**TITLE:** Educational Mitigation Agreement Between The School Board of Broward County, Florida, Broward County, and the City of Miramar Regarding Land Use Plan Amendment PCT 05-4

**REQUESTED ACTION:**  
Approve the Educational Mitigation Agreement Between The School Board of Broward County, Florida, Broward County, and the City of Miramar, to enable legal enforcement of the City's voluntary mitigation commitment regarding Land Use Plan Amendment PCT 05-4, and as set forth in Exhibit 1.

**SUMMARY EXPLANATION AND BACKGROUND:**  
The School Board of Broward County, Florida, as a party to the Interlocal Agreement for Public School Facility Planning (ILA), along with Broward County and 26 municipalities, enables the District to review proposed residential developments that increases residential density, generate additional students and affect overcrowded Broward County Public Schools. Section 7.8 of the Agreement calls for the mitigation of additional students anticipated from proposed residential developments. Also, Rule 13 of School Board Policy 1161 "Local Government Voluntary Mitigation Options" lists the payment of Florida established cost per student station, as the primary mitigation option for Local Activity Centers (LAC), Regional Activity Center (RAC), or similar land use designations proposed by local governments. Rule 14(c)(1) "Local Government Voluntary Commitment" requires local governments who voluntarily agree to the payment of cost per student station as the mitigation option for students anticipated from proposed LAC or similar land use designations to enter into a tri-party interlocal agreement with the School Board and Broward County to enable legal enforcement of such voluntary commitment.

In Land Use Plan Amendment (LUPA) PCT 05-4, the City of Miramar proposed an increase from the 5,460 units permitted in the City's RAC land use designation to 7,460 residential units, a 2,000 unit increase. The proposed 2,000 additional units consist of 550 townhouses and 1,450 garden apartments. In the District's development review report, staff determined that the proposed units would generate 441 additional students consisting of 218 elementary, 116 middle and 107 high school students into Broward County Public Schools. Schools impacted in the 2004/05 school year were Coconut Palm and Coral Cove Elementary Schools, New Renaissance Middle, and Miramar High Schools. To address the impact, the City voluntarily agreed to require the payment of Florida established Student Station Cost Factor (cost per student station) amount for the 2,000 additional units. Broward County approved and adopted the proposal on June 28, 2005, and made the City's voluntary commitment a condition for approval of the RAC application. Additionally, the County required a mechanism to enable legal enforcement of the voluntary commitment. Based on the current school impact fee schedule (effective October 1, 2005), the school impact fee that would have been due for the proposed units is \$3,460,540. Based on the May 2006 Student Station Cost Factors figures, the total cost per student station amount due for the 441 students is approximately \$4,819,200, or approximately \$1,358,660 above the County required school impact fee. The payment of the cost per student station amount, as committed to by the City, would be paid by developers of pertinent parcels of land contained within the boundaries of the RAC in lieu of the County required school impact fees. This amount will be paid as cost per dwelling unit by the developers prior to obtaining building permit for applicable units. Therefore, the actual additional amount received by the District will accumulate over time depending on the number of years it takes to develop the 2,000 residential units, and because payments due will be based on the cost per student station amount in effect for the particular month. The City of Miramar executed the Agreement on February 15, 2006. As such, it is recommended that the School Board approve the Educational Mitigation Agreement. Upon approval by the School Board, the Agreement will be scheduled for Broward County Commission formal action, and subsequently recorded after the Commission's approval.

At the May 15, 2006 Meeting the Board deferred this Item and requested that staff provide additional information on why a school site was not volunteered as mitigation. On May 23, 2006, staff met with the developer, and the responses to the concerns are articulated in Exhibits 3 and 4.

**SCHOOL BOARD GOALS:**

☐ Goal One: All students will achieve at their highest potential.

☐ Goal Two: All schools will have equitable resources.

☐ Goal Three: All operations of the school system will demonstrate best practices while supporting student achievement.

☒ Goal Four: All stakeholders will work together to build a better school system.

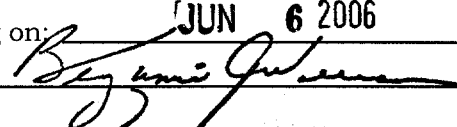

**FINANCIAL IMPACT:**  
The financial impact to the School District is a positive impact of approximately \$1,358,660 in additional revenue above the County required school impact fee of \$3,460,540 for a total of \$4,819,200. All funds to be received have been included in the balanced adopted District Educational Facilities Plan, Fiscal Years 2005/2006-2009/2010.

DIVISION OF FACILITIES AND CONSTRUCTION MANAGEMENT  
MICHAEL GARRETSON, DEPUTY SUPERINTENDENT 

Approved in Open Board Meeting on: JUN 6 2006  
Revised July 31, 2003  
FT/MG/TC/Akagbosu/Houchin  
By: , School Board Chair

May 24, 2006

Mr. Chris O. Akagbosu, Director  
Growth Management Division  
Broward County School Board  
600 S.E. 3<sup>rd</sup> Avenue, 14<sup>th</sup> Floor  
Ft. Lauderdale, Florida 33301

**Re: Educational Mitigation Agreement between Broward County, City of Miramar, and the School Board of Broward County**

Dear Mr. Akagbosu:

This is to summarize our discussions regarding the possibility of locating an additional school site within the East Miramar Areawide DRI and Miramar's Regional Activity Center (RAC). As the principal landowner within the Areawide DRI and the RAC, we have previously dedicated a twenty-acre site, now the home of Renaissance Middle School. I might add that our original obligation was to provide a twelve-acre elementary school site. However, when the School Board later requested a larger site, we reorganized a portion of the proposed development and dedicated the additional eight acres to accommodate the twenty-acre need.

