Grant 101612-A	
Grant Program	Achieving Excellence in Education Grants
Status	New - Competitive
Funds Requested	\$2,000
Financial Impact	The potential positive financial impact is \$2,000. The source of funds is the City
Statement	of Hollywood. There is no additional financial impact to the District.
Schools included	Colbert Elementary (2)
Managing	The school will manage their grant activities and funds.
Department/School	
Source of Additional	Patricia Yackel 754-323-5100
Information	Kareen Torres 754-321-2260
Project Description	The City of Hollywood Education Advisory Committee offers grants of up to
	\$1,000 to local schools for the Achieving Excellence in Education Grants program.
	The Committee was created to help promote and support quality educational
	opportunities in the city and seeks to make sure the educational opportunities in
	Hollywood are among the best available in Florida. Colbert Elementary is
	requesting funds for two distinct programs: 1) to support the K.I.N.G.S.
	(Kombating the Images of a Negative Generation of Stereotypes) program's
	character education through podcasts, and 2) a School Wide – Positive Behavior
	Intervention and Support (SW-PBIS) program whose primary focus is to increase
	pro-social, altruistic behaviors. The grant applications were written and developed
	by Debra Thomas and Crystal Evans, teachers at Colbert Elementary.
Evaluation Plan	The K.I.N.G.S.' project success will be measured by decreases in referrals and
	suspensions, teachers' weekly progress reports, and students' responses on a pre-
	and post-attitudinal inventory. Success in the SW-PBIS program hinges on
	students receiving frequent recognition and support and will be measured by the
	number of rewards, in the form of Happy Paw stickers, distributed to students
	when school personnel catch them "doing the right thing."
Research	The projects incorporate new methods and techniques that excite students about
Methodology	character development, thereby positively impacting their performance and
	motivation.

Grant 101612-B	
Grant Program	Broward County Farm Bureau Grant
Status	New - Competitive
Funds Requested	\$250
Financial Impact	The potential positive financial impact is \$250. The source of funds is the
Statement	Broward County Farm Bureau. There is no additional financial impact to the District.
Schools included	James S. Rickards Middle
Managing	The school will manage their grant activities and funds.
Department/School	
Source of Additional	Patricia Yackel 754-323-5100
Information	Kareen Torres 754-321-2260
Project Description Evaluation Plan	The Broward County Farm Bureau provides grants to help schools teach the basic principles of agriculture required by Florida Statutes. James S. Rickards Middle is requesting funds to support a school vegetable and fruit garden implemented by and through the school's science classes. Teachers will integrate science, math, art, health and wellness, and physical education through the project. Crop production will be used in the school cafeteria to promote healthy eating for students and faculty. The grant application was written and developed by Dr. Kwan Drake, an Assistant Principal at James S. Rickards Middle. Learning gains will be measured through standard tests and other assessments associated with the curriculum, feedback surveys, rubrics and/or student journaling
	to measure student understanding.
Research Methodology	As required by the grant application, the project reflects active approaches to learning and is aligned to Next Generation Sunshine State Standards and/or Common Core State Standards.

Grant 101612-C	
Grant Program	College Board Inspiration Grant
Status	New – Competitive
Funds Requested	\$25,000
Financial Impact	The potential positive financial impact is \$25,000. The source of funds is the
Statement	College Board. There is no additional financial impact to the District.
Schools included	Fort Lauderdale High
Managing Department/School	The school will manage their grant activities and funds.
Source of Additional	Priscila Ribeiro 754-322-1100
Information	Kareen Torres 754-321-2260
Project Description	The College Board Gaston Caperton Inspiration Awards celebrate the extraordinary commitment of educators and communities to their students' futures. Only three winning schools in the Country receive the top \$25,000 award for most improved secondary schools. Award-winning schools are recognized for their outstanding college-preparation programs and partnerships among teachers, parents, and community organizations. Fort Lauderdale High is requesting funds to expand an in-house pilot program developed to incorporate technology, mentorship, and rigor to steer low and mid-level students toward an Advanced Placement curriculum designed to facilitate secondary and postsecondary success. The program provides access, equity, and excellence in education to traditionally underserved populations. Specific activities include: an across-the-state college bus tour, SAT testing enhancements, and professional developed by Marie Hautigan, a teacher at Fort Lauderdale High.
Evaluation Plan	Evaluation measures are not required by the awarding organization. Schools are evaluated based on their ability to: improve their academic environment, create a college-going culture, and help a significant proportion of students realize the promise of higher education.
Research	The project reflects active approaches to school improvement and is aligned with
Methodology	the District's strategic initiatives.

Grant Program Community Gardens Grant Status New – Competitive Funds Requested \$10,861 Financial Impact The potential positive financial impact is \$10,861. Grant 101612-E	
Grant Program	GAP Community Investment Grant
Status	New - Competitive
Funds Requested	\$1,000
Financial Impact	The potential positive financial impact is \$1,000. The source of funds is GAP Inc.
Statement	There is no additional financial impact to the District.
Schools included	Whispering Pines School
Managing	The school will manage their grant activities and funds.
Department/School	
Source of Additional	Michael Gleason 754-321-7650
Information	Kareen Torres 754-321-2260
Project Description	Gap Inc., has a vision to create opportunities for people to own their future and
	fulfill their personal promise with a call to action to give forward, not just give
	back. Among other things, the company focuses investments in creating
	opportunities for underserved youth. Whispering Pines School is requesting funds
	to further develop their Showcase of Success, which allows students to 'showcase'
	their academic successes three times per year. In addition, a portion of the funds
	will be used to conduct school-wide activities focusing on promoting kindness and
	increasing tolerance as part of the school's Prevention (Anti-Bullying) Program.
	The grant application was written and developed by Jeanette Wagner, a teacher at
	Whispering Pines School.
Evaluation Plan	Outcome measures include displays of student work, event participation records,
	and/or teacher assessments.
Research	The project reflects active approaches to learning and is aligned with the District's
Methodology	strategic initiatives.

Grant 101612-F	
Grant Program	Target Early Childhood Reading Grants Program
Status	New - Competitive
Funds Requested	\$4,000
Financial Impact	The potential positive financial impact is \$4,000. The source of funds is the Target
Statement	Foundation. There is no additional financial impact to the District.
Schools included	Hollywood Hills Elementary and Park Lakes Elementary
Managing	The schools will manage their grant activities and funds.
Department/School	
Source of Additional	Vered Roberts 754-323-6200
Information	Donald Gardner 754-322-7650
	Kareen Torres 754-321-2260
Project Description	Target awards grants to schools, libraries, and nonprofit organizations to support programs such as after-school reading events and weekend book clubs through their Early Childhood Reading Grants. Hollywood Hills Elementary is requesting funds to immerse students in quality literature by integrating four reading comprehension strategies and tools into whole class reading lessons, small group reading, and literature circles. The grant application was written and developed by Deborah Covard, a teacher at Hollywood Hills Elementary. Park Lakes Elementary is requesting funds for the Gotta Keep Reading book club targeting fluency and comprehension skills for third grade students at risk for retention. The grant application was written and developed by Kizzy Dailey, a teacher at Park Lakes Elementary.
Evaluation Plan	It is anticipated that increasing exposure to relevant literature will have a direct and positive impact on reading motivation, engagement, and comprehension. In addition, self esteem and overall interest in reading for pleasure will show improvements. Teachers will monitor reading scores on standardized tests and/or survey participating students at the conclusion of the program to assess results.
Research	The project incorporates new methods and techniques that excite students about
Methodology	reading, thereby positively impacting their performance and motivation.
