Members of The School Board of Broward County, Florida Members of The School Board Audit Committee Robert W. Runcie, Superintendent of Schools

Ladies and Gentlemen:

In accordance with the 2013-2014 Audit Plan, we reviewed the Norcrest Elementary School Phased Replacement Phase III of III Project No. 0561-24-01. The primary objectives of the audit were to determine if the Cost of Work charges made by Stiles Construction Co. (Construction Manager) were in compliance with the terms of the contract documents and to review the proposed return of cost savings in the amount of \$94,942 in subcontractor adjustments identified in proposed Change Order #5, dated June 11, 2013, to determine reasonableness and compliance with the contract terms.

It is our opinion that this project's financial close-out of the Cost of Work binders included charges that are not allowed as the Cost of Work, as such charges were already included in the Construction Phase Fee and General Conditions Fee. It is also our opinion that all costs outlined in Divisions 0 and 1 of the Specifications are precluded from being charged a second time as a Cost of Work charge per the contract documents. Based on our review of the Construction Manager's financial close-out of the Cost of Work binders and Application for Payment No. 39, we observed questionable costs in the amount of \$692,359.97, for which the District should seek reimbursement from the Construction Manager.

Subsequent to the completion of this report, the Office of the General Counsel was requested to provide a legal opinion, since the Office of Facilities & Construction disagreed with our report. On November 5, 2013, we received the Office of the General Counsel's Legal Opinion Memorandum (see Section V) that affirmed our audit's conclusions.

Some of the questionable costs included payments for damages by the Construction Manager to adjacent properties, Construction Manager Change Orders to subcontractors for work included in the Guaranteed Maximum Price, work coordination errors, overtime for subcontractors not approved by the District, payments for work that lacked the required support documentation, and excessive Builder's Risk Insurance premiums. Also, the District Administration should strengthen internal controls over the payment process for construction projects. Stronger contract monitoring and compliance procedures will help safeguard District assets.

The recommendation was discussed with appropriate staff. We would like to thank the Office of Facilities and Construction for their cooperation during this review.

This report will be presented to the Audit Committee at its November 14, 2013 meeting and will be presented to the School Board at its December 17, 2013 meeting.

Sincerely

Patrick Celly Patrick Reilly, CPA

Chief Auditor

Office of the Chief Auditor

TABLE OF CONTENTS

SECTION VI: CONTRACT BULLETINS

EXECUTIVE SUMMARY

In accordance with the 2013-2014 Audit Plan, we reviewed the Norcrest Elementary School Phased Replacement Phase III of III Project No. 0561-24-01. The primary objectives of the audit were to:

- Determine if the Cost of the Work charges made by Stiles Construction Co. (Construction Manager) were in compliance with the terms of the contract documents;
- Review the proposed return of cost savings in the amount of \$94,942 in subcontractor adjustments to determine reasonableness and compliance with the contract terms.

Scope and Methodology

This review of the Office of Facilities & Construction's Norcrest Elementary School Phased Replacement Phase III of III Project No. 0561-24-01 includes a review of the Agreement Between Owner and Construction Manager (CM Agreement), General Conditions of the Contract, Addendums, Applications for Payment, Plans and Specifications, Construction Manager's financial close-out of Cost of the Work binders, and Subcontractor adjustments of Change Order No. 5.

Our audit was conducted in accordance with generally accepted auditing standards and <u>Government Auditing Standards</u> issued by the Comptroller General of the United States. The aforementioned standards require that we plan and perform the audit to ensure a reasonable basis for our judgments and conclusions regarding the function under audit. An audit includes assessments of applicable controls and compliance with the requirements of laws, rules and regulations when necessary to satisfy the audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

It is our responsibility to perform the review under generally accepted auditing standards and Government Auditing Standards, as well as provide recommendations to improve operations, strengthen internal controls and ensure compliance with the requirements of laws, rules and regulations in matters selected for review. It is the administration's responsibility to implement recommendations, to maintain an internal control environment conducive to the safeguarding of District assets and to preserve the District's resources, and to comply with applicable laws, regulations and School Board policies.

The procedures used to satisfy our objectives in this audit included the following:

- A review of the Agreement Between Owner and Construction Manager, General Conditions of the Contract, Addendums, Applications for Payment, Construction Manager's financial closeout of Cost of the Work binders, and Subcontractor adjustments of Change Order No. 5;
- Performing other auditing procedures as deemed necessary.

Opinion and Summary of Results

It is the opinion of the Office of the Chief Auditor regarding the Norcrest Elementary School Phased Replacement Phase III of III Project No. 0561-24-01 that the project's financial close-out of Cost of the Work binders included charges that are not allowed as Cost of the Work, as such charges were already included in the Construction Phase Fee and General Conditions Fee. The costs outlined in Division 0 and 1 should not be charged a second time as a Cost of the Work charge per General Conditions of the Contract, Article 25.02.01.f Cost and Expenses Included in Fee, and Article 3.5.1 Construction Phase in the Agreement Between Owner and Construction Manager. Based on our review of the Construction Manager's financial close-out of Cost of the Work binders and Application for Payment No. 39, we observed questionable costs in the amount of \$692,359.97 for which the District should seek reimbursement from the Construction Manager.

Although charges in Divisions 0 and 1 are mentioned in the Project Specifications Manual's Cost of the Work Division's 2 through 16 and other documents, the CM Agreement and General Conditions mandate that all such costs are included and paid only once through the Construction Phase and General Conditions Phase Fee.

The Construction Management Association of America defines General Conditions as "A section of general clauses in the Contract Specifications that establish how the project is to be administered. Included in these clauses are obligations such as providing temporary work, insurance, field offices, etc." The Construction Manager's Fee for General Conditions was \$780,637. Some of the costs included in the General Conditions are the cost for transporting and maintaining materials, supplies, equipment, temporary facilities, the cost for all insurance premiums, the cost for trash and debris removal from the site, and the cost for horizontal and vertical transportation of materials, personnel, adequate storage and parking space.

The Construction Manager's Fee for the Construction Phase was \$996,471. Some of the costs included in the Construction Phase Fee are salaries for the Construction Manager's employees at the project site and general operating expenses related to the project at the Construction Manager's Broward offices.

Some of the questionable costs included payments for damages by the Construction Manager to adjacent properties, Construction Manager Change Orders to subcontractors for work included in the Guaranteed Maximum Price (GMP), work coordination errors, overtime for subcontractors not approved by the District, payments for work that lacked the required support documentation, and excessive Builder's Risk Insurance premiums. Also, the District Administration should strengthen internal controls over the payment process for construction projects. Stronger contract monitoring and compliance procedures will help safeguard District assets.

Subsequent to the completion of this report, the Office of the General Counsel was requested to provide a legal opinion, since the Office of Facilities & Construction disagreed with our report. On November 5, 2013, we received the Office of the General Counsel's Legal Opinion Memorandum (see Section V) that affirmed our audit's conclusions.

We would like to thank the OFC and all District personnel who aided in the completion of this report.

Office of the Chief Auditor

SECTION I FINDINGS

FINDING #1 – The Office of Facilities and Construction (OFC) approved payments to the Construction Manager for charges that were not allowed per the Terms and Conditions of the CM Agreement as a Cost of the Work charge.

Objective

To determine whether the Construction Manager complied with the terms and conditions of the Agreement Between the Owner and Construction Manager (CM Agreement) governing the allowable charges for the Cost of the Work.

Condition

Our review of the Construction Manager's Final Cost of the Work Binders (binders) revealed that the Construction Manager was incorrectly paid for Cost of the Work that was included in the Construction Phase Fee and General Conditions Fee. Change Order No. 5 includes a credit to the District for Subcontractor adjustments in the amount of \$94,942. In the binders submitted to the District by the Construction Manager, we observed a total of \$692,359.97 in questionable costs. The attached Matrix (see pages 11 - 26) itemizes 69 questionable costs and identifies the description of the work, the rationale for questioning the cost, and the contract reference documentation to support questioned costs.

Criteria

The CM Agreement (see Exhibit B) and General Conditions of the Contract (see Exhibit C) identify the allowable charges that comprise the Cost of the Work. Article 26 of the General Conditions states "The term Cost of the Project shall mean costs necessarily incurred in the Project during the Construction Phase for Construction services and paid by the Construction Manager which are not included in Article 25, Construction Manager Fees." The Construction Manager's Fees include Pre-Design and Design Phase, Bid and Award, Construction Phase, Overhead and Profit, General Conditions, and Warranty.

Cause

During the Financial Closeout of the project, the OFC failed to identify charges that were not allowed as a Cost of the Work per the terms and conditions of the CM Agreement and General Conditions of the Contract. These non-allowed charges were paid to the Construction Manager at each monthly progress payment.

Impact

Inadequate District management and oversight in determining the allowable Cost of the Work resulted in OFC approving payments to the Construction Manager that were not in accordance with the contract terms.

Recommendation

The District should seek a reimbursement in the amount of \$692,359.97 from the Construction Manager for the questionable costs and strengthen controls over the payment process over construction projects.

Finding #1 - MANAGEMENT RESPONSE:

In Finding # 1 the Office of the Chief Auditor (OCA) recommends that the District should seek a reimbursement in the amount of \$643,142.97 from the Construction Manager for questionable costs, and strengthen controls over the payment process over construction projects. It is alleged that the Office of Facilities and Construction (OFC) approved payments to the Construction Manager for charges that were not allowed per the Terms and Conditions of the CM Agreement as a Cost of the Work charge.

The OFC recently enhanced procedures to strengthen controls over the payment process. See attached Contract Bulletin Nos. 016 and 036, both issued on January 31, 2013.

OCA Follow Up Response

NOTE: Subsequent to the release of the draft audit, two additional questioned costs relating to the Performance and Payment Bonds totaling \$49,217 were added to our Matrix increasing the Total Questioned Costs from \$643,142.97 to \$692,359.97.

OCA notes that Contract Bulletin No. 016 (see page 339) involves the participation of the Design and Construction Contracts Department to review for compliance and agenda preparation. During the 2013-2014 reorganization of the OFC, the Design and Construction Contracts Department, as of July 1, 2013, was removed from the OFC Department and relocated to the Office of Supply Management & Logistics. It appears this bulletin needs to be revised to accommodate the reporting change.

OCA notes that Contract Bulletin No. 036 (see page 340) only involves the participation of the project manager and the consultant to review the appropriateness of the schedule of values. This audit affirms that these two parties were unable to prevent the CM from including cost of work items included in the CM's fees from being charged a second time as line item costs in the schedule of values. OCA recommends a construction contract expert review the schedule of values for correct cost entitlements and to eliminate all costs of the work paid as General Condition fees from being included in the schedule of values.

Management's Response

To the matter of reimbursement, the OFC's interpretation and application of the CM agreement differs from that of the OCA.

OCA Follow Up Response

OCA requested a legal opinion from the Office of the General Counsel's Office. The Legal Opinion Memorandum was received on November 5, 2013 and affirms the OCA's position (see Section V).

The OCA's **CONDITION** as to Finding # 1 stated, "Our review of the <u>Construction</u> <u>Manager's Final Cost of the Work Binders</u> revealed that the Construction Manager was incorrectly paid for Cost of the Work that was included in the Construction Phase Fee and General Conditions Fee."

The OFC maintains that <u>Construction Manager's Final Cost of the Work Binders</u> were not the final determination used in establishing the Cost of Work as presented in the Financial Close-Out of the Project for the Final Credit Change Order. See EXHIBIT # 1 (Excel Spread Sheet of Comments; after five separate meetings with the CM.) They were used for the purpose of beginning discussions with the CM and the details of the cost items were amended after several deliberations with the CM. The final determination of the Cost of Work was as a result of amending the information contained within the original document.

OCA Follow Up Response

It is OCA's opinion that the audit complied with the contract provisions that determine the cost of work amounts and the required supporting documentation. OCA does not believe that OFC's Exhibit #1 complied with those provisions. OFC believes the \$94,942 "All Deltas" (Questioned Costs) reimbursement amount shown in Exhibit #1 is significantly understated by hundreds of thousands of dollars.

Management's Response

The OFC previously reviewed and arrived at the recommendation for a Final Credit Change Order with respect to the Financial Close-Out, based on the following criteria:

[1] Construction Manager's Service

The CM Agreement supersedes the Project Manual, Divisions 0 and 1, when there is a conflict between both. See Article below:

Article 3.5.1 Construction Phase

"The Construction Manager shall fully comply with the provision of the Owner's Project Manual, including but not limited to Division 0 and 1, and the attached General Conditions of this contract. In the event of a conflict between this Agreement and such documents the Agreement shall control."

OCA Follow Up Response

OCA agrees with this contract cite, but not the OFC's interpretation of this contract cite. OCA requested a legal opinion from the Office of the General Counsel's Office. The Legal Opinion Memorandum was received on November 5, 2013 and affirms the OCA's position (see Section V).

[2] GMP Amends The Agreement

GMP includes the Schedule of Values and Construction Scope of Work with Clarifications, Alternates and Exclusions. See Article below:

Article 1.3 Entire Agreement "....an <u>Addendum to the Agreement shall be signed</u> by the Owner and the Construction Manager, acknowledging the GMP amount and the drawings, specifications and other descriptive documents upon which the GMP is based......"

OCA Follow Up Response

OCA acknowledges the GMP Addendum but acknowledgement does not change our office's position on the reimbursements due the District for the Cost of Work amounts not allowable under the terms of the contract. We agree such addendums modify cost amounts, schedule of values, progress schedule dates, qualifications & clarifications and specific contract terms. All of the contract terms that are not modified by the GMP Addendum are preserved and govern accordingly. OCA believes that if the GMP Addendum documents inadvertently contained errors such as schedule of value costs precluded from being Cost of Work items, the District is fully within its rights to correct these errors and make the necessary adjustments for reimbursement to the District.

An example of the CM incorrectly changing the terms of the CM Agreement through the GMP Addendum occurred when the CM moved the payment of the Builders Risk premium originally included in the General Conditions Fee to a line item cost in the schedule of values as a Cost of Work line item. OCA questions why the General Conditions Fee was not reduced by the Builders Risk premium amount rather than being allowed to remain unchanged. OCA feels this action allowed the CM to include the Builders Risk premium cost in the General Conditions Fee during negotiations and remain there and charged the same amount in the Cost of Work Schedule of Values GMP Addendum and in effect was allowed to charge and receive payment twice for the Builders Risk insurance premium.

Management's Response

i. GMP Amendment – (Schedule of Values)

- GMP Amendment includes a detailed Schedule of Values –
 Distribution for Cost of Work (COW); see Article 8 below:
 - a. Article 8 Payments to the Construction Manager, 8.1 Schedule of Values: (.3) "The Construction Manager's Schedule of Values apportions the GMP among the different elements of the required Work for purposes of periodic and final payments and shall be submitted as detailed support for the Contractor's monthly Application for Payment."

OCA Follow Up Response

OCA does not agree with OFC's opinion that the GMP Addendum allowed the CM's creation of a schedule of values that incorrectly included Cost of Work items that were paid under the fee provisions of the contract to supersede the CM Agreement, which prohibits such costs from being paid twice as a Cost of Work item.

OCA requested a legal opinion from the Office of the General Counsel's Office. The Legal Opinion Memorandum was received on November 5, 2013 and affirms the OCA's position (see Section V).

Management's Response

ii. Surveying - Schedule of Values

- GMP Amendment includes Schedule of Values Cost of Work
- See Schedule of Values in GMP Amendment (COW)
 - a. **Division 2 Section 02200 Paragraph 1.4.A BENCH MARKS:** "Employ an experienced and competent State of Florida licensed surveyor to establish the benchmarks, determine all lines and grades."

As required, Division 2 Section 02200 Paragraph 1.4.A BENCH MARKS establishes that a State of Florida licensed surveyor is to be employed for the transferring of benchmarks, and to include the determination of all lines and grades. The CM's Schedule of Values and the list of Sub-Contracts provided evidence that the services were classified as a Cost of Work item.

OCA Follow Up Response

OCA does not agree with OFC's opinion that the GMP Addendum allowed the CM's creation of a schedule of values that incorrectly included Cost of Work items that were paid under the fee provisions of the contract to supersede the CM Agreement, which prohibits such costs from being paid twice as a Cost of Work item.

OCA requested a legal opinion from the Office of the General Counsel's Office. The Legal Opinion Memorandum was received on November 5, 2013 and affirms the OCA's position (see Section V).

iii. Final Cleaning - Schedule of Values (COW)

- Division 1 Section 01740 CLEANING
 - a. Division 1 Section 01740 CLEANING Paragraph 1.6 QUALITY ASSURANCE (A) Cleaning: (1) "Employ experienced workers or professional cleaners for <u>Final Cleaning</u>"
 - b. Division 2 through 17: Cleaning for specific products or elements of the Work

As required, Division 1 Paragraph 1.6 QUALITY ASSURANCE (A) Cleaning: establishes that experienced workers or professional cleaners are to be employed for the final cleaning. The CM's Schedule of Values and the list of Sub-Contracts provided evidence that the services were classified as a Cost of Work item.

OCA Follow Up Response

OCA does not agree with OFC's opinion that the GMP Addendum allowed the CM's creation of a schedule of values that incorrectly included Cost of Work items that were paid under the fee provisions of the contract to supersede the CM Agreement, which prohibits such costs from being paid twice as a Cost of Work item.

OCA requested a legal opinion from the Office of the General Counsel's Office. The Legal Opinion Memorandum was received on November 5, 2013 and affirms the OCA's position (see Section V).

Management's Response

iv. Temporary Fencing - Schedule of Values & Division 1

Temporary Fencing interpreted to be COW by OFC:

- See Schedule of Values in GMP Amendment Temporary Fencing defined as COW
- Section 01560 TEMPORARY BARRIERS AND ENCLOSURES
 - a. **Paragraph 1.4 A.** "Provide barriers to prevent unauthorized entry to construction areas to allow for the Owner's use of site, and protect existing facilities and adjacent properties from damage from construction activities."
 - b. **Paragraph 1.5** A. "Prior to the start of Construction Activities: provide temporary 6 foot high enclosures/ fencing around construction site; equipped with vehicular and pedestrian gates."

As required, Division 1 Section 01560 TEMPORARY BARRIERS AND ENCLOSURES provides for barriers to prevent unauthorized entry to construction areas to allow for the Owner's use of site, and protect existing facilities and adjacent properties from damage from construction activities. The CM's Schedule of Values and the list of Sub-Contracts provided evidence that the services were classified as a Cost of Work item.

OCA Follow Up Response

OCA does not agree with OFC's opinion that the GMP Addendum allowed the CM's creation of a schedule of values that incorrectly included Cost of Work items that were paid under the fee provisions of the contract to supersede the CM Agreement, which prohibits such costs from being paid twice as a Cost of Work item.

OCA requested a legal opinion from the Office of the General Counsel's Office. The Legal Opinion Memorandum was received on November 5, 2013 and affirms the OCA's position (see Section V).

Management's Response

v. General Requirement Division 1

Cost of Work per GMP Amendment

- See the Schedule of Values:
 - a. Item 2111 Surveying;
 - b. Item 2110 Demo;
 - c. Item 2821 Fencing and Gates and Final Cleaning

[3] General Conditions

Description of General Conditions Items included in the CM Fees.

Article 7 Construction Manager's Fees see paragraph 7.1 "General Conditions include items of Labor, Materials and Services set forth in General Conditions."

Article 26.02 Subsection 04, 06, 09, 10, 13, 15, 16, and 18

[4] CM's Affidavit vs. Sub-Contractors' Sworn Statement

Article 8 Payments To the Construction Manager 8.16 (.1) ".....An Affidavit that Construction Manager's obligations to all subcontractors, laborers, equipment or suppliers, or other third parties in connection with the Project, have been paid or otherwise satisfied;....".

Article 5.2.03 "Prior to being entitled to receive final payment, and as a condition precedent thereto, the Construction Manager shall provide the Owner, in the form and manner required by Owner, if any, the following (.1) An affidavit that Construction Manager's obligations to all subcontractors, laborers, equipment or suppliers, or other third parties in connection with the Project, have been paid or otherwise satisfied."

OCA Follow Up Response

OCA requested a legal opinion from the Office of the General Counsel's Office. The Legal Opinion Memorandum was received on November 5, 2013 and affirms the OCA's position (see Section V).

Management's Response

[5] Change Orders using Owner's Savings

Funding Additional Scope:

Article 6 Guaranteed Maximum Price for Construction

• 6.1.2 "...... The Owner may utilize funds from the Owner saving line item in the Schedule of Values to fund added scope change orders."

OCA Follow Up Response

OCA agrees with this contract cite.

Management's Response

[6] Additional Cost Item of Work not included in GMP

For Example:

Additional Demolition Scope of Work shown on drawings but not included in the original demolition Sub-Contractor's scope of work.

OCA Follow Up Response

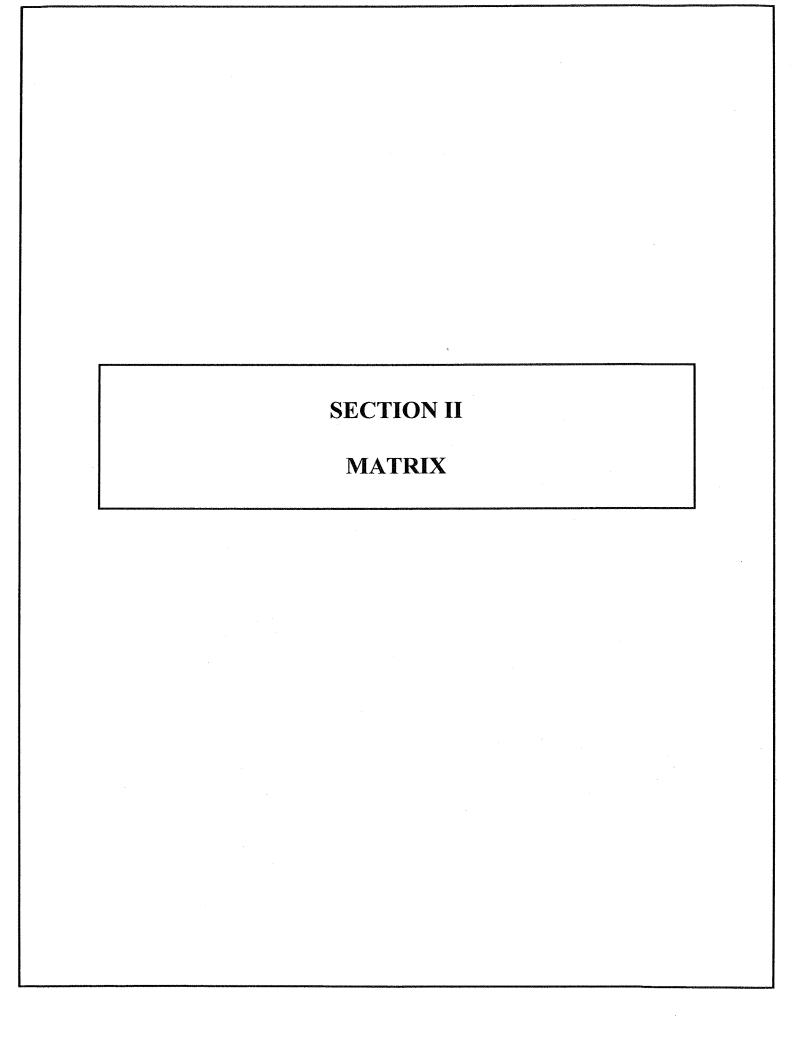

OCA agrees with this contract cite but does not agree with OFC's interpretation and example.

Management's Response

Article 25 Construction Manager's Fees 25.1 (4) "The Construction Manager shall not be paid overhead and profit on any additional cost item of work not included in the GMP, for which the Construction Manager to the best of its ability should have reasonably discovered in their review of Contract Documents (see also Paragraph 3.3.2 and exhibits G and H), review of other project documentation and existing site conditions."

OCA Follow Up Response

OCA agrees with this contract cite.

SCHEDULE OF QUESTIONED COST PREPARED BY THE OFFICE OF THE CHIEF AUDITOR

NORCREST ELEMENTARY SCHOOL PROJECT #P.000105 PHASE III REPLACEMENT FINANCIAL CLOSEOUT - STILES CONSTRUCTION CO.

ITE		AMOUNT PAID	QUESTIONED AMOUNT PAID	RATIONALE FOR QUESTIONED COST	DOCUMENTATION TO SUPPORT QUESTIONED COST
1	Surveying for building layout and elevations of finish floors and grades. (see Exhibit A-1)	\$ 34,390.00		required surveys, such as site improvements, buildings, utilities, and final property survey. This Specification is in Division 0 and as per the Construction Manager Agreement (CM Agreement), it is included in the Construction Phase Fee.	1. General Conditions Article 25.02.01.f Costs and Expenses Included in Fee identifies "Those services set forth in Article 3 of the Agreement Between the Owner and Construction Manager" (CM Agreement) included in the Fee (see Exhibit C). 2. CM Agreement Article 3.5.1 Construction Phase. "The Construction Manager shall fully comply with the provisions of the Owner's Project Manual including but not limited to Division 0 and 1, and the attached General Conditions of this Contract." The Office of the Chief Auditor's opinion is that the intent of the General Conditions and CM Agreement mandates that all cost of all requirements listed in Division 0 and 1 are paid under the combined CM General Conditions Fee and the Construction Phase Fee \$1,777,108 total and cannot be charged in the Schedule of Values as a Cost of the Work (see Exhibit B). CM Agreement Article 1.4 "This Construction Management At Risk Contract, along with the Contract Documents consisting of the Agreement Form, MWBE goals as set forth in the Request for Qualifications, Documents contained in the Project Manual (including but not limited to Division 0 and 1)" Division 1 General Requirements Specification Section 01720 (Exhibit H), 1.03 Quality Control requires the CM to "employ a land surveyor" for all required surveying services included but not limited to those services required under 1.07 Surveying (see Exhibit B). 3. CM Agreement Article 3.5.5 Construction Phase "The Construction Manager shall coordinate project close-out, operation, and transition to occupancy" (see Exhibit B). Division 1 General Requirements Specification Section 01780 Close Out Submittals (Exhibit M), 1.04 Final Site Survey, A. Submit the certificates, copies of final property survey, electronic media file project record documents as required by Section 01720 Preparation (Exhibit J). Section 01720 Preparation (Exhibit J). General Conditions Article 26.03.04 Cost Not To Be Reimbursed "Any cost not specifically and expressly described in subsection 26.02 above" (see Exh
2	Demolition of existing building and site structures. (see Exhibit A-2)	\$ 282,184.00	\$ 7,220.00	Deny demolition Change Order #1 previously approved in the amount of \$7,220 because the existing chiller walls are included in drawing DOO and are part of the GMP.	CM Agreement Article 6.1 Guaranteed Maximum Price For Construction. This Article states that "However, the actual price paid for the Work by the Owner shall be the actual cost of all Work subcontracts, supply contracts, direct labor costs, direct supervision costs, and direct job costs as defined under Article 26 of the general conditions, plus the Construction Manager's fees or the GMP, whichever is less when the Work is complete" (see Exhibit B).

ITEM NO.	DESCRIPTION OF WORK	AMOUNT PAID	QUESTIONED AMOUNT PAID	RATIONALE FOR QUESTIONED COST	DOCUMENTATION TO SUPPORT QUESTIONED COST
3	Video Assessment Survey (see Exhibit A-3)	\$ 900.00	\$ 900.00	Taking a video of the project site is for the convenience of the CM to document conditions and is not a cost of the work. The District/Owner paid for Builders Risk Insurance to cover it's risk and is not responsible for the CM's decision or cost to video the project. The CM is required to take monthly photographs for each monthly payment application.	CM Agreement Article 3.5.1 Construction Phase. Division 1 General Requirements Specification Section 01320 Construction Progress Documentation 1.07 Construction Photographs (see Exhibit E). General Conditions Article 25.02.01 COST AND EXPENSES INCLUDED IN FEE, 25.02.01.e. "General operating expenses incurred in the management and supervision of the project, except as expressly included in Article 26 of the General Conditions" (see Exhibit C).
4	Labor for running Temporary Fence (see Exhibit A-4)	\$ 201.68	\$ 201.68	Temporary fencing is not allowed as a Cost of the Work, as these costs are part of the Construction Phase and General Conditions Fees.	1. CM Agreement Article 3.5.1., Division 1 General Requirements Specification Section 01560 Temporary Barriers & Enclosures, 1.04 Fencing (see Exhibit H). 2. The Construction Manager Agreement Article 7 Construction Manager's Fees, identifies the General Conditions Article 26 Cost of the Project, Section 26.2.04 "Cost including transportation and maintenance of all materials, supplies, equipment, temporary facilities and hand tools not owned by the workmen, which are employed or consumed in the performance of the work" and Section 26.2.16 "Costs for such temporary facilities at the Project site during construction, as approved by the Owner, including temporary water, heat, power, sanitary facilities and telephones", are to be included in the General Conditions Fee and is not a Cost of the Work (see Exhibit B).
	Clean up labor for Tropical Storm Fay	\$ 128.88	•	The cost for clean up labor is included in the two referenced contract documents as part of the CM's fees and is not a part of the Cost of Work.	CM Agreement Article 3.5.1., Division 1 General Requirements Specification Section 01740 Cleaning, identifies clean up cost as part of the Construction Phase Fee and not a Cost of the Work (see Exhibit K).
5	(see Exhibit A-5)				2. The Construction Manager Agreement Article 7 Construction Manager's Fees, identifies the General Conditions Article 26 Cost of the Project, Section 26.02.10, "Cost for trash and debris control and removal from the site", are to be included in the General Conditions Fee and not a Cost of the Work (see Exhibit B).
	Clean up labor for Tropical Storm Fay	\$ 379.76	•	The cost for clean up labor is included in the two referenced contract documents as part of the CM's fees and is not a part of the Cost of Work. #### **CONTRACT CHANGE ORDER**

**CHANGE ORDER NO.:** 

1423-1

DATE:

May 15, 2008

JOB NAME:

Norcrest Elementary - SBBC Project 05612-24-01.