The land where the bulk of the new residential units are to be located is under contract. This property is positioned on the Broward County line south of Florida's Turnpike. It is flanked by an active land fill on its east side and is additionally burdened by a 300' FPL regional power line easement and a major Buckeye Pipeline underground high octane fuel transmission line toward its west side. Further, we are now substantially developed and virtually all the remaining property within the RAC is under contract or committed for development as provided under the DRI.

Sincerely,

James G. Goggins  
Executive Vice President

Re: Educational Mitigation Agreement between Broward  
County, City of Miramar, and the School Board of  
Broward County for the Miramar Regional Activity  
Center

Dear Mr. Akagbosu:

Per your request, the City of Miramar, has evaluated whether an additional school site might be available in the Miramar Regional Activity Center (Palm Avenue to Flamingo Road) or in proximity thereto. Except for the Regional Activity Center, which also comprises the East Miramar Areawide DRI, this portion of Miramar is fully developed. The remaining land in the Regional Activity Center (RAC) is either committed for development or has severe limitations for a school site, as it is adjacent to an active landfill and/or is impacted by FPL regional power lines and a large Buckeye Pipeline fuel transmission line. (See also letter from Sunbeam Properties attached.)

Sunbeam, the principal developer of the Areawide DRI, has also previously dedicated a middle school site in the area of the RAC. In consideration of these factors, and the fact that the Educational Mitigation Agreement provides City schools substantially higher fees to the school district than impact fees alone, we request that you approve this Educational Mitigation Agreement at your June 6, 2006 Board meeting. We appreciate the School Board's concern and your staff's diligent inquiry.

Sincerely,

Robert Payton  
City Manager

**EDUCATIONAL MITIGATION AGREEMENT**

This is an Agreement, made and entered into by and between:

**BROWARD COUNTY**, a political subdivision of the State of Florida, hereinafter referred to as "COUNTY",

AND

**CITY OF MIRAMAR**, a municipal corporation, created and existing under the laws of the State of Florida, its successors and assigns, hereinafter referred to as "CITY",

AND

**THE SCHOOL BOARD OF BROWARD COUNTY**, a body corporate and political subdivision of the State of Florida, hereinafter referred to as "SCHOOL BOARD".

**RECITALS**

WHEREAS, the Broward County Board of County Commissioners approved Broward County Land Use Text Amendment PCT 05-4, revising the permitted uses within the "Miramar Regional Activity Center" in the City of Miramar (hereinafter "MRAC"); and

WHEREAS, Land Use Plan Amendment PCT 05-4 is a component of the East Miramar Area-Wide Development of Regional Impact (DRI), in which 5,460 residential units are currently approved for residential development (hereinafter "Previously Permitted Units"); and

WHEREAS, 3,551 of the Previously Permitted Units have been built as 781 single family structures, 554 townhouses and 2,216 garden apartments (hereinafter "Existing Units") and 1,909 units consisting of 912 townhouses and 997 garden apartments are currently unbuilt (hereinafter "Unbuilt Units"); and

(24)

WHEREAS, the Broward County Board of County Commissioners approved Broward County Land Use Plan Amendment PCT 05-4 (hereinafter "Amendment PCT 05-4"), revising the currently approved uses within the MRAC to allow for an increase in residential units from 5,460 to 7,460 and a reduction of 375,600 square feet of commercial use, a description of which is attached hereto as Exhibit "A"; and

WHEREAS, the CITY is proposing an additional 2,000 residential units (hereinafter "Additional Units") and a reduction of 375,600 square feet of commercial use in Amendment PCT 05-4, with the Additional Units consisting of 550 Townhouse units (192 two-bedrooms and 358 three-bedrooms) and 1,450 Garden Apartment units (290 one-bedroom, 942 two-bedrooms and 218 three-bedrooms). As used herein "bedroom" shall be as defined in the Broward County Land Development Code; and

WHEREAS, SCHOOL BOARD staff, as evidenced by the Public School Facility Impact Statement Report dated December 14, 2004 and letter dated February 8, 2005 to the CITY, which is attached hereto as Exhibit "B", anticipates that the Additional Units as proposed will generate 441 additional students consisting of 218 elementary school students, 116 middle school students and 107 high school students into Broward County District Schools; and

WHEREAS, the CITY anticipates that the Additional Units will be developed as 550 Townhouse units and 1,450 Garden Apartment units with the bedroom mix depicted herein. However, the actual mix of townhouse units and garden apartment units may change, and may also include some single family units, but in no event shall the number of students generated by any such mix exceed the 441 additional students consisting of 218 elementary, 116 middle and 107 high school students, as computed by the student generation rate formula applicable as of the date of this Agreement, and as set forth in the attached Public School Facility Impact Statement Report; and

