), and net actual cost to employers for worker's compensation insurance taking into consideration adjustments for experience modifiers, premium discounts, dividends, rebates, expense constants, assigned risk pool costs, net cost reductions due to policies with deductibles for self-insured losses, assigned risk rebates, etc. Construction Manager shall reduce its standard payroll tax percentages to reflect the effective cost reduction due to the estimated impact of the annual maximum wages subject to payroll taxes.

Material: Estimated material change order costs shall reflect the Construction Managers reasonably anticipated net actual cost for the *purchase* of the material needed for the change order work. Estimated material costs shall reflect cost reductions available to the Construction Manager due to trade discounts, free material credits, and/or volume rebates. Cash discounts available on material purchased for change order work shall be credited to Owner if the Construction Managers provided Owner funds in time for Construction Manager to take advantage of any such cash discounts. Price quotations from material suppliers must be itemized by each specific item to be purchased. "Lot pricing" quotations will not be considered sufficient substantiating detail.

Equipment: Allowable change order estimated costs may include appropriate amounts for rental of major equipment specifically needed to perform the change order work (defined as tools and equipment with an individual purchase cost of more than \$1000), For Construction Manager or subcontractor owned equipment, the "bare" equipment rental rates allowed *to be used* for pricing change order proposals shall be 75% of the monthly rate listed in the most current publication of The AED Green Book divided by 173 to arrive at a maximum hourly rate to be applied to the hours the equipment is used performing the change order work. Further, for Construction Manager or subcontractor owned equipment, the aggregate equipment rent charges for any single piece of equipment used in any change order work shall be limited to 50% of the fair market value of the piece of equipment when the first change order is priced involving usage of the piece of equipment. Fuel necessary to operate the equipment will be considered as a separate direct cost associated with the change order work.

- b. Unit Price Change Order Proposals - As an alternative to Lump Sum Change Order Proposals, the Owner or the Construction Manager acting with the approval of the Owner may choose the option to use Contract Unit Prices. The Construction Manager will submit within seven (7) days after receipt of the Owner's written request for a Unit Price Proposal, a written Unit Price proposal itemizing the quantities of each item of work for which there is an applicable Contract Unit Price. The quantities must be itemized in relation to each specific contract drawing.

Contract Unit Prices will be applied to net differences of quantities of the same item. Such Contract Unit Prices will be considered to cover all direct and indirect costs of furnishing and installing the item including the subcontractor's Markup Percentage Fee.

- c. Cost Plus Change Order Proposals - As an alternative to either Lump Sum Change Order Proposals or Unit Price Change Order Proposals, the Owner may elect to have any extra work performed on a cost plus markup percentage fee basis. Upon written notice to proceed, the Contractor shall perform such authorized extra work at actual cost for direct labor (journeymen, apprentices, helpers, etc.), actual cost of labor burden, actual cost of material used to perform the extra work, and actual cost of rental of major equipment (without any charge for administration, clerical expense, general supervision or superintendence of any nature whatsoever, including the cost or rental of small tools, minor equipment, or plant (fabrication), plus the approved markup percentage fee. The intent of this clause is to define allowable cost plus chargeable costs to be the same as those allowable when pricing Lump Sum Change Proposals as above. Owner and Construction Manager may agree in advance in writing

on a maximum price for this work and Owner shall not be liable for any charge in excess of the maximum. Daily time sheets with names of all Construction Manager's employees working on the project will be required to be submitted to the Owner for both labor and equipment used by the Construction Manager and / or contractors for time periods during which extra work is performed on a cost plus fee basis. Daily time sheets will break down the paid hours worked by the Construction Manager's employees showing both base contract work as well as extra work performed by each employee.

