¹ Adult General Education programs for which tuition must be assessed include the following programs:

Adult Basic Education (9900000)
 Adult High School (9900010)
 GED® – General Educational Development (9900020)
 Pre-GED® (9900120)
 Literacy Skills for Adult ESOL (9900300)
 Adult ESOL (9900040)

ELCATE (9900050)
 Academic Skills for Adult ESOL Learners (9900051)
 Workplace Readiness Skills for Adult ESOL Learners (9900080)
 Citizenship (9900090)
 Applied Academics for Adult Education (S990001)
 Pre-Applied Academics for Adult Education (S990000)

²As classes must remain financially solvent and cover instructional and supply costs, the number of WIC (Women, Infants and Children) clients will be limited in each class offered per term. The number of WIC clients will be capped based upon individual class enrollments.

BASIC CONCEPTS

Workforce Education Fee Requirements: Students who are enrolled in workforce education programs, who are reported for funding through the Workforce Education Fund must be charged a fee as governed by Florida Statute 1009.22 except those who are fee exempt. Schools must compile and report the total fee exempt, fee nonexempt, fee waived, fees deferred, and nonresident student fees for each adult and technical program. Schools must also report the total amount of fees collected from students. Program offerings may change throughout the course of the year in order to address Industry demands. Assessed fees will be charged in accordance with the information set-forth in this document.

Tuition Fee Amounts—Career and Technical Education (CTE): A postsecondary student fee per hour of instruction must be charged to all students not specifically granted an exemption from the payment of fees.

CTE tuition fees include 10% financial aid fee for workforce education programs as permitted in Florida Statute 1009.22(5), a 5% capital improvement fee used for capital improvements or equipment as permitted in Florida Statute 1009.22(6), a 5% technology fee for enhancing instructional technology as permitted in Florida Statute 1009.22(7). One hundred percent (100%) of the instructional technology fees collected and deposited in the Internal Fund Account should be transmitted to the school's operating budget in functional area 565367029 to support costs associated with the school's technology.

Fees are assessed by multiplying the required per hour of instruction fee by the number of hours of instruction, with the product rounded to the nearest whole dollar. The rounding procedure is based on rounding up where the product is at least \$0.50 and rounding down where the product is less than \$0.50.

Fees shall be charged to adult students based on applicable Florida statutes, policies, and schedules if the course began prior to July 1 and instruction ended prior to the start of the August term.

Fee Exempt Students—Career and Technical Education: As governed by Florida Statute 1009.25, the following students are exempt from the payment of tuition and fees, including lab fees, at a school district that provide workforce education programs:

- 1) A student enrolled in a dual enrollment or early admission program pursuant to s. 1007.27 or s. 1007.271.
- 2) A student enrolled in an approved apprenticeship program, as defined in s. 446.021.

- 3) A student who is or was at the time he or she reached 18 years of age in the custody of the Department of Children and Family Services who, after spending at least 6 months in the custody of the department after reaching 16 years of age, was placed in a guardianship by the court. Such exemption includes fees associated with enrollment in career-preparatory instruction the exemption remains valid until the student reaches 28 years of age.
- 4) A student who is or was at the time he or she reached 18 years of age in the custody of a relative under s. 39.5085 or who was adopted from the Department of Children and Family Services after May 5, 1997. Such exemption includes fees associated with enrollment in career-preparatory instruction. The exemption remains valid until the student reaches 28 years of age.
- 5) A student enrolled in an employment and training program under the welfare transition program. The regional workforce board shall pay the school district for costs incurred for welfare transition program participants.
- 6) A student who lacks a fixed, regular, and adequate nighttime residence or whose primary nighttime residence is a public or private shelter designed to provide temporary residence for individuals intended to be institutionalized, or a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings.

Financial Aid Fee—Career and Technical Education: Districts shall use funds collected from the financial aid fee assessment to waive in full or in part the fees of persons with demonstrated financial need in accordance with Florida Statute Section 1009.22(5). The financial aid fee is equal to 10% of the state required fee for workforce education programs. Refer to Business Practice Bulletin A-455 *Accounting for Adult and Vocational Financial Aid Fees*, 6/10/2010.

Tuition Fee Amounts—Adult General Education: An Adult General Education Student tuition fee term must be charged to all students not specifically granted an exemption from the payment of fees. This is pursuant to 2012 General Appropriations Act.