3951 NE 16th Ave., Pompano Beach, FL 33064

CONTRACTOR:

**Stiles Construction Company** 

300 SE 2nd Street

Ft. Lauderdale, FL 33301

Attention: Lori Douvris, Project Manager Sent Via Email: Lori Douvris@stiles.com Phone: 954-786-1936 / Fax: 954-786-1857

CABINETRY & CASEWORK

Cayman National Manufacturing & Installation, Inc.

1301 S.W. 34th Avenue Deerfield Beach, FL 33442

954.421.1170 Fax: 954.421.0028 Info@CaymanMfg.Com

EFFECTS EXISTING WORK - REPLY REQUESTED ASAP.

YES NO

Please note that all Approved Change Orders may add time to the original contract schedule

#### PROPOSED CHANGES:

Norcrest Elementary – SBBC Project 0561-24-01 was bid as Cayman standard hardware.

Change from Cayman's standard pulls to Stanley 4484-US 26D Pulls per Song & Associates' request:

Total Additional Cost for 250 pulls ...... \$ 1,242.00

Note: Cayman recommends the 96mm c/c satin chrome pulls. This pull has been used on the following Broward County projects: Cooper City High School (Cooper City, FL), BAK Middle School project. Other Counties: Forrest Hill High School, Boca Raton High School, Palm Lakes Elementary, State School E-1, State School W-1, Carol City High School, & etc.

# Please fax approval/disapproval. No work will commence without prior authorization!

WE AGREE hereby to make the change(	(s) specified above at this price:
Signature & Title Cayman Nat'l Manufacturing, Inc.	Ken Beane, Chief Estimator
ACCEPTED – The above prices and spe accepted. All work to be performed un unless otherwise stipulated.	cifications of this Change Order are satisfactory and are hereby nder same terms and conditions as specified in original contract

Sent: Thu Aug 16 09:11:43 2007 Subject: #70011 C&F Electric

Hiya,

Received invoice from the above in the amount of \$18,743.21 for demo old building and reconnect all systems of existing Bldg.#7. Is there a contract for this invoice?

Thanks for help.

Kathryn

#### Norcrest Elementary School - P.000105 Builders Risk Insurance Premium Analysis

Upon review of the above project's Builders Risk Insurance invoices and payments, OCA determined the following.

The 8/15/07-8/4/09 Axis Surplus Insurance Company (Carrier) Builders Risk Insurance Policy ECM-734271012007 had an earned premium of \$257,705. This policy was extended twice from 8/5/09 to 6/15/10 with an earned premium of \$42,466 and 6/16/10 to 8/31/10 with an earned premium of \$9,699. A total premium of \$309,870 was paid out within the extended substantial completion / certificate of occupancy date of 8/20/10.

The total adjusted allowance for the Builders Risk Insurance Policy is \$555,961. Less the earned premium amount of \$309,870 leaves a remaining balance of \$246,091 accrued savings to the Owner. The total accrued savings amount \$246,091 less prior buy out savings returned \$200,918.37 leaves an additional balance of \$45,172 left to be transferred to the Owner's Savings.

A page in binder identified a builder's risk credit of \$2,552.69. If such a credit was issued from Willis North America, Inc. through the Axis Surplus Insurance Company, the owner would be entitled to the credit which would increase the buyout savings due the owner in paragraph three above from \$45,172 to \$47,724.69.

## The School Board of Broward County, Florida

# Office of the Chief Auditor

# Patrick Reilly, Chief Auditor

September 17, 2013

TO:

J. Paul Carland II, General Counsel

Thomas C. Cooney, Assistant General Counsel

Office of The General Counsel

FROM:

Mr. Robert Goode, Manager

**Facility Audits** 

VIA:

Mr. Patrick Reilly, Chief Auditor

Office of the Chief Auditor

SUBJECT:

Draft Internal Audit Report - Additional Questioned Cost

Review of Norcrest Elementary School #0561-24-01/P.000105

**Phased Replacement Phase III of III** 

Financial Close Out - Final Change Order No. 5

Agenda Item JJ-99D

#### Gentlemen:

Upon further review of the subject audit, we have found an additional category of questioned costs we wish to add a new item number 68 to the exhibit "A" spreadsheet.

New Item No. 68 identifies performance and payment bond premiums that the CM incorrectly charged as cost of work items. Article 7.1 of the Construction Manager's Agreement, establishes that General Conditions Article 26.02.06 "Cost of the premiums for all insurance and cost of premiums for all bonds which the Construction Manager is required to procure by this Agreement specifically for the construction project" is included in the CM's General Conditions Fee and is not to be charged as a cost of work item.

The following bond premiums were found in the CM's Cost of Work Binders and the related subcontractor original contract schedule of values.

American Engineering & Development Corp.

Cayman National Manufacturing & Installation

Subcontractor

Performance & Payment Bond Premiums

\$24,187

See Note on next page.

# **EXHIBIT A-68**

#### **Subcontractor**

# Performance & Payment Bond Premiums (Continued)

Latite Roofing & Sheet Metal, LLC	\$7,467
Honley Plupabing TYTY	~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~~
I of 111 . The O Assessment of	1,586 7
Caribbean Fire & Accessories	20,459
Total Premium Refund	\$83,023

The following subcontractors have evidence of bond premiums as follows; shown in their schedule of values but combined with other costs, change orders charging bond premiums, Shell Subcontractors that require bonding and evidence of supplying bonds without premium documentation. I have applied bond premium standard rates to approximate the potential additional premiums refund due SBBC.

Subcontractor	Original Contract	Premium Multiplier	Perf & Pay Bond Premiums					
Hyvac, Inc. Pre Stressed Conc. In (Shell Subcontractor)		1.5% 1.5%	\$25,150 4,635					
Southern State Maso (Shell Subcontractor	*	2.0%	6,608					
Steel Fabricators, Inc (Shell Subcontractor		2.0%	8,454					
Lotspeich	359,089	1.5%	5,386					
Division 9 Total Potential Prem	681,943 ium Refund	2.0%	13,639 \$63,872					
Total all identified bond premium refunds and potential refunds\$146,895								

cc: Gerardo Usallan, Jr., Manager, Facility Audits

Joe Wright, Auditor III

Attachments

NOTE: These three items total \$30,192 and are not allowed as a Cost of Work per Office of the General Counsel Legal Opinion Memorandum dated 11-5-2013

## SUBCONTRACTOR'S APPLICATION FOR PAYMENT

STILES#

3-70011

I hereby certify that this breakdown of the cost of work is true and accurate, to the best of my knowledge and belief, and that the amounts shown in the "Materials" column are only materials supplied to the above captioned project under order of my firm, in pursuit of the completion of the scope-of-work as stipulated in the subcontract between AMERICAN ENG. & DEV. CORP. and STILES CONSTRUCTION CO. (Contractor). I further certify that funds due my firm under this document shall be used first and foremost to satisfy any financial obligations incurred in connection with completion of this subcontract.

I also certify that payments, less applicable retention, have been made through the period covered by payments received from the contractor, to (1) all my subcontractors (sub-subcontractors) and (2) for all materials and labor used in or connection with the performance of this Contract. I further certify I have complied with Federal, State, and local tax laws, including Social Security laws and Unemployment Compensation laws insofar as applicable to the performance of this contract.

I further certify that all materials delivered to the site or any other location, for temporary storage, which have been installed as part of the work have been purchased from only those supply houses or vendors listed on my contractors affidavit, or as amended hereon, (or amended on prior applications for payment). Furthermore, I understand that my next application for payment must be accompanied by releases of lien from said suppliers in the amount shown in column "I".

Furthermore, in consideration of the payment received and upon receipt of the amount due, the undersigned does hereby waive, release and relinquish all claim or right of lien which the undersigned may now have upon the premises above described.

Additio	ons to list of suppliers as shown on Contractor's Affidavit:

#### SUBCONTRACTOR'S APPLICATION FOR PAYMENT

I hereby certify that this breakdown of the cost of work is true and accurate, to the best of my knowledge and belief, and that the amounts shown in the "Materials" column are only materials supplied to the above captioned project under order of my firm, in pursuit of the completion of the scope-of-work as stipulated in the subcontract between <a href="Latite Roofing & Sheet Metal.LLC">Latite Roofing & Sheet Metal.LLC</a> and STILES CONSTRUCTION CO. (Contractor). I further certify that funds due my firm under this document shall be used first and foremost to satisfy any financial obligations incurred in connection with completion of this subcontract.

I also certify that payments, less applicable retention, have been made through the period covered by payments received from the contractor, to (1) all my subcontractors (sub-subcontractors) and (2) for all materials and labor used in or connection with the performance of this Contract. I further certify I have complied with Federal, State, and local tax laws, including Social Security laws and Unemployment Compensation laws insofar as applicable to the performance of this contract.

I further certify that all materials delivered to the site or any other location, for temporary storage, which have been installed as part of the work have been purchased from only those supply houses or vendors listed on my contractors affidavit, or as amended hereon, (or amended on prior applications for payment). Furthermore, I understand that my next application for payment must be accompanied by releases of lien from said suppliers in the amount shown in column "I".

Furthermore, in consideration of the payment received and upon receipt of the amount due, the undersigned does hereby waive, release and relinquish all claim or right of lien which the undersigned may now have upon the premises above described.

TO:

J. Paul Carland II, General Counsel

Thomas C. Cooney, Assistant General Counsel

Office of The General Counsel

FROM:

Mr. Robert Goode, Manager

**Facility Audits** 

VIA:

Mr. Patrick Reilly, Chief Auditor

Office of the Chief Auditor

SUBJECT:

**Draft Internal Audit Report - Additional Questioned Cost** 

Review of Norcrest Elementary School #0561-24-01/P.000105

**Phased Replacement Phase III of III** 

Financial Close Out - Final Change Order No. 5

Agenda Item JJ-99D

#### Gentlemen:

Upon further review of the subject audit, we have found an additional category of questioned costs we wish to add a new item number 68 to the exhibit "A" spreadsheet.

New Item No. 68 identifies performance and payment bond premiums that the CM incorrectly charged as cost of work items. Article 7.1 of the Construction Manager's Agreement, establishes that General Conditions Article 26.02.06 "Cost of the premiums for all insurance and cost of premiums for all bonds which the Construction Manager is required to procure by this Agreement specifically for the construction project" is included in the CM's General Conditions Fee and is not to be charged as a cost of work item.

The following bond premiums were found in the CM's Cost of Work Binders and the related subcontractor original contract schedule of values.

#### **Subcontractor**

#### **Performance & Payment Bond Premiums**

American Engineering & Development Corp.	\$24,187
Tilt Con Corp (A shell subcontractor)	19,505
Cayman National Manufacturing & Installation	4,419

# **EXHIBIT A-69**

#### **Subcontractor**

#### Performance & Payment Bond Premiums (Continued)

Latite Roofing & Sheet Metal, LLC	\$7,467
Healey Plumbing	5,400
Caribbean Fire & Accessories	1,586
Ion Electric, LLC	<u>20,459</u>
Total Premium Refund	\$83,023

The following subcontractors have evidence of bond premiums as follows; shown in their schedule of values but combined with other costs, change orders charging bond premiums, Shell Subcontractors that require bonding and evidence of supplying bonds without premium documentation. I have applied bond premium standard rates to approximate the potential additional premiums refund due SBBC.

Subcontractor	<b>Original Contract</b>	Premium Multiplier	Perf & Pay Bond Premiums
Hyvac, Inc.	1,676,700	1.5%	\$25,150
Pre Stressed Conc. (Shell Subcontracto		1.5%	4,635
Southern State Mas (Shell Subcontracto	•	2.0%	6,608
Steel Fabricators, Ir (Shell Subcontracto		2.0%	8,454
Catamaiah	359,089	1.5%	5,386
Lotspeich	339,069	1.570	3,500
Division 9	681,943	2.0%	13,639
Total Rotantial Resk	niskm Refund L	UUUUU	WW\$83,872W

Total all identified bond premium refunds and potential refunds......\$146,895

cc: Gerardo Usallan, Jr., Manager, Facility Audits Joe Wright, Auditor III

Attachments

These two items total \$19,025.
They are not allowed as a
Cost of Work per Office of the
General Counsel Legal Opinion
Memorandum
dated 11-5-2013.

# FORM OF AGREEMENT BETWEEN OWNER AND CONSTRUCTION MANAGER

THIS AGREEMENT made and entered into this 7th day of June in the year 2005 by and between

# THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

(hereinafter referred to as Owner) and

Stiles Construction Co.
300 SE 2nd Street
Fort Lauderdale, FL 33301
Tel: 954-627-9150
Fax: 954-627-9174
Federal Employer Identification Number
State of Incorporation - Florida

(hereinafter referred to as "Construction Manager")

Fixed Limits of Construction Cost (FLCC): \$10,500,000

WHEREAS, Owner is the owner of certain real property located in Broward County and Owner desires to have:

Phased III Replacement Norcrest Elementary School 3951 NE 16th Avenue Pompano Beach, FL 33064

constructed pursuant to drawings, specifications and other contract documents prepared by or to be prepared by,

Song and Associates, Inc.

(hereinafter referred to as Project Consultant)

WHEREAS, the Construction Manager is desirous of performing the Work in accordance with the Contract Documents and all applicable laws, codes and ordinances.

NOW THEREFORE, in exchange for the mutual covenants and promises set forth herein and the sums of money agreed to be paid by the Owner to Construction Manager, the parties agree as follows:

# ARTICLE I THE PROJECT CONSTRUCTION TEAM AND ENTIRE AGREEMENT

The Construction Manager, Stiles Construction Co., accepts the relationship of trust and confidence established between it and the Owner by this Agreement. It covenants with the Owner to furnish its best skill and judgment and to cooperate with the Project Consultant in furthering the interests of the Owner. It agrees to furnish efficient business administration and superintendence and use its best efforts to complete the project in the best and soundest way and in the most expeditious and economical manner consistent with the interest of the Owner.

- 1.2 The Project Construction Team The Construction Manager, the Owner and the Project Consultant, called the Project Construction Team, shall work jointly during design and through the completion of the warranty phase and shall be available thereafter should additional services be required. The specific representatives of the Construction Team are shown in Exhibit A attached to the General Conditions.
- Entire Agreement This Agreement between the Owner and the Construction Manager supersedes any prior negotiations, representations or agreements with respect to the project. When drawings, specifications and other descriptive documents defining the Work to be included in the Guaranteed Maximum Price (GMP) is completed pursuant to Article 6, an Addendum to the Agreement shall be signed by the Owner and Construction Manager, acknowledging the GMP amount and the drawings, specifications and other descriptive documents upon which the GMP is based. When drawings, specifications and other descriptive documents defining the Work to be included under a Notice to Proceed are completed pursuant to Article 6, they shall be identified in the Notice to Proceed issued by the Facilities Project Manager. To expedite the preparation of this GMP Addendum by the Owner, the Construction Manager shall obtain three (3) sets of signed, sealed and dated drawings, specifications and other documents upon which the GMP is based from the Project Consultant. The Construction Manager shall acknowledge, by signature, on the face of each document of each set that it is the set upon which the Construction Manager based the GMP and shall send one set of the documents to the Owner's Project Manager along with his GMP proposal, while keeping one set for himself and returning one set to the Project Consultant.
- This Construction Management At Risk Contract, along with the Contract Documents consisting of the Agreement Form, M/WBE goals as set forth in the Request for Qualifications, Documents contained in the Project Manual (including but not limited to Division 0 and 1), a listing of which is attached to the GMP Addendum, General and Supplementary Conditions, Addenda, Drawings, Specifications, and modifications issued after execution of the Contract embodies the entire agreement between Owner and Construction Manager and supercedes all other writings, oral agreements, or representations.

The parties shall not be bound by or be liable for any statement, representation, promise, inducement or understanding of any kind or nature not set forth herein.

No changes, amendments or modifications of any of the terms or conditions of the contract shall be valid unless reduced to a written instrument and signed by both parties.

#### ARTICLE 2 THE WORK

- The Construction Manager shall perform all of the Work required by the Contract Documents and shall provide materials, supplies, tools, equipment, labor and services directly related to the Work. The CM shall perform the Work in a good and workmanlike manner with sufficient manpower to meet the time and quality requirements set forth in the Contract Documents, and shall provide and perform all other work and services necessary to complete the Work in strict accordance with the Contract Documents.
- When completed, the Work shall conform to the requirements of the Contract Documents and be ready for Substantial Completion and Final Completion.
- 2.3 The Construction Manager represents and warrants to the Owner that:
  - .1 It is financially solvent and has sufficient working capital to perform it's obligations under this Construction Contract;
  - .2 It is experienced and skilled in the construction of the type of project described in the Contract Document;
  - .3 It is able to provide the labor, materials, services, equipment and machinery necessary to complete the Work for the agreed upon price;

- .4 It is fully licensed under all applicable laws and authorized to do business as a General Contractor in the State of Florida in the name of the entity identified as the "Construction Manager" in the Construction Contract;
- 15 It has visited the jobsite and examined its nature and location, prior to submission of the GMP, including without limitation: the surface conditions of the site and any structure or obstruction both natural or man-made; the surface water conditions and water ways of the site and surrounding area; the subsurface conditions of the land as disclosed by soil test borings as provided by the Owner and the location of electric and utility lines and water, sanitary, sewer and storm drain lines as provided by the Owner. The Construction Manager acknowledges receipt and has reviewed the site geotechnical report provided by the Owner.
- .6 It will comply with all federal, state and local governmental laws, rules and regulations relating to its responsibilities as set forth in the Contract Documents; where a conflict exists between any laws and/or regulation, the most stringent shall apply.
- .7 It will comply with the Workforce Composition requirements, M/WBE program goals, and submit and comply with the Certificate of Intent requirements.
- .8 It will review the Consultant's Design and Construction documents and provide comments in accordance with contract requirements.

#### ARTICLE 3 CONSTRUCTION MANAGER'S SERVICES

The services of the Construction Manager shall include, but are not limited to, those described or specified herein. The services described or specified shall not be deemed to constitute a comprehensive specification having the effect of excluding services not specifically mentioned. The Construction Manager shall also comply with all requirements of the Florida Building Code (FBC) and Florida Fire Prevention Code, in effect as of the date the building permit(s) is issued.

#### 3.2 PRE-DESIGN PHASE

- The Construction Manager shall review project requirements, educational specifications, on and off-site development, survey requirements, preliminary budget, and make value engineering and constructability recommendations for revisions to the Owner and Project Consultant in the form of a written report prior to final payment for this phase.
- The Construction Manager shall, subject to Owner's approval and compliance with existing Owner completion schedule, establish a preliminary master project schedule identifying all phases, Critical Path elements, responsibilities of the Owner, Project Consultant, outside agencies, third parties and any other impacts which would affect project schedule and progress and update them monthly throughout the duration of the contract.
- Where the project includes renovation or expansion of an existing Facility, the Construction Manager will assist the Construction Team in, preparing an analysis package outlining the condition of the existing Facility, existing structure, existing finishes, and existing equipment, code deficiencies, energy use, and life expectancy of other building systems by providing constructability, value engineering and cost estimates recommendations. The package should contain the Construction Managers recommendations, cost estimates and preliminary schedules. Such information shall be provided to the Owner and Project Consultant in the form of a written report prior to final payment for this phase.
- .4 The Construction Manager shall prepare detailed cost estimates and recommendations to Owner

and Project Consultant at S.D., (Schematic Design), D.D (Design Development) C.D. (50% and 100% Construction Documents) phases of the project. Such information shall be provided to the Owner and Project Consultant in the form of a written report prior to final payment for each phase.

- The Construction Manager shall provide project delivery options for the design, bid, and bid packaging of the project for efficient scheduling, cost control and financial resource management. Such information shall be provided to the Owner and Project Consultant in the form of a written report prior to final payment for this phase.
- The Construction Manager shall utilize information and reporting systems to provide the Owner with monthly reports containing accurate and current cost controls, work status, including but not limited to Work narrative, Work completed/anticipated, short term and long term schedules estimated expenditures, and project accounting systems of the project at all times. Such information shall be provided to the Owner and Project Consultant in the form of a written report, prior to final payment for this phase.
- .7 The Construction Manager shall prepare a report with the Project Team's participation which shall describe, as a minimum, the Work plan, job responsibilities, and written procedures for reports, meetings, inspections, changes to the project, building systems and delivery analysis and other relevant matters. Such information shall be provided to the Owner and Project Consultant prior to final payment for this phase.
- The Construction Manager shall provide market analysis and motivation for subcontractor interest and recommendations for minority business participation. This shall include analysis of the Construction Manager's historical data for subcontracting, communication with contractor and trade organizations requesting participation, review of the Owner's M/WBE data, advertising, outreach programs, mailings to all prospective bidders identified by these actions, and reporting of all of the forgoing to the Owner, Such information shall be provided to the Owner and Project Consultant in the form of a written report prior to final payment for this phase.
- .9 The Construction Manager's personnel to be assigned during this phase and their duties and responsibilities to this project and the duration of their assignments are shown on Exhibit D to the General Conditions. All required reports and documentation shall be submitted and approved by the Owner as pre-requisite to progress payments to the Construction Manager by the Owner during this phase.

#### 3.3 **DESIGN PHASE**

- The Construction Manager will be required to attend all project related meetings and include a summary of the meeting in its monthly report to the Owner as specified in Document 01310.
- The Construction Manager will periodically review to the best of their abilities all Contract documents for constructability and compliance with applicable laws, rules, codes, design standards, and ordinances. Such information shall be provided to the Owner and Project Consultant in the form of a written report in format as noted herein prior to final payment for this phase (Refer to exhibits G and H).
- .3 The Construction Manager will be required to work with and coordinate their activities with any additional consultants, or testing labs and others that Owner provides for the project and report all findings as specified in Document 01310.
- .4 The Construction Manager shall review all Contract documents for the new and existing buildings and/or building sites and provide value engineering recommendations to minimize the Owner's

capital outlay and maximize the Owner's operational resources. Such information shall be provided to the Owner and Project Consultant in the form of a written report prior to final payment for this phase. All such recommendations shall be acknowledged and incorporated into the construction documents by the Project Consultant unless otherwise authorized by the Owner in writing.

- .5 The Construction Manager will review construction documents and the new and existing buildings conditions and/or building site to reduce to the best of their abilities conflicts, errors and omissions and shall coordinate with the Project Consultant in order to eliminate change orders due to errors, omissions and unforeseen conditions.
- The Construction Manager shall periodically update the master project schedule and make recommendations for recovery of lost time. Such information shall be provided to the Owner and Project Consultant in the form of a written report prior to final payment for this phase.
- .7 The Construction Manager will coordinate with the Project Consultant and provide to the Project Construction Team permitting applications and requirements for the projects. The Construction Manager will periodically update cost estimates and make recommendations to keep the project within the FLCC.
- AT COMPLETION OF THE CONSTRUCTION MANAGER'S REVIEW OF THE PLANS AND SPECIFICATIONS, EXCEPT ONLY AS TO SPECIFIC MATTERS AS MAY BE IDENTIFIED BY APPROPRIATE WRITTEN COMMENTS PURSUANT TO THIS SECTION, THE CONSTRUCTION MANAGER SHALL WARRANT, WITHOUT ASSUMING THE PROJECT CONSULTANT'S RESPONSIBILITIES, THAT THE PLANS AND SPECIFICATIONS ARE CONSISTENT, PRACTICAL, FEASIBLE AND CONSTRUCTIBLE. CONSTRUCTION MANAGER SHALL WARRANT THAT THE WORK DESCRIBED IN THE PLANS AND SPECIFICATIONS FOR THE VARIOUS BIDDING PACKAGES IS CONSTRUCTIBLE WITHIN THE SCHEDULED CONSTRUCTION TIME.
- 9 <u>DISCLAIMER OF WARRANTY</u>: THE OWNER DISCLAIMS ANY WARRANTY THAT THE PLANS AND SPECIFICATIONS FOR THE PROJECT ARE ACCURATE, PRACTICAL, CONSISTENT OR CONSTRUCTIBLE OR WITHOUT DEFECT.
- .10 The Owner may select certain projects for expediting using fast-track construction. When this option is exercised, in writing, by SBBC, it shall be implemented in accordance with the following;
  - A. Design/Construction documents as noted herein shall be submitted by the Consultant for review and approval by SBBC (including Building Code review and Building permit issuance for 100% completion documents) the Construction Manager and others, as applicable, having jurisdiction;
    - 1. Foundation / Structural / LCCA / Site and Off-Site Package 100% Documents
      - (a) A separate 50% completion progress set (for information only) of Building Finish Package drawings shall also be submitted which shall show all of the major characteristics of the project utilities and service, detailed site and floor plans, elevations, sections, schedules, etc.
      - (b) Construction may begin after approvals and building permit is obtained for above package.
    - Building Finish Package 100% Documents
    - 3. As mutually agreed by the parties in writing.

Guaranteed Maximum Price (GMP): Upon completion of the design phase [construction documents 100% complete] and prior to the bidding and award phase, the Construction Manager shall present to the Owner the GMP for the Owners review and approval in accordance with Article 6 of this Agreement.

#### 3.4 BIDDING AND AWARD PHASE

- At this stage the Construction Manager assumes the leadership responsibility for the project team. Upon obtaining all necessary approvals of the Construction Documents including a Building Permit as required by the FBC and Owner approval of the latest Statement of Probable Construction Cost, the Construction Manager shall obtain bids and commence awarding construction contracts. The Owner will have the drawings and specifications printed for bidding purposes, either through its open Agreements with printing firms or as a reimbursable service through the Project Consultant, or as set forth in Article 26.03.08 in the General Conditions of this CM Agreement.
- The Construction Manager shall review the Owners records of pre-qualified contractors, including Minority/Women Business Enterprises (M/WBEs), and prepare a list of those recommended for work pursuant to this contract. The Owner reserves the right to reject any or all subcontractors recommended for approval. The Construction Manager shall maintain a list of all potential bidders, including M/WBEs and those who are approved as pre-qualified.
- .3 The Construction Manager shall prepare and issue the bid packages to cover the scope of the Work for this contract.
- The Construction Manager, in coordination with the Owner, shall schedule pre-bid conferences as required and issue a written summary of the conference(s).

#### .5 Solicitation of Bids:

- The Construction Manager shall enter into Contracts with the firm who submits the lowest, responsive and responsible bid. The Construction Manager shall advertise according to SBBC policies as amended from time to time for bids on Document 00101 at least three (3) times, seven (7) days apart, and with the third (3rd) advertisement prior to a pre-bid conference if applicable and at least seven (7) days prior to the bid opening. Written proposals based on drawings and/or specifications shall be submitted to the Construction Manager. The written proposals shall all be opened at the usual location for bid openings. A tabulation of the results shall be furnished by Construction Manager to the Owner.
- The Construction Manager and Owner, shall open at the Construction Manager location and evaluate at least three bids, if possible, for each portion of the Work solicited. The Construction Manager shall also make recommendations to the Owner for award to the lowest, responsive, and responsible bidder. A recommendation for award to other than the lowest bidder shall be justified in writing.

#### 3.5 CONSTRUCTION PHASE

The Construction Manager shall fully comply with the provision of the Owner's Project Manual, including but not limited to Division 0 and 1, and the attached General Conditions of this contract. In the event of a conflict between this Agreement and such documents the agreement shall control.

