TITLE:

Revisions to Policy 2130: Behavioral Threat Assessment (BTA) Policy

REQUESTED ACTION:

F.S. § 1006.07(7) requires each district school board to adopt policies for the establishment of behavioral threat assessment teams at each school whose duties include the coordination of resources and assessment and intervention with individuals whose behavior may pose a threat to the safety of school staff or students consistent with the model policies developed by the Office of Safe Schools. The revisions include clarification and requirements that align with the model policies. The policy still provides definitions and establishes expectations for how threat assessment teams will identify situations/persons of concern, investigate and gather information, and assess and manage the situation in order to mitigate risk. The School Board previously approved Policy 2130 in March 2019.