WHEREAS, the CITY agrees to notify the Superintendent, or designee, and the Broward County Development Management Division when it intends on changing the residential units/bedroom mix depicted herein, and the Superintendent, or designee, shall determine the number of students anticipated from such change and notify the COUNTY and CITY of the anticipated results. If for any reason, the number of students generated exceeds 441 due to such change, any such students in excess of the 441 shall be subject to payment of the Student Station Cost Factor in effect at that time, and the cost per dwelling unit as calculated by the SCHOOL BOARD; and

WHEREAS, the CITY has agreed to mitigate the impact of students anticipated from the development of the Additional Units in the MRAC; and

WHEREAS, Chapter 5, Article IX, Broward County Code of Ordinances (hereinafter "County School Impact Fee Regulations"), requires that no application for a building permit shall be accepted by the COUNTY or by any municipality without documentation that a finding of adequacy of school sites and facilities has been made by the COUNTY; and

WHEREAS, the COUNTY, SCHOOL BOARD and CITY agree that the County Impact Fee Regulations apply to the Previously Permitted Units and the applicable COUNTY imposed school impact fees, will be due for the Unbuilt Units and the CITY agrees to provide written notice to the SCHOOL BOARD and the COUNTY regarding the location of the 1,909 un-built units within the boundaries of the MRAC and also send written notice whenever an applicant seeks development approval to develop any such units, and said school impact fees will be paid to the Development Management Division based on the rate in effect at the time; and

WHEREAS, the COUNTY, SCHOOL BOARD and CITY agree that the cost per student station (hereinafter "Student Station Cost Factor") is appropriate to the circumstances of the MRAC and that the Student Station Cost Factor shall be paid in lieu of the COUNTY school impact fees for the Additional Units and that the Student Station Cost Factor shall be as determined and published by the State of Florida; and

WHEREAS, the schedule of the Student Station Cost Factor for elementary, middle and high school students associated with the MRAC dwelling units have been established by the State of Florida pursuant to the published "Student Station Cost Factors Feb. 2005 ", as may be amended, attached hereto as Exhibit "C"; and

WHEREAS, as a condition for approval of Amendment PCT 05-4, the CITY was required to enter into this tri-party interlocal agreement with the SCHOOL BOARD and COUNTY, to enable legal enforcement of the commitment made before any building permits can be issued for Additional Units in the MRAC.

NOW, THEREFORE, in consideration of the mutual terms, conditions, promises, covenants and payments hereinafter set forth, COUNTY, CITY and SCHOOL BOARD agree as follows:

1. AMENDMENT OF THE CITY'S LAND DEVELOPMENT CODE.

1.01 The CITY agrees that any application for a building permit for residential development within the MRAC shall be subject to the imposition of educational mitigation in the manner set forth in this Agreement. The CITY shall amend its land development code no later than May 30, 2006 to monitor and ensure that development of the Additional Units shall be no greater than 550 Townhouse units with the stated mix of 192 two-bedrooms and 358 three-bedrooms, and 1,450 Garden Apartment units with stated mix of 290 one-bedroom, 942 two-bedrooms and 218 three-bedrooms. Amendment of the land development code shall also require the payment of the student station per dwelling unit cost in lieu of the COUNTY school impact fees due for the Additional Units contained within the boundaries of the MRAC. Failure to ensure that the bedroom mix depicted herein for the 550 townhouse and 1,450 garden apartment units is not exceeded except as stated herein shall constitute a default of this Agreement.

1.02 The CITY will require evidence of payment of either the school impact fee or the student station per dwelling unit cost, whichever is applicable, from individual applicants prior to the issuance of building permits, on a site-specific per project basis.

1.03 The CITY shall provide written notice to the School Superintendent or his designee and the County's Development Management Division, upon site plan or plat approval of any residential project authorized pursuant to Amendment PCT 05-4. Notification shall include project location, the number and type of units, the bedroom mix at time of site plan or plat approval and shall be confirmed by the CITY at the time of building permit.

1.04 Prior to environmental review approval of construction plans as set forth within Chapter 27, Broward County Code of Ordinances by the Development Management Division for a building permit for the construction or erection of a residential building to be located within the MRAC, the CITY shall, consistent with this Agreement, identify the specific type of residential unit, the bedroom mix and allocate the available Previously Permitted Units and/or Additional Units and provide written notification to the Broward County Development Management Division.

1.05 Prior to the issuance of a building permit for the construction or erection of a residential building located within the MRAC, the CITY shall verify that the owner, applicant and/or developer has paid the applicable school impact fee for the Previously Permitted Units and/or the student station per dwelling unit cost for the Additional Units, as set forth herein.

1.06 The CITY, its successor and assigns, agrees that no building permits or certificates of occupancy shall be obtained from the CITY for residential development of land within the MRAC until the applicable school impact fee and/or student station per dwelling unit cost has been paid as required by this Agreement. Failure to ensure collection of the school impact fee and/or the student station per dwelling unit cost prior to the issuance of a building permit shall constitute a default of this Agreement. Nothing herein shall waive or affect the right of the COUNTY and/or SCHOOL BOARD to otherwise require the CITY to comply with the conditions of Amendment PCT 05-4 or this Agreement by any remedy provided by law or equity. In the event of a breach of this Agreement or if enforcement of this Agreement shall be required, the COUNTY, SCHOOL BOARD and CITY agree to reasonably cooperate with each other and take all appropriate and necessary action to secure payment of the applicable school impact fee or student station cost payment, and that no party (the County, School Board or City) shall be liable to the other for damages (including the applicable school impact fee or student station cost payment) in such instance; however, a party may be subject to equitable remedies such as mandamus or specific performance.