- .2 The Construction Manager shall provide the following minimum staffing level as set forth in Exhibit C-F for this project:
- The Construction Manager shall maintain and prepare monthly updates for all project schedules, including Critical Path elements, provide written progress reports, describe problems and corrective action plan(s) and conduct briefings as required by the Owner. Such information shall be provided to the Owner and Project Consultant in the form of a written report with progress payments requests.
- .4 The Construction Manager may self perform certain construction work when it benefits the Owner, results in cost and time savings, and is pre-approved by the Owner in writing.
- .5 The Construction Manager shall coordinate project close-out, operation, and transition to occupancy.
- The Construction Manager shall coordinate with the Project Consultant to provide complete project records including project manual, and electronic Computer Assisted Drafting (CAD) drawings corrected to show all construction changes, additions, and deletions. (Construction Manager shall note make all changes on the as-builts for the Project Consultant to reflect on the drawings and CAD disc.)
- .7 The Construction Manager shall coordinate with the Owner's staff to prepare the Certificate of Final Inspection.
- .8 The Construction Manager shall obtain and review all warranties, operations and maintenance manuals and other such documents, for completeness, have them corrected if necessary and submit them to the Owner.
- The Construction Manager shall complete all punch list items generated by the Building Code Inspector (BCI), the Owner, the Project Consultant and any others having jurisdiction over the project, during its inspections.

#### 3.6 WARRANTY PHASE

- The Construction Manager shall provide a minimum one (1) year warranty and shall coordinate and supervise the completion of warranty Work during the warranty period. Construction Manager shall participate with the Owner in conducting of warranty inspections held on the sixth (6th) and eleventh (11th) months after occupancy. Construction Manager shall deliver as-built drawings, warranties and guaranties to the Owner.
- Where any Work is performed by the Construction Manager's own forces or by subcontractors under contract with the Construction Manager, the Construction Manager shall warrant that all materials and equipment included in such Work will be new except where indicated otherwise in Contract Documents, and that such Work will be free from improper workmanship and defective materials and in conformance with the Drawings and specifications. With respect to the same Work, the Construction Manager further agrees to correct all work found by the Owner to be defective in material and workmanship or not in conformance with the Drawings and Specifications for a period of one year from the Date of Owner Occupancy of the Project or a designated portion thereof or for such longer periods of time as may be set forth with respect to specific warranties contained in the trade sections of the Specifications or by Florida Law. The Construction Manager shall collect and deliver to the Owner any specific written warranties given by others as required by the Contract Documents.

- The Construction Manager shall provide a Warranty Summary Report at the end of the 6-month warranty period and 11-month warranty period. This report shall provide at a minimum;
  - (1) Description of each warranty item during the period.
  - (2) Date item reported to Construction Manager.
  - (3) Date item corrected. If more than one trip required, document each.
  - (4) Description of action taken to cure warranty item.
  - (5) Obtain signature of school principal or designee acknowledging warranty items have been completed.
  - (6) Other pertinent information, if applicable.

#### ARTICLE 4

### SCHEDULE, TIME OF COMMENCEMENT AND SUBSTANTIAL COMPLETION

Prior to commencement of the Construction Phase, the Owner shall issue to the Construction Manager, in writing, a Notice to Proceed (NTP) for the Construction Phase. The NTP shall include a project substantial completion date, a project final completion date and an Owner Occupancy date for completion of the project in accordance with the master project schedule in accordance with the GMP Addendum. The Construction Manager agrees to complete the construction in accordance with the agreed upon substantial completion date and final completion date.

#### ARTICLE 5 LIQUIDATED DAMAGES

- 5.1 LIQUIDATED DAMAGES FOR SUBSTANTIAL COMPLETION
- 5.1.01 The Construction Manager shall pay the Owner the sum of:
- 5.1.02 Fifteen hundred dollars (\$1,500) per day for each and every calendar day of unexcused delay in achieving Substantial Completion beyond the date set forth in the contract documents for Substantial Completion of each phase, if phased, or the project, if not phased.
- Owner and Construction Manager acknowledge that any sums due and payable hereunder by the Construction Manager shall be payable, not as a penalty, but as liquidated damages representing a reasonable estimate of delay damages, inconvenience, additional overhead and costs likely to be sustained by the Owner as estimated at the time of executing this Contract. If the Owner reasonably believes in its discretion that Substantial Completion will be delayed, the Owner shall be entitled, but not required, to withhold from any amounts otherwise due the Construction Manager an amount then believed by the Owner to be adequate to recover liquidated damages applicable to such delays. If and when in the Owner's discretion the Construction Manager overcomes the delay in achieving Substantial Completion, or any part thereof, for which the Owner has withheld payment, the Owner shall promptly release to the Construction Manager those funds withheld, but no longer applicable, as liquidated damages.
- Partial use or occupancy of the Work may not result in the Work being deemed substantially completed, and such partial use or occupancy may not be evidence of Substantial Completion.
- 5.1.05 Substantial Completion, in the context of this Contract, does not refer to any prior dates wherein the Owner employs other contractors to work on the same site of the Project or Work.
- 5.2 LIQUIDATED DAMAGES FOR FINAL COMPLETION:
- 5.2.01 If the Construction Manager fails to achieve final completion within 60 days of the date of Substantial Completion, the Construction Manager shall pay the Owner the sum of:

five hundred dollars (\$500) per day for each and every calendar day of unexcused delay in achieving final completion beyond the date set forth for final completion of the Work.

- Any sums due and payable hereunder by the Construction Manager shall be payable, not as a penalty, but as liquidated damages representing a reasonable estimate of delay damages, inconvenience, additional overhead and costs likely to be sustained by the Owner, as estimated at or before the time of executing this Contract. When the Owner reasonably believes that final completion will be inexcusably delayed, the Owner shall be entitled, but not required, to withhold from any amounts otherwise due the Construction Manager an amount then believed by the Owner to be adequate to recover liquidated damages applicable to such delays.
- Prior to being entitled to receive final payment, and as a condition precedent thereto, the Construction Manager shall provide the Owner, in the form and manner required by Owner, if any, the following:
  - An affidavit that Construction Manager's obligations to all subcontractors, laborers, equipment or suppliers, or other third parties in connection with the Project, have been paid or otherwise satisfied;
  - .2 Such other documents as required by the Project Manual from each subcontractor, lower tier subcontractor, laborer, supplier or other person or entity who has or might have a claim against the Owner including but not limited to final releases of lien;
  - All product warranties, operating manuals, instruction manuals and other documents customarily required of the Construction Manager or reasonably required by Owner, including but not limited to those required elsewhere in the Contract Documents, as part of its Project Closeout procedures;

# ARTICLE 6 GUARANTEED MAXIMUM PRICE FOR CONSTRUCTION

- The Construction Manager shall submit a written Guaranteed Maximum Price (GMP) for Construction to 6.1 the Owner when the Construction Documents are 100% complete, see Exhibit 1 to the Agreement. Work shall not commence prior to the issuance of a Building Permit by the Chief Building Official. This indicates that all mandatories have been met (defined as Building Department code requirements.) Further, the agreed upon comments are required to be incorporated into the drawings at this stage. When design review "approval" is withheld, the documents must be resubmitted. The GMP shall guarantee the maximum price for the construction cost of the project or designated part thereof, for phased projects, and shall be approved by the Owner. Such Guaranteed Maximum Price will be subject to modification for changes in the project as provided in Article 27 of the general conditions. However, the actual price paid for the Work by the Owner shall be the actual cost of all Work subcontracts, supply contracts, direct labor costs, direct supervision costs, and direct job costs as defined under Article 26 of the general conditions, plus the Construction Manager's fees or the GMP, whichever is less when the Work is complete. OWNER SHALL NOT BE LIABLE FOR NOR SHALL IT PAY CONSTRUCTION MANAGER ANY SUMS IN EXCESS OF THE GUARANTEED MAXIMUM PRICE. CONSTRUCTION MANAGER AGREES THAT ANY AND ALL SAVINGS BELONG AND/OR REVERT BACK TO THE OWNER.
  - At the time of submission of a GMP, the Construction Manager will verify the time schedule for activities and work which were adopted by the Construction Team and used to determine the Construction Manager's cost of Work. In addition to the cost of Work, the GMP will include an agreed upon sum as the construction contingency which is included for the purpose of accounting for unforeseen increases or decreases in the construction cost at the time bids are received and approved by the Construction Manager and Owner and/or unforeseen circumstances. The Construction Manager will be required to furnish documentation evidencing expenditures charged to

this contingency prior to the release of funds by the Owner. The use of the contingency shall be subject to School Board approval as noted in General Conditions Article 1, Paragraph 1.1.12, if the amount requested exceeds Fifty thousand dollars (\$50,000.00) prior to disbursal to Construction Manager. The use of the contingency where the request does not exceed Fifty thousand dollars (\$50,000.00) shall be subject to the unanimous approval of the Deputy Superintendent, Facilities and Construction Management, Project Manager, Project Consultant, and Executive Director, Project Management amongst the Construction Manager and the aforementioned staff, the request for use of the contingency shall be determined by the Owner. Documentation for use of the Contingency shall be determined by the Owner, included in the Project Manual and displayed in the monthly applications for payment. The Project Consultant and Owner shall verify actual costs. If bids are received below the applicable line item of the GMP, the surplus shall be added to the contingency. All CUD's arising from the same cause and conditions shall be combined into one (1) CUD whenever possible.

- .2 When 100% of the Trade Contracts have been executed, the contingency within the GMP shall be decreased in proportion to the percent of the Work completed each month. In other words, if 10% of the Work has been completed and the Owner requests that the contingency within the GMP be adjusted, then 10% of the contingency within the GMP will be removed from the GMP by change order and will be moved to the Owners savings line item in the schedule of values. The Owner may utilize funds from the Owner saving line item in the Schedule of Values to fund added scope change orders.
- .3 If bids are received above the applicable line item in the GMP the deficiency will be taken from the contingency, however such event shall not be cause to increase the GMP. The Construction Manager will be required to furnish documentation evidencing expenditures charged to this contingency prior to the release of funds by the Owner.
- .4 If bids are not received for a portion of the Work at or below the applicable line item amount in the GMP, the Construction Manager reserves the right to perform that portion of the Work as acknowledged by the Owner or negotiate for its performance for the specified line item lump sum amount in the preliminary schedule of values referenced in the GMP or less. All uses of the authorized contingency shall be authorized by Contingency Use Directive approved by the Owner before the contingency use is implemented.
- The GMP will only include those taxes in the cost of the project which are legally enacted at the time the GMP is established.
- The Construction Manager shall submit the GMP Addendum on the Owner's approved form for approval by The School Board of Broward County, Florida.
- 6.4 IF THE GMP PROPOSAL IS UNACCEPTABLE TO THE OWNER, OWNER MAY TERMINATE THE CONSTRUCTION MANAGER AS SET FORTH IN ARTICLE 36 OF THE GENERAL CONDITIONS.

# ARTICLE 7 CONSTRUCTION MANAGER'S FEES

In consideration of the performance of the contract, the Owner agrees to pay the Construction Manager as compensation for his services, fees as set forth below:

Pre-design	\$ 17,060
Design	\$ 89,640
Bidding and Award	\$ 64,450
Construction Phase	\$638,688
Warranty	\$ 25,000
Overhead	\$468,046
Profit	\$470,884
General Conditions	\$541,232 **

General Conditions include items of Labor, Materials and Ser Services set forth in General Conditions Article 26.02

Subsections. 04, .06, .09, .10, .13, .15, .16 and .18.

Total Fee

\$2,315,000

Overhead, profit and bond allowance for Change Orders 11%

- 7.1.01 Pre-Design and Design Phase
   In the case where pre-design and design fee are agreed upon and the Construction Manager's GMP is not accepted by the Owner and the Agreement is terminated, the Construction Manager shall be entitled to receive only that portion of the pre-design and design fee representing all Work performed to date relating to the project. The Construction Manager may request payment for that part of the Contract Price allocable to Contract requirements properly provided during the pre-design and design phase.
- 7.1.02 <u>Construction Phase Fee</u> The Construction Manager may request payment proportional to that of the contract price allocable to labor, materials and equipment for the project only after receiving a written Notice to Proceed (NTP) from the Owner.
- 7.1.03 Overhead and Profit For Construction Phase Except as may be expressly included in Article 26 of the General Conditions, the Construction Manager shall receive, in addition to Article 7.1.01 and 7.1.02, overhead and profit and general expenses. The overhead and profit and general expenses shall be paid proportionally to the ratio of the cost of the Work in place. The overhead and profit and general expenses shall be approved in writing by the Owner as part of the GMP Addendum. Overhead and Profit shall be paid 100% at the time the project reaches final acceptance. The negotiated overhead and profit is inclusive of any contingency work performed.
- 7.1.04 General Conditions For Construction Phase The Construction Manager shall be paid for General Conditions proportionally to the ratio of the cost of the Work in place. However, insurance costs including builders risk, payment and performance bonds, required herein will be paid in it's entirety upon submission of proof of payment.
- 7.1.05 Fee for Change Orders In the event that the Owner approves an additive change in the work the Construction Manager shall receive from the Owner, as the amount for Construction Phase Fee, Overhead and Profit, and, General Conditions the percentage indicated above in Article 7.1. This amount shall be the Construction Manager's exclusive remedy for such changes in the Work.

## 7.2. Construction Manager's Deliverables

# 7.2.01 Pre-Design

- .1 Summary Report / Recommendations (Agreement 3.2.1)
- .2 Preliminary Master Project Schedule and monthly updates (Agreement 3.2.2)
- .3 Existing Facility Analysis package, out recommendations, Cost Estimates (Agreement 3.2.3)
- 4 Project Delivery options / packaging recommendations report (Agreement, 3.2.5)
- .5 Work Status Monthly Report (Agreement 3.2.6)
- .6 Project Manual (Agreement 3.2.7)

#### 7.2.02 Design Phase

- .1 Monthly Summary of project meetings (Agreement 3.3.1)
- .2 Document Reviews / report at each phase (Agreement 3.3, .2, .4, .5). Refer also to attached procedures and CM review form. (Exhibits G and H).
  - · Schematic Design
  - Design Development
  - 50% Construction Documents
  - 100% Construction Documents
- .3 Preliminary Master Project Schedule Updates (Agreement 3.3, .6)
  - Schematic Design
  - Design Development
  - 50% Construction Documents
- .4 Cost Estimate Updates (Agreement, 3.3, 7)
  - Schematic Design
  - Design Development
  - 50% Construction Documents
  - 100% Construction Documents
- .5 Market Analysis/sub-contractor report (Agreement, 3.2,.8)
- .6 Guaranteed Maximum Price (GMP) Manual (Agreement 3.3.10)

#### 7.2.03 Bidding and Award Phase

- .1 Proposed Subcontractor list with MWBE participation.
- .2 Bid Packages List (Agreement 3.4, .3)
- .3 Pre-bid conference attendance list and summary report (Agreement, 3.4, .4)
- .4 Recommendations for award (Agreement, 3.5, .5)
- .5 Bid advertisements (Agreement 3.4.6)

- .6 Schedule of Values (Agreement 8.1)
- .7 Fee due to the Construction Manager shall be payable.

#### 7.2.04 Construction Phase

- .1 Monthly Schedule updates and reports (Agreement, 3.5, .3)
- 2 Summary of all meetings (Agreement 3.3.1)
- .3 Preparation and submission of all close-out submittals (Agreement, 3.5.8)
- 4 Written verification of punchlist items completion, including BCI items (Agreement, 3.5.9)
- .5 Schedule of Values (Agreement 8.1).

## 7.2.05 Warranty Phase

.1 Warranty Summary Report at end of 6 months (50% of Warranty Phase fee) and 11 months (Balance of Warranty Phase Fee) Warranty Phase (Agreement 3.7, .3)

## .7.2.06 Other Deliverables

- .1 Insurance Policies (Agreement 8.1.7)
- .2 Payment Applications (Agreement 8.2 through 8.14)
- .3 Dollar Value / Time graphs (Agreement, 8.12)
- .4 Agreement Execution and Contract Bonds (Agreement 9.01)
- 5 Closeout documents as set forth in the Contract Documents.

# 7.2.07 Final Payment

.1 Payment affidavits, release of lien and other requirements (Agreement 8.15)

# ARTICLE 8 PAYMENTS TO THE CONSTRUCTION MANAGER

## 8.1 Schedule of Values:

- During the Pre-Design, Design, and Bidding and Award Phases the Construction Manager shall provide a Schedule of Values indicating the progress payment schedule and maintain payroll records for any and all staff assigned to the Work
- .2 The Construction Manager shall maintain and update the Schedule of Values originally provided to the Owner with the GMP Addendum.
- The Construction Manager's Schedule of Values apportions the GMP among the different elements of the required Work for purposes of periodic and final payments and shall be submitted as detail in support of the Contractor's monthly Application for Payment.
- .4 The Schedule of Values shall be presented with such detail, and supported with whatever information the Owner reasonably requests.
- .5 The Construction Manager shall not imbalance it's Schedule of Values nor artificially inflate any element thercof.
- .6 The Construction Manager shall supply a Schedule of Values as reflected in his CPM schedule to the OWNER. The Schedule of Values shall be updated monthly, only to reflect all subcontracts, approved change orders and change directives.

- .7 No payments shall be made to the Construction Manager prior to the receipt of all insurance policies that are required by this agreement and the work being performed.
- 8.2 The Owner shall pay the Contract Price to the Construction Manager in accordance with the procedures set forth in the Contract Documents.
- On or before the 25th day of each month after commencement of performance, but no more frequently than once monthly, the Construction Manager may submit an Application for Payment for the period ending the last day of the previous month or other pay period as mutually defined and agreed to by the Construction Manager and Owner.
- Said Application for Payment shall be in the format required in the Document 01290 and include whatever supporting information as may be required by the Owner. Ten percent (10%) retainage shall be held on all payments of that part of the contract price allocable to Contract Requirements properly provided and labor, material and equipment properly incorporated in the project. At Substantial Completion of all of the work or an Owner-Approved and completed portion of the Work, the Owner may approve a reduction of the retainage at its discretion. Retainage shall not be withheld on fees as set forth in Article 7.1.
- Owner shall Pay for materials and equipment properly stored onsite, consistent with construction sequencing and verified by the Project Manager.
- 8.6 Each Application for Payment shall be signed by the Construction Manager and shall constitute the Construction Manager's representation that the quantity of Work has reached the level for which payment is requested, that the Work has been properly installed or performed in substantial compliance with the requirements of the Contract Documents, and that the Construction Manager knows of no reason why payment should not be made as requested.
- 8.7 Thereafter, the Owner shall:
  - .1 Review the Application for Payment and may also review the Work at the Project site or elsewhere to determine whether the quantity and quality of the Work is as represented in the Application for Payment and is as required by the Contract Documents.
  - .2 Approve in writing the amount which, in the opinion of the Owner, is properly owing to the Construction Manager.
- 8.8 The amount of each such payment shall be the amount approved for payment by the Owner less such amounts, if any, otherwise owing by the Construction Manager to the Owner or which the Owner shall have the right to withhold as authorized by the Contract Documents.
- 8.9 The submission by the Construction Manager of an Application for Payment also constitutes an affirmative representation and warranty that all Work for which the Owner has previously paid is free and clear of any lien, or other encumbrance by any person whatsoever.
- As a condition precedent to partial payment, the Construction Manager shall, as required elsewhere in the Contract Documents and as required by the Owner, also provide to the Owner documents relating to the Project, including but not limited to, updated schedules and daily logs, and/or properly executed documents reflecting that all subcontractors, materialmen, suppliers or others having rights, have acknowledged receipt of all sums due pursuant to all prior Payment Requests.
- 8.11 Furthermore, the Construction Manager warrants and represent that, upon payment of the Payment Request

submitted, title to all Work included in such payment shall be vested in the Owner.

- 8.12 <u>Dollar Value/Time Graphs</u>: Each of the Construction Manager's Application for Payment shall be accompanied by a graph, prepared by the Construction Manager, that consecutively tracks the percentage of completion of both the Application for Payment's dollar value attained and the contract time (calendar days) clapsed, all coinciding with the date of the Application for Payment.
- When payment is received from the Owner, the Construction Manager shall within five (5) days pay all subcontractors, materialmen, laborers and suppliers the amounts justly due for all Work covered by such payment. In the event such payments are not made in a timely manner the Owner may, in its discretion, invoke reasonable procedures in order to protect Owner's interest or Owner's desire to assist in having subcontractors, laborers, suppliers, materialmen or others paid. By the Owner invoking reasonable procedures, it shall not relieve the Construction Manager of it's responsibilities for payments under the contract.
- 8.14 It is mutually agreed that payments made under this Contract shall not constitute acceptance of defective or improper materials or workmanship nor shall same act as a waiver or release of future performance in accordance with the Contract Documents.
- Final Payment Final payment constituting the unpaid balance of the Cost of the Project and the Construction Manager's fee, shall be due and payable as described in this Article after the Owner has accepted occupancy of the project, provided that the Project be then finally completed, that the Construction Manager has verified by its signature that it has completed all items specified, and that this Agreement has been finally performed. However, if there should remain work to be completed, the Construction Manager and the Project Consultant shall list those items prior to receiving final payment and the Owner may retain a sum equal to 200% of the estimated cost of completing any unfinished work and portion of the Construction Manager's retainage, provided that said unfinished items are listed separately and the estimated cost of completing any unfinished items are likewise listed separately. Thereafter, Owner shall pay to Construction Manager, monthly, the amount retained for each incomplete item after each of said items is completed.
- Prior to being entitled to receive final payment, and as a condition precedent thereto, the Construction Manager shall provide the Owner, in the form and manner required by Owner, if any, the following:
  - An affidavit that Construction Manager's obligations to all subcontractors, laborers, equipment or suppliers, or other third parties in connection with the Project, have been paid or otherwise satisfied;
  - .2 Such other documents as required by the Project Manual from each subcontractor, lower tier subcontractor, laborer, supplier or other person or entity who has or might have a claim against the Owner including but not limited to final releases of lien;
  - .3 All product warranties, operating manuals, instruction manuals and other documents customarily required of the Construction Manager or reasonably required by Owner, including but not limited to those required elsewhere in the Contract Documents, as part of its Project Closeout procedures;
- 8.17 Final payment may be made to certain select subcontractors whose work is satisfactorily completed prior to the total completion of the Project but only upon approval of the Owner in writing.
- 8.18 Withholding Payments To Subcontractors. The Construction Manager shall not withhold payments justly due to subcontractors if such payments have been made to the Construction Manager. Should this occur for

any reason, the Construction Manager shall immediately return such monies to the Owners, adjusting pay requests and project bookkeeping as required.

- 8.19 Warranty Payments To the extent a percentage of Construction Manager's fee or a dollar amount is due for services rendered during the warranty phase, Construction Manager shall receive 50% of said fee if the six (6) month warranty inspection work is satisfactorily completed and the balance due if the eleventh (11th) month warranty inspection work is satisfactorily completed.
- 8.20 <u>Delayed Payments by Owner.</u> Payments will comply with <u>The Florida Prompt Payment</u>, Act, Chapter 218 Florida Statutes, as amended.

# ARTICLE 9 CONTRACT BONDS

- 9.01 The Contract shall become effective and in full force only upon the execution of this agreement. The payment and performance bonds issued by a Surety Company acceptable to Owner in its sole discretion, such Surety being qualified and rated in accordance with the General Conditions of the Contract, and approved by the United States Treasury Department and licensed to do business in the State of Florida shall be delivered with the executed GMP Addendum.
- 9.02 The GMP Addendum must be executed and signed by a resident agent having an office in Florida, representing such Surety Company, for one hundred per cent (100%) of the Contract price, said bond guaranteeing the performance of this Contract and as security for the payment of all persons performing labor and providing materials in connection with this Contract.
- 9.03 The form of Bonds required is included elsewhere in the Contract Documents. This is in addition to any bonds of subcontractors or others.

## ARTICLE 10 NOTICES

10.01 When any of the parties desire to give notice to the other, such notice must be in writing, sent by US Mail, postage prepaid, addressed to the party for whom it is intended at the place last specified; the place for giving notice shall remain such until it is changed by written notice in compliance with the provisions of the paragraph. For the present, the parties designate the following as the respective places for given notice:

Party:		Address:
Owner:	SUPERINTENDENT OF SCHOOLS The School Board of Broward County, Florida	600 Southeast Third Avenue Fort Lauderdale, FL 33301 Attn: Dr. Frank Till
With Copy To:	Deputy Superintendent of Schools	1700 S.W. 14th Court Fort Lauderdale, Florida 33312 Attn: Michael Garretson
Construction Manager:		Stiles Construction Co. 300 SE 2 ^{ad} Street Fort Lauderdale, FL 33301

Surety:

Western Surety Company

2405 Lucien Way Maitland, Florida 32751

Surety's Agent:

Willis of Florida

3000 Bayport Drive Suite 300

Tampa, Florida 33607

Project Consultant:

Ray Manning

Song & Associates, Inc.

400 Australian Avenue, So., 6th Fl.

West Palm Beach, FL 33401

10.02

These addresses may be changed by either of the parties by written notice to the other party.

# ARTICLE 11 AUTHORITY PROVISION

11.01 Each person signing this Agreement on behalf of either party warrants that he or she has full legal power to execute this Agreement on behalf of the party for whom he or she is signing, and to bind and obligate such party with respect to all provisions contained in this Agreement.

# ARTICLE 12 NON-DISCRIMINATION PROVISION

12.01 Non-Discrimination - The parties shall not discriminate against any employee or participant in the performance of the duties, responsibilities and obligations under this Agreement because of race, age, religion, color, gender, national origin, marital status, disability or sexual orientation.

# ARTICLE 13 CAPTION PROVISION

13.01 Captions – The captions, section numbers, article numbers, title and headings appearing in this Agreement are inserted only as a matter of convenience and in no way define, limit, construe or describe the scope or intent of such articles or sections of this Agreement, nor in any way effect this Agreement and shall not be construed to create a conflict with the provisions of this Agreement.

# ARTICLE 14 ASSIGNMENT PROVISION

14.01 Assignment - Neither this Agreement or any interest herein may be assigned, transferred or encumbered by any party without the prior written consent of other party. There shall be no partial assignments of this Agreement including, without limitation, the partial assignment of any right to receive payments from The School Board of Broward County, Florida.

# ARTICLE 15 EXCESS FUNDS PROVISION

Excess Funds - Any party receiving funds paid by The School Board of Broward County, Florida under this Agreement agrees to promptly notify The School Board of Broward County, Florida of any funds erroneously received from The School Board of Broward County, Florida upon the discovery of such erroneous payment or overpayment. Interest shall be calculated using the interest rate for judgments under Section 55.03, Florida Statutes, applicable at the time the erroneous payment or overpayment was made by The School Board of Broward County, Florida.

In witness thereof, the said Stiles Construction Co. (Construction Manager), and the Owner, The School Board of Broward County, Florida have caused this contract to be executed and their corporate seal affixed by and through their proper offices, thereunto duly authorized, on this day and year first above written.

(note to contractors: a separate Power of Attorney is required for each bond)

## GENERAL CONDITIONS OF THE CONTRACT

#### ARTICLE 1. DEFINITIONS

ANI ICLE	i. DEFINITIONS
1.1	Definitions:
1.1.01	The Deputy Superintendent, Facilities and Construction Management - An employee of the School Board of Broward County, Florida, who has the authority and responsibility for oversight and management for the Owner of the specific project of which the Work is a part. Referred to hereinafter as the Deputy Superintendent.
1.1.02	Construction Manager - The "party of the second part", of the Contract. The person, firm or corporation with whom a contract has been made with the Owner for the performance of the Work defined by the Contract Documents.
1.1.03	Contract Documents - The Contract Documents consist of the Agreement Form, these General Conditions, Addenda, Documents contained in the Project Manual, Drawings, Specifications, any General and Supplementary Conditions (Divisions 0 and 1), and all modifications issued after execution of the Contract.
1.1.04	Estimate - The Construction Manager's latest estimate of probable project construction costs.
1.1.05	Facilities and Construction Management Division - The Facilities and Construction Management Division is the Owner's organizational entity which acts as liaison between the Consultant and Owner and provides day to day management, plan review, inspection and other professional services on the Owner's behalf.
1.1.06	Inspector of Record: See Article 1.1.29 of General Conditions.
1.1.07	<u>Final Completion</u> - Means that date subsequent to the date of Substantial Completion at which time the Construction Manager has completed <u>all</u> of the Work (or designated portion thereof) in accordance with the Contract Documents as certified by the Project Consultant and/or approved by the Owner. In addition, Final Completion shall not be deemed to have occurred until any and all governmental bodies, boards, entities, etc., which regulate or have jurisdiction of the Work, have inspected, approved and certified the Work.
1.1.08	Fixed Limit of Construction Cost (FLCC) - (See also 1.1.14) the Fixed Limit of Construction Cost, referred to hereinafter as FLCC, is the total dollar value of the Construction Manager's fees, contingency, and cost of the work.
1.1.09	Guaranteed Maximum Price: The GMP is the maximum amount of money that the Owner shall pay the Construction Manager for all the work described in the contract documents.
1.1.10	Journeyman - A person working in an apprenticeable occupation who has successfully completed a state registered apprenticeship program or who has worked the number of years required by established industry practices for the particular trade or occupation. "Established industry practices" means the number of years of training required by the majority of registered program standards for the particular trade or occupation. A "certified Journeyman" is a journeyman who holds a State of Florida Certification or Broward County Certificate of Competency for a particular trade or craft."
1.1.11	Notice to Proceed - The term Notice to Proceed shall mean a written work order based on a defined scope of work, prepared by the Facilities Project Manager and issued to the Construction Manager.

through its Board, must approve all Agreements, changes in the scope of work, change orders, fees, final acceptance of the project final payment and use of the contingency as set forth in Article 6.1 of the Agreement between Owner and Construction Manager.

