## EXECUTIVE SUMMARY

### **Piggyback Recommendation of \$500,000 or Greater 58-018E - Apple Computers, Software, and Technical Support**

---

Since Apple computers must be procured directly from the manufacturer, the District has worked with Apple, Inc., to use the State contract 43211500-WSCA-15-ACS that meets the District's standard terms and conditions.

In order to meet the needs of the District, the projected spending authority for Apple computing devices through March 31, 2018, is \$2,000,000 based on past purchasing in the following programs and areas: art, music, library media, magnet programs, sprouting STEM, early childhood, charter schools, and various school, department and other programs.

The District is committed to ensuring that all students receive a high-quality education through a world class curriculum with a focus on providing students with the learning tools necessary for both current and future success. Personal computing devices are key tools needed to achieve this goal. The Apple computers purchased will support teaching and learning, including new and innovative technology solutions for students with disabilities. This item supports the continuation of the use of Apple computers where appropriate throughout the District.

Computer purchases are made by schools and District program managers throughout the year to support instructional needs. Apple computers are used in certain areas (e.g., graphics and visual arts, broadcast production, music creation, and multimedia production) because they are considered the industry standard in some of these fields. In addition, specific instructional programs use Apple iPads and Apple Apps as part of program implementation.

The Apple piggyback contract was discussed with the Technology Advisory Committee on April 3, 2017.

Piggybacking the State contract will allow the District to continue to procure personal computers, laptops, iPads, and educational apps for students with existing Apple equipment. The purchases will address the computing device needs related to instructional program areas throughout the District. The financial impact is projected to be \$2,000,000.

## EXECUTIVE SUMMARY

### Recommendation to Approve Renewal of Piggyback Agreement 58-018E - Apple Computers, Software, and Technical Support

---

This request is to approve the recommendation to renew the Piggyback to Florida State Contract #43211500-WSCA-15-ACS with Apple Inc. through March 31, 2019. This Florida State Contract meets the District's standard terms and conditions.

The recommendation to Piggyback on this contract was originally approved by the School Board on June 13, 2017, as item EE-16, for a nine (9) months period. The contract award amount was \$2,000,000 based on past purchasing in the following programs and areas: art, music, library media, magnet programs, sprouting STEM, early childhood, charter schools, and various school, department and other programs.

The renewal of this Piggyback will allow the District to continue to procure personal computers, laptops, iPads, and educational apps for students with existing Apple equipment throughout the District. Computer purchases are made by schools and District program managers throughout the year to support instructional needs. Specific instructional programs use Apple iPads and Apple Applications as part of program implementation.

Procurement & Warehousing Services Department communicated extensively with the Florida State Purchasing Department beginning in January 2018 regarding the renewal, but the renewal was not signed by Florida State until March 30, 2018.

#### Financial Impact

No additional spending authority is being requested for this contract renewal period, as the unused original authorized spending authority is sufficient for the term of this renewal.

## MINNESOTA WSCA-NASPO MASTER AGREEMENT AWARD

### SUMMARY

1. **BACKGROUND.** The State of Minnesota, Department of Administration, Materials Management Division publicly posted a Request for Proposal on behalf of the State of Minnesota and WSCA-NASPO Cooperative Procurement Program ("WSCA-NASPO") resulting in a Master Agreement Award. After evaluation by a multi-state sourcing team the solicitation resulted in the Minnesota WSCA-NASPO Master Agreements with qualified manufacturers for:

**Computer Equipment (Desktops, Laptops, Tablets, Servers and Storage including related Peripherals & Services).**

The original solicitation contains the requirements and definitions establishing the following Product Bands allowed on the Master Agreement. The configuration limits and restrictions for this Master Agreement are provided below. Participating Entities may revise these in their Participating Addendum. **Bands awarded are identified below:**

- Band 1: Desktop
- Band 2: Laptop
- Band 3: Tablet

The original solicitation included Band 6: Ruggedized. This band has been removed and ruggedized equipment will be allowed in Bands 1-5. The original solicitation and responses may be found on the WSCA-NASPO Website.