- 5. Maximum Markup Percentage Allowable on Self-Performed Work:** With respect to pricing change orders to any Lump Sum Contract change order, the maximum Markup Percentage Fee to be paid to any Contractor (regardless of tier) on self-performed work shall be limited to the percentage, shown on Exhibit B of the CMAR Agreement (and as outlined in General Conditions Exhibit D), of the net direct cost of (1) direct labor and allowable labor burden costs applicable to the change order or extra work; (2) the net cost of material and installed equipment incorporated into the change or extra work, and (3) net rental cost of major equipment and related fuel costs necessary to complete the change in the Work.
- 6. Maximum Markup Percentages Allowable on Work Performed by Lower Tier Contractors:** With respect to pricing the portion of change order proposals involving work performed by lower tier contractors, the maximum Markup Percentage Fee allowable to the Construction Manager supervising the lower tier contractor's work shall be not-to-exceed 10%.
- 7. Sales and use tax (if applicable)** shall not be subject to any Markup Percentage Fee. Any sales or use tax properly payable by the Construction Managers shall be added, after computing the change order amount before tax.
- 8. As a further clarification, the agreed upon Markup Percentage Fee is intended to cover the Construction Manager's profit and all indirect costs associated with the change order work. Items intended to be covered by the Markup Percentage Fee include, but are not limited to:** home office expenses, branch office and field office overhead expense of any kind; project management; superintendents, general foremen; estimating, engineering; coordination; expediting; purchasing; detailing; legal, accounting, data processing or other administrative expenses; shop drawings; permits; comprehensive general liability insurance; auto insurance and umbrella insurance; pick-up truck costs. The cost for the use of small tools is also to be considered covered by the Markup Percentage Fee. Small tools shall be defined as tools and equipment (power or non-power) with an individual value of \$1,000 or less.
- 9. The application of the markup percentages referenced in the preceding paragraphs will apply to both additive and deductive change orders. In the case of a deductive change order, after the net credit is computed by applying the sliding scale percentages as outlined, an adjustment will be made to the computed credit by multiplying the credit amount by a factor of .975 to arrive at a final credit amount to be issued to the owner. In those instances where a change involves both additive and deductive work, the additions and deductions will be netted and the markup percentage adjustments will be applied to the net additive or deductive amount.**
- 10. In no event will any lump sum or percentage amounts for "contingency" be allowed to be added as a separate line item in change order estimates. Unknowns attributable to labor hours will be accounted for when estimating labor hours anticipated to accomplish the work. Unknowns attributable to material scrap and waste will be estimated as part of material costs.**
- 11. The Construction Manager's proposals for changes in the contract amount or time shall be submitted within seven (7) calendar days of the Owner's request, unless the Owner extends such period of time due to the circumstances involved. If such proposals are not received in a timely manner, if the proposals are**

not acceptable to Owner, or if the changed work should be started immediately to avoid damage to the project or costly delay, the Owner may direct the Construction Manager to proceed with the changes without waiting for the Construction Manager's proposal or for the formal change order to be issued. In the case of an unacceptable Construction Manager proposal, the Owner may direct the Construction Manager to proceed with the changed work on a cost-plus basis with an agreed upon "not-to-exceed" price for the work to be performed. Such directions to the Construction Manager by the Owner shall be confirmed in writing by a "Notice to Proceed on Changes" letter within seven (7) calendar days. The cost or credit, and or time extensions will be determined by negotiations as soon as practical thereafter and incorporated in a Change Order to the Contract.

12. In the event the Construction Manager has been required to furnish performance and/or payment bonds as part of the base contract price, a final contract change order will be processed to account for the Construction Manager's net increase or decrease in bond premium costs associated with change orders to Construction Manager's base contract price. Contract adjustments related to any such increased or decreased costs of related to insurance and/or bond coverage will not be subject to any Construction Manager markup for overhead and profit.
13. **Accurate Change Order Pricing Information:** Construction Manager agrees that it is responsible for submitting accurate cost and pricing data to support its Lump Sum Change and/or Cost Plus Change Order Proposals or other contract price adjustments under the contract. Construction Manager further agrees to submit change order proposals with cost and pricing data, which is accurate, complete, current and in accordance with the terms of the contract with respect to pricing of change orders.
14. **Right to Verify Change Order Pricing Information:** Construction Manager agrees that any designated Owner's representative will have the right to examine the Construction Manager's records to verify the accuracy and appropriateness of the pricing data used to price change proposals. Even after a Change Order Proposal has been approved, Construction Manager agrees that if the Owner later determines the cost and pricing data submitted was inaccurate, incomplete, not current or not in compliance with the terms of the contract regarding pricing of change orders; then an appropriate contract price reduction will be made.
15. **Requirements for Detailed Change Order Pricing Information:** Construction Manager agrees to provide and require all subcontractors to provide a breakdown of allowable labor and labor burden cost information as outlined in this Article. This information will be used to evaluate the potential cost of labor and labor burden related to change order work. It is intended that this information represent an accurate estimate of the Construction Manager's actual labor and labor burden cost components. This information is not intended to establish fixed billing or change order pricing labor rates. However, at the time change orders are priced, the submitted cost data for labor rates may be used to price change order work. The accuracy of any such agreed upon labor cost components used to price change orders will be subject to later audit. Approved change order amounts may be adjusted later to correct the impact of inaccurate labor cost components if the agreed upon labor cost components are determined to be inaccurate.
16. The Construction Manager is required to notify the owner within seven (7) calendar days subsequent to an event that may lead to a claim by the Construction Manager or Subcontractor of any tier. The claim is to be perfected and the Owner provided a full accounting for all costs associated with the claim within thirty (30) calendar days, unless the Construction Manager requests in writing and the Owner agrees to a specific extension of this time. The reason for the extension is to be made known to the Owner in the written request. Any claims that are not promptly and accurately reported in keeping with this article

will not be entertained. The Owner has the right to verify amounts claimed in the same manner as described in paragraphs 14 and 15 of this Exhibit.

17. The Construction Manager shall not be paid overhead and profit on any additional cost item of work, not included in GMP, for which the Construction Manager should have reasonably discovered in their review of Contract documents (see also Agreement Section 3.3.2).