General Conditions of the CM Agreement September 11, 2001 DH 1-7-02 July 6, 2004

1.1.12

Owner - The School Board of Broward County, Florida. The School Board of Broward County, Florida,

# **EXHIBIT C**

- 1.1.13 Owner's Representatives The Deputy Superintendent of Facilities and Construction Management or designee.
- Owner's Construction Budget: (See also 1.1.08) Owner's funds budgeted and requested for construction of the Project. The Owner's Construction Budget is identified in Exhibit B, including all contingency, Construction Manager fees, and costs of the work. This acknowledgment of the Owner's budgeted funds is not to be construed as the Construction Manager's Guaranteed Maximum Price. A Guaranteed Maximum Price will be offered by separate documentation as outlined in Article 6 of the Agreement between the Owner and Construction Manager.
- 1.1.15 Other Contractors Any person, firm or corporation with whom a Contract has been made by the Owner for the performance of any work on the site, which work is not a portion the Work covered by the Contract.
- 1.1.16 Project Consultant The individual, partnership, corporation, association, joint venture, or any combination thereof, of properly registered professional architects, engineers or other design professionals who has entered into a contract with the Owner to provide professional services for development of the design and Contract Documents for the work of this Project and, any additional services as may be required during the construction and warranty phase.
- 1.1.17 Project Manager An employee of The School Board of Broward County, Florida, who is designated by the Deputy Superintendent to provide direct interface with the Construction Manager with respect to the Owner's responsibilities.
- Project The Project is the total work to be performed under this Agreement. The Project consists of planning, design, permitting, construction and code inspection necessary to build the component parts of the project identified in project manual.
- 1.1.19 <u>Phase</u> A designated subdivision of the Work, usually with its own requirements for Substantial and Final Completion, and liquidated damages. A Phase may be designated for completion by the Owner's own forces, or by Other Contractors.
- 1.1.20 Punch List A list of items of work required by the Contract Documents which after inspection by the Owner and the Construction Manager has been termed to be deficient and/or inconsistent with the Contract Documents.
- Subcontractor A person or entity other than a materialman or laborer who enters into a Contract with Construction Manager for the performance of any part of Construction Manager's Work. The term "Subcontractor" is referred to throughout the Construction Contract Documents as if singular in number and means a Subcontractor or an authorized representative of the Subcontractor. The term "Subcontractor" does not include a separate contractor or subcontractors of a separate contractor.
- Sub-subcontractor A person or entity other than a materialman or laborer who enters into a contract with a Subcontractor for the performance of any part of such Subcontractor's contract. The term "Sub-subcontractor" is referred to throughout the Construction Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative of the Sub-subcontractor. The term "Sub-subcontractor" does not include separate subcontractors of a separate contractor.
- Submittals Are prepared by the Construction Manager or those working on his behalf (subcontractors, material suppliers, and others) to show how a particular aspect of the Work is to be fabricated and installed. The Construction Manager's submittals include shop drawings, product data, samples, mock-ups, test results, warranties, maintenance agreements, project photographs, record documents, field measurement data, operating and maintenance manuals, reports, certifications and other types of information described in the specifications.
- Substantial Completion The term Substantial Completion as used herein, shall mean that point at which, the Work, or a designated portion thereof, is at a level of completion in substantial compliance with the Contract Documents such that the Owner or its designee can enjoy use or occupancy of the work performed by Construction Manager and can use or operate it in all respects for its intended purpose. In the event the Work

includes more than one Phase, the Owner, at its discretion, may set Substantial Completion dates for each Phase and may impose provisions for liquidated damages for each Phase. Occupancy may not be the sole factor in determining whether substantial completion has been achieved.

- 1.1.25 Subconsultant A person or organization of properly registered professional architects, engineers or other design professionals who have entered into an agreement with the Owner or Construction Manager to furnish professional services to the project.
- 1.1.26 <u>Superintendent or Construction Manager's Project Manager</u> The executive representative for the Construction Manager present on the project at all times during progress, authorized to receive and fulfill instructions from the Owner and the Project Consultant, if applicable, and capable of superintending the work efficiently as designated.
- 1.1.27 Superintendent of Schools The duly appointed executive officer of the Owner authorized to act by and through the School Board of Broward County.
- 1.1.28 Surery The firm, corporation, or individual which is bound by the Contract Bond with and for the Construction Manager, and which engages to be responsible for the Construction Manager's acceptable performance of the work and for his payment of all debts pertaining thereto.
- Building Code Inspector: Employees of The School Board of Broward County, Florida, and others designated by the Facilities and Construction Management Department who are certified as by the Florida Department of Education (DOE). BCI's may provide plan review, construction inspection for code compliance and report non-compliant work to the Project Manager and Project Consultant. Any references to "UBCI" within any documents, shall mean BCI.
- 1.1.30 Work The totality of the obligations, including construction and other services, imposed on the Construction Manager by the Contract Documents, whether completed or partially completed, and including all labor, materials, equipment, and services provided or to be provided by the Construction Manager to fulfill the Construction Manager's obligations. The Work may constitute the whole or a part of the Project.
- 1.1.31 Written Notice Shall be deemed to have been duly served if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, if delivered at or sent by registered mail or other traceable delivery service to the last business address known to him who gives notice. Electronic, FAX or other telephonic transmission shall not be considered as written notice.
- 1.1.32 <u>Contingency Use Directive</u> (CUD) A CUD is issued and approved by the Owner for the purpose of accounting for unforeseen increases or decreases in the construction cost and/or to be utilized for unforeseen circumstances as set forth in Article 6.1 of the agreement.
- 1.1.33 Change-Order A change order is issued and approved by the Owner for additions or deletions in the scope of work or services provided by the Construction Manager. A change order shall increase or decrease the GMP subsequent to approval of the final GMP.
- 1.1.34 Construction Change Directive (CCD) A CCD is issued and approved by the Owner or its designee for additions or deletions in the scope of work or services provided by the Construction Manager when authority to proceed with the change needs to be expedited or the Construction Manager fails to agree on the terms offered by the Owner for the change at the Owner's sole discretion.

# ARTICLE 2.COORDINATION AND CORRELATION OF DRAWINGS AND SPECIFICATIONS.

2.01 The Construction Manager represents that:

# **EXHIBIT C**

- 2.01.01 The Construction Manager and Subcontractors will fully examine and compare all Drawings, Specifications and other Contract Documents including but not limited to those relating to the architectural, structural, mechanical, electrical, civil engineering and plumbing elements and have compared and reviewed all general and specific details on the Drawings and the various technical and administrative requirements of the Specifications.
- With respect to all construction materials, labor, methods, means, techniques, and sequence of procedures required to carry out the Work or safety precautions and programs required in connection with carrying out the Work, all conflicts, discrepancies, errors and omissions that Construction Manager is aware of as a result of the examination and comparison of the Contract Documents have been communicated to the Owner and Project Consultant in writing.
- 2.01.03 The Contract Sum is reasonable compensation and represents the total lump sum cost for the Work and that all systems and Work shall be in accordance with the requirements of the Contract Documents.
- 2.01.04 The Contract Time is adequate for the performance of the Work.
- 2.02 The Construction Manager is responsible for all means, methods, techniques and sequencing of construction.
- 2.03 If, after execution of this Construction Contract, the Construction Manager detects a conflict, discrepancy, error or omission in the Contract Documents then it shall immediately notify Project Consultant and Owners representative prior to proceeding with the specific portion of the Work.

# ARTICLE 3. INTENT AND INTERPRETATION.

- 3.01 With the respect to the intent and interpretation of this Contract, the Owner and the Construction Manager agree as follows:
- The Construction Manager shall have a continuing duty to read, examine, review, compare and contrast each of the documents which make up this Contract and shall immediately give written notice to the Owner and the Project Consultant of any conflict, ambiguity, error or omission which the Construction Manager may find with respect to these documents before proceeding with the affected Work.
- 3.01.02 The Contract Documents are complementary, and what is called for by anyone shall be as binding as if called for by all.
- 3.01.03 The intent of the Contract Documents is to include all labor and materials, equipment and transportation necessary for the proper execution of the Work. The Construction Manager shall continually refer to drawing, specifications and other Contract Documents in this regard.
- 3.01.04 In the event of a conflict among the Contract Documents, the most stringent requirement of the specifications will prevail over drawings. Larger scale drawings will prevail over smaller scale drawings.
- The Owner shall be the initial interpreter of the requirements of the Contract Documents and the judge of the performance thereunder and may involve the Project Consultant with specific interpretations. This provision does not relieve the Project Consultant and/or Project Architects from their contractual obligations to the Owner.
- The Owner shall render interpretations necessary for the proper execution or progress of the Work with reasonable promptness on written request of the Construction Manager, and shall render written decisions, within a reasonable time, on all claims, disputes, change order requests, substitution requests, requests for interpretation and other matters in question relating to the execution or progress of the Work or the interpretation of the Contract Documents.

# ARTICLE 4 OWNERSHIP OF THE CONTRACT DOCUMENTS WHICH MAKE UP THE CONTRACT

- 4.01 Subject to any rights the Project Consultant may have, the Contract Documents and each of them, as well as any other documents, intellectual property, software, computer-assisted material or disks relating to or regarding the Work, shall be and remain the property of the Owner. This shall be the case even if prepared, created or provided by the Project Consultant, Construction Manager, Subcontractor or others.
- 4.02 The Construction Manager shall have the right to keep copies of same upon completion of the Work; provided, however, that in no event shall the Construction Manager use, or permit to be used, any portion or all of same on other projects without the Owner's prior written authorization.
- The Construction Manager agrees to provide any and all items referred to in this Article to Owner upon demand by Owner. In the event Construction Manager fails to provide same to Owner as demanded, Construction Manager acknowledges that the Owner will need same and will be irreparably harmed and be subject to an injunction to provide same.

#### ARTICLE 5. TEMPORARY UTILITIES:

- 5.01 Water For Building Work: The Construction Manager shall provide temporary water lines sufficient to supply all water needed for the construction and other services required by the Contract Documents and shall pay for all service connections and water used by the Construction Manager or Subcontractors unless the contrary is provided for elsewhere in the Contract Documents.
- 5.02 <u>Electrical Energy</u>: The Construction Manager shall provide temporary electrical energy and power lines sufficient to supply all electricity needed for the construction and other services required by the Contract Documents and shall pay for all service connections and electricity used by the Construction Manager or Subcontractors unless the contrary is provided for elsewhere in the Contract Documents.
- 5.03 <u>Temporary Sanitary Facilities And Sewers</u>: The Construction Manager shall provide and maintain in a neat and sanitary condition such accommodations and facilities for the use of his employees as may be necessary to comply with the regulations of any governmental agencies, departments, etc. which address or govern these issues.
- 5.04.01 No nuisances will be permitted.
- 5.04.02 Upon completion of Work, such facilities shall be removed and the premises left in a sanitary condition.
- 5.04.03 Construction Manager is not permitted to use restrooms or other sanitary facilities within the Owner's existing building or on-site facilities unless the contrary is provided for elsewhere in the Contract Documents.

#### ARTICLE 6. OWNER OCCUPANCY

- 6.01.01 The Construction Manager shall provide services during the design and construction phases, which will provide a smooth and successful Owner occupancy of the project. It shall provide consultation and project management to facilitate Owner occupancy and provide transitional services to get the work, as completed by the Construction Managers, Aon line@ in such conditions as will satisfy Owner operational requirements.
- 6.01.02 It shall conduct the Construction Manager's preliminary punch list inspection and coordinate the completion of all punch list work to be done with Owner occupancy requirements in mind.

- 6.01.03 It shall catalog operational and maintenance requirements of equipment to be operated by maintenance personnel and convey these to the Owner in such a manner as to promote their usability. It shall provide operational training, in equipment use, for building operators.
- 6.01.04 It shall secure required guarantees and warranties, assemble and deliver same to the Owner in a manner that will facilitate their maximum enforcement and assure their meaningful implementation.
- 6.01.05 It shall continuously review AAs-Built@ Drawings and mark up progress prints to provide as much accuracy as possible.
- 6.01.06 The Owner will not occupy or take control of the project until the above items discussed in this paragraph have been completed and the ASubstantial" Completion and AWarranty@ requirements have been completed to the Owner's satisfaction excluding the requirements for a warranty inspection six months after Owner Occupancy.

# ARTICLE 7. JOB-SITE FACILITIES

- 7.01 The Construction Manager shall arrange for all job-site facilities necessary to enable the Construction Manager and the Owner's representatives to perform their respective duties in the management, inspection, and supervision of construction.
- 7.02 Tangible personal property, otherwise referred to as Job-Site facilities, include but are not limited to such things as trailers, toilets, typewriters, computers and any other equipment necessary to carry on the project.

# ARTICLE 8. CONSTRUCTION MANAGER'S STAFF

- 8.01 The Construction Manager shall provide site personnel that are competent, English speaking and are able to communicate effectively.
- The Construction Manager shall remove within fifteen (15) days, at the written request of the Owner's project manager, and Deputy Superintendent, Facilities and Construction Management any of Construction Manager's project staff who are deemed detrimental to the efficient management and completion of the project.

#### ARTICLE 9. LINES OF AUTHORITY

The Construction Manager shall establish and maintain lines of authority for his personnel, and shall provide this organizational chart to the Owner and all other affected parties such as the Building Code Inspectors (BCI) of the Permitting Authority, the sub-contractors, the Project Consultant and the Owner's representatives, to provide general direction of the work and progress of the various phases and subcontractors. The Owner's representative may attend meetings between the Construction Manager and his Subcontractors, however, such attendance shall not diminish either the authority or responsibility of the Construction Manager to direct the subcontractor.

# ARTICLE 10. SCHEDULE AND PROJECT MANUAL PROVISIONS

The Construction Manager shall provide subcontractors and the Owner, its representatives and the Project Consultant with copies of the Project Manual developed by the Construction Manager with the Owner's participation and approval, expanded for the Construction Phase employing their respective milestones, beginning and finishing dates, their respective responsibilities for performance and the relationships of their

work with respect to subcontractors and suppliers. It shall also continue to provide current scheduling information and provide direction and coordination regarding milestones, beginning and finishing dates, responsibilities for performance and the relationships of the Construction Managers work to the work of his subcontractors and suppliers to enable them to perform their respective tasks so that the development of construction progresses in a smooth and efficient manner in conformance with the overall project schedule. The schedule shall include all phases of the construction work, material supplies, long lead procurement, approval of shop drawings, change orders in progress, schedules for change orders, and performance testing requirements. It shall advise the Owner's representatives of their required participation in any meeting or inspection giving each at least one week notice unless such notice is made impossible by conditions beyond his control. It shall hold job-site meetings at least once a week with the Project Construction Team and at least once each week with the subcontractors, or more frequently as required by work progress, to review progress, discuss problems and their solutions and coordinate future work with all subcontractors.

### ARTICLE 11. QUALITY CONTROL

The Construction Manager shall develop and maintain a program, acceptable to the Owner, to assure quality control of the construction. It shall supervise the work of all subcontractors providing instructions to each when their work does not conform to the requirements of the plans and specifications and he shall continue to exert its influence and control over each subcontractor to ensure that corrections are made in a timely manner so as to not affect the efficient progress of the work.

# ARTICLE 12. LICENSE AND PERMITS

- All licenses necessary to commence and prosecute the Work to completion shall be procured and paid for by the Construction Manager or his subcontractors.
- Educational facilities constructed by The School Board of Broward County, Florida are exempt from all county, district, municipal or local building codes and ordinances; therefore building permits will not be required. However, any and all other permits, bonds and/or other fees required for Work to be performed, including but not limited to Work in public right-of-ways and other Work otherwise outside the Owner's property line will be procured and paid for by the Construction Manager and will be considered part of the costs of the project.
- All easements and rights-of-way will be procured and paid for by the Owner unless otherwise specifically provided within the Contract Documents.

#### ARTICLE 13. JOB SITE REQUIREMENTS

- 13.01 The Construction Manager shall provide for each of the following activities as a part of his Construction Phase fee:
  - .1 Maintain a log of daily activities, including manpower records, weather, delays, major decisions, etc.
  - .2 Maintain a roster of companies on the project with names and telephone numbers of key personnel;
  - .3 Establish and enforce job rules governing parking, clean-up, use of facilities and worker discipline;
  - .4 Provide labor relations management for a harmonious, productive project;
  - .5 Provide a safety program for the project to meet OSHA requirements;
  - Monitor for subcontractor compliance without relieving them of responsibilities to perform work in accordance with the best acceptable practice;
  - .7 Provide a quality control program as developed under Article 11.01 herein above;
  - .8 Miscellaneous office supplies that support the construction efforts which are consumed by his own

forces:

- .9 Travel to and from his home office to the project site.
- The Construction Manager shall provide personnel and equipment or shall arrange for separate subcontracts to provide each of the following as a direct cost item:
  - Schedule the services of independent testing laboratories (Selected and in privity of contract with the Owner) and provide the necessary testing of materials to ensure conformance to contract requirements;
  - .2 The printing and distribution of all required shop drawings.

## ARTICLE 14. RESPONSIBILITY FOR WORK SECURITY

- 14.01 Construction Manager shall at all times conduct all operations under the Construction Contract in a manner to avoid the risk of loss, theft or damage by vandalism, sabotage or other means to any property.
- 14.02 Construction Manager shall promptly take such reasonable precautions as are necessary and adequate against any conditions which involve risk of a loss, theft or damage to its property.
- 14.03 Construction Manager shall continuously inspect all of its Work, materials, equipment and facilities to discover and determine any such conditions and shall be responsible for discovery, determination and correction of any such condition.
- 14.04 Construction Manager shall comply with all applicable laws and regulations in performance of the work.
- 14.05 Construction Manager shall cooperate with Owner on all security matters as set forth elsewhere in the Contract Documents and shall promptly comply with any project security requirements established by Owner.
- 14.06 These security requirements may be more stringent in the event portions of the facilities or project are occupied or otherwise being used.
- Such compliance with these security requirements shall not relieve Construction Manager of its responsibility for maintaining proper security for the above noted items, nor shall it be construed as limiting in any manner Construction Manager's obligation to undertake reasonable action as required to establish and maintain secure conditions at the site.
- 14.08 Construction Manager shall prepare and maintain accurate reports of incidents of loss, theft or vandalism and shall provide these reports to Owner in a timely manner.

# ARTICLE 15. SAFETY, PROTECTION OF WORK AND PROPERTY

- 15.01 Construction Manager shall be responsible for conducting all operations under this Construction Contract at all times in such a manner as to avoid the risk of bodily harm to persons and damage to property. Construction Manager shall continuously and diligently inspect all work, material and equipment to discover any conditions which might involve such risks and shall be responsible for discovery and correction of any such conditions.
- The Construction Manager, subcontractors and their employees shall prohibit the use of alcoholic beverages, smoking inside buildings and/or not in designated areas, food or beverages inside buildings, and carrying of firearms or weapons on school district property or be subject to removal and termination of subject employee.
- 15.02 Safety Precautions and Programs:

- The Construction Manager shall be responsible for initiating, maintaining and supervising all safety precautions and programs in connection with performance on the Contract.
- in the event the Construction Manager encounters on the site material reasonably believed to be asbestos or polychlorinated biphenyl (PCB) or other hazardous materials which has not been rendered harmless, the Construction Manager shall immediately stop Work in the area affected and report the condition to the Owner and Project Consultant in writing. The Work in the affected area shall not thereafter be resumed except by written notice from the Owner. The Work in the affected area shall be resumed in the absence of asbestos, polychlorinated biphenyl (PCB) or other hazardous materials, or when it has been rendered harmless, by written agreement of the Owner, Construction Manager and Project Consultant.
- 15.2.3. The Construction Manager shall not be required to perform without consent any Work relating to asbestos or polychlorinated biphenyl: (PCB) or other hazardous materials:
- 15.03 Safety of persons and Property.
- 15.3.1 The Construction Manager shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury or loss to:
  - .1 Employees on the Work and other persons who may be affected thereby;
  - .2 The Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody or control of the Construction Manager or the Construction Manager's Subcontractors or Sub-subcontractors; and
  - .3 Other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures and utilities not designated for removal, relocation or replacement in the course of construction.
- 15.3.2 The Construction Manager shall give notices and comply with applicable laws, ordinances, rules, regulations and lawful orders of public authorities bearing on safety or person or property or their protection from damage, injury or loss.
  - .1 The Construction Manage and his Subcontractors shall comply with and conform in all respects to the standard set forth in the Occupational Safety and Health act (OSHA) of 1970.
  - .2 The Construction Manager shall prominently post and maintain at the job sites;
  - .3 OSHA 200: Log and summary of occupational injuries and illness.
  - .4. OSHA 2203: Provisions of the Act poster.
- 15.3.3 The Construction Manager shall implement and maintain a continuing safety program applicable to all Construction Manager's employees, Subcontractors, and Sub-subcontractors, to include:
  - .1 Designating a responsible member of the Construction Manager's organization at the site as the Construction Manager's Safety Officer whose duty shall be the prevention of accidents, safety inspections, and accident documentation. This person shall be the Construction Manager's superintendent unless otherwise designated by the Contractor in writing to the Owner and the Project Consultant.
  - .2 Holding weekly safety meetings with employees and Subcontractors,
  - .3 Implementing OSHA Voluntary Protection Programs.

**EXHIBIT C** 

- .4 Ensuring the presence of an American Red Cross (or other organization acceptable to the Owner) certified Cardiopulmonary Resuscitation (CPR) and first-aid trained individual on site at all times.
- .5 Compliance with the Drug Free Work Place Act of 1998, the Federal Omnibus Transportation Employee Testing Act of 1991, and the certification of compliance with the same as required by the Owner in Document 00457, Drug-Free Workplace Certification.
- .6 Erecting and maintaining reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying owners and users of adjacent sites and utilities.
- .7 Ensuring that employees are not discriminated against or discharged for filing reasonable safety or health complaints or for otherwise exercising their right in these regards.
- When use of hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Construction Manager shall exercise utmost care and carry on such activities under supervision of properly qualified personnel.
- The Construction Manager shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property caused in whole or in part by the Construction Manager, Subcontractor or a Sub-subcontractor, or anyone directly or indirectly employed by an of them, or by anyone for whose acts they may be liable and for which the Construction Manager is responsible, except damage or loss attributable to acts or omissions of the Owner or Project Consultant or anyone directly employed by either of them, or by anyone of whose acts either of them may be liable, and not attributable to the fault of negligence of the Contractor.
- 15.3.6 The Construction Manager shall not load or permit any part of the construction or site to be loaded so as to endanger its safety.
- Building materials, Construction Manager's equipment and other supplies may be stored on the premises, but the placing of same shall be in substantial, watertight storage sheds upon the premises where directed in which it shall store all materials which would be damaged by weather. This shall in no manner relieve the Construction Manager from full responsibility for such materials. Sheds and other storage structures must be secured and anchored in a manner sufficient to withstand hurricane force winds as defined by applicable codes but not less than a 120 mile per hour wind uplift force. Construction Manager shall provide engineering or other evidence to prove compliance, if requested by the Owner.
- 15.3.8 Construction Manager shall remove graffiti without damage to substrate or paint over graffiti within forty-eight (48) hours of its discovery.
- Emergencies: In an emergency affecting safety of persons or property, the Construction Manager shall act, at the Construction Manager's discretion, to prevent threatened damage, injury or loss.
- 15.5 Construction Manager shall provide a complete copy of all accident reports within five (5) days of reported accident to Owner.

# ARTICLE 16. MATERIALS

The Construction Manager shall provide materials and equipment as required in the Contract Documents. No substitution will be permitted except in the instance where a material is no longer available during the progress of the Work or is deemed by the Owner to be no longer suitable or appropriate for incorporation into the Work or for obvious economic benefits accruable to the Owner or as approved by the Owner.

# EXHIBIT C

- Any such substitution must be approved by the Project Consultant and Owner prior to incorporation of the proposed substitution into the Work.
- Proposed substitutions must be submitted for consideration from the Construction Manager to the Project Consultant and the Owner. Documentation for the proposed substitution must include, but is not limited to substantiation of the Construction Manager's efforts to obtain the originally specified materials including documentary evidence from the original materials' manufacturer that such materials are not available.
- Product delivery lead times shall not serve as a basis for any substitution request except for where approved in advance by the Owner. All additional costs incurred by the Owner as the result of any substitution shall be the responsibility of and borne by the Construction Manager.
- The Construction Manager shall make written request to the Project Consultant and Owner for and obtain his written approval of the use of any materials proposed for use when "approval" materials are specified or a performance type specification is utilized without mentioning any standard by name.
- 16.06 If, in the opinion of the Construction Manager, a specified product or equipment no longer meets the quality of the products or equipment required for the Work, Construction Manager shall request a Change Order Proposal for modifying the Contract to incorporate the respective changes to the Work required, the Contract amount, and the Contract Time as beneficial to the Owner.

#### ARTICLE 17. WORKFORCE COMPOSITION

- 17.01 The following requirements apply to all aspects of the Work where skilled crafts or trades are to be utilized:
- 17.02 The ratio of journeymen utilized shall be two (2) journeymen to one other worker. When two (2) workers involved in the crafts are employed, the first employed shall be a journeyman, and the second may be either a journeyman or a worker.
- 17.03 The Construction Manager shall utilize at least one certified journeyman that holds a State of Florida Certification or a certificate of competency obtained through a proctored examination in Broward County for the respective crafts or trades required for the execution of the Work.
- 17.04 For trades or crafts for which licenses or Certificates of Competency are required in Broward County, no Work may be performed or person employed as a worker in that trade unless the Work is under the direct supervision of a master or certified journeyman, certified in that trade. A certified master or certified journeyman shall not provide direct supervision to more than three (3) other workers or uncertified journeymen at a job site.
- 17.05 The Construction Manager shall post on the inside of the Construction Manager's on-site project office and maintain by monthly updating a current list, available for the Owner and Project Consultant's use, of the names, areas of specialty, and license or certificate numbers, or all journeymen, certified journeymen, and certified masters utilized for prosecution of the Work, including those used by Subcontractor.
- Work shall not commence in a particular trade or specialty until the Construction Manager's posted list has been updated to include that particular trade or specialty.
- 17.07 The Owner will not consider requisitions for payment for Work completed by a particular trade or specialty unless Journeymen, certified Journeymen, or certified Masters of that respective trade or specialty have been properly included on the Construction Manager's posted list.
- The format for the posted list should begin with the Construction Manager's company name; name of qualifier with their certificate or registration number; a listing of all the Construction Manager's employee names, work trade and work skill; journeymen with their license number or certificate of competency; or a designation as unskilled labor. The remainder of the list should follow the same format listing all the subcontractors and any

other person performing labor on the project site. A copy of all licenses, certificates, registrations, and state registered apprenticeship documents should be kept on file in the Construction Manager's field office to substantiate his posted list.

- 17.09 Requirements for workforce quality specified above do not apply to those elements of the Work requiring only unskilled labor.
- 17.10 The Construction Manager shall employ no illegal aliens or other individuals not properly registered with and allowed to work by the United States Immigration and Naturalization Service (INS).
- 17.11 Construction Manager shall be assessed, and the Owner may deduct from each applicable Application for Payment, \$250 per day for failure to comply with these workforce composition requirements contained herein beginning three days after written notice of non-compliance is received by the Construction Manager.