2. **EFFECTIVE DATE.** The Master Agreement contract term will begin on April 1, 2015, or upon final executed signatures, whichever is later, through March 31, 2017, with the option to extend up to 36 months, upon agreement by both parties. Contract Sales may not begin until the Website, Product and Service Schedule and third party products have been approved by the Master Agreement Administrator.
3. **PARTICIPATION.** All authorized governmental entities in any State are welcome to use the resulting Master Agreements through WSCA-NASPO with the approval of the State Chief Procurement Official. Contract Vendors are able to sign Participating Addendums (PA) at the option of Participating States. Participating States reserve the right to add State specific terms and conditions and modify the scope of the contract in their Participating Addendum as allowed by the Master Agreement.
4. **CONFIGURATION DOLLAR LIMITS.** The following configuration limits apply to the Master Agreement. Participating States may define their configuration limits in their participating addendum. The Participating State's Chief Procurement Official may increase or decrease the configuration limits, as defined in their Participating Addendum. The Participating State will determine with the Contract Vendor how to approve these modifications to the State's Product and Service Schedule.

The dollar limits identified below are based on a **SINGLE** computer configuration. This is **NOT** a restriction on the purchase of multiple configurations (e.g. an entity could purchase 10 laptops @ \$10,000 for a total purchase price of \$100,000).

Submission by the responder of its proposed language shall not be viewed as an exception unless the responder specifically states in the response that its proposed changes are intended to supersede the terms and conditions.

**Energy Star®.** A voluntary energy efficiency program sponsored by the U.S. Environmental Protection Agency. The Energy Star program makes identification of energy efficient computers easy by labeling products that deliver the same or better performance as comparable models while using less energy and saving money. Energy Star qualified computers and monitors automatically power down to 15 watts or less when not in use and may actually last longer than conventional products because they spend a large portion of time in a low-power sleep mode. For additional information on the Energy Star program, including product specifications and a list of qualifying products, visit the Energy Star website at <http://www.energystar.gov>.

**EPEAT.** A system for identifying more environmentally preferable computer desktops, laptops, and monitors. It includes an ANSI standard - the IEEE 1680 EPEAT standard – and website [www.epeat.net](http://www.epeat.net) to identify products manufacturers have declared as meeting the standard. EPEAT provides a clear and consistent set of performance criteria for the design of products. It is not a third-party certification program. Instead, Manufacturers self-certify that their products are in conformance with the environmental performance standard for electronic products.

**FOB Destination.** Shipping charges are included in the price of the item and the shipped item becomes the legal property and responsibility of the receiver when it reaches its destination unless there is acceptance testing required.

**FOB Inside Delivery.** Special Shipping arrangements, such as inside delivery, may include additional fees payable by the Purchasing Entity. Any FOB inside delivery must be annotated on the Purchasing Entity ordering document.

**General Consulting.** Services related to advising agencies on how best to use information technology to meet business objectives. Examples of such services would include management and administration of IT systems. Each State will have varying laws, rules, policies and procedures surrounding general consulting which need adherence. A Participating Addendum evidences the Participant's willingness to purchase and the Contract Vendor's willingness to provide equipment under the terms and conditions of this Master Agreement with any and all exceptions noted and agreed upon.

**Participating States.** States that utilize the Master Agreement established by the RFP and enter into a Participating Addendum which further defines their participation.

**Participating Entity.** A Participating State, or other legal entity, properly authorized by a Participating State to enter into the Master Agreement through a Participating Addendum and that authorizes orders from the Master Agreement by Purchasing Entities. Under the WSCA-NASPO program, in some cases, local governments, political subdivisions or other entities in a State may be authorized by the chief procurement official to execute its own Participating Addendum where a Participating Addendum is not executed by the chief procurement official for that state that covers local governments, political subdivisions, or other government entities in the state.