Adult General Education Students will not be charged a registration, financial aid, capital improvement or technology fee. However, they are required to prove Florida residency in order to qualify for the in-state tuition rate.

The defined terms for the 2013-2014 school year are as follows:

- June 10, 2013 through August 9, 2013
- August 19, 2013 through December 19, 2013
- January 6, 2014 through April 25, 2014
- April 28, 2014 through August 8, 2014 (2014-2015 School Year)

Fee Exempt Students—Adult General Education: To qualify for a fee exemption, Adult General Education Students must meet one of the six criteria (as specified in FS 1009.25), as listed above in the Fee Exempt Students—Career and Technical Education section.

Residency for Tuition Purposes: Students shall be classified as residents or nonresidents for the purpose of assessing tuition in accordance with Section 1009.21, Florida Statute. The final residency determination will be rendered by the school. The identified students shall be designated as such in the WDIS data reporting system using the Adult Fee Status and Florida Residence data elements.

Registration Fee: Technical centers, alternative high schools and community schools are authorized to assess students a registration fee unless specifically exempted by law, School Board Policy, or other provisions set forth in this document.

Applicable students will pay the following fee based on the program of instruction in which they are enrolling:

- \$20.00 for all 9-week and \$40 for all 18-week Certificate, Applied Technology Diploma (ATD) programs; -
- \$20.00 for all Fee Support classes.

One hundred percent (100%) of the registration fees collected and deposited in the school's internal fund accounts should be transmitted to the school's operating budget in functional area 9105640230000000 to support costs associated with the registration of students. The fee is to be assessed, where applicable, each time the student registers for a new program/course or portion thereof. Students repeating a program/course or portion thereof must repay the registration fee.

Workforce Education Standardized Assessment/Placement Fee: Technical centers, alternative high schools and community schools are authorized to assess an initial student assessment/placement fee of \$10 to all students taking the Tests of Adult Basic Education (TABE) or Comprehensive Adult Student Assessment System (CASAS) placement tests. This fee is not re-assessed within the same school year, unless there is a 6-month lapse of instruction at such time an individual must be reassessed for placement purposes. Such fees shall be accounted for in accordance with Business Practice Bulletin A-421, and can be used to offset the cost of administering and distributing the results of the test. These fees will be collected and deposited in the school's internal fund account and then, periodically throughout the year, be transmitted to the school's operating budget in functional area 9106640230000000 to pay for operational type expenses. At the end of the fiscal year, any remaining funds in this Internal Account must be transmitted to the school's operating budget in the functional area listed above. The Point of Sale (POS) receipt shall serve as the admission to the Testing Center.

Student Activity Fee: Technical centers, alternative high schools and community schools are authorized to assess a one-time, once a year fee of \$10.00 to all students enrolled in

both, on- and off-campus programs, with the exception of co-enrolled students. For the purpose of assessing a student activity fee, the school year will be established as beginning July 1 and ending June 30. These fees will be collected and deposited in the school's internal fund accounts and then periodically, throughout the year, be transmitted to the school's operating budget in functional area 5653670280000000 to pay for operational type expenses. At the end of the fiscal year, any remaining funds in this Internal Account must be transmitted to the school's operating budget in the functional area listed above. The fee can be used to offset the costs associated with providing student and campus related activities.

Fee Requirement for Health Science Education Students: Technical centers are authorized to assess Health Science Education students with a clinical component a \$47 fee for fingerprinting, a \$26 fee for drug testing and a \$12 student liability fee. These fees are subject to change as deemed necessary by the Superintendent (or designee). Students in Health Science Education programs with a clinical component are subject to a criminal background screening and drug testing. These tests including the liability fee are required by the clinical facilities to insure patient safety.

Pre-Assessment for Practical Nursing Students: Technical centers are authorized to assess all Practical Nursing students a \$40 fee to take a pre-assessment test provided by Assessment Technologies Institute, entitled the Test of Essential Academic Skills (TEAS). This pre-assessment is done to establish minimal entry-level competencies as a predictor of success in the program. These fees will be collected and deposited in the school's internal fund account and then periodically, throughout the year, be transmitted to the school's operating budget in functional area 9106640230000000 to pay for operational type expenses. At the end of the fiscal year, any remaining funds in this Internal Account must be transmitted to the school's operating budget in the functional area listed above. This fee may be changed during the school year by the Superintendent (or designee).