# ARTICLE 18. INSPECTION: REJECTION OF MATERIALS AND WORKMANSHIP.

- All material and equipment provided and work performed shall be properly inspected by Construction Manager, and shall at all times be subject to quality surveillance, inspections, observations or quality audit by Owner, Facilities Project Manager and any inspectors conducting an inspection pursuant to code, law, regulations, etc.
- 18.02 Construction Manager shall provide safe and adequate facilities, and all samples, drawings, lists and documents necessary for such quality surveillance, observation or quality audit.
- The Construction Manager shall permit and facilitate inspection of the Work by the Owner, Facilities Project Manager, Inspectors for any governmental agency, authority, or board including but not limited to Uniform Building Code Inspectors (BCI).
- Owner also reserves the right to designate others such as consultants, commissioning authorities, test and balance agents, forensic specialists, etc. to conduct inspections during or subsequent to the Work as Owner in its discretion desires.
- 18.05 Owner shall be afforded full and free access to the shops, factories or places of business of Construction Manager and its Subcontractors for such quality surveillance, observation or quality audit and to determine the status of the Work.
- 18.06 In the event the Owner requires a factory inspection, the Construction Manager shall notify the suppliers that the material shall not be produced or fabricated without due notice to the Owner and an opportunity for such inspection.
- 18.07 If any designated Work should be covered up without approval or consent of the Owner, it must, if required by the Owner, be uncovered for examination at the Construction Manager's expense.
- If any material, equipment or workmanship is determined by Owner or Inspector either during performance of the Work or on final quality surveillance, or during any applicable warranty period, to be defective or not complying with the requirements of this Construction Contract, Owner or Inspector will notify Construction Manager in writing that such material, equipment or portions of the Work is rejected and Owner reserves the right to withhold payment on any such item or seek compensation from Construction Manager for same. Thereupon, Construction Manager shall, at its own expense, immediately remove, replace or correct such defective material, equipment or portions of the Work by making the same comply strictly with all requirements of the Contract Documents. The Construction Manager shall be responsible for the costs of any additional site observations, special inspections and/or testing, or other activities of the Owner made necessary by the correction of such defective materials, equipment or portions of the Work.

18.09 Neither the failure to make such quality surveillance, observation or quality audit, nor to discover defective workmanship, materials, or equipment, shall prejudice the rights of Owner to correct or reject the same as hereinafter provided.

#### ARTICLE 19. ADMINISTRATIVE RECORDS

- 19.01 The Construction Manager will maintain at the job site, unless agreed to otherwise by the Facilities Project Manager, on a current basis, files and records such as, but not limited to the following:
- Contracts or Purchase Orders, Shop Drawing Submittal/Approval Logs, Equipment Purchase/Delivery Logs, Contract Drawings and Specifications with Addenda, Warranties and Guarantees, Cost Accounting Records, Sales Tax Recovery Status Report, Labor Costs, Material Costs, Equipment Costs, Cost Proposal Requests, Payment Request Records, Meeting Minutes, Cost-Estimates, Lab Test Reports, Insurance Certificates and Bonds, Contract Changes, Purchase Orders, Material Purchase Delivery Logs, Technical Standards, AAs-Built@ Marked Prints, Operating & Maintenance Instruction, Daily Progress Reports. Monthly Progress Reports. Correspondence Files, Transmittal Records, Inspection Reports, Bid/Award Information, Bid Analysis and Negotiations, Punch Lists, Project Manual,
- 19.03 The project records shall be available at all times to the Owner and Project Consultant for reference or review.

#### ARTICLE 20. OWNER'S RESPONSIBILITIES

- 20.01 Owner's Information The Owner shall provide full information regarding its requirements for the project to the Construction Manager.
- 20.02 <u>Project Consultant's Agreement</u> The Owner shall retain a Project Consultant to design and prepare construction documents for the project. The Project Consultant's services, duties and responsibilities are described in the Agreement between the Owner and the Project Consultant, a copy of which will be furnished to the Construction Manager.
- 20.03 <u>Site Survey and Reports</u> The Owner shall furnish all surveys describing the physical characteristics, soil reports, and subsurface investigations, legal limitations, utility locations, and a legal description of the project.
- 20.04 <u>Approvals and Easements</u> The Owner shall pay for necessary approvals, easements, assessments and charges required for the construction, use or occupancy of permanent structures and for permanent changes in existing facilities.
- 20.05 <u>Drawings and Specifications</u> The Construction Manager will be furnished a reproducible set of all copies of Drawings and Specifications reasonably necessary and ready for printing.
- 20.06 <u>Cost of Surveys & Reports</u> The services, information, surveys and reports required by the above paragraphs shall be furnished with reasonable promptness in accordance with the approved schedule at the Owner's expense.
- 20.07 <u>Project Faults or Defects</u> If the Owner becomes aware of any fault or defect in the Project or non-conformance with the drawings and specifications, he shall give prompt written notice thereof to the Construction Manager and Project Consultant.

# ARTICLE 21. ADMINISTRATION OF THE CONTRACT

- The Construction Manager will provide Administration of the Sub-contracts. The Owner will provide administration of the contract between Owner and Construction Manager.
- Neither the Project Consultant nor the Owner will be responsible for construction means, methods, techniques, sequences or procedures, safety precautions and programs in connection with the Work or for the acts of omission or commission of the Construction Manager, its Subcontractors or their agents or employees or any other person performing any of the work.
- The Owner will have the authority to reject Work which does not conform to the Contract Documents and to require special inspection or testing. The Owner's authority to act under this Paragraph, nor any decision made by it in good faith either to exercise or not to exercise such authority, shall give rise to any duty or responsibility of the Owner to the Construction Manager, any Subcontractor, any of their agents or employees, or any other person performing any of the Work.
- 21.04 The Construction Manager shall forward all communications to the Owner's representative and copy to the Project Consultant.
- 21.05 The Construction Manager shall submit Applications for Payment to the Owner for approval prior to Payment to the Construction Manager.
- The Project Consultant shall approve shop drawings for design only, the Construction Manager being responsible for all dimensions, quantities, etc., necessary to complete the Work in compliance with the Drawings and Specifications and other Contract Documents.
- The duties, responsibilities and limitations of authority of the Project Consultant and the Owner will not be modified nor extended without written consent of the Construction Manager, the Project Consultant, and the Owner.
- Lines of Communication During pre-construction and construction activities Construction Manager shall direct all communications to the Project Manager with a copy to Project Consultant. The Owner and Project Consultant shall communicate with the subcontractors or suppliers only through the Construction Manager while such method of communication is effective in maintaining project schedules and quality, except in cases of emergency and/or threat to property or person.

#### ARTICLE 22. INSPECTION

- 22.01 Construction will be inspected for code compliance, compliance with drawings and specifications, and quality by inspectors working for the Owner and/or other governmental authorities.
- 22.02 <u>Code Inspections</u> All projects require detailed code compliance inspections during construction in disciplines determined by the inspecting Authority. These disciplines normally include, but are not necessarily limited to, structural, mechanical, electrical, plumbing and general building.
- The Construction Manager shall notify the appropriate inspector(s), no less than 24 hours in advance, that the work is ready for inspection and <u>before the work is covered</u>. Work not inspected and approved prior to cover-up shall be uncovered for inspection when directed by the Permitting Authority. All costs for uncovering and reconstruction shall be borne by the Construction Manager.
- All inspections shall be made for conformance with the applicable building codes, compliance with drawings and specifications, and quality.
- 22.05 Cost for all reinspection of work found defective and subsequently repaired shall be borne by the Construction Manager and corresponding subcontractor.

# ARTICLE 23. DISCOVERING AND CORRECTING DEFECTIVE OR INCOMPLETE WORK.

- In the event that the Construction Manager covers, conceals or obscures its work in violation of this Contract or in violation of a directive from the Owner, such work shall be uncovered and displayed for the Owner's inspection upon request, and shall be reworked at no cost in time or money to the Owner.
- If any of the work is covered, concealed or obscured in a manner not covered by Article 23.01 above, it shall, if directed by the Owner, be uncovered and displayed for the Owner's inspection. If the uncovered work conforms substantially with this Contract, the costs incurred by the Construction Manager to uncover and subsequently replace such work shall be borne by the Owner; otherwise, such costs shall be borne by the Construction Manager.
- The Construction Manager shall, at no additional cost in money to the Owner or extension of time, correct work rejected by the Owner as defective or failing to conform to this Contract. Additionally, the Construction Manager shall reimburse the Owner for all testing, inspections and other expenses incurred as a result thereof.
- In addition to its warranty obligations set forth elsewhere herein, the Construction Manager shall be specifically obligated to correct any and all defective or nonconforming work for a period of twelve (12) months following the date of Owner Occupancy of the Project or a designated portion thereof.
- 23.05 The Owner may, but shall in no event be required to, choose to accept defective or nonconforming work.
- In such event, the Contract Price shall be reduced, at Owner's option, by the greater of (i) the reasonable costs of removing and correcting the defective or nonconforming work, or (ii) the difference between the fair market value of the Project as constructed and the fair market value of the Project had it not been constructed in such a manner as to include defective or nonconforming work.
- 23.07 If the remaining portion of the unpaid Contract Price, if any, is insufficient to compensate the Owner for the acceptance of defective or nonconforming work, the Construction Manager shall, upon written demand from the Owner, pay the owner such remaining compensation for accepting defective or nonconforming work.

### ARTICLE 24. SUBCONTRACTS

- 24.01 The Contract Documents make no attempt to fix the scope of the Work of any Subcontractor nor the responsibilities of any such Subcontractor, it being understood that the Construction Manager shall fix the scope of all Work and responsibilities of the Subcontractor. Construction Manager shall not replace Subcontractor without good cause.
- 24.02 The Construction Manager shall continuously update information concerning Subcontractors submitted to the Owner as Post-Award Information by submitting:
- 24.03 The general form of Subcontract Agreement used by the Construction Manager within thirty (30) days of execution of the GMP Addendum.
- 24.04 Updated listings of Subcontractors denoting changes to the list submitted within ten (10) days of said change.
- 24.05 Copies of executed Subcontractor Contracts within ten (10) days of their execution.
- 24.06 A complete accounting of all payments made to Subcontractors and the balances owed to the Subcontractors with each Application For Payment submitted by the Construction Manager.
- 24.07 All contracts with Subcontractors shall incorporate by reference the terms and conditions of the Contract

### Documents.

- The Construction Manager shall cause and require to be included in all Subcontracts a provision for the benefit of the Owner binding the Subcontractors to remain bound by the Subcontracts in the event the Construction Manager is replaced by another Construction Manager pursuant to the term of the Contract Documents. The Construction Manager shall also include in all Subcontracts a provision requiring the Subcontractor, in the event of the Construction Manager's termination, to consent to the assignment of their Subcontracts to the Owner.
- 24.09 The Owner may at any time request from the Subcontractors, or any of them, a sworn statement of account with the Construction Manager and the Construction Manager shall cause to be included in all Subcontracts a requirement that the Subcontractors provide said sworn statement upon Owner's request.
- Each Subcontractor and supplier must agree to assign all of its warranties to Owner. In addition each Subcontractor and supplier must warrant all of its Work, equipment, materials and labor to Owner in accordance with the terms and provisions of its contractual obligations to Construction Manager and any legal or statutory provisions that apply to its work, materials or equipment.
- Owner may at its discretion require Construction Manager to have major sub-subcontractors or suppliers comply with the requirements of this Article or other provisions of the Contract Documents.
- Any disputes which may arise in this connection between the Construction Manager and any Subcontractor must be settled between the parties concerned and the Owner will not undertake, nor be in any way responsible for, the settlement of such disputes.
- No Subcontractor shall under any condition relieve the Construction Manager of his liabilities and obligations to the Owner under his Contract and the Construction Manager shall be solely responsible to the Owner as provided herein.
- 24.14 All subcontracts shall provide:
  - .1 LIMITATION OF REMEDY NO DAMAGES FOR DELAY
  - That the subcontractor's exclusive remedy for delays in the performance of the contract caused by events beyond its control, including delays claimed to be caused by the Owner or Project Consultant or attributable to the Owner or Project Consultant and including claims based on breach of contract or negligence, shall be an extension of its contract time.
  - .3 In the event of a change in the work the subcontractor's claim for adjustments in the contract sum are limited exclusively to its actual costs for such changes plus no more than 15% for overhead and profit and bond costs.
  - Each subcontract shall require the subcontractor to expressly agree that the foregoing constitute the sole and exclusive remedies for delays and changes in the work and thus eliminate any other remedies for claim for increase in the contract price, damages, losses or additional compensation.
  - .5 Each subcontract shall require that any claims by subcontractor must be submitted to Construction Manager within the time and in the manner in which the Construction Manager must submit such claims to the Owner, and that failure to comply with the conditions for giving notice and submitting claims shall result in the waiver of such claims.
- 24.15 Responsibilities for Acts and Omissions The Construction Manager shall be responsible to the Owner for the acts and omissions of his employees and agents and his subcontractors, their agents and employees, and all other persons performing any of the work or supplying materials under a contract to the Construction Manager.
- 24.16 <u>Subcontractor Interfacing</u> The Construction Manager shall be the single point of interface with all subcontractors for the Owner and all of its agents and representatives including the Project Consultant. He shall negotiate all change orders, field orders and request for proposals, with all affected subcontractors and shall

review the costs of those proposals and advise the Owner of their validity and reasonableness, acting in the Owner's best interest prior to requesting approval of each change order from the Owner. Before any work is begun on any change order, a written authorization from the Owner must be issued. However, when health and safety are threatened, the Construction Manager shall act immediately to remove the threat to health and safety.

- 24.17 <u>Subcontracts to be provided</u> The Construction Manager shall include a copy of each subcontract, including the general and supplementary conditions, in the project manual.
- 24.18 <u>Bonding of Subcontractors</u> The Construction Manager shall submit proof, in the form of copies of properly executed bond forms, that the following major subcontractors have provided a performance bond and a payment bond to the Construction Manager and Owner as dual obligees with a corporate surety approved by the United States Treasury Department and authorized to do business in the State of Florida and otherwise acceptable to the Owner:
  - .l HVAC/Mechanical
  - .2 Electrical
  - .3 Plumbing
  - .4 Roofing
  - .5 Shell Contractor
- 24.18.01 If the value of a subcontract listed above is below \$200,000, the Subcontractor Bonding requirement for that respective subcontract may be waived by the Owner, at its sole discretion, for M/WBE Subcontractors participating in the Owner's M/WBE Subcontractor Programs as described elsewhere in the Contract Documents. The Construction Manager may bond any subcontractor whose contract exceeds \$100,000.00 which shall be an expense to the Owner if approved in writing by the Owner...
- 24.18.02 The respective performance and payment bonds shall:
  - Require the Surety to perform the Subcontract and to pay all bills and invoices for labor done and materials provided in the performance of the Work, including any guarantee or warranty period provided for in the Contract Documents.
  - b Be on the forms as provided by the Owner. No other forms will be acceptable.
  - Executed under corporate seal of the surety and countersigned on the part of the surety by a qualified resident agent of the company or any attorney-in-fact. The Owner may request the attorney-in-fact who executes the required bonds on behalf of the surety to affix thereto a certified and current copy of the power of attorney.
  - In case of default or other proceedings on the part of the Subcontractor, actions for all expenses incident to ascertaining and collecting losses under the bond, including reasonable attorney's fees for same, shall be covered by the bond.
  - Bonding companies acceptable to the Owner are bonding companies which are United States Treasury
    Department approved bonding companies, qualified and rated in accordance with Article 29 below and
    limited in bonding ability to the current United States Treasury Department standing for net limit on
    any one risk at the time of execution of the Subcontract.
  - .f Any expenses related to non-conforming bonds shall be the sole responsibility of Construction Manager.

## ARTICLE 25. CONSTRUCTION MANAGER'S FEES

25.01 Adjustments in Fee - For changes in the project as provided in Article 27 of the General Conditions, the construction phase fee shall be adjusted as follows:

- (1) The Construction Manager shall be paid an additional fee subject to negotiation if the Construction Manager is placed in charge of reconstruction of an insured or uninsured loss excluding any condition that may have been caused from negligent acts by the Construction Manager.
- (2) The Construction Manager shall be paid an additional fee should the duration of the construction stipulated herein for Final Completion extend beyond the approved final completion date twenty-five (25) months after the Notice-To-Proceed, due to no fault of the Construction Manager. The Construction Manager's Additional Construction Phase Fee and General Conditions will be (\$1,550) dollars per working day, for each day or portion thereof. The Construction Manager's staff during such time extensions shall be that shown in Exhibit E and F.
- The Construction Manager will not be due any Overhead and Profit on increases in the Guaranteed Maximum Price (GMP) that do not exceed \$100,000. Should the GMP be increased by more than \$100,000 under the terms of Article 27 hereinafter due to no fault of the Construction Manager, the Construction Manager's Overhead and Profit for the Construction Phase will be the negotiated amount in Article 7.1 of the Agreement and indicated as a per-cent in "Fee for Change Orders", of that portion of the cumulative increases in the GMP that exceed the GMP by more than \$100,000.
- (4) The Construction Manager shall not be paid overhead and profit on any additional cost item of work, not included in GMP, for which the Construction Manager to the best of its ability should have reasonably discovered in their review of Contract documents (see also Paragraph 3.3.2 and exhibits G and H), review of other project documentation and existing site conditions.
- Construction Manager's Exclusive Remedy: In the event the construction Substantial or Final Completion date is extended, regardless of whether delay is caused by any act or neglect of the Owner or the Project Consultant, or is attributable to the Owner or the Project Consultant, the Construction Manager's sole and exclusive remedy is an extension of the construction completion date and payment of Construction Phase Fees, General Conditions and Overhead and Profit for Construction Phase as provided above.
- 25.02.01 Costs and Expenses Included in Fee The following (a non-exclusive list) are included in the Construction Manager's fee for services during the Construction Phase and not included in the cost of the project.
  - Salaries or other compensation of the Construction Manager's employees at the Project site or Broward Office.
  - .b The Construction Manager's personnel to be assigned during the construction phase, their duties and responsibilities to this project and the duration of their assignments are shown on Exhibits <u>E and F.</u>
  - .c General operating expenses related to this project at the Construction Manager's Broward offices.
  - .d The costs of all data processing staff.
  - e General operating expenses incurred in the management and supervision of the project, except as expressly included in Article 26 of the General Conditions.
  - .f Those services set forth in Article 3 of the Agreement between Owner and Construction Manager.
  - .g Job office supplies includes paper, pencils, paper clips, file folders, staples, etc., and other supplies.
  - h Direct tax saving purchase program. The Board reserves the right to implement or not implement a Direct Tax Savings Purchase Program or to extend its current program, if any, to this Construction Manager Agreement with notice to the Construction Manager prior to the negotiation of fees herein.

#### ARTICLE 26. COST OF THE PROJECT

26.01 <u>Definition</u> - The term Cost of the Project shall mean costs necessarily incurred in the Project during the Construction Phase for Construction services and paid by the Construction Manager which are not included in Article 25. Such costs shall include the items set forth below in this Article.

THE OWNER AGREES TO PAY THE CONSTRUCTION MANAGER FOR THE COST OF THE PROJECT AS DEFINED IN THIS ARTICLE. SUCH PAYMENT SHALL BE IN ADDITION TO THE CONSTRUCTION MANAGER'S FEES STIPULATED IN ARTICLE 25 OF THE GENERAL CONDITIONS.

### 26.02 <u>Direct Cost Items</u>

- 26.02.02 Cost of all materials, supplies and equipment incorporated in the Project, including costs of transportation and storage thereof.
- 26.02.03 Payments due to subcontractors from the Construction Manager or made by the Construction Manager to subcontractors for their work performed pursuant to contract under this Agreement. This includes any subcontractor bonds the Construction Manager is required to procure.
- 26.02.04 Cost including transportation and maintenance of all materials, supplies, equipment, temporary facilities and hand tools not owned by the workmen, which are employed or consumed in the performance of the works
- 26.02.05 Rental charges on all necessary machinery and equipment, exclusive of hand tools used at the site of the Project, including installation, repairs and replacements, dismantling, removal, costs of lubrication, transportation and delivery costs thereof which are used in the support of a sub-contractor or the Construction Manager's own forces in the performance of the work, at rental charges consistent with those prevailing in the area.
  - .a Proposed rental rates and related fair market values for Contractor owned (affiliate owned, subsidiary owned, or related party owned) equipment shall be submitted to and approved by Owner prior to being used in connection with the Work. The projected usage for each piece of equipment proposed to be rented, and estimated total rentals shall be submitted for approval in advance in a form satisfactory to Owner so that an appropriate lease versus buy decision can be made.
  - b. Each piece of equipment to be rented shall have hourly, daily, weekly, and monthly rates submitted to and approved by Owner in advance before equipment rental charges will be considered reimbursable.
  - c. The reimbursable equipment rental rates shall not exceed 75% of the published rates based on the latest edition of "Rental Rates and Specifications" published by the Associated Equipment Distributors (AED). If the AED publication does not contain information related to the type of equipment rented, the Owner and Contractor will use the applicable portions of the latest edition of the Army Corps of Engineers equipment rental rate guide (Construction Equipment Ownership and Operating Expense Schedule exclusive of the costs for fuel, filters, oil and grease) to mutually agree in advance on hourly, daily, weekly, and monthly rental rates to use during the project. If these two reference sources do not contain specific listings for pieces of equipment to be rented, the two parties may mutually agree to reimburse the Contractor up to 75% of the current competitive rental rates from local third party equipment rental companies.
  - d. The aggregate rentals chargeable for each piece of Contractor owned tools or equipment shall not exceed 75% of the fair market value of such equipment at the time of its commitment to the Work. The original purchase price and date of purchase of the equipment will be documented with a copy of the purchase invoice and submitted to the Owner along with a proposed fair market value in accordance with the procedure outlined above. The fair market values to be used for purposes of this contract clause will be subject to advance written approval of the Owner. Such aggregate limitations will apply and no further rentals shall be charged even if a piece of equipment is taken off the job and is later replaced by a similar piece of equipment. For purposes of computing the aggregate rentals applicable to aggregate rental

limitations, rental charges for like pieces of equipment will be combined if the pieces of equipment were not used at the same time.

- e. Fair market value for used material and equipment as referred to in this contract shall mean the estimated price a reasonable purchaser would pay to purchase the used material or equipment at the time it was initially needed for the job. Note: This is usually lower than the price a reasonable purchaser would pay for similar new construction material or construction equipment.
- f. Rental charges for equipment which is not owned by Contractor or any of its affiliates, subsidiaries, or other related parties and is rented from third parties for use in proper completion of the Work shall be considered reimbursable, will be reimbursable at actual costs, as long as rental rates are consistent with those prevailing in the locality. For any lease/purchase arrangement where any of the lease/purchase rental charges were charged to Owner as reimbursable job costs, appropriate credit adjustments to job cost will be made for an appropriate pro rata share of the fair market value of the equipment at the time it was last used on the job.
- g. All losses resulting from lost, darnaged or stolen tools and equipment shall be the sole responsibility of the Contractor, and not the Owner, and the cost of such losses shall not be reimbursable under this contract except as covered by insurance procured for the work
- h. The Contractor shall be required to maintain a detailed equipment inventory of all job-owned equipment (either purchased and charged to job cost or job-owned through aggregate rentals) and such inventory shall be submitted to the Owner each month. For each piece of equipment, such inventory should contain at a minimum (1) original purchase price or acquisition cost (2) acquisition date (3) approved FMV at the time the piece of equipment was first used on the job and (4) final disposition. At the completion of the project, the Contractor shall transfer title and possession of all remaining job-owned equipment to the Owner, or at Owner's option, Contractor may keep any such equipment for an appropriate credit to job cost, which will be mutually agreed to by Owner and Contractor.
- i. All costs incurred for minor maintenance and repairs shall be reimbursed at actual cost. Such costs include routine and preventative maintenance, minor repair and other incidental costs. Repairs and/or replacement of a capital nature are considered to be covered by the rental rates. Major repairs and overhauls are not considered routine and ordinary, consequently such costs are not reimbursable and are intended to be covered by the rental rates.
- 26.02.06 Cost of the premiums for all insurance and cost of premiums for all bonds which the Construction Manager is required to procure by this Agreement specifically for the construction project.
- 26.02.07 Sales, use, gross receipts or similar taxes related to allowable direct costs of the Project imposed by any governmental authority, and for which the Construction Manager is liable.
- 26.02.08 No costs shall be paid by the Owner to the Construction Manager for any expenses made necessary to correct defective workmanship or to correct any work not in conformance with the Plans and Specifications or to correct any deficiency or damage caused by negligent acts by the Construction Manager.
- 26.02.09 Minor expenses at the site, such as telegrams, long distance telephone calls, telephone service, expressage, postage, and similar petty cash items in connection with the Project to be billed at cost.
- 26.02.10 Costs for trash and debris control and removal from the site.
- 26.02.11 Cost incurred due to an emergency affecting the safety of persons and property.
- 26.02.12 If approved by the Owner, the Construction Manager, when qualified, may perform all or a portion of the work for any item listed on the estimate or GMP Schedule of Values breakdown where it is deemed advantageous due

to schedule or economic benefit.

- 26.02.13 Transportation greater than 100 miles from the site for Construction Manager's personnel employed directly for the project. Such transportation must be approved in advance by the Owner, and may be in accordance with the Construction Manager's standard personnel policy but not exceeding the limits established by Florida Statutes 112.061.
- 26.02.14 Costs for watchman and security services for the project.
- 26.02.15 Costs for efficient logistical control of the site, including horizontal and vertical transportation of materials and personnel. Also, costs for adequate storage and parking space.
- 26.02.16 Costs for such temporary facilities at the Project site during construction, as approved by the Owner, including temporary water, heat, power, sanitary facilities and telephones.
- Wages paid for labor (as opposed to wages paid to management or supervisory personnel) in the direct employ of the Construction Manager in the performance of its work under the Agreement, times a multiple of (Multiplier) to cover fringe benefits. The Multiplier shall be defined as the employer's net actual cost of payroll taxes (FICA, Medicare, UITA, FUTA), net actual cost for employer's cost of union benefits (or other usual and customary fringe benefits if the employees are not union employees), and net actual cost to employer's worker's compensation insurance taking into consideration adjustments for experience modifiers, premium discounts, dividends, rebates, expense constants, assigned risk pool costs, net cost reductions due to policies with deductibles for self-insured losses, assigned risk rebates, and other variables. The Construction Manager shall reduce his standard payroll tax percentages to properly reflect the effective cost reduction due to the estimated impact of the annual maximum wages subject to payroll taxes. The percentage used for the multiplier will be examined at the conclusion of the project and an adjustment shall be made if it is determined that actual percentage should have been more or less than the percentage used.
- 26.02.18 Wages shall not be paid for holidays not worked and shall exclude bonuses and other similar extraordinary benefits.
- 26.03 COSTS NOT TO BE REIMBURSED
- 26.03.01 Salaries and other compensation of the Construction Manager's personnel stationed at the Construction Manager's principal office or offices other than the Project site office.
- 26.03.02 Expenses of the Construction Manager's principal office and offices other than the Project site office.
- 26.03.03 Construction Manager's capital expenses, including interest on Construction Manager's capital used for the Work.
- 26.03.04 Any cost not specifically and expressly described in subsection 26.02 above.
- 26.03.05 Cost which would cause the GMP to be exceeded (other than adjustments pursuant to the terms herein for Change Orders and Construction Change Directives).
- 26.03.06 Cost of the Construction Manager's home office computer services or other outside computer processing services shall be considered overhead and general expense. Accordingly, the Construction Manager should not plan to perform any such computer related services or alternatives at the field office when such service or functions can be performed at the Construction Manager's home or branch offices, or other outside service locations.
- Any personal computer applications and related costs or remote job entry data functions and related costs which will be incurred by personnel at the job site must receive advance written approval from the Owner to be considered a reimbursable cost, otherwise the associated cost will not be paid.

**EXHIBIT C** 

- 26.03.08 Costs of all reproductions used for bidding or information purposes required by the project to directly benefit the project will only be reimbursed with prior written approval of the project manager.
- 26.03.09 Costs of subcontractors bonds not required by this agreement or approved in writing by Owner.
- 26.03.10 Deductibles paid by Construction Manager on any insurance claim will not be reimbursed unless the loss could not have been reasonably avoided by Construction Manager and/or all subcontractors had it reasonably performed all contractual safeguards. Deductibles will otherwise be reimbursed to CM.