1.07 The CITY may propose a change to the anticipated specified type of residential unit and/or the bedroom mix upon written notification to the Executive Director, Facility Management, Planning and Site Acquisition of the School Board or designee, with a copy to the Broward County Development Management Division. The Executive Director, or designee, shall determine whether the number of students generated by any such proposed change will exceed the 441 additional students. If it is determined by the Executive Director, or designee, that such proposed change to the specified type of residential unit and/or the bedroom mix does not exceed the 441 additional students as computed by the student generation rate formula applicable as of the date of this Agreement and as set forth in the attached Public School facility Impact Statement Report, no amendment to this Agreement shall be required. Any further increase in the number of anticipated additional students shall require an amendment to this Agreement consistent with Paragraph 15 below to proceed.

## 2. STUDENT STATION PER DWELLING UNIT COST.

2.01 The student station per dwelling unit cost for each Additional Unit within the MRAC shall be an amount derived from the cost per student station as determined, published and amended by the State of Florida for elementary, middle and high school students and the associated per dwelling unit cost as calculated by the SCHOOL BOARD.

2.02 For those Additional Units to be built within the portion of the MRAC, a description of which is attached hereto as Exhibit "D", the owner, applicant, and/or developer shall pay the student station per dwelling unit cost of approximately \$2,036 per residential dwelling unit utilizing the cost per student station figures for middle and high schools as of March 2005. However, in no event shall that amount be less than \$2,036 for each residential dwelling unit.

2.03 For those Additional Units to be built within the portion of the MRAC, a description of which is attached hereto as Exhibit "E" the student station per dwelling unit cost to be paid is approximately \$2,312 per residential dwelling unit utilizing the student station per dwelling unit cost figures for elementary, middle

and high schools as of March 2005. However, in no event shall that amount be less than \$2,312 for each residential dwelling unit.

2.04 When computing the amount to be paid pursuant to the paragraphs above by the owner, applicant, and/or developer for the Additional Units, the amount to be paid shall be the greater of the amounts derived by utilizing; (i) the Student Station Cost Factor method or (ii) the applicable Educational Impact fee method. However, at no time until the last building permit is issued for the final Additional Units shall the total cost per student station amount due for the units be less than the total COUNTY required effective school impact fee that could have been due for the units.

2.05 Prior to the issuance of a finding of adequacy by the COUNTY, the SCHOOL BOARD shall provide the COUNTY with the current Student Station Cost Factors established and published by the State of Florida, and the associated per dwelling unit cost as calculated by the SCHOOL BOARD for the Additional Units. No later than the end of each calendar month, the COUNTY agrees to provide written correspondence to the SCHOOL BOARD listing residential developments issued satisfactory finding of adequacy. At the minimum, the information provided shall include the name of the development, the total number and type of proposed units and bedroom mix, and the total cost per student station amount paid.

3. PREVIOUSLY PERMITTED UNITS IMPACT FEE REQUIREMENT.

3.01 The COUNTY, SCHOOL BOARD and CITY agree and acknowledge that the Previously Permitted Units (which includes the 1,909 Unbuilt Units) mitigate student impact pursuant to the County School Impact Fee Regulations. The parties further acknowledge that consistent with the County School Impact Fee Regulations redevelopment of the Previously Permitted Units may warrant impact fee credit for the demolished and renovated units. If, as a result of redevelopment, additional dwelling units are created, those additional units shall mitigate student impact through the payment of the applicable cost per student station fee.

4. EDUCATIONAL FACILITIES. The student station per dwelling unit cost paid by the owner(s) and/or developer(s) pursuant to this Agreement shall, pursuant to School Board Growth Management Policy be used to provide educational facilities to serve students generated by the Additional Units in the MRAC, and pursuant to provisions of County School Impact Fee Regulations, the County school impact fee due for the Unbuilt Units will be spent in the applicable service area. The CITY recognizes and agrees that, even if such money is not directly utilized to meet the educational needs of the future residents of the area within the MRAC, the use of such money will indirectly benefit such development by making other funds available to directly meet those needs.

5. TRANSMITTAL OF FUNDS TO THE SCHOOL BOARD. The COUNTY agrees to remit quarterly to the SCHOOL BOARD, the student station per dwelling unit cost amount collected for the Additional Units to be spent by the SCHOOL BOARD in accordance with School Board Growth Management Policy. The COUNTY will continue to remit the COUNTY school impact fees to the SCHOOL BOARD consistent with the existing agreement between the COUNTY and the SCHOOL BOARD.

6. The COUNTY agrees that this Agreement satisfies the requirement in Chapter 5, Article IX, Broward County Land Development Code relating to Educational Impact Fees.

