Project Description	<p>The School Board of Broward County, Florida, has been awarded a grant for the total amount of \$363,000, which was approved by the board on June 25, 2019. The grant is funded by CareerSource Broward from federal Workforce Innovation and Opportunity Act (WIOA) funds. The program will serve students who meet WIOA eligibility requirements. The first Amendment to this Agreement extends the end date from June 30, 2020, to December 31, 2020, and modifies the budget with no additional funds. The impact of the COVID-19 crisis postponed the planned student summer internships, which were to be funded by this grant. The extension will allow for students to engage in internships during the first semester of the 2020-2021 school year. The program design includes individual career pathway plans, employability skills development, financial literacy skills, and on-the-job training delivered by BCPS employed teachers, counselors, and job coaches.</p>
Evaluation Plan	Grant deliverables are reviewed by CareerSource Broward through monthly meetings with CTACE for quality control and grant compliance.
Research Methodology	<p>According to the Bureau of Labor Statistics annual data, Florida youth unemployment rate for ages 16-19 was 29.2 percent and for ages 20-24 was 15.8 percent. Studies show that youth who drop out are more likely to be unemployed, underemployed and incarcerated. High School dropouts are 72 percent more likely to be unemployed as compared to high schools graduates.</p>
Alignment with Strategic Plan	This grant aligns with District Strategic Plan Goal 1: High-Quality Instruction by increasing the rate of students earning a High School Diploma and preparing participants for a career, postsecondary education, or technical education.
Level of Support provided by GA	Level 1 – GA staff worked in collaboration with CTACE to develop the executive summary for Board approval. GA will track the grant in the grants management system.