# ARTICLE 27. CHANGE ORDERS AND CONSTRUCTION CHANGE DIRECTIVES

- The Owner, without invalidating this Agreement, may order Changes in the Project within the general scope of this Agreement consisting of additions, deletions or other revisions, the GMP, and the Construction Completion Date, being adjusted accordingly. All changes in the Project shall be authorized by Change Order (CO) or Construction Change Directive (CCD) signed by the Owner before the change is implemented.
- A Change Order or Construction Change Directive is a written order to the Construction Manager signed by the Owner issued after the execution of this Agreement, authorizing a Change in the Project, the Construction Manager's fees, or the Construction Completion date. Each adjustment in the GMP resulting from a change order shall clearly separate the amount attributable to the Cost of the Project.
- The increase or decrease in the cost of the work as a component of the Guaranteed Maximum Price resulting from a change in the Project shall be determined in one or more of the following ways.
  - by mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation by the Owner;
  - b by unit prices stated in the Agreement or subsequently agreed upon;
  - by cost as defined in Article 26 of the General Conditions, the stipulated percentage for overhead and profit [subject to the \$100,000 threshold set forth in Article 25.01.3 of the General Conditions] set forth in Article 7.1 of the Agreement and, if time for performance of the construction phase of the work is extended, additional construction phase fees and general conditions set forth in Article 25.01.2 of the General Conditions; or
  - d by the method provided in Subparagraph 27.04.
- If none of the methods set forth in Clause 27.03 is agreed upon, the Construction Manager, provided he receives a Construction Change Directive signed by the Owner, shall promptly proceed with the Work involved. The cost of such Work shall then be determined on the basis of the reasonable expenditures and savings of those performing the Work attributed to the change. However, in the event a Construction Change Directive is issued under these conditions, the Project Consultant will establish an estimated cost of the work and the Construction Manager shall not perform any work whose cost exceeds that estimate without prior written approval by the Owner. In such case, and also under Article 27.03 above, the Construction Manager shall keep and present, in such form as the Owner may prescribe, an itemized accounting together with appropriate supporting data of the increase in the Cost of the Project as outlined in Article 26 of the General Conditions. The amount of decrease in the Guaranteed Maximum Price to be allowed by the Construction Manager to the Owner for any deletion or change which results in a net decrease in cost will be the amount of the actual net decrease.
- 27.05 If unit prices are stated in the Agreement or subsequently agreed upon, and if the quantities originally contemplated are so changed in a proposed Change Order and/or Construction Change Directive that application of the agreed unit prices to the quantities of Work proposed will cause substantial inequity to the Owner or the Construction Manager, the applicable unit prices and Guaranteed Maximum Price shall be equitably adjusted.

Should concealed conditions encountered in the performance of the Work below the surface of the ground or should concealed or unknown conditions in an existing structure be at variance with the conditions indicated by the Drawings, Specifications, or Owner furnished information or should unknown physical conditions below the surface of the ground or should concealed or unknown conditions in an existing structure of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Agreement, be encountered, the Guaranteed Maximum Price and the Construction

Completion date shall be equitably adjusted by Change Order upon a request for Change Order in accordance

- 27.07 <u>Claims For Additional Construction costs or Time</u> All claims for additional costs or time shall be made by request for a change order submitted as provided in Article 27 of the General Conditions. ADDITIONAL TIME SHALL BE CONSIDERED ONLY IF THE APPROVED CPM (CRITICAL PATH) IS IMPACTED BY THE CHANGE.
- 27.07.01 If the Construction Manager is delayed at any time in the progress of the work by any act or neglect of the Owner or the Project Consultant or of any employee of either or by any separate Construction Manager employed by the Owner or by any changes ordered in the work by labor disputes, fire, or unusual delay in transportation, unavoidable casualties or any causes beyond the Construction Manager's control or by delay authorized by the owner pending resolution of disputes, and such delay extends the completion date, the Substantial Completion shall be extended by Change Order for such time as the Owner may reasonably determine.
- 27.07.02 Only delays which are determined to extend the critical path for the schedule for constructing the project will result in a time extension. Neither the Owner nor the Construction Manager shall be considered to own the schedule float time.
- 27.08 <u>Minor Changes In The Project</u> The Facilities Project Manager will have authority to order minor changes in the Project not involving an adjustment in the Guaranteed Maximum Price or an extension of the Construction Completion Date and not inconsistent with the intent of the Drawings and Specifications. Such changes shall be effected by written order.
- 27.09 <u>Emergencies</u> In any emergency affecting the safety of persons or property, the Construction Manager shall act at his discretion, to prevent threatened damage, injury or loss. Any increase in the Guaranteed Maximum Price or extension of time claimed by the Construction Manager on account of emergency work shall be determined as provided in Article 27 of the General Conditions.

#### ARTICLE 28. DISCOUNTS AND PENALTIES

with Article 27 of the General Conditions.

- All discounts for prompt payment shall accrue to the Owner to the extent the Cost of the project is paid directly by the Owner or from a fund made available by the Owner to the Construction Manager for such payments. To the extent the Cost of the Project is paid with funds of the Construction Manager, all cash discounts shall accrue to the Construction Manager. All trade discounts, rebates and refunds, and all returns from sale of surplus materials and equipment, shall be credited to the Cost of the Project. All penalties incurred due to fault of the Construction Manager for late payment of cost of the project will be paid by the Construction Manager.
- 28.02 Construction Manager shall comply with the Direct Owner Purchasing Program as set forth in SBBC Section 01295, if applicable.

### ARTICLE 29. BONDS, INSURANCE, INDEMNITY AND WAIVER OF SUBROGATION

## 29.1 **Bonds**

29.1.01 In accordance with the provisions of Section 255.05, Florida Statutes, the Construction Manager shall provide to the Owner, on forms furnished by the Owner, a 100% Performance Bond and a 100% Labor and Material

Payment Bond each in an amount not less than the GMP as revised.

- 29.1.02 To be acceptable to the School Board of Broward County as Surety for Performance Bonds and Labor and Material Payment Bonds, a Surety Company shall comply with the following provisions:
- 29.1.03 The Surety Company shall be approved by the United States Treasury Department and have a currently valid Certificate of Authority, issued by the State of Florida, Department of Insurance, authorizing it to write surety bonds in the State of Florida.
- 29.1.04 The Surety Company shall be in full compliance with the provisions of the Florida Insurance Code.
- 29.1.05 The Surety Company shall have at least twice the minimum surplus and capital required by the Florida Insurance Code at the time the invitation to bid is issued
- 29.1.06 If the Contract Award Amount exceeds \$500,000, the Surety Company shall also comply with the following provisions:
- 29.1.07 The Surety Company shall have at the minimum an AA-A Policy Holder's Rating, and a AClass VI@ Financial Rating in the latest issue of Best's Key Rating Guide.
- 29.1.08 The Surety Company shall not expose itself to any loss on any one risk in an amount exceeding ten (10) percent of its surplus to policyholders, provided:
- Any risk or portion of any risk being reinsured shall be deducted in determining the limitation of the risk as prescribed in this section. These minimum requirements shall apply to the reinsuring carrier providing authorization or approval by the State of Florida, Department of Insurance to do business in this state have been met.
- 29.1.10 In the case of the surety insurance company, in addition to the deduction for reinsurance, the amount assumed by any co-surety, the value of any security deposited, pledged or held subject to the consent of the surety and for the protection of the surety shall be deducted.

### ARTICLE 30. INDEMNITY AND HOLD HARMLESS

- To the fullest extent permitted by law, the Construction Manager shall indemnify and hold harmless the Owner, its members, officers, employees and agents (hereinafter collectively "Related Parties") from and against any and all liability, claims, causes of action (by whomever brought or alleged and regardless of the legal theories upon which the liability, claims or causes of action are based), losses, damage, costs, expenses and fees (including but not limited to reasonable fees of attorneys, expert witnesses and other consultants), which are or may be imposed upon, incurred by or asserted against Owner and/or the Related Parties to the extent said liability, claims, causes of action, losses, damages, costs, expenses and/or fees are caused by the Construction Manager's negligent, reckless or intentional wrongful acts of omission, error, misconduct, or commission.
- ln any and all claims against the Owner by any employee of the Construction Manager, or anyone for whose acts the Construction Manager may be liable, the obligations for Construction Manager to indemnify Owner under this contract shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for the Construction Manager under workman's compensation acts, disability acts, or other employee benefit acts.
- In the event that any claims are brought or actions filed against the Owner with respect to the indemnity contained herein, the Construction Manager agrees to defend against any such claims or actions regardless of whether such claims or actions are rightfully or wrongfully brought or filed. The Construction Manager agrees that the Owner may select the attorneys to appear and defend such claims or actions on behalf of the Owner. The Construction Manager further agrees to pay, at the sole expense of the Construction Manager, the attorney's fees and cost incurred by those attorneys selected by the Owner to appear and defend such claims or actions on behalf of the Owner. However, if the claims or actions are covered by insurance and such coverage is acknowledge by the insurance company in writing to the Owner, then, in that case, the insurance company shall

choose counsel, direct the defense and be the judge of the acceptability of any compromise or settlement of any such claims or actions against the Owner which are within the insurance policy limits and are paid by the insurance company solely. Otherwise, if the claims or actions are not covered by insurance, then, at its sole option the Owner shall have the sole authority for the direction of the defense, and shall be the sole judge of the acceptability of any compromise or settlement of any claims or actions asserted against the Owner.

30.04 The Construction Manager recognizes the nature of the indemnification obligations imposed under this contract and voluntarily makes these covenants. The obligation imposed upon the Construction Manager under this Indemnification Agreement shall survive termination of this contract.

## ARTICLE 31. CONSTRUCTION MANAGER'S INSURANCE

- The Construction Manager shall not commence any work in connection with this Agreement nor shall be paid any monies until it has obtained the following types of insurance and such insurance policies have has been approved and supplied to the Owner, nor shall the Construction Manager allow any subcontractor to commence work on his subcontract until all similar insurance required of the subcontractor has been so obtained and approved. All insurance policies shall be with insurers qualified and doing business in the State of Florida. All insurance companies providing policies required under this Agreement shall have at least an A-rating and a financial rating of no less than VI in the current A.M. Best Manual or hold a Moody's Investors Service Financial Strength of "Aa3" or better.
- Insurance policies required under this Agreement shall be endorsed to be primary of all other valid and collectable coverages maintained by The School Board of Broward County, Florida. The School Board of Broward County, Florida, shall be named as an additional insured under the General Liability policy including Products Liability. THE CONSTRUCTION MANAGER SHALL NOT RECEIVE ANY PAYMENTS UNDER THIS CONTRACT AS LONG AS AND UNTIL ALL POLICIES REQUIRED AT THAT TIME HAVE BEEN PROVIDED TO THE OWNER.
- 31.03 <u>Certificate of Insurance</u> The Owner shall be furnished proof of coverage of Insurance as follows:
- Certificate of Insurance form will be furnished to the Owner along with the Contract Documents. These shall be completed and signed by the authorized Florida Resident Agent, and returned to the Owner.
- The Certificate shall be dated and show the name of the insured Construction Manager, the specific job by name and job number, the name of the insurer, the number of the policy, its effective date, and its termination date.
- 31.04.02 No material change or cancellation of the insurance shall be effective without a thirty (30) day prior written notice to and approval by the Owner.
- Certificate of Insurance shall be in the form as approved by Insurance Standards Office (ISO) and such Certificates shall clearly state all of the coverages required in this Section. The Certificates shall clearly indicate that the Construction Manager has obtained insurance of the type, amount and classification required by these provisions, in excess of any pending claims at the time of contract award to the Construction Manager.
- 31.04.04 Certificate of Insurance must clearly list any and all deductibles by coverage.

#### Insurance Required

Worker's Compensation Insurance - The Construction Manager shall take out and maintain during the life of this Agreement Worker's Compensation Insurance for all his employees connected with the work of this Project and, in case any work is sublet, the Construction Manager shall require the subcontract similarly to provide Worker's Compensation Insurance for all the latter's employees unless such employees are covered by the protection afforded by the Construction Manager. Such insurance shall comply with the Florida Worker's Compensation Law, Florida Statutes Chapter 440. In case any class of employees engaged in hazardous work under this contract at the site of the Project is not protected under the Worker's Compensation statute, the

EXHIBIT C

Construction Manager shall provide adequate insurance, satisfactory to the Owner, for the protection of employees not otherwise protected.

- Automobile Liability Insurance The Construction Manager shall maintain Automobile Liability Insurance covering all owned, non-owned and hired vehicles used in connection with this Agreement in amounts not less than One Million (\$1,000,000.00) Dollars per occurrence for bodily injury and property damage combined single limit.
- General Liability Insurance The Construction Manager shall maintain General Liability Insurance, including contractual Liability to cover he AHold Harmless Agreement® set forth herein, with bodily injury limits of not less than One Million (\$1,000,000.00) Dollars per occurrence combined single limit for bodily injury and property damage and not less then Two Million (\$2,000,000.00) Dollars General Aggregate.
- Product Liability or Completed Operations Insurance: The Construction Manager shall maintain Product Liability of Completed Operations Insurance with bodily injury limits of liability of no less than One Million (\$1,000,000.00) Dollars per occurrence and One Million (\$1,000,000.00) Dollars aggregate.
- Builder's Risk Coverage The Construction Manager shall take out and maintain during the construction phase of this Agreement. A A Builder's Risk Policy@ completed value form as a cost of the Project, issued to provide coverages on an Aali risk@ basis including but not limited to perils of fire, vandalism, theft and those included in extended coverage in the amount of one hundred percent (100%) of the values at risk. This coverage shall not be lapsed or canceled because of partial occupancy by the Owner prior to final acceptance of the Project.
- Providing for all sums which the Construction Manager shall be legally obligated to pay as damages for claims arising out of or relating to the services performed by the Construction Manager or any person employed or acting on the Construction Manager behalf (including but not limited to Sub-Contractors) in connection with this agreement. The project insurance policy shall be purchased with an extended Reporting period Endorsement and shall provide full coverage for a period commencing with execution of its contract and terminating five years after final completion of the project. This policy shall be non-cancelable. All premium costs and expenses for the required Professional Liability coverage shall be paid by the Owner subject to Owner's approval as to terms and conditions. If Owner, at its sole discretion, agrees that such coverage is not commercially reasonably available, the Owner may, at its sole discretion, authorize the Construction Manger to alter the coverage by substituting a lower aggregate and/or changing any other terms and conditions of the coverage (including but not limited to deductible amounts) based upon the scope of the project.

# ARTICLE 32. WAIVER OF SUBROGATION

- The Owner and the Construction Manager waive all rights against each other, for damages caused by perils covered by insurance provided under Article 29 to the extent covered by such insurance except such rights as they may have to the proceeds of such insurance held by the Owner and Construction Manager as trustees. The Construction Manager shall require similar waivers from all subcontractors and their sub-subcontractors.
- The Owner and Construction Manager waive all rights against each other for loss or damage to any equipment used in connection with the Project and covered by any property insurance. The Construction Manager shall require similar waivers from all subcontractors and their sub-subcontractors.
- The Owner waives subrogation against the Construction Manager on all property and consequential loss policies carried by the Owner on adjacent properties and under property and consequential loss policies purchased for the Project after its completion.
- 32.04 If the policies of insurance referred to in this Article require an endorsement to provide for continued coverage where there is a waiver of subrogation, the Owner of such policies will cause them to be so endorsed, failure to obtain proper endorsement nullifies the waiver of subrogation.

# ARTICLE 33. WITHHOLDING PAYMENT TO CONSTRUCTION MANAGER

- In addition to the Retainage, payments, including but not limited to Final Payment, may be withheld or reduced by the Owner in its sole discretion if any of the following exists:
- The work is not proceeding in accordances with construction Documents Schedule as anticipated by the Owner. In that event, the Owner will assess the anticipated delay and the Owner will use the amounts specified for Liquidated Damages as the basis for amounts withheld. Said funds shall be held until such time as the Owner determines that the work is back on schedule. By making said funds available to Construction Manger, owner does not waive its right to assess liquidated damages at the completion of the Project:
- 33.03 Liquidated Damages as set forth in this Contract;
- 33.04 Defective Work unremedied:
- 33.05 Punch-List items unremedied;
- 33.06 Subject to Owner's written notice to Construction Manager in accordance with Contract Documents back charge items for work performed by Owner or another contractor are the request of Owner, which work is within the scope of Work under this Construction Contract.
- 33.07 Claims filed by subcontractors, laborers, suppliers, materialmen or others;
- 33.08 Failure to comply with any and all insurance requirements;
- 33.09 Failure of the Construction Manager to make payment properly to Subcontractors or others;
- Damage to the Owner or its property or another contractors' work caused by the Construction Manager or its subcontractors.

#### ARTICLE 34. TERMINATION BY THE CONSTRUCTION MANAGER

34.01 If the Project is stopped for a period of thirty (30) days under an order of any court or other public authority having jurisdiction or as a result of an act of government, such as a declaration of a national emergency making materials unavailable, through no act or fault of the Construction Manager, or if the Project should be stopped for a period of sixty (60) days by the Construction Manager, for the Owner's failure to make payments thereon, then the Construction Manager may, upon seven days written notice to the Owner, request payment for all work executed, the Construction Manager's fees earned to date, and for any proven loss sustained upon any materials, equipment, tools, construction equipment, and machinery, including reasonable profit, damages and terminate expenses incurred by the Construction Manager.

# ARTICLE 35. OWNER'S RIGHT TO PERFORM CONSTRUCTION MANAGER'S OBLIGATIONS AND TERMINATION BY OWNER FOR CAUSE

- 35.01 If the Construction Manager fails to perform any of his obligations under this Agreement including any obligation he assumes to perform work with his own forces, the Owner may, after seven (7) days written notice during which period the Construction Manager fails to perform such obligation, make good such deficiencies. The GMP, or the actual cost of the Project, whichever is less, shall be reduced by the cost to the Owner of making good such deficiencies and the Construction Manager's Construction Phase Fee shall be reduced by an amount required to manage the making good of such deficiencies.
- 35.02 If the Construction Manager is adjudged bankrupt, or if he makes a general assignment for the benefit of his creditors, or if a receiver is appointed on account of his insolvency, or if he persistently or repeatedly refuses or fails, except in case for which extension of time is provided, to supply enough properly skilled workmen or proper materials and fails to maintain an established schedule (failure to maintain schedule shall be defined as

General Conditions of the CM Agreement July 6, 2004

**EXHIBIT** C

any activity on the critical path that falls 45 days or more behind schedule) which has been adopted by the Construction Team, or if he fails to make prompt payment to subcontractors for materials or labor, or persistently disregards laws, rules, ordinances, regulations, or orders of any public authority having jurisdiction, or otherwise is guilty of a substantial violation of a provision of the Agreement, then the Owner may, without prejudice to any right or remedy and after giving the Construction Manager and his surety, if any, seven (7) days written notice, during which period Construction Manager fails to cure the violation, terminate the employment of the Construction Manager and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon owned by the Construction Manager, and may finish the Project by whatever method he may deem expedient. In such case, the Construction Manager shall not be entitled to receive any further payment until the Project is finished nor shall he be relieved from his obligations assumed under this agreement. Reasonable terminal expenses incurred by the Owner may be deducted from any payments left owing the Construction Manager (excluding monies owed the Construction Manager for subcontract work).

35.03 If the Construction Manager refuses to allow public access to all documents, papers, letters, or other material subject to the provisions of Chapter 119, Florida Statutes, and made or received by the Construction Manager in conjunction with this Agreement, then the Owner may, without prejudice to any right or remedy and after giving the Construction Manager and his surety, if any, seven (7) days written notice, during which period Construction Manager still fails to allow access, terminate the employment of the Construction Manager and take possession of the site and of all materials, equipment, tools, construction equipment and machinery thereon, owned by the Construction Manager, and may finish the project by whatever method he may deem expedient. In such case, the Construction Manager shall not be entitled to receive any further payment until the Project is finished nor shall he be relieved from his obligations. Reasonable termination expenses incurred by the Owner may be deducted from any payments left owing the Construction Manager (excluding monies owed the Construction Manager for subcontract work).

### ARTICLE 36. TERMINATION BY OWNER WITHOUT CAUSE

- If the Owner terminates this Agreement other than pursuant to Article 35, he shall reimburse the Construction Manager for any unpaid Cost of the Project due him under Article 26, plus that part of the unpaid balance of the Construction Phase Fee in an amount as will increase the payment on account of his fee to a sum which bears the same ratio to the Construction Phase Fee as the Cost of the Project at the time of termination bears to the Guaranteed Maximum Price, if established, otherwise to the Owner's Construction Budget. The Owner shall also pay to the Construction Manager fair compensation, either by purchase or rental at the election of the Owner, for any equipment retained. In case of such termination of Agreement the Owner shall further assume and become liable for obligations, commitments and unsettled contractual claims that the Construction Manager has previously undertaken or incurred in good faith in connection with said Project. The Construction Manager shall, as a condition of receiving the payments referred to in this Article, execute and deliver all such papers and take all such steps including the legal assignment of his contractual rights, as the Owner may require for the purpose of fully vesting in him the rights and benefits of the Construction Manager under such obligations or commitments.
- After the establishment of the Guaranteed Maximum Price or at the completion of the Preconstruction Phase, if the final cost estimates or lack of funding make the Project no longer feasible from the standpoint of the Owner, the Owner may terminate this Agreement and pay the Construction Manager his proportionate fee due in accordance with Article 25 plus any costs incurred pursuant to Articles 26.

#### ARTICLE 37. LAWS AND REGULATIONS

- Construction Manager and its employees and representative shall at all times in the performance of the work, comply with all applicable laws, ordinances, statutes, rules and regulations (including but not limited to the Florida Building Code, in effect at the time the Building Permit(s) is and/or are issued.
- 37.02 If, during the term of this Construction Contract, there are any changed or new laws, ordinances or regulations

  General Conditions of the CM Agreement

  July 6, 2004

**EXHIBIT** C

not in existence at the time of signing this Construction Contract which become effective and which affect the cost or time of performance of the Construction Contract, Construction Manager shall within fifteen (15) days of the discovery of said law, ordinance or regulation, notify Owner in writing and submit detailed documentation of such

effect in terms of both time and cost of performing the Construction Contract. Upon concurrence by Owner as to the effect of such changes, an adjustment in the compensation and/or time of performance may be made at Owner's discretion.

37.03 If any discrepancy or inconsistency should be discovered between the Contract Documents and any law, ordinance, regulation, order or decree, Construction Manager shall within fifteen (15) days of discovery of same report the same in writing to Owner and Project Consultant who will issue such instructions as may be necessary.

#### ARTICLE 38. DISPUTE RESOLUTION

- The Owner and Construction Manager agree that, in the event of a dispute, the parties will attempt to resolve such dispute without litigation and that resolution through mediation procedures will be encouraged. Failing resolution, and prior to commencement of depositions in any litigation between the parties with respect to the Project, the parties shall attempt to resolve the dispute through mediation before an agreed-upon Circuit Court Mediator certified by the State of Florida. Should either party fail to submit to mediation as required hereunder, the other party may request a court of law to order mediation under Florida Statutes Section 44.102.
- The existence of a dispute between the parties shall not be the basis of the Construction Manager unilaterally electing not to continue performance pursuant to the terms of the Contract Documents.

#### ARTICLE 39. GOVERNING LAW AND VENUE

- 39.01 The Construction Contract shall be governed by the laws of the State of Florida.
- Venue of any action arising out of this Agreement shall be in Broward County, Florida or in the US District Court for the Southern District of Florida.

#### ARTICLE 40. RIGHTS AND REMEDIES

40.01 The duties and obligations imposed by the Contract Documents and the rights and remedies available thereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available by law.

#### ARTICLE 41. SUCCESSORS, ASSIGNS AND ASSIGNMENT

- The Owner and the Construction Manager each binds itself, its partners, successors, assigns and legal representatives to the other party in respect to all covenants, agreements and obligations contained in the Construction Contract. It is agreed that the Construction Manager shall not assign, transfer, convey or otherwise dispose of the contract or its right, title and interest in and to the same or any part thereof, without previous consent of the Owner and concurred to by the Suretics.
- If requested by Owner the Construction Manager agrees to assign all Subcontracts required for performance of this Contract to the Owner upon the Owner or Facilities Project Manager's determination that Construction Manager has defaulted under the Contract Documents. The Construction Manager shall include in all Subcontracts, equipment leases and purchase orders a provision requiring the subcontractor, equipment lessor or supplier, in the event of Construction Manager's default under this Contract, to consent to the assignment of their subcontracts to the Owner.

General Conditions of the CM Agreement July 6, 2004

# ARTICLE 42 NOTICE OF CLAIM: WAIVER OF REMEDIES; NO DAMAGES FOR DELAY

- The Owner's liability to Construction Manager for any claims arising out of or related to the subject matter of this contract, whether in contract or tort, including but not limited to, claims for extension of construction time, for payment by the Owner of the costs, damages or losses because of changed conditions under which the work is to be performed, or for additional work, shall be governed by the following provisions:
  - .a All claims must be submitted as a Request for Change Order in the manner as provided herein;
  - b The Construction Manager must submit a Notice of Claim to Owner within 20 days of when the Construction Manager was or should have been aware of the occurrence of the event giving rise to the claim; and
  - .c Within 10 days of submitting its Notice of Claim, the Construction Manager shall submit to the Owner its Request for Change Order, which shall include a written statement of all details of the claim, including a description of the work affected.
  - .d The Construction Manager agrees that the Owner shall not be liable for any claim that the Construction Manager fails to submit as a Request for Change Order as provided in this Article.
- 42.02 After receipt of a Request for Change Order, the Owner, within a reasonable time, shall deliver to the Construction Manager its written determination of the claim.
- 42.03 The venue for all civil actions against the Owner shall be in Broward County, Florida.
- For work the Construction Manager performs with its own forces, and in addition to the adjustments provided for in Article 25, the Construction Manager's exclusive remedy for delays in performance of the construction caused by events beyond its control, including delays claimed to be caused by or attributable to the Owner or the Project Consultant, including claims based on breach of contract or negligence, shall be a claim submitted in compliance with 42.01 above, for an extension of the scheduled construction time. In the event of a change in such work, the Construction Manager's claim for adjustments in the contract sum are limited exclusively to its actual costs for such changes as set forth in Articles 25 and 27. The Construction Manager expressly agrees that the foregoing constitute its sole and exclusive remedies for delays and changes in such work, and eliminate any other remedies for claim for increase in the contract price, delays, changes in the work, damages, losses or additional compensation.
- In the event it shall be determined by a Court of competent jurisdiction that the preceding provision are inapplicable or unenforceable for any reason or cause, then the Construction Manager shall be entitled to the sum of \$200 per day for each day it is actually delayed by the action of or neglect of the Owner or Project Consultant or by changes in the Work, or by any other cause of delay which is attributable to the Owner or Construction Manager and beyond the Construction Manager's control, avoidance or mitigation and without the fault or negligence of the Construction Manager and/or Subcontractor or supplier at any tier. This provision contemplates anticipated and actual loss caused by any delay and the difficulty in proving the loss. The sum set forth above, on a per diem basis, is the total amount recoverable from the Board as full and final compensation for all delay damages, consequential damages, loss of profits and/or the like. Article 42.05 compensation, if triggered as set forth in Article 42.05 of the General Conditions to the Construction Manager Agreement, are in addition to any monies due pursuant to Article 25.01(2) of the General Conditions.

## ARTICLE 43. ROYALTIES AND PATENTS.

- 43.01 The Construction Manager shall pay all royalties and license fees.
- 43.02 The Construction Manager shall be responsible for all infringement of patent rights and shall assume the defense, including payment of attorney fees and costs, of any suit brought against Construction Manager and/or

General Conditions of the CM Agreement July 6, 2004

- Construction Manager hereby indemnifies and shall defend and hold harmless Owner and its representatives, respectively, from and against all claims, losses, costs, damages, and expenses, including attorney's fees, incurred by Owner and its representatives, respectively, as a result of or in connection with any claims or actions based upon infringement or alleged infringement of any patent, and arising out of the use of the equipment or materials provided under this Construction Contract by Construction Manager, or out of the process of actions employed by, or on behalf of Construction Manager in connection with the performances of this Construction Contract. Construction Manager shall, at its sole expense, promptly defend against any such claim or action unless directed otherwise by Owner or its representatives; provided that Owner or its representatives shall have notified Construction Manager upon becoming aware of such claims or actions, and provided further, that Construction Manager's aforementioned obligations shall not apply to equipment, materials, or processes furnished or specified by Owner or its representatives.
- Construction Manager shall have the right, in order to avoid such claims or actions, to substitute at its expense non-infringing equipment, materials, or processes, or to modify such infringing equipment, materials and processes so they become non-infringing, or obtain the necessary licenses to use the infringing equipment, materials or processes, provided that such substituted and modified equipment, materials and processes shall meet all the requirements and be subject to all the provisions of the Contract Documents.
- The indemnification pursuant to Florida Statute 725.06 and other Florida laws, etc., shall have a separate consideration of \$1.00, receipt of which is hereby acknowledged and incorporated into the project sum. This is incorporated by reference into the Bid Documentation and Specifications if any.