7. The recitals and representations set forth within the Whereas clauses are true and correct and are incorporated herein.

8. NOTICES. Whenever any of the parties desire to give notice to the other, such notice must be in writing, sent by U.S. Mail, postage prepaid, addressed to the party for whom it is intended at the place last specified; the place for giving of notice shall remain such until it is changed by written notice in compliance with the provisions of this paragraph. Until otherwise designated by amendment to this Agreement, the parties designate the following as the respective places for giving notice:

For the COUNTY:

Director, Development Management Division of Broward County  
115 South Andrews Avenue, Room A240  
Fort Lauderdale, FL 33301

For the CITY:

City Manager

With a copy to:  
Cleghorn Shoe Corp.  
c/o James G. Goggins  
1401 79<sup>th</sup> Street Causeway  
Miami, Florida 33141

For the SCHOOL BOARD

Superintendent of Schools  
The School Board of Broward County, Florida  
Kathleen C. Wright Administrative Building  
600 Southeast 3<sup>rd</sup> Avenue  
Fort Lauderdale, FL 33301

With a copy to:  
The Executive Director  
The School Board of Broward County, Florida  
Facility Management, Planning and Site Acquisition Department  
Kathleen C. Wright Administrative Building  
600 Southeast 3<sup>rd</sup> Avenue, 14<sup>th</sup> Floor  
Fort Lauderdale, FL 33301

9. RELEASE. When all of the obligations set forth herein are fully paid and performed, COUNTY, at the request of CITY or its successor and upon payment of any applicable fees, shall cause a release to be recorded in the Official Records of Broward County, Florida, evidencing such performance. To the extent that the obligations set forth herein are divisible and attributable to a specific parcel the payment of the student station per dwelling unit cost, the applicable COUNTY school impact fee and the issuance of a building permit shall constitute evidence that the divisible portion of the obligation has been satisfied.

10. VENUE; CHOICE OF LAW. Any controversies or legal issues arising out of this Agreement and any action involving the enforcement or interpretation of any rights hereunder shall be submitted to the jurisdiction of the State Court of the Seventeenth Judicial Circuit of Broward County, Florida, the venue situs, and shall be governed by the laws of the State of Florida.

11. CAPTIONS AND PARAGRAPH HEADINGS. Captions and paragraph headings contained in this Agreement are for convenience and reference only and in no way define, describe, extend or limit the scope or intent of this Agreement, nor the intent of any provisions hereof.

12. NO WAIVER. No waiver of any provision of this Agreement shall be effective unless it is in writing, signed by the party against whom it is asserted, and any such written waiver shall only be applicable to the specific instance to which it relates and shall not be deemed to be a continuing or future waiver.

13. EXHIBITS. All Exhibits attached hereto contain additional terms of this Agreement and are incorporated herein by reference.

14. FURTHER ASSURANCES. The parties hereby agree to execute, acknowledge and deliver and cause to be done, executed, acknowledged and delivered all further assurances and to perform such acts as shall reasonably be requested of them in order to carry out this Agreement.

15. AMENDMENTS. No modification, amendment, or alteration in the terms or conditions contained herein shall be effective unless contained in a written document prepared with the same or similar formality as this Agreement and executed by the COUNTY, CITY and SCHOOL BOARD.

16. COUNTERPARTS. This Agreement may be executed in three (3) counterparts, each of which may be deemed to be an original.

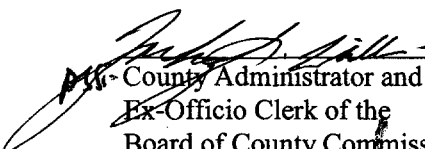

17. RECORDING OF THIS AGREEMENT. The CITY agrees to record this Agreement in the Broward County Public Records, at its expense.

IN WITNESS WHEREOF, the parties have made and executed this Agreement on the respective dates under each signature: BROWARD COUNTY through its BOARD OF COUNTY COMMISSIONERS, signing by and through its Mayor or Vice Mayor, authorized to execute same by Board action on the \_\_\_\_ day of \_\_\_\_\_, 2006, The SCHOOL BOARD OF BROWARD COUNTY, FLORIDA, signing by and through its Chair, authorized to execute same by Board action on the \_\_\_\_ day of \_\_\_\_\_, 2006, and CITY, signing by and through its \_\_\_\_\_, duly authorized to execute same.

Re: Land Use Plan Amendment PCT 05-4

Dear Mr. Snizek:

Please find attached, Public School Facility Impact Statement (PSFIS) Report for Land Use Plan Amendment (LUPA) PCT 05-4. Information provided by the applicant indicates that the amendment site is a component of the East Miramar Area-wide Development of Regional Impact (DRI), and 5,460 residential units are currently permitted for development in the DRI. Furthermore, the proposal for the amendment is to modify the mix of uses within the RAC and increase the residential units from the currently permitted 5,460 to 7,460, an increase of approximately 2,000 residential units. Indications are that the Master Incremental Development Order (DO) for the DRI required the dedication of a 20-acre middle school site to address the anticipated student impact from the development of the existing permitted 5,460 units.