Fee Requirement for Clinical Experience Training of Emergency Medical Technician (EMT) Students: McFatter Technical center is authorized to assess all EMT students a \$100 fee for 24 hours of emergency room clinical training, as well as a \$12 liability fee. This training is in addition to the 250 hours of required academic instruction and is matched by 24 hours of emergency vehicle ride-along experience. These fees will be collected and deposited in the school's internal fund account and then, periodically throughout the year, be transmitted to the school's operating budget in functional area 5350000000000000 to pay for operational type expenses. At the end of the fiscal year, any remaining funds in this Internal Account must be transmitted to the school's operating budget in the functional area listed above.

Laboratory Fees: Lab fees are assessed on a per hour cost basis for each Career and Technical instructional program as specified in this fee schedule. These funds are deposited and remain in the school's internal account fund, pursuant to FS 1009.22 (9). These fees are justified on the basis of insufficient workforce funds and/or a

recommendation from the appropriate industry advisory committee. These fees may be changed during the school year by the Superintendent (or designee).

Additional Fees: Except as prohibited by law, the cost of consumable supplies, textbooks, workbooks, uniforms, etc. shall be the responsibility of the student or an agency sponsoring the student's enrollment.

Course Work and Penalty: Only students actually enrolled in instruction provided or supervised by instructional personnel with the district are to be reported for Workforce Education funding. No student who has been exempt from taking a course or who has been granted academic or technical credit through means other than actual course work completed at the granting institution is to be reported for Workforce Education Funds in the course from which the student was exempt or granted credit. A penalty against the following year's Workforce Education Funds allocation of two times the value for such students reported is to be suffered by a school reporting such.

Fee Waiver and Penalty: Schools may waive fees pursuant to School Board Policy 6606. The total number of students for whom the school waives fees must not exceed an amount to be allocated by the Superintendent (or designee). Any fees waived in excess of the established fee waiver amount may be subject to a penalty. The Workforce Education Business Analyst will provide schools/centers with the amount of funds available to be waived.

Deferred Fees and Penalty: Schools may defer fees in accordance with Florida Statute 1009.27. Any business, industry, governmental unit, nonprofit organization, or civic organization, with a permanent office in Broward County, is approved as an authorized agent for underwriting student fees. If, however, an agency fails to make payment in a timely manner, its approval may be revoked by the Superintendent (or designee).

All declarations of intent to pay student fees must be sent to the school principal in writing. In cases of economic hardship as defined in School Board Policy 6606, schools may collect fees in periodic installments calculated on the basis of the total fee divided by the number of payments to be made. In no case shall the installments extend beyond the last class period to the first survey in which the student is eligible for membership. Students not completing payments by this time shall not be counted. The first installment shall be made at the time of registration or the first day of class.

Lifelong Learning/Fee Support—Levels 100 & 200: Fees for Lifelong Learning/Fee Support courses are established to cover all associated operating costs with no cost to the District. Tuition covers instructional costs, equipment maintenance, and marketing. Schools shall charge \$2.00 per instructional hour for 100 Level courses and \$3.00 per instructional hour for 200 Level courses including Industry Training courses. In addition to tuition, a \$20 registration fee is charged for up to 9 weeks of instruction. As well, a supply fee may be charged to cover the cost of consumable supplies and books issued to enrolled students.

Fees are assessed by multiplying the required per hour of instruction fee by the number of hours of instruction, with the product rounded to the nearest whole dollar. The rounding procedure is based on rounding up where the product is at least \$0.50 and rounding down where the product is less than \$0.50. Small classes may require a tuition fee adjustment to accommodate the size. Any variance necessary to comply with law must be requested by written correspondence and have prior approval from the Superintendent (or designee).

Amanda's Place Parenting Program/Fee Support—Level 300: Fees for Amanda's Place courses must be equal to, but not to exceed costs associated with the provision of instruction. Schools shall charge \$3.00 per instructional hour plus a \$20.00 registration fee and \$10 lab fee for up to 9 weeks of instruction. Fees are assessed by multiplying the required per hour of instruction fee by the number of hours of instruction, with the product rounded to the nearest whole dollar. The rounding procedure is based on rounding up where the product is at least \$0.50 and rounding down where the product is less than \$0.50. Small classes may require a tuition fee adjustment to accommodate their size. Any variance necessary to comply with law must be requested by written correspondence and have prior approval from the Superintendent (or designee).