#### ARTICLE 44. RIGHT TO AUDIT PROVISIONS

- Construction Manager's records which shall include but not be limited to accounting records, payroll time sheets, cancelled payroll checks, W-2's, 1099's written policies and procedures, computer records, disks and software, videos, photographs, subcontract files (including proposals of successful and unsuccessful bidders), originals estimates, estimating worksheets, correspondence, change order files (including documentation covering negotiated settlements), and any other supporting evidence necessary to substantiate charges related to this contract (all the foregoing hereinafter referred to as "records") shall be open to inspection and subject to audit and/or reproduction, during normal working hours, by Owner's agent or its authorized representative to the extent necessary to adequately permit evaluation and verification of any invoices, payments or claims submitted by the Construction Manager or any of his payees pursuant to the execution of the contract. Such records subject to examination shall also include, but not be limited to, those records necessary to evaluate and verify direct and indirect costs (including overhead allocations) as they may apply to costs associated with this contract.
- For the purpose of such audits, inspections, examinations and evaluations, the Owner's agent or authorized representative shall have access to said records from the effective date of this contract, for the duration of the Work, and until 5 years after the date of final payment by Owner to Consultant pursuant to this contract.
- Owner's agent or its authorized representative shall have access to the Construction Manager's facilities, shall have access to all necessary records, and shall be provided adequate and appropriate work space, in order to conduct audits in compliance with this Article. Owner's agent or its authorized representative shall give auditees reasonable advance notice of intended audits.
- Construction Manager shall require all subcontractors, insurance agents, and material suppliers (payees) to comply with the provisions of this Article by insertion of the requirements hereof in any written contract agreement. Failure to obtain such written contracts which include such provisions shall be reason to exclude some or all of the related payees' costs from amounts payable to the Construction Manager pursuant to this contract.

General Conditions of the CM Agreement July 6, 2004 If an audit inspection or examination in accordance with this Article, discloses overcharged the Construction Manager to the Owner in excess of 2% percent of the total contract billings, the actual cost of the Owner's audit shall be paid by the Construction Manager. If the audit discloses contract billing or charges to which Construction Manager is not contractually entitled Construction Manager shall pay over to Owner said sum within 20 days of receipt of a written demand unless otherwise agreed to by both parties in writing.

#### ARTICLE 45. MISCELLANEOUS

- 45.01 Interest Any monies not paid when due to either party under this contract shall not bear interest except as may be required by Section, 218.74(4) Florida Statutes (1998) as amended.
- Harmony Construction Manager is advised and hereby agrees that he will exert every reasonable and diligent effort to assure that all labor employed by Construction Manager and his Subcontractors for work on the project shall work in harmony with and be compatible with all other labor being used by Construction Manager now or hereafter on the site of the project. Construction Manager further agrees that this provision will be included in all subcontracts of the Subcontractors as well as the Construction Manager's own contract; provided, however, that this provision shall not be interpreted or enforced so as to deny or abridge, on account of membership or non-membership in any labor union or labor organization, the right of any person to work as guaranteed by Article 1, Section 6 of the Florida Constitution.
- Apprentices If the Construction Manager employs apprentices on the project, the behavior of the Construction Manager and the Owner shall be governed by the provisions of Chapter 446, Florida Statutes, and by applicable standards and policies governing apprentice programs and agreements established by the Division of Labor of the State of Florida Department of Labor and Employment Security. The Construction Manager will include a provision similar to the foregoing sentence in each subcontract.
- 45.04 Invoices Invoices shall be submitted in detail sufficient for a proper preaudit and postaudit thereof. Invoices for any travel expenses shall be submitted in accordance with procedures specified in Section 112.061 of the Florida Statutes governing payments by the State for travel expenses.
- 45.05 Construction Manager's Project Records The Construction Manager's Project Records shall be maintained as prescribed herein above in accordance with the State of Florida General Records Schedule for State Agencies A-I and shall be made available to the Owner or his authorized representative at mutually convenient times.
- Public Entity Crime Information Statement AA person or affiliate who has been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to a public entity, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases of real property to a public entity, may not be awarded or perform work as a Construction Manager, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with any public entity in excess of the threshold amount provided in Section 287.017 of the Florida Statutes, for CATEGORY TWO for a period of 36 months from the date of being placed on the convicted vendor list.@
- 45.07 <u>Electronic Mail Capabilities</u> The Construction Manager must have electronic mail capabilities through the World Wide Web. It is the intention of the School Board of Broward County to use electronic communication for all projects whenever possible. The Construction Manager shall provide their electronic mail address and the name of a contact person responsible for their electronic communications.
- 45.08 Trench Safety Act The Construction Manager must comply with the provisions of the Trench Safety Act (Florida Statutes Section 553.63, 1998).

General Conditions of the CM Agreement July 6, 2004

# SECTION 01310 PROJECT MANAGEMENT AND COORDINATION

#### PART 1 GENERAL

#### 1.01 SECTION INCLUDES

- A. Coordination.
- B. Project Administrative Records.
- C. Preconstruction meeting.
- D. Site mobilization meeting.
- E. Progress meetings.
- F. Preinstallation meetings.

#### 1.02 SUBMITTALS

A. Submit names of staff members, including the Contractor's Project Manager, Superintendent and Superintendent's assistants and other key personnel prior to the Preconstruction Conference. Provide staff names, position assignments, lists of duties and limits of authority, addresses, telephone and Fax numbers, and E-Mail addresses for internet mail services.

#### 1.03 COORDINATION

- A. Coordinate scheduling, submittals, and Work of the various sections of the Project Manual to assure efficient and orderly sequence of installation of interdependent construction elements.
- B. Verify utility requirements and characteristics of operating equipment are compatible with building utilities. Coordinate work of various sections having interdependent responsibilities for installing, connecting to, and placing in service, such equipment.
- C. Prepare coordination drawings where work by separate entities requires fabrication off-site of products and materials which must accurately interface. Coordination drawings shall indicate how work shown by separate shop drawings will interface and shall indicate sequence for installation. Comply with related requirements in Section 01330, Submittal Procedures.
- D. Coordinate space requirements and installation of mechanical and electrical work which are indicated diagrammatically on Drawings. Follow routing shown for pipes, ducts, and conduit, as closely as practicable; place runs parallel with line of building. Utilize spaces efficiently to maximize accessibility for other installations, for maintenance, and for repairs.

Project Management and Coordination October 1, 1996

Section 01310 Page 1 of 10

- E. In finished areas, conceal pipes, ducts, and wiring within the construction Coordinate locations of fixtures and outlets with finish elements.
- F. Coordinate completion and clean up of Work of separate sections in preparation for Substantial Completion and for portions of Work designated for Owner's partial occupancy.
- G. After Owner occupancy of premises, coordinate access to site for correction of defective Work and Work not in accordance with Contract Documents, to minimize disruption of Owner's activities.

# 1.04 PROJECT ADMINISTRATIVE RECORDS

- A. The Contractor shall maintain administrative records at the project site, unless agreed to otherwise by the Owner, on a current basis. Files will typically include, but not be limited to:
  - Construction Schedule 1.
  - 2. Schedule of Values
  - Contracts or Purchase Orders 3.
  - Project Submittals with Submittal/Approval Logs
  - Equipment Purchase/Delivery Logs 5.
  - The Contract Documents (Drawings, Specifications, Project Manual, Addenda, Change Orders, Supplementary Instructions, etc.)
  - Warranties and Guarantees
  - Cost Accounting Records: 8.
    - a. Labor Costs
    - b. Material Costs
  - Change Order Related Documentation
    - a. OEF Form 425: Change Order
    - Proposal Request b. Document 01250a:
    - c. Document 01250b: Change Order Request (Proposal)
    - d. Document 01250b:
- Proposal Worksheet Detail Proposal Worksheet Summary
- e. Document 01250d:
- f. Document 01250e: Construction Change Directive
- g. Document 01250f: Project Consultant's Supplemental Instructions h. Supporting documentation for the forms listed above.
- 10. Payment Request Records

11. Meeting Minutes

**Project Management and Coordination** October 1, 1996

Section 01310 Page 2 of 10

- 12. Cost Estimates
- 13. Bulletin Quotations
- 14. Laboratory and Testing Agency Test Reports
- 15. Insurance Certificates and Bonds
- 16. Purchase Orders
- 17. Material Purchase/Delivery Logs
- 18. Technical Standards
- 19. Design Handbooks
- 20. Project Record Documents
- 21. Operating and Maintenance Manuals & Instructions
- 22. Daily Progress and Manpower Reports
- 23. Monthly Progress Reports
- 24. Correspondence Files
- 25. Transmittal Records
- 26. Inspection Reports
- 27. Bid/Award Information
- 28. Punch Lists
- 29. Safety Program and OSHA Documentation
- 30. Material Safety Data Sheets (MSDS)
- 31. Journeymen Supervision Logs
- 32. Subcontractor Lists and licensure documentation.
- 33. Broward County and Municipal permits, authorizations, inspection reports and other project specific documentation.
- 34. M/WBE utilization and compliance documentation.
- 35. Other Administrative Documentation as required by the Contract Documents.

Project Management and Coordination October 1, 1996

Section 01310 Page 3 of 10

# 1.05 MEETING ADMINISTRATION

- A. The Contractor shall schedule and administer periodic progress meetings, preinstallation meetings and other meetings and conferences as specified within the Contract Documents. For these meetings the Contractor shall:
  - 1. Prepare agenda.
  - 2. Prepare and distribute written notice of each meeting four (4) days in advance of the meeting date.
  - 3. Make physical arrangements and accommodation of the meetings.
  - 4. Preside at meetings.
  - 5. For those meetings not attended by the Project Consultant:
    - a) Record the minutes of the meeting including all significant proceedings and decisions.
    - b) Reproduce and distribute copies of minutes within three (3) days after each meeting ensuring that copies are distributed to:
      - 1) All participants in the Meeting.
      - 2) To all parties affected by decisions made at the meeting.
      - 3) The Project Consultant and the Owner.
  - 6. For those meetings attended by the Project Consultant: The Project Consultant will record the minutes of the meeting including all significant proceedings and decisions and distribute copies of the minutes to the parties described above.
- B. The Owner and Project Consultant may schedule and administer meetings and conferences as specified within the Contract Documents or as required by the progression of the Work.
  - 1) The administration of these meetings will be by the Project Consultant unless otherwise specified or determined prior to the meeting.
  - 2) Organization, conduct and recording of such meetings shall be by the Project Consultant and similar to that required of the Contractor's meetings.
- C. Representatives of the Contractor, subcontractors and suppliers attending meetings shall be qualified and authorized to act on behalf of the entity each represents.

## 1.06 PRECONSTRUCTION MEETING

A. Owner will schedule and administer the meeting which will take place at the Facilitie and Construction Management Department after issue of Document 00550, Notice to Proceed to the Contractor.

Project Management and Coordination October 1, 1996 Section 01310 Page 4 of 10

EARIBII U

#### B. Attendance Required:

SBBC Project Number: 0561-94-02

- 1. Owner.
- 2. Project Consultant and Subconsultants.
- 3. Contractor's Superintendent and other representatives.
- 4. Major Subcontractors and Subcontractors providing critical assemblies, components, systems or equipment.
- 5. Major Suppliers and suppliers supplying critical assemblies, components, systems or equipment.
- 6. Owner's Test & Balance consultants and/or Building Commissioning Authority.
- 7. Others as desired by the Owner, Contractor or Project Consultant.

#### C. Agenda:

- 1. Project Team Members:
  - a. Introduction of Project Team Members.
  - b. Designation of responsible personnel.
  - c. Lines of Communication
  - d. Relationship of school or facility-based personnel and other Departments within the School District to the Project Team.
- 2. Distribution and discussion of:
  - a. List of Major subcontractors and suppliers.
  - b. The Construction Schedule
- 3. Critical Work sequencing
- 4. Major equipment deliveries and priorities.
- 5. Procedures and processing of:
  - a. Field decisions and Supplementary Instructions.
  - b. Change Orders.
  - c. Submittals.
  - d. Applications for Payment
  - e. Daily Reports, Monthly Reports and Logs.
  - f. Workforce Composition Requirements
  - g. M/WBE Program Requirements
  - h. Equipment start-up and testing.

Project Management and Coordination October 1, 1996

Section 01310 Page 5 of 10

# **EXHIBIT** D

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

- i. Inspection and acceptance of equipment put into service during construction period.
- j. Building Commissioning programs as applicable.
- k. Partnering Process as applicable.
- 6. Additional sets of Contract Documents required.
- 7. Project Record Documents.
- 8. Use of Premises:
  - a. Office, work, storage and parking areas.
  - b. Owner's requirements.
- 9. Construction facilities, controls and construction aids.
- 10. Temporary Utilities.
- 11. Safety and first aid procedures.
- 12. Security procedures.
- 13. Housekeeping procedures.
- D. Project Consultant will record minutes and distribute copies.

# 1.07 SITE MOBILIZATION MEETING

- A. Project Consultant will schedule a meeting at the Project site prior to Contractor occupancy.
- B. Attendance Required:
  - 1. Owner.
  - 2. Project Consultant and Subconsultants.
  - 3. Contractor's Superintendent and other representatives.
  - 4. Major Subcontractors and Subcontractors providing critical assemblies, components, systems or equipment.
  - 5. Major Suppliers and suppliers supplying critical assemblies, components, systems or equipment.
  - 6. Owner's Test & Balance consultants and/or Building Commissioning Authority.
  - 7. Others as desired by the Owner, Contractor or Project Consultant.

Project Management and Coordination October 1, 1996

Section 01310 Page 6 of 10

#### C. Agenda:

- 1. Procedures and requirements for:
  - a. Use of premises by Owner and Contractor.
  - b. Owner's requirements and occupancy including limitations on work periods, contractor access to Owner occupied spaces and other restrictions.
  - c. Construction facilities and controls including location of temporary buildings, signage, fencing, barriers and barricades.
  - d. Temporary utilities.
  - e. Access to the site including traffic control, access roads, parking restrictions, environmental controls and security.
  - f. Identification of benchmarks and datum, including survey and layout of the Work.
  - g. Work in right-of-way areas and those areas outside the Owner's property line.
  - h. Separation of work areas, barriers and dust control.
  - Relationship of neighboring properties including noise and dust abatement/control, pest control and other environmental measures.
  - j. Security and housekeeping procedures.
  - k. Protection of existing property and facilities.
  - l. Schedules.
  - m. Procedures for testing.
  - n. Procedures for maintaining record documents.
- 2) Other administrative requirements: Continuation or follow-up of Preconstruction Meeting topics.
- D. Project Consultant will record minutes and distribute copies.

#### 1.08 PROGRESS MEETINGS

- A. Schedule and administer meetings throughout progress of the Work at maximum monthly intervals.
- B. Make arrangements for meetings, prepare agenda with copies for participants, preside at meetings.
- C. Attendance Required: Contractor's Superintendent, major Subcontractors and suppliers, Owner, Project Consultant and others as appropriate to agenda topics for each meeting.
- D. Location: Contractor's Site Office.
- E. Suggested Agenda:
  - 1. Review minutes of previous meetings.
  - 2. Review of Work progress.

Project Management and Coordination October 1, 1996

Section 01310 Page 7 of 10

EXHIBIT D

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

- 3. Field observations, problems, and decisions.
- 4. Identification of problems which impede planned progress.
- 5. Review of construction schedule, schedule of values and applications for payment.
- 6. Review proposed changes:
  - Effect on construction schedule and on completion date.
  - b. Effect on other Contracts or activities related to Project.
- 7. Review of submittals schedule and status of submittals.
- 8. Review of off-site fabrication and delivery schedules.
- 9. Maintenance of progress schedule.
- 10. Corrective measures to regain projected schedules.
- 11. Planned progress during succeeding work period.
- 12. Coordination of projected progress.
- 13. Maintenance of quality and work standards.
- 12. Other business relating to Work.
- F. Project Consultant will record minutes and distribute copies.

# 1.09 PREINSTALLATION MEETING

- A. When required in individual specification sections, convene a preinstallation meeting at work site prior to commencing work of the section.
- B. Attendance:
  - 1. Parties directly affecting, or affected by, work of the specific section.
  - 2. Project Consultant
  - 3. Notify and request Owner representation.
- C. Notify Project Consultant and Owner four days in advance of meeting date.
- D. Prepare agenda and preside at meeting:
  - 1. Review conditions of installation, preparation and installation procedures.
  - Review coordination with related work.

Project Management and Coordination October 1, 1996 Section 01310 Page 8 of 10

#### F. Agenda:

- 1. Review the progress of other construction activities and preparations for the particular activity under consideration at each pre-installation conference, including requirements for:
  - a. Contract Documents.
  - b. Options.
  - c. Related Change Orders.
  - d. Purchases
  - e. Deliveries.
  - f. Shop Drawings, Product Data and quality control Samples.
  - g. Possible conflicts.
  - h. Compatibility problems.
  - i. Time schedules.
  - j. Weather limitations.
  - k. Manufacturer's recommendations.
  - 1. Compatibility of materials.
  - m. Acceptability of substrates.
  - n. Temporary facilities.
  - o. Space and access limitations.
  - p. Governing regulations.
  - q. Safety.
  - r. Inspection and testing requirements.
  - s. Required performance results.
  - t. Recording requirements.
  - u. Protection.
- G. Project Consultant will record minutes and distribute copies.

# 1.10 REQUESTS FOR INTERPRETATION (RFI)

- A. The Contractor may submit **Document 01310a**, **Contractor's Request for Interpretation**, when the Contractor has questions or requires clarifications concerning aspects of the Work not reasonably inferable from the Contract Documents.
  - 1. Maintain a log of submitted RFI (s)
  - 2. Limit submittal of RFI (s) to questions or clarifications that are not reasonably inferable from the Contract Documents.
- B. Upon receipt, the Project Consultant:
  - 1. Endeavor to respond to submitted RFI (s) within a reasonable time frame and will attempt to limit the response time to 14 days or less.

Project Management and Coordination October 1, 1996

Section 01310 Page 9 of 10

**EXHIBIT** D

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

- 2. Will return RFI (s) that are obvious or otherwise easily inferable from the Contrac Documents to the Contractor without a detailed response.
- 3. Will notify the Owner and Contractor of those RFI(s) which require either an extended response time or the initiation of the contract modification process specified elsewhere in the Contract Documents.
- 4. Will issue Document 01250F, Project Consultant's Supplementary Instructions as necessary and appropriate to implement changes resulting from RFI (s) that do not affect Contract Sum or Contract Time.
- 5. Will, after coordination and approval by the Owner, issue Document 01250A, Proposal Request, when necessary and appropriate to implement changes resulting from RFI(s) that affect the Contract Sum or Contract Time.

## Not Used ##

END OF SECTION

Project Management and Coordination October 1, 1996 Section 01310 Page 10 of 10

# SECTION 01320 CONSTRUCTION PROGRESS DOCUMENTATION

#### PART 1 GENERAL

`;

#### 1.01 SECTION INCLUDES

- A. Construction Schedule
- B. Contract Progress Reporting
- C. Construction Photographs
- D. Construction Aerial Photographs

#### 1.02 RELATED SECTIONS

- A. Document 00200: Instructions to Bidders: Post-Award Submittals
- B. Section 01110: Summary of Work: Work sequence, Owner Occupancy.
- C. Section 01290: Payment Procedures: Application for payment and schedule of values.
- D. Section 01310: Project Management and Coordination: Progress Meetings
- E. Section 01330: Submittal Procedures: Shop drawings, product data, samples and other submittals.

#### 1.03 INITIAL CONSTRUCTION SCHEDULE

#### A. Format

- 1. Prepare initial schedule as a horizontal bar chart with separate bar for each major portion of Work or operation, identifying first work day of each week and subsequent major milestones as specified below.
- 2. Sequence of Listings: The chronological order of the start of each item of Work.
- 3. Scale and Spacing: To provide space for notations and revisions.
- 4. Sheet Size: Multiples of 8-1/2 x 11 inches

#### B. Content

1. Show complete sequence of construction by activity, with dates for beginning and completion of each element of construction.

Construction Progress Documentation October 1, 1996

Section 01320 Page 1 of 16

- 2. Dates of Substantial Completion for the Work or its defined stages: Conform to the dates established in the Contract Documents.
- 3. Identify each item by the appropriate assembly designation as established by the Contract Documents and as outlined in the "CSI/CSC Uniformat Uniform classification of Construction Systems and Assemblies" 1992 or later edition as published by the Construction Specifications Institute.
- 4. Identify work of separate stages, phases, buildings, floor levels and other logically grouped activities and major project milestones based on the following list and others derived by the Contractor from the Contract Documents. The following list provides a summary inventory of items which must be further developed with subschedules and milestones by the Contractor to illustrate the actual sequence of construction of the Work.

(NOTE: The following schedule will be modified by the Project Consultant and Owner on a project specific basis.)

- 5. Provide sub-schedules for each stage of Work identified in Section 01110 or elsewhere in the Contract Documents.
- 6. Provide sub-schedules to define critical portions of the entire schedule.

Construction Progress Documentation October 1, 1996 Section 01320 Page 4 of 16

SBBC Project Number: 0561-94-02

7. Show accumulated percentage of completion of each item, and total percentage of Work completed, as of the first day of each month.

- 8. Provide separate schedule of submittal dates for shop drawings, product data, and samples, including Owner furnished products, and dates reviewed submittals will be required from Project Consultant. As applicable, indicate decision dates for selection of finishes. Refer to related requirements in Section 01330, Submittal Procedures.
- 9. Indicate projected delivery dates for Owner furnished products.
- 10. Coordinate content with schedule of values specified in Section 01290 and as presented by the Contractor on Document 00435, Schedule of Values.

#### C. Schedule Submittals

- 1. Submit initial schedules as Post Award Information as required in Document 00200, Instructions to Bidders. After review, resubmit required revised data within ten days.
- 2. Submit revised Progress Schedules as specified below with each Application for Payment.
- 3. Submit the number of opaque reproductions which Contractor requires, plus three copies which will be retained by the Project Consultant and Owner.

#### D. Distribution of Schedule:

- 1. Distribute copies of reviewed schedules to Project site file, Subcontractors, suppliers, and other concerned parties.
- 2. Instruct recipients to promptly report, in writing, problems anticipated by projections indicated in schedules.

#### 1.04 CONSTRUCTION SCHEDULES

#### A. Quality Assurance:

1. Scheduler: Provide a scheduling specialist (from either the Contractor's own staff or as a consultant to the Contractor) specializing in CPM with experience in scheduling construction work of a complexity comparable to this Project, and having use of computer facilities capable of delivering a detailed printout within 72 hours of request.

#### B. Format

1. Listings: Reading from left to right, in ascending order for each activity. Identify each activity with the applicable identification number.

Construction Progress Documentation October 1, 1996 Section 01320 Page 5 of 16

EXHIBIT

2. Diagram Sheet Size: 30 inches high x width required.

3. Scale and Spacing: To allow for notations and revisions.

#### C. Schedules

- 1. Prepare network analysis diagrams and supporting mathematical analyses based upon information provided by Contractor using "Primavera Project Planner" by Primavera Systems, Inc..
- 2. Illustrate order and interdependence of activities and sequence of work; how start of a given activity depends on completion of preceding activities, and how completion of the activity may restrain start of subsequent activities.
- 3. Illustrate complete sequence of construction by activity, identifying work within each major building area, wing, site area, project phase or other uniform breakdown of the Work.
  - a. Provide dates for submittals and return of submittals; dates for procurement and delivery of critical products; and dates for installation and provisions for testing.
  - b. Provide legend for symbols and abbreviations used.
  - c. Provide between 500 and 2500 detail tasks in precedence format.
  - d. Allow no single activity to exceed, in days, ten percent of the total project duration.
- 4. Mathematical Analysis: Tabulate each activity of detailed network diagrams, using calendar dates, and identifying for each activity:
  - a. Activity identification number.
  - b. Preceding and following event numbers.
  - c. Activity description.
  - d. Estimated duration of activity.
  - e. Earliest start date.
  - f. Earliest finish date.
  - g. Actual start date.
  - h. Actual finish date.
  - i. Latest start date.
  - j. Latest finish date.
  - 1. Total and free float;-float time shall accrue to Owner and to Owner's benefit.
  - m. Percentage of activity completed.
  - n. Responsibility.
- 5. Analysis Program: Capable of accepting revised completion dates and recomputation of all dates and float.

Construction Progress Documentation October 1, 1996 Section 01320 Page 6 of 16

- 6. Required Sorts: List activities in sorts or groups:
  - a. By work item or event number from lowest to highest.
  - b. By amount of float, then in order of early start.
  - c. By responsibility in order of earliest possible start date.
  - d. In order of latest allowable start dates.
  - e. In order of latest allowable finish dates.
  - f. Listing of basic input data which generates the report.
  - g. Listing of activities on the critical path.
  - h. Coordinate contents with Schedule of Values in Section 01290.

#### D. Submittals:

- 1. Submit first Construction Schedule for review after the approval of the Initial Schedule specified above and not later than five (5) days prior to the Contractor's first application for payment.
  - a. Schedule: Comprised of a complete network analysis consisting of network diagrams and mathematical analysis.
  - b. Include written certification that mechanical, electrical and other major Subcontractors have reviewed and accepted proposed schedule.
- 2. Submit updated network schedule with each Application for Payment accurately depicting progress to date of application; and whenever major schedule elements fall two (2) weeks behind original schedule. Monthly schedule submittals shall include:
  - a. Monthly Bar Chart Update:
    - 1. A bar chart comparing current progress to the most recently approved target schedule.
    - 2. Sort the chart by area, Early Start Date, and show the activity identification description, Remaining Duration Total Float, and percentage complete.
    - 3. Submit on 8-1/2 inch by 11 inch paper.

#### b. Task Summary Report:

1. A summary bar chart showing current and target schedule. A tabular portion of the bar chart shall show the early start dates, early finish dates, remaining duration and percentage complete.

Construction Progress Documentation October 1, 1996

Section 01320 Page 7 of 16

#### c. Tabular Reports:

- 1. Schedule Report: List the current status of all activities, sorted by activity number from lowest to highest by area, phase or other breakdown.
- 2. Total Float Report: List all uncompleted activities sorted by total float, then by early start date.
- d. Updated S-Curves: Update S-Curves in graphic and tabular format showing costs of all items which total to the total dollar sum of the Work and estimated cash draw downs by month and cumulatively over the life of the Project. See related requirements for graphs as required by Document 00700, General Conditions, Article 9 and Section 01290, Payment Procedures. Include one Scurve representing the approved baseline schedule and, along side it, the curve representing the actual value of the Work completed to date, plus the Contractor's projected expenditure curve for the remainder of the Project.
- 3. Submit complete schedule and updates on 3-1/2 inch computer diskettes accompanied by three (3) opaque reproductions.
  - a. Comply with electronic media requirements specified for Section 01780, Closeout Submittals.
  - b. Ensure submittal of complete information and media.
- 4. Submit under provisions specified in Section 01330, Submittal Procedures.

#### E. Review And Evaluation:

- 1. Project Consultant and Owner will review network diagrams and analysis and provide comments thereon.
- 2. Participate in joint review and evaluation of network diagrams and analysis with Project Consultant at each submittal if requested by Project Consultant.
- 3. Evaluate project status to determine work behind schedule and work ahead of schedule.
- 4. After review, revise as necessary as result of review, and resubmit within five (5) days.

# F. Updating Schedules:

- 1. Maintain schedules to record actual start and finish dates of completed activities.
- 2. Indicate progress of each activity to date of revision, with projected completion date of each activity. Update diagrams to graphically depict current status of Work

Construction Progress Documentation October 1, 1996

Section 01320 Page 8 of 16

EVUIDIIE

- 3. Identify activities modified since previous submittal, major changes in Work, and other identifiable changes.
- 4. Indicate changes required to maintain Dates of Substantial and Final Completion
- 5. Submit sorts required to support recommended changes.
- 6. Provide narrative report to define problem areas, anticipated delays, and impact on Schedule. Report corrective action taken, or proposed, and its effect.