Correspondence provided by the agent for the applicant and dated September 27, 2004 (attached) indicates that the additional 2,000 residential units will consist of 192 two-bedroom and 358 three-bedroom townhouse units, 290 one-bedroom, 942 two-bedroom and 218 three-bedroom garden apartment units. The bedroom mix of 2,000 units as currently proposed, is anticipated to generate 218 elementary, 116 middle and 17 high school students for a total of 441 additional students into Broward County Public Schools.

Schools serving the amendment site in the 2004/05 school year are depicted in the attached PSFIS Report. Please be advised that the 2004 permanent capacity data for the impacted schools are not currently available, but are anticipated to become available soon. Therefore, the 2003 permanent capacity data was utilized in the analysis for the development. However, the 2004 preliminary permanent capacity data was utilized for Coral Cove Elementary School because it is a planned new School and the school boundary became effective in the 2004/05 school year. Furthermore, students assigned to Coral Cove Elementary School are currently attending classes in temporary facilities, while the permanent facility is currently under construction and forecasted for substantial completion in 2005. However, based on the 2004/05 Twentieth-day Membership Counts Report, Coconut Palm Elementary, and Miramar High Schools are critically overcrowded, and New Renaissance Middle School is overcrowded. Therefore, development of the additional 2,000 residential units will further exacerbate overcrowded conditions at the impacted schools.

Under the currently Adopted District Educational Facilities Plan, FY 2004/05 - 2008/09, planned Coral Cove Elementary School (Elementary "Y") is scheduled to potentially relieve overcrowding at Coconut Palm Elementary School, and is forecasted for substantial completion in 2005. Furthermore, planned Elementary

2004/05 School Year  
2005/06 School Year

hool "F-2" is scheduled to potentially relieve overcrowding at Coconut Palm Elementary School. However, the bulk of the funding for construction of the School is slated for FY 2006/07. Also, Miramar High School is scheduled for a 24-classrooms addition. However, School District records indicate that the project is currently in the design phase, and staff analysis concludes that despite the 24-classrooms addition, the School is still projected to become critically overcrowded.

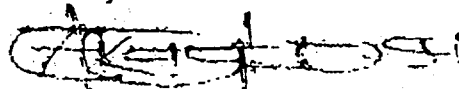

In the 2004/05 school year, the City of Pembroke Pines East (K-5) and Somerset Neighborhood (K-5) charter schools are located within a two-mile radius of the East Miramar Area wide DRI site, and the Twentieth Day statistical data for the schools are as follows: City of Pembroke Pines East (E,W,C) (K-5): Enrollment - 1,795, Capacity - 1,800, Over/(Under) - (5), 2005/06 Enrollment projection - 1,800; Somerset Neighborhood (K-5): Enrollment - 75, Capacity - 75, Over/(Under) - 0, 2005/06 Enrollment projection - 75. Please be advised that the maximum capacity at each charter school is determined by the enrollment specified in the charter school agreement between the school and the School Board of Broward County, Florida. Some charter schools open under enrolled, but achieve maximum capacity as they add grade levels, move from leased facilities to permanent facilities, or increase public awareness about their school within the area they serve. Coconut Palm Elementary School is projected to become overcrowded in the 2005/06 school year, and students attending or anticipated to attend pertinent charter schools are factored into the enrollment projections for District schools. Therefore, the cited charter schools are not anticipated to completely relieve overcrowding at Coconut Palm Elementary School.

Therefore, consistent with the provisions of School Board Policy 1161, recommendations are that LUPA ET 05-4 should be denied or deferred until permanent capacity addition is funded in the effective Capital Budget for Miramar High School. Also, this application is subject to the provisions of Section 7.8 of the Interlocal Agreement for Public School Facility Planning, which calls for the mitigation of students generated by proposed residential density increase. Alternatively, the applicant can provide mitigation for the number of applicable additional students anticipated from the amendment. It should be noted that the applicant (Sunbeam Properties, Inc.) is having ongoing discussions with District staff regarding the provision of appropriate mitigation for the anticipated students.

As you may be aware, the recent class size constitutional amendment requires that by the year 2010, the maximum number of students in the following school grades must be: Pre-kindergarten through 3<sup>rd</sup> grade - 22 students, 4<sup>th</sup> through 8<sup>th</sup> grade - 22 students, and 9<sup>th</sup> through 12<sup>th</sup> grade - 25 students. Therefore, due to compliance with this requirement the permanent school capacity for the impacted schools dropped significantly.

Thank you for your continued cooperation and support on land use plan amendment matters pertaining to Broward County Public Schools. If you have questions or need further information, please email me at [thomas.coates@broward.k12.fl.us](mailto:thomas.coates@broward.k12.fl.us) or call me at 754-321-2162.

Middle Students: 116  
High Students: 107  
Total: 441

**Cummulative Students From****LUPA Approved Since:**

Since 1/01/04 to 6/29/04

Elem	Midd	High	Total

\* Note: Calculations are based upon the maximum student generation rates in the Land Development Code.