**Partner.** A company, authorized by the Contract Vendor and approved by the Participating State, to provide marketing, support, or other authorized contract services on behalf of the Contract Vendor in accordance with the terms and conditions of the Contract Vendor's Master Agreement. In the RFP, Partner is the term that is used to call out the many different relationships a manufacturer may have with another company to market their product including, but not limited to agents, subcontractors, partners, fulfillment partners, channel partners, business partners, servicing subcontractor, etc.

**Per Transaction Multiple Unit Discount.** A contractual volume discount based on dollars in a single purchase order or combination of purchase orders submitted at one time by a Participating Entity or multiple entities conducting a cooperative purchase.

**Premium Savings Packages.** Deeply discounted standard configurations available to Purchasing Entities using the Master Agreement. This specification includes a commitment to maintain and upgrade (keep pace with the advance of technology) the standard configurations for a stated period of time or intervals. WSCA-NASPO reserves the right to expand and modify the PSP throughout the life of the contract. See <http://www.wnpsp.com/index.html>.

**Purchasing Entity** – means a state, city, county, district, other political subdivision of a State, and a nonprofit organization under the laws of some states if authorized by a Participating Addendum, that issues an order against the Master Agreement and becomes financially committed to the purchase.

This band also includes server appliances. Server appliances have their hardware and software preconfigured by the manufacturer. It also includes embedded networking components such as those found in blade chassis systems. Ruggedized equipment may also be included in the Product and Service Schedule for this band.

**Warranty.** The Manufacturers general warranty tied to the product at the time of purchase.

**Wide Area Network or WAN.** A data network that serves users across a broad geographic area and often uses transmission devices provided by common carriers.

**WSCA-NASPO.** The WSCA-NASPO cooperative purchasing program, facilitated by the WSCA-NASPO Cooperative Purchasing Organization LLC, a 501(c)(3) limited liability company that is a subsidiary organization of the National Association of State Procurement Officials (NASPO). The WSCA-NASPO Cooperative Purchasing Organization facilitates administration of the cooperative group contracting consortium of state chief procurement officials for the benefit of state departments, institutions, agencies, and political subdivisions and other eligible entities (i.e., colleges, school districts, counties, cities, some nonprofit organizations, etc.) for all states and the District of Columbia. The WSCA-NASPO Cooperative Development Team is identified in the Master Agreement as the recipient of reports and may be performing contract administration functions as assigned by the Lead State Contract Administrator.

## EXECUTIVE SUMMARY

### Recommendation to Renew Piggyback Agreement 58-018E – Apple Computers, Software, and Technical Support

---

#### **Introduction**

##### **Responsible: Procurement & Warehousing Services (PWS)**

This request is to approve the recommendation to renew the Piggyback of the Florida State Contract #43211500-WSCA-15-ACS with Apple Inc. through March 31, 2020. The recommendation to Piggyback on this contract was originally approved by the School Board on June 13, 2017, as item EE-16 and renewed on May 8, 2018, as item E-5. The Florida State contract expires on March 31 and last year; they renewed their contract on March 30. Although they renewed earlier this year and assisted the District by sending the signed renewal before posting it to their website, it was not early enough to allow the District to bring this item to the School Board sooner.

#### **Goods/Services Description**

##### **Responsible: Information & Technology (I&T)**

The District is committed to ensuring that all students receive a high-quality education through a world-class curriculum with a focus on providing students with the learning tools necessary for both current and future success. Personal computing devices are key tools needed to achieve this goal. The Apple computers purchased support teaching and learning, including new and innovative technology solutions for students with disabilities. This item supports the continuation of the use of Apple computers where appropriate throughout the District.

Computer purchases are made by schools and District program managers throughout the year to support instructional needs. Apple computers are used in certain areas (e.g., graphics and visual arts, broadcast production, music creation, and multimedia production) because they are considered the industry standard in some of these fields. In addition, specific instruction programs use Apple iPads and Apple Apps as part of the program implementation.