American Red Cross Swimming Program/Fee Support—Level 400: Fees for the American Red Cross Swimming Program must be equal to, but not to exceed costs associated with the provision of instruction. Schools shall charge \$6.25 per instructional hour plus a \$20.00 registration fee for up to 9 weeks of instruction. Fees are assessed by multiplying the required per hour of instruction fee by the number of hours of instruction, with the product rounded to the nearest whole dollar. The rounding procedure is based on rounding up where the product is at least \$0.50 and rounding down where the product is less than \$0.50. Small classes may require a tuition fee adjustment to accommodate their size. Any variance necessary to comply with law must be requested by written correspondence and have prior approval from the Superintendent (or designee)

Broward Fire Academy/Fee Support—Levels 500-800: Fees for the Broward Fire Academy/Fee Support courses are established to cover all associated operating costs with no cost to the District. Tuition covers instructional costs, equipment maintenance, and marketing. McFatter Technical Center shall charge \$3.10 per instructional hour for 500 Level courses, \$5.55 per instructional hour for 600 Level courses, \$6.90 per instructional hour for 700 Level courses, and \$11.50 per instructional hour for 800 Level courses. In addition to tuition, a \$20 registration fee is charged for each class. A supply fee may be charged, in addition, to cover the cost of consumable supplies and books issued to enrolled students.

Fees are assessed by multiplying the required per hour of instruction fee by the number of hours of instruction, with the product rounded to the nearest whole dollar. The rounding procedure is based on rounding up where the product is at least \$0.50 and rounding down where the product is less than \$0.50. These fees will be collected and deposited in the school's internal fund account and then, periodically throughout the year, be transmitted to

the school's operating budget in functional area 5340670240000000 to pay for operational type expenses. At the end of the fiscal year, any remaining funds in this Internal Account must be transmitted to the school's operating budget in the functional area listed above.

General Educational Development (GED®) Testing: For the GED® Paper-Based Tests, each examinee shall pay fees for testing as indicated below. Testing fees may not exceed these amounts, however, the Chief Administrative Officer of the local testing program may waive all/or any portion of the fee on a uniform or individual basis.

Complete Test Battery	\$70.00
• Language Arts, Writing	\$16.00
• Social Studies	\$14.00
• Science	\$14.00
• Language Arts, Reading	\$14.00
• Mathematics	\$14.00

If a person registers for the paper-based GED® test and subsequently misses the testing session, cancels the scheduled testing session or calls to request a new testing date, **the testing candidate shall forfeit the ENTIRE assessed fee. Upon rescheduling, the candidate will be reassessed the full fee. In an extenuating circumstance, the GED® Chief Examiner may waive this requirement and allow one rescheduling opportunity without additional cost.**

Technical centers, alternative high schools and community schools are authorized to collect these fees. The full amount of the collected fees is transmitted to the Career, Technical and Adult/Community Education Department to support operations of the Broward County Public Schools' GED® Testing Center.

Official Transcripts: Test scores are accepted as official only when reported directly by: (1) Official GED® Testing Center; (2) Transcript Service of the Defense Activity for Non-Traditional Education Support (DANTES); (3) Veterans Administration hospitals and centers; and (4) the Florida Department of Education GED® Testing Center.

- a. Testing at official GED® Testing Centers: Does not exceed \$70 for complete battery; \$14 for each retest in the areas of Social Studies, Science, Mathematics, and Language Arts Reading and \$16 for each retest in Language Arts, Writing; payable to the technical center, alternative high school and adult/community school at time registering.
- b. Issuance of diploma: Included in initial testing fee. Applicants who have taken the test through the military GED® Testing Program or at other than an official Florida GED® Testing Center shall pay a conversion fee to the Florida Department of Education (DOE). As well, duplicate diploma and transcript requests are issued by the Florida Department of Education. These fees are established and paid to the Florida Department of Education.

- c. GED® graduates requesting a correction or change to the diploma or transcript shall be assessed a fee for this request.
- d. In the event that GED® testing fees are adjusted during the year by the State Board of Education, local fees shall be changed accordingly.

General Educational Development (GED)® Computer-Based Testing: The GED® Test is also available as computer-based. Computer-based testing is provided by authorized PearsonVue Testing Centers. GED® Testing candidates pay PearsonVue directly for computer-based testing. The statewide testing fee is established by the Florida Department of Education.