**Currently Assigned Schools\***

	School Capacity	20th Day* Enrollment	Over/ (Under) Enrolled	Projected Enrollment**				
				05/06	06/07	07/08	08/09	09/10
Coconut Palm Elementary	820	1,061	241	987	1,065	1,124	1,137	
Loral Cove Elementary	733	497	-236	806	1,044	1,027	1,041	
New Renaissance	1,447	1,689	242	1,602	1,607	1,622	1,675	
Miramar High	2,037	2,821	784	2,969	3,115	3,233	3,267	

Information received from the Broward County Planning Council (BCPC) indicates that the current land use plan for the amendment site permits the development of 5,460 residential units. The applicant indicates that this application proposes 7,460 units or 2,000 (192 two-bedroom and 358 three-bedroom) townhouse units, 290 one-bedroom, 942 two-bedroom and 218 three-bedroom garden apartment units) additional units in the Regional Activity Center (RAC), which is anticipated to generate 441 students into Broward County Public Schools. As such, staff is advising the BCPC, the Broward County Commission, the applicant(s)/owner(s) and/or future developer(s) of the amendment site that based on the School District's 2004/05 Twentieth Day Membership Counts report, Coconut Palm Elementary, and Miramar High Schools are critically overcrowded, and New Renaissance Middle is overcrowded. Thus, development of 2,000 residential units will further exacerbate overcrowded conditions at the impacted schools. Please be aware that the 2004 permanent capacity data is not currently available, but will be available soon. Therefore, the 2003 permanent capacity data was utilized in the review. Consistent with School Board Policy 11.1, this application should be denied or deferred until permanent capacity addition is funded in the effective Capital Budget for Miramar High School. Also, this application is subject to the provisions of Section 7.8 of the Interlocal Agreement for Public School Facility Planning which calls for the mitigation of impacts generated by proposed residential density increase. Alternatively, the applicant can provide mitigation for the anticipated student impact. It should be noted that the applicant (Sunbeam Properties, Inc.) is having ongoing discussions with staff regarding the provision of the appropriate mitigation for the impacted students. Data on charter schools within a two-mile radius of the site in 2004/05 school year is provided in the attached correspondence.

Note: 2004/05 School Year Data - School attendance areas are subject to change each year.

\* Adjusted Cohort projections - Cohort Survival Model, School Boundaries Department.

**Unfunded and Funded Improvements in the Currently Adopted District Educational Facilities Plan****Elementary Schools:** Please see comments in attached correspondence dated December 14, 2004.**Middle Schools:** None**High Schools:** Miramar High: 24-classrooms addition, currently in redesign phase, and no forecasted completion date.**Comments:** Temporarily the School Board utilizes other options such as portable classrooms, multi-track year round education, double sessions or boundary changes to accommodate students generated from developments in the County.

5342 NW 92<sup>nd</sup> Lane  
Coral Springs, Florida 33067

RE: CITY OF MIRAMAR - LAND USE PLAN AMENDMENT PCT 05-4

Dear Mr. Fink:

This correspondence is in response to your letter dated January 31, 2005 regarding the voluntary commitment by Sunbeam Properties, Inc. to provide mitigation for students anticipated from the proposed development of 2,000 residential units in the City of Miramar. The land use designation for the project site is Regional Activity Center (RAC), and an amendment to enable development of the units is currently being processed by the Broward County Planning Council as PCT 05-4.

In your correspondence dated September 27, 2004, you indicated that the additional 2,000 residential units would consist of 192 two-bedroom and 358 three-bedroom townhouse units, 290 one-bedroom, 942 two-bedroom and 218 three-bedroom garden apartment units. Furthermore, you were advised that the bedroom mix of 2,000 units as currently proposed, is anticipated to generate 218 elementary, 116 middle and 107 high school students for a total of 441 additional students into Broward County Public Schools.

In discussions with you regarding this application, you were advised that the proposed development is subject to the provisions of Section 7.8 of the Interlocal Agreement for Public School Facility Planning and School Board Policy 1161, which calls for the mitigation of additional students generated by proposed residential density increase. Furthermore, the District's development review report dated December 14, 2004 for the application indicated that the impacted schools, Coconut Palm Elementary and Miramar High Schools are critically in the 2004/05 school year, and New Renaissance Middle School is overcrowded. Thus, staff's recommendation was that mitigation should be provided for the anticipated pertinent elementary school students, the 116 middle school and the 107 high school students.

In the correspondence dated January 31, 2005, and subsequent email dated February 3, 2005, you indicate that there is a possibility that up to twenty percent (20%) of the units consisting of 80 one-bedroom, 220 two-bedrooms and 65 three-bedroom garden apartments may be constructed north of the Florida Turnpike Extension, thereby impacting Coconut Palm Elementary School. In such a scenario, mitigation will be due for the approximately 40 or more anticipated elementary, 116 middle and 107 high school students.

In your January 31, 2005 correspondence, you indicated that Sunbeam Properties, Inc. has voluntarily agreed to the payment of the Florida established cost per student station as mitigation for the anticipated

City of Miramar - Land Use Plan Amendment PCT 05-4

February 8, 2005

Page 2

elementary, middle and high school students. Based on the School impact fee schedule (effective October 1, 2004), the school impact fee that would be currently due for the mix of units is approximately \$3,380,136. Computations utilizing the February 2005 Florida established cost per student station figures indicates that the cost per student station amount for the anticipated elementary, middle and high school students is approximately \$4,527,655 which translates to approximately \$2,264 per unit, and \$1,147,519 above the currently estimated school impact fees for the unit mix. Also, computations utilizing the June 2012 Florida established cost per student station figures indicates that the cost per student station amount for the anticipated elementary, middle and high school students is approximately \$5,308,040 which translates to approximately \$2,654 per unit, and \$1,927,904 above the currently estimated school impact fees for the unit mix. Please be advised that the mitigation amount indicated may be different for units built south of the Florida Turnpike Extension, since mitigation would only be due for the middle and high school students if the said units are not built north of the Florida Turnpike Extension.