#### **Procurement Method**

##### **Responsible: PWS and I&T**

Rule 6A-1.012(6), Florida Administrative Code and Purchasing Policy 3320 Part II, subparagraph M, states that in lieu of requesting competitive solicitations from three (3) or more sources, the School Board may make purchases at or below the specified prices from contracts awarded by other city or county governmental agencies, other districts school boards, community colleges, federal agencies, the public or governmental agencies of any state, or from state university system cooperative bid agreements, when the proposer awarded a contract by another entity will permit purchases by a district school board at the same terms, conditions and prices (or below such prices) awarded in such contract, and such purchases are to the economic advantage of the District School Board.

Apple offers a standard education price list to all educational entities. Although the School Board could work to have their own contract with Apple, it would bring no financial benefit. Therefore, the most efficient method of procurement is utilizing the Florida State contract as a piggyback.

**Recommendation to Renew Piggyback Agreement**  
**58-018E – Apple Computers, Software, and Technical Support**  
**April 9, 2019 Board Agenda**  
**Page 2**

**Financial Impact**  
**Responsible: PWS and I&T**

The original Piggyback approval in 2017 included a spending authority of \$2,000,000. No additional spending authority has been requested or is currently needed, as the use of Apple computers continues to diminish in favor of lower cost Windows-based computers wherever possible. Below is a summary of financial impact.

|  |                   |
|--|-------------------|
| Original spending authority approved in 2017 | \$ 2,000,000      |
| - Total spent as of March 2019               | \$ 1,201,754      |
| <u>Unused spending authority</u>             | <u>\$ 798,246</u> |

The approval of this recommendation does not mean the authorized amount will be spent.

**AMENDMENT NO.: 3**

**Contract Renewal**

## EXECUTIVE SUMMARY

### Recommendation to Renew Piggyback Agreement and Additional Spending Authority 58-018E – Apple Computers, Software, and Technical Support

---

#### **Introduction**

##### **Responsible: Procurement & Warehousing Services (PWS)**

This request is to Approve the recommendation to make a piggyback award to the vendor(s) awarded by the Florida Department of Management (contract #43211500-WSCA-15-ACS) with Apple Inc. through March 31, 2021, with \$500,000 additional spending authority.

The recommendation to Piggyback on this contract was approved on June 13, 2017, as item EE-16, renewed for one year on May 8, 2018, as item E-5 and renewed for one year on April 9, 2019, as item E-4.

The additional spending authority requested is \$500,000, which will bring the total spending authority to \$2,500,000.

#### **Goods/Services Description**

##### **Responsible: Information Technology (IT)**

The District is committed to ensuring that all students receive a high-quality education through a world-class curriculum with a focus on providing students with the learning tools necessary for both current and future success. Personal computing devices are key tools needed to achieve this goal. The Apple devices purchased support teaching and learning, including new and innovative technology solutions for students with disabilities. This item supports the continuation of the use of Apple devices where appropriate throughout the District.

Computer device purchases are made by schools and District program managers throughout the year to support instructional needs. Specifically, certain grade levels and some specific instructional programs use Apple iPads and Apple Apps as part of the program implementation in support of the curriculum.

#### **Procurement Method**

##### **Responsible: PWS and IT**

Rule 6A-1.012(6), Florida Administrative Code and Purchasing Policy 3320 Part II, subparagraph M, states that in lieu of requesting competitive solicitations from three (3) or more sources, the School Board may make purchases at or below the specified prices from contracts awarded by other city or county governmental agencies, other districts school boards, community colleges, federal agencies, the public or governmental agencies of any state, or from state university system cooperative bid agreements, when the proposer awarded a contract by another entity will permit purchases by a district School Board at the same terms, conditions, and prices (or below such prices) awarded in such contract, and such purchases are to the economic advantage of the District School Board.

Apple offers a standard education price list to all educational entities. Although the School Board could work to have its own contract with Apple, it would bring no financial benefit. Therefore, the most efficient method of procurement is utilizing the Florida State contract as a piggyback.