The proposed mitigation complies with the mitigation provisions of School Board Policy 1161. However, staff requests that as a condition for approval of the land use plan amendment and final adoption by the Broward County Commission, the City of Miramar must agree to enter into a tri-party interlocal agreement with the School Board of Broward County, Florida and the Broward County Board of County Commissioners prior to the land use plan amendment becoming effective. Furthermore, Policy 1161 requires that at the minimum, the agreement should address the following:

1. Amendment of the City's Land Development Code prior to the issuance of the first building permit for the additional 2,000 units to require payment of the cost per student station amount as the educational impact fee for the additional residential units proposed within the boundaries of the RAC.
2. The City will not issue any residential building permits within the boundaries of the LAC until execution of the agreement and payment of the applicable cost per student station amount.
3. The City will provide written notice to District staff regarding proposed development of the applicable RAC authorized residential units. At the minimum, the notice shall include pertinent information about the project such as location map (site plan or plat), number and type of units.

Thank you for your cooperation regarding this matter and please email me at [chris.akagbosu@browardschools.com](mailto:chris.akagbosu@browardschools.com) or call me at 754.321.2162 if you have additional questions.

Sincerely,

**VIA REGULAR U.S. MAIL**

Mr. Edward Marko  
School Board Attorney  
The School Board of Broward County, Florida  
Kathleen C. Wright Administrative Building  
600 Southeast 3<sup>rd</sup> Avenue  
Fort Lauderdale, FL 33301

Dear Mr. Marko:

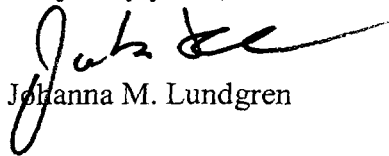

Please find enclosed three (3) executed copies of the Educational Mitigation Agreement for the Miramar Regional Activity Center.

Please attend to the execution of the Agreement and return a duly executed original copy to:

Ms. Yvette McLeary  
City Clerk  
City of Miramar  
2300 Civic Center  
Miramar, FL 33023

Thank you for your attention to this matter.

Very truly yours,

  
Johanna M. Lundgren

RECEIVED

MAR 15 2006

May 24, 2006

Mr. Chris O. Akagbosu, Director  
Growth Management Division  
Broward County School Board  
600 S.E. 3<sup>rd</sup> Avenue, 14<sup>th</sup> Floor  
Ft. Lauderdale, Florida 33301

**Re: Educational Mitigation Agreement between Broward County, City of Miramar, and  
the School Board of Broward County**

Dear Mr. Akagbosu:

This is to summarize our discussions regarding the possibility of locating an additional school site within the East Miramar Areawide DRI and Miramar's Regional Activity Center (RAC). As the principal landowner within the Areawide DRI and the RAC, we have previously dedicated a twenty-acre site, now the home of Renaissance Middle School. I might add that our original obligation was to provide a twelve-acre elementary school site. However, when the School Board later requested a larger site, we reorganized a portion of the proposed development and dedicated the additional eight acres to accommodate the twenty-acre need.

The land where the bulk of the new residential units are to be located is under contract. This property is positioned on the Broward County line south of Florida's Turnpike. It is flanked by an active land fill on its east side and is additionally burdened by a 300' FPL regional power line easement and a major Buckeye Pipeline underground high octane fuel transmission line toward its west side. Further, we are now substantially developed and virtually all the remaining property within the RAC is under contract or committed for development as provided under the DRI.

Sincerely,

James G. Goggins  
Executive Vice President

JGG/dm

Re: Educational Mitigation Agreement between Broward  
County, City of Miramar, and the School Board of  
Broward County for the Miramar Regional Activity  
Center

Dear Mr. Akagbosu:

Per your request, the City of Miramar, has evaluated whether an additional school site might be available in the Miramar Regional Activity Center (Palm Avenue to Flamingo Road) or in proximity thereto. Except for the Regional Activity Center, which also comprises the East Miramar Areawide DRI, this portion of Miramar is fully developed. The remaining land in the Regional Activity Center (RAC) is either committed for development or has severe limitations for a school site, as it is adjacent to an active landfill and/or is impacted by FPL regional power lines and a large Buckeye Pipeline fuel transmission line. (See also letter from Sunbeam Properties attached.)

Sunbeam, the principal developer of the Areawide DRI, has also previously dedicated a middle school site in the area of the RAC. In consideration of these factors, and the fact that the Educational Mitigation Agreement provides City schools substantially higher fees to the school district than impact fees alone, we request that you approve this Educational Mitigation Agreement at your June 6, 2006 Board meeting. We appreciate the School Board's concern and your staff's diligent inquiry.

Sincerely,

Robert Payton  
City Manager