#### G. Distribution of Schedule:

- 1. Distribute copies of reviewed schedules to project site file, Subcontractors, suppliers, and other concerned parties.
- 2. Instruct recipients to promptly report, in writing, problems anticipated by projections indicated in schedules.
- 3. Provide narrative report to define problem areas, anticipated delays, and impact on Schedule. Report corrective action taken, or proposed, and its effect including the effect of changes on schedules of separate contractors or the Owner's forces.

#### 1.05 CONSTRUCTION PROGRESS REPORTING

#### A. Contractor's Daily Log

- 1. Maintain a daily log of project activity including, but not limited to:
  - a. Hours on the project site.
  - b. Weather conditions (including a summary of changing conditions through the day).
  - c. Daily construction activity.
  - d. Number of workers in each trade on site (and the duration of their stay).
  - e. Number of journeymen and certified journeymen on site for each trade.
  - f. General observations.
  - g. Written and verbal directives to the Contractor.
  - h. Visits of governmental officials.
  - i. Visits by the Project Consultant or his Subconsultants.
  - j. Visits by the Owner.
  - k. Inspections by UBCI (or other jurisdictional authority for work in right-of-ways or outside the Owner's property line.
- 2. Make log immediately available on site to the Project Consultant, Owner, UBCI Inspectors and other jurisdictional authorities.

#### B. Contractor's Weekly Progress Report

1. Summarize Daily Log on Document 01320a: Weekly Progress Report. Include reports from subcontractors.

Construction Progress Documentation October 1, 1996

Section 01320 Page 9 of 16

## 2. Weekly Report Submittals:

- a. Deliver five (5) copies of Document 01320a: Weekly Progress Report to the Project Consultant at the end of each week.
- b. Attach a copy of the Contractor's daily log to each copy of Document 01320a: Weekly Progress Report submitted.
- 3. Submit under provisions of Section 01330.
- 4. Submit copies of Document 01320a, Weekly Progress Reports for the respective payment period with copies of Contractor's Daily Log not yet submitted under provisions of Section 01290, Payment Procedures.

# C. Special Reports:

- 1. Reporting Unusual Events: When an event of an unusual and significant nature occurs at the site, prepare and submit a special report.
  - a. List chain of events, persons participating, response by the Contractor's personnel, an evaluation of the results or effects and similar pertinent information.
  - b. Advise the Owner and Project Consultant in advance when such events are known or predictable.
- 2. Submit special reports to the Project Consultant and the Owner within one day of an occurrence. Submit copies of the report to other entities that are affected by the occurrence.
- 3. Reporting Accidents: Prepare and submit reports of significant accidents on the project site or anywhere else the Work is in progress.
  - a. Record and document data and actions. For this purpose, a significant accident is defined to include events where personal injury is sustained, or property loss of substance is sustained, or where the event posed a significant threat of loss or personal injury.

# 1.06 CONSULTANT"S OBSERVATIONS

- A. The Consultant will make weekly visits to the Work and make observations of the progress of the Work as required elsewhere in the Contract Documents:
- B. The Consultant (and Subconsultants through the Consultant) will:
  - 1. Prepare and distribute Document 01320b, Periodic Observation Report to the Contractor, Owner and other concerned parties after each visit to the Site.

Construction Progress Documentation October 1, 1996

Section 01320 Page 10 of 16

- 2. Prepare and distribute Document 01320c, Non-Conforming Work Notice, to the Contractor, Owner and other concerned parties when deficient or otherwise non-conforming Work is discovered during visits to the Work.
- 3. Take appropriate follow-up actions as required by the Contract Documents to facilitate the continuing progress of the Work and its conformance to the requirements of the Contract Documents.

#### 1.07 CONSTRUCTION PHOTOGRAPHS

- A. Provide photographs of site and construction throughout progress of Work.
- B. Employ professional commercial photographer acceptable to the Project Consultant, to take construction record photographs periodically during the course of work. Photographer shall be a firm or individual of established reputation who has been regularly engaged as a professional photographer for not less than two years. Provide two references for which the photographer has performed work of similar nature during the preceding twelve (12) months.
- C. Release of Photographs: Photographs shall not be released to parties other than the Owner and Project Consultant without the Owner's permission.
- D. Take photographs 3 days prior to each application for a payment, and as follows:
  - 1. Existing site and facility (both interior and exterior) conditions prior to the start of the Contractor's activities.
  - 2. Site clearing.
  - Excavations.
  - 4. Foundations.
  - 5. Structural framing.
  - 6. Enclosure of building.
  - 7. Final completion.
  - 8. As necessary to supplement Contractor's Daily or Monthly Reports.
  - 9. As necessary to document Change Proposals and/or facilitate other communications regarding the Work.

Construction Progress Documentation October 1, 1996

Section 01320 Page 11 of 16

#### E. Quantities Required:

1. Photograph the Work from different views to show degree of completion of progress as well as unusual or special construction procedures. Submit minimum of thirty-six (36) photographs showing different views, 3 copies of each view, for each application for payment.

#### F. Prints:

- 1. Full color.
- 2. Paper Surface (Color): Smooth, glossy.
- 3. Contrast (Color): High.
- 4. Size: 8 x 10 inch (200 x 250 mm); mounted for binder and tabs.
- 5. Identify each print on reverse side. Identify:
  - a. Project Name.
  - b. Project number
  - c. Applicable phase
  - d. Orientation of view
  - e. Date and time of view
  - f. Name and address of photographer
  - g. Photographer's numbered identification of exposure.

# G. Negatives:

1. The photographer shall retain the original negatives for a minimum of ten (10) years after date of substantial completion. After the ten (10) year period, if the photographer (or his heirs, successors or assigns) has any intention of disposing of the negatives, he shall first notify the Owner or the Project Consultant. The Owner may elect to assume responsibility for storage and accessibility of the negatives. If the Owner does not want to assume this responsibility he may designate an alternate such as the Project Consultant to accomplish the task of insuring protection, storage and availability of the negatives. In this situation, the photographer will present the negatives along with proper storage containers and table of contents to the appropriate authority.

#### H. Technique

- 1. Provide factual presentation.
- 2. Provide correct exposure and focus, high resolution and sharpness, maximum depth of field, and minimum distortion.

Construction Progress Documentation October 1, 1996 Section 01320 Page 12 of 16 Facilities and Construction Management Division
Norcrest Elementary School – Phased Replacement
SBBC Project Number: 0561-94-02

- I. Photography Submittals
  - 1. Deliver prints with each Application for Payment with transmittal letter specified under Section 01330.
  - 2. Deliver prints not required for an Application for Payment three (3) days after exposure with transmittal letter specified under Section 01330.

#### 1.08 CONSTRUCTION AERIAL PHOTOGRAPHS

- A. Provide aerial photographs of the site taken on or about the cutoff date for each scheduled Application For Payment or as otherwise required by the Owner.
- B. Employ professional commercial aerial photographer acceptable to the Project Consultant, to take construction record photographs periodically during the course of work. Photographer shall be a firm or individual of established reputation who has been regularly engaged as a professional aerial photographer for not less than two years. Provide two references for which the aerial photographer has performed work of similar nature during the preceding twelve (12) months.
- C. Release of Photographs: Photographs shall not be released to parties other than the Owner and Project Consultant without the Owner's permission.
- D. Provide aerial photograph with each monthly application for payment and as follows:
  - 1. Existing site prior to the start of Contractor operations.
  - 2. Site clearing
  - 3. Excavations
  - 4. Foundations
  - 5. Utilities
  - 6. Structural framing
  - 7. Enclosure of building
  - 8. Landscaping
  - 9. Substantial and Final Completion of a major phase or component of work.

Construction Progress Documentation October 1, 1996

Section 01320 Page 13 of 16

#### E. Negatives:

- 1. The aerial photographer shall retain the original negatives for a minimum of five (5) years after date of substantial completion. After the five (5) year period, if the aerial photographer (or his heirs, successors or assigns) has any intention of disposing of the negatives, he shall first notify the Owner or the Project Consultant. The Owner may elect to assume responsibility for storage and accessibility of the negatives. If the Owner does not want to assume this responsibility he may designate an alternate such as the Project Consultant to accomplish the task of insuring protection, storage and availability of the negatives. In this situation, the photographer will present the negatives along with proper storage containers and table of contents to the appropriate authority.
- 2. Color Negative film is to be exposed by the photographer to produce resolution and grain structure as follows:

a. Resolution: 1.6:1 - 50 lines per mm 1000:1- 100 lines per mm

b. Grain: Diffuse RMS Granularity Value Of 5

c. Color negative film shall be medium format (120 Film Size) or large format (4 x 5 inch). Do not use small formats, such as 35mm film. A list of equipment capable of producing this image will be submitted upon request. Project Consultant may request a viewing of original negatives to insure format size.

# F. Costs of aerial photographer:

- 1. Pay costs for specified photography and prints.
- 2. Parties requiring additional photography or prints authorized by the Owner will pay photographer directly.
- 3. Additional Photo Missions/Views/Prints: From time to time the Owner or Project Consultant may issue requests for additional photo missions/views/prints, in addition to periodic photo missions/views/prints specified. Additional requirements will be paid to the Photographer directly by the Owner or Project Consultant.
  - a. The Project Consultant will give the photographer 3 working days notice where feasible.
  - b. In emergency situations, the photographer shall take additional photographs within 24 hours of the Project Consultant's request.

Construction Progress Documentation October 1, 1996 Section 01320 Page 14 of 16

4. Additional Prints, when requested by the Project Consultant and approved by the Owner, shall be provided at prevailing local commercial prices to designated parties. The designated parties, in each case, shall pay the photographer directly for such prints.

#### G. Prints

- 1. Provide five (5) full color prints of each view.
- 2. Paper: Single Weight, Commercial Grade. Finish shall be: Glossy.
- 3. Size:  $8" \times 10"$  mounted in  $8 \cdot 1/2" \times 11"$ , top loading, heavy duty mylar sheet protectors.
- 4. Identify each print on reverse listing:
  - a. Name of Project
  - b. Project Number.
  - c. Orientation of view
  - d. Date and Time of Exposure
  - e. Name and Phone Number of Photographer
  - f. Photographer's numbered identification of exposure.
  - g. Contractor's Name

#### H. Technique:

- 1. Provide factual presentation
- 2. Photographs shall be taken during good weather conditions with adequate lighting. Photographs with cloud shadows on the primary target shall not be acceptable.
- 3. Provide correct exposure of film using shutter speed appropriate to the task of stopping action and lens aperture setting to eliminate soft focus at the edges of negatives. Maximum depth of field and critical focus is required to produce images with high resolution and contrast to show maximum detail with minimum grain. A lens corresponding to the film format which will control optical distortion shall be used.
- 4. Aerial Views and Quantities Required:
  - a. Photograph the work from a minimum of three (3) different directions (views) as approved by the Project Consultant with vantage points to best show the entire site and detailed close-ups, status of construction and progress since taking the previous photographs. Unless requested otherwise, take all monthly photographs from the same direction and altitude.

Construction Progress Documentation October 1, 1996

Section 01320 Page 15 of 16

**EXHIBIT E** 

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

b. The altitude and angle of view selected by the aerial photographer will be such that the image captured will include and emphasize the entire site while eliminating, as much as possible, excessive amounts of foreground, background and especially horizon and sky.

# I. Photography Submittals:

- 1. Deliver five (5) prints of each view with each Application for Payment with transmittal letter specified under Section 01330.
- 2. Deliver prints not required for an Application for Payment three (3) days after exposure with transmittal letter specified under Section 01330.

# SECTION 01520 CONSTRUCTION FACILITIES

#### PART 1 GENERAL

#### 1.01 SECTION INCLUDES

- A. Field Offices and Sheds
- B. First Aid
- C. Sanitary Facilities

#### 1.02 RELATED DOCUMENTS

A. Section 01510: Temporary Utilities

## 1.03 QUALITY ASSURANCE

- A. Regulations: Comply with industry standards and applicable laws and regulations if authorities having jurisdiction, including but not limited to:
  - 1. State Requirements for Educational Facilities, 1994 (SREF) requirements.
  - 2. Health and safety regulations.
  - 3. Police, Fire Department and Rescue Squad requirements.
  - 4. Environmental protection regulations.
- B. Refer to "Guidelines for Bid Conditions for Temporary Job Utilities and Services", prepared jointly by AGC and ASC, for industry recommendations.
- C. Inspections: Arrange for inspection and testing of temporary facilities by UBCI and other authorities having jurisdiction under provisions of Section 014450, Quality Control.

#### 1.04 CONDITIONS OF USE

- A. Keep temporary services and facilities clean and neat in appearance.
- B. Operate in a safe and efficient manner.
- C. Take necessary fire prevention measures.
- D. Do not overload facilities, or permit them to interfere with progress.

Construction Facilities
October 1, 1996 (R1 12/5/00 DH)

Section 01520 Page 1 of 7

E. Do not allow hazardous dangerous or unsanitary conditions, or public nuisances t develop or persist on the site.

## 1.05 USE OF FACILITIES

A. Permanent and/or existing facilities: Do not use for field offices or for storage.

#### PART 2 PRODUCTS

## 2.01 TEMPORARY BUILDINGS

#### A. Construction:

- 1. Portable or mobile buildings, or buildings constructed with floors raised above ground, securely fixed to foundations, with steps and landings at entrance doors.
- 2. Construction: Structurally sound, secure, weathertight enclosures for office and storage spaces. Maintain during progress of Work; remove at completion of Work.
- 3. Temperature Transmission Resistance of Floors, Walls, and Ceilings: Compatible with occupancy and storage requirements.
- 4. Exterior Materials: Weather resistant, finished in one color acceptable to Owner.
- 5. Interior Materials in Offices: Sheet type materials for walls and ceilings, pre finished or painted; resilient floors and bases.
- 6. Lighting for Offices: 50 ft-C (538 lx) at desk-top height, exterior lighting at entrance doors.
- 7. Fire Extinguishers: Appropriate type fire extinguisher at each office and each storage area as specified below.
- 8. Interior Materials in Storage Sheds: As required to provide specified conditions for storage of products.
- 9. Provide incombustible construction for offices, shops and sheds located within the construction area, or within 30 feet of building lines. Comply with requirements of NFPA 241.
- 10. Security Enclosure and Lockup: Provide locking entrances to prevent unauthorized entrance, vandalism, theft and similar violations of security.

#### B. Environmental Control:

1. Heating, Cooling, and Ventilating for Offices: Automatic equipment to maintain 68 degrees F (20 degrees C) heating and 76 degrees F (23 degrees C) cooling.

Construction Facilities October 1, 1996 (R1 12/5/00 DH) Section 01520 Page 2 of 7

2. Storage Spaces: Provide heating, cooling and ventilation as needed to maintain products in accordance with Contract Documents; adequate lighting for maintenance and inspection of products.

#### C. Contractor Office And Facilities

- 1. Size: For Contractor's needs and to provide space for project meetings.
- 2. Telephone: As specified in Section 01510, Temporary Utilities.
- 3. Furnishings in Meeting Area: Conference table and chairs to seat at least eight persons; racks and files for Contract Documents, submittals, and Project Record Documents.
- 4. Other Furnishings: Contractor's option.
- 5. Equipment:
  - 1. 15 adjustable band protective helmets for visitors.
  - 2. One 10 inch outdoor weather thermometer
  - 3. Other office related equipment at Contractor's option.

## D. Owner And Project Consultant Offices

- 1. Separate office spaces for sole use of Owner and Project Consultant, with separate entrance doors with new lock and two keys per door.
- 2. Area: Minimum office space 150 sq ft, minimum dimension of 8 ft.
- 3. Windows: Minimum three; minimum total area of 10 percent of floor area, with operable sash and insect screens. Locate to provide views of construction area.
- 4. Electrical Distribution Panel: Two circuits minimum, 110 volt, 60 hz service.
- Minimum four 110 volt duplex convenience outlets, one on each wall.
- 6. Telephone: As specified in Section 01510, Temporary Utilities. 2 lines required for phones and FAX/Modem.
- 7. Sanitary Facilities: drinking fountain or electric water cooler and private lavatory-toilet facilities.
- 8. Furnishings:
  - a. One desk, 54 x 30 inch, with three drawers.

Construction Facilities
October 1, 1996 (R1 12/5/00 DH)

Section 01520 Page 3 of 7

# **EXHIBIT F**

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

- b. One drafting table, 36 x 72 inch surface, with one equipment drawer, and a ful width parallel straight edge.
- c. One metal, double-door storage cabinet under table.
- d. Plan rack to hold working Drawings, shop drawings, and Record Documents.
- e. One standard four-drawer legal-size metal filing cabinet with locks and two keys per lock.
- f. Six linear feet of metal bookshelves.
- g. Two swivel arm chairs.
- h. One drafting table stool.
- i. One tackboard, 36 x 30 inch.
- j. One waste basket per desk or table.
- 9. Equipment (Owner's Office)
  - a. 1 AT&T Fax Machine.
  - b. Table top photocopy machine.
- E. Sanitary facilities: include temporary toilets, wash facilities and drinking water fixtures. Comply with regulations and health codes for the type, number, location, operation and maintenance of fixtures and facilities. Install where facilities will best serve the Project's needs after coordinating location with Owner and Project Consultant.
  - 1. Temporary Toilet Units: Provide self-contained single-occupant toilet units of the chemical, aerated recirculation, or combustion type, properly vented and fully enclosed with a glass fiber reinforced polyester shell or similar nonabsorbent material. Shield toilets to ensure privacy. Use of pit-type privies will not be permitted.
  - 2. Provide toilet tissue, paper towels, paper cups and similar disposable materials for each facility, including toilet facilities provided in temporary office trailers. Provide covered waste containers for used material.
  - 3. Existing Toilets: Use of the Owner's existing toilet facilities: Not permitted.
- F. Wash Facilities: Install wash facilities supplied with potable water at convenient locations for personnel involved in handling materials that require wash-up for a healthy and sanitary condition. Dispose of drainage properly. Supply cleaning compounds appropriate for each condition.

Construction Facilities October 1, 1996 (R1 12/5/00 DH) Section 01520 Page 4 of 7

SBBC Project Number: 0561-94-02

G. Protective Equipment: Provide safety showers, eye-wash fountains and similar facilities for convenience, safety and sanitation of personnel.

- H. Drinking Water Facilities: Provide electrically cooled containerized bottled-water type drinking water units, including paper supply. Provide drinking water at 45 to 55 degree Fahrenheit (7 to 13 deg C). Provide other temporary drinking facilities as specified elsewhere or as appropriate to the site and the Work.
- F. First Aid Supplies: Provide in adequate quantity and in locations convenient to principal areas of the Work. Comply with governing regulations.
- G. Fire Extinguishers: Provide hand-carried, portable UL-rated, class "A" fire extinguishers for temporary offices and similar spaces. In other locations provide hand-carried, portable, UL-rated, class "ABC" dry chemical extinguishers, or a combination of extinguishers of NFPA recommended classes for the exposures.
- H. Covered Walkway: Erect a structurally adequate protective covered walkway for passage of persons along pedestrian ways adjacent to the Work. Coordinate with Project Consultant and Owner to resolve design and relationship of walkway to entrance gates, building entrances, other facilities, playgrounds and obstructions. Comply with regulations of authorities having jurisdiction.
  - 1. Construct using scaffold or shoring framing, waterproofed wood plank overhead decking, protective plywood enclosure walls, handrails, barricades, warning signs, lights, safe and well- drained walkways and similar provisions for protection and safe passage.
  - 2. Extend the backwall beyond the structure to complete the enclosure fence.
  - 3. Paint and maintain in a manner acceptable to the Owner and Project Consultant.
- I. Storage and Fabrication Sheds: Provide fully enclosed storage and fabrication sheds, sized, furnished and equipped to accommodate materials and equipment involved, including temporary utility service.

#### PART 3 EXECUTION

#### 3.01 INSTALLATION

- A. Install office spaces ready for occupancy 15 days after date fixed in Owner-Contractor Agreement.
- B. Employee Residential Occupancy: Not allowed on Owner's Property.
- C. Use qualified personnel for installation of temporary facilities. Locate facilities as indicated within the Contract Documents. For facilities not so indicated: locate where they will serve the Project adequately and result in minimum interference with performance of the Work. Relocate and modify facilities as required.

Construction Facilities
October 1, 1996 (R1 12/5/00 DH)

Section 01520 Page 5 of 7

# **EXHIBIT** F

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

D. Provide each facility ready for use when needed to avoid delay. Maintain and modifas required. Do not remove until facilities are no longer needed.

# 3.02 PROTECTION OF TEMPORARY AND OTHER FACILITIES

- A. Temporary Fire Protection: Provide and maintain temporary fire protection facilities of the types needed to protect against reasonably predictable and controllable fire losses. Comply with NFPA 10 "Standard for Portable Fire Extinguishers," and NFPA 241 "Standard for Safeguarding Construction, Alterations and Demolition Operations."
- B. Store combustible materials in containers in fire-safe locations.
- C. Maintain unobstructed access to fire extinguishers, fire hydrants, temporary fire protection facilities, stairways and other access routes for fighting fires. Prohibit smoking in hazardous fire exposure areas.
- D. Provide supervision of welding operations, combustion type temporary heating units, and similar sources of fire ignition.
- E. Permanent Fire Protection: At the earliest feasible date in each area of the Project, complete installation of the applicable permanent fire protection facility, including connected services, and place into operation and use. Instruct key personnel on use of facilities.

## 3.03 ENVIRONMENTAL PROTECTION

- A. Provide protection, operate temporary facilities and conduct construction in ways and by methods that comply with environmental regulations, and minimize the possibility that air, waterways and subsoil might be contaminated or polluted, or that other undesirable effects might result.
- B. Avoid use of tools and equipment which produce harmful noise. Restrict use of noise making tools and equipment to hours that will minimize complaints from persons or firms near the site.

# 3.04 OPERATION, TERMINATION AND REMOVAL

- A. Supervision: Enforce strict discipline in use of temporary facilities. Limit availability of temporary facilities to essential and intended uses to minimize waste and abuse.
- B. Maintenance: Maintain temporary facilities in good operating condition until removal. Protect from damage by heat, humidity, and similar elements including brief periods of unexpected cold conditions.
  - 1. Maintain operation of temporary, heating, cooling, humidity control, ventilation and similar facilities on a 24-hour day basis where required to achieve indicated results and to avoid possibility of damage.
  - 2. Keep the office clean and orderly for use for small progress meetings.

Construction Facilities October 1, 1996 (R1 12/5/00 DH) Section 01520 Page 6 of 7 The School Board of Broward County, Florida Facilities and Construction Management Division Norcest Elementary School – Phased Replacement

SBBC Project Number: 0561-94-02

3. Provide daily janitorial services for offices; periodic cleaning and maintenance for office and storage areas.

4. Maintain approach walks free of mud, water, and debris.

## C. Termination and Removal:

- 1. Unless the Project Consultant requests that it be maintained longer, remove each temporary facility when the need has ended, or when replaced by authorized use of a permanent facility, or no later than Substantial Completion. Ensure removal of footings, foundations and other subsurface or underground construction.
- 2. Complete and restore permanent construction that may have been delayed because of interference with the temporary facility.
- 3. Repair damaged Work, clean exposed surfaces and replace construction that cannot be satisfactorily repaired.
- 4. Personnel remaining after Substantial Completion will be permitted to use permanent facilities, under conditions acceptable to and with the pre-agreement of the Owner.
- 5. Prior to Substantial Completion, clean and renovate permanent facilities that have been used during the construction period.

END OF SECTION

Construction Facilities October 1, 1996 (R1 12/5/00 DH)

Section 01520 Page 7 of 7

# SECTION 01550 VEHICULAR ACCESS AND PARKING

#### PART 1 GENERAL

## 1.01 SECTION INCLUDES

- A. Preparation.
- B. Flag persons.
- C. Flares and lights.
- D. Traffic signs and signals.
- E. Haul routes.
- F. Access roads.
- G. Construction parking controls.
- H. Parking.
- I. Existing pavements and parking areas.
- J. Permanent pavements and parking facilities.
- K. Maintenance.
- L. Removal, repair.
- M. Mud from site vehicles.

#### 1.02 RELATED SECTIONS

- A. Section 01110: Summary of Work: Work sequence, Owner occupancy.
- B. Section 01310: Project Management and Coordination: Project coordination.
- C. Section 01520: Construction Facilities: Temporary buildings and other temporary facilities.
- D. Section 01530: Temporary Construction: Temporary construction.
- E. Section 01580: Project Identification: Traffic directional and control signage.
- F. Section : : Specifications for earthwork and paving bases.

Vehicular Access and Parking October 1, 1996 Section 01550 Page 1 of 4

EARIBII G

#### PART 2 PRODUCTS

#### 2.01 MATERIALS

- A. Temporary Construction: Contractor's option.
- B. Earthwork, Paving Base and Topping Which Will Become Permanent Construction: As specified in product specification sections in Divisions 2 through 16.

#### 2.02 SIGNS, SIGNALS, AND DEVICES

- A. Post Mounted and Wall Mounted Traffic Control and Informational Signs: Specified in Section 01580, Project Identification.
- B. Temporary Traffic Control Signals: As approved by local jurisdictions.
- C. Traffic Cones and Drums, Flares and Lights: As approved by local jurisdictions.
- D. Flagperson Equipment: As required by local jurisdictions.

#### PART 3 EXECUTION

#### 3.01 PREPARATION

A. Clear areas, provide surface [and storm] drainage of road, parking, area premises, and adjacent areas.

#### 3.02 FLAG PERSONS

A. Provide trained and equipped flag persons to regulate traffic when construction operations or traffic encroach on public traffic lanes.

#### 3.03 FLARES AND LIGHTS

A. Use flares and lights during hours of low visibility to delineate traffic lanes and to guide traffic.

#### 3.04 TRAFFIC SIGNS AND SIGNALS

- A. At approaches to site and on site, install at crossroads, detours, parking areas, and other amenities elsewhere as needed to direct construction and affected public traffic.
- B. Install and operate traffic control signals as necessary to direct and maintain orderly flow of traffic in areas under Contractor's control, and areas affected by Contractor's operations.
- C. Relocate as Work progresses, to maintain effective traffic control.

Vehicular Access and Parking October 1, 1996

Section 01550 Page 2 of 4

# **EXHIBIT** G

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

#### 3.05 HAUL ROUTES

A. Consult with authority having jurisdiction, establish public thoroughfares to be used for haul routes and site access.

****** [OR] ******

- A. Drawings indicate haul routes designated by authorities for use of construction traffic.
- B. Confine construction traffic to designated haul routes.
- C. Provide traffic control at critical areas of haul routes to regulate traffic, to minimize interference with public traffic.

## 3.06 ACCESS ROADS

- A. Construct temporary access roads from public thoroughfares to serve construction area, of a width and load bearing capacity to provide unimpeded traffic for construction purposes.
- B. Construct temporary bridges and culverts to span low areas and allow unimpeded drainage.
- C. Extend and relocate as Work progress requires, provide detours as necessary for unimpeded traffic flow.
- D. Location as indicated on Drawings.
- E. Provide unimpeded access for emergency vehicles. Maintain 20 foot width driveways with turning space between and around combustible materials.
- F. Provide and maintain access to fire hydrants and control valves free of obstructions.

# 3.07 CONSTRUCTION PARKING CONTROL

- A. Control vehicular parking to prevent interference with public traffic and parking, access by emergency vehicles, and Owner's operations.
- B. Monitor parking of construction personnel's vehicles in existing facilities. Maintain vehicular access to and through parking areas.
- C. Prevent parking on or adjacent to access roads or in non-designated areas.

## 3.08 PARKING

A. [Arrange for] [Provide] [Construct] temporary parking areas to accommodate use of construction personnel.

Vehicular Access and Parking October 1, 1996 Section 01550 Page 3 of 4 Facilities and Construction Management Division
Norcrest Elementary School – Phased Replacement
SBBC Project Number: 0561-94-02

- B. When site space is not adequate, provide additional off-site parking.
- C. Locate as indicated on Drawings.

#### 3.09 EXISTING PAVEMENTS AND PARKING AREAS

- A. Use of designated existing on-site streets and driveways used for construction traffic is permitted. Tracked vehicles not allowed on paved areas.
- B. Use of designated areas of existing parking facilities used by construction personnel is not permitted.
- C. Do not allow heavy vehicles or construction equipment in parking areas.

#### 3.10 PERMANENT PAVEMENTS AND PARKING FACILITIES

- A. The base for permanent roads and parking areas may be used for construction traffic.
- B. Avoid traffic loading beyond paving design capacity. Tracked vehicles not allowed.

#### 3.11 MAINTENANCE

- A. Maintain traffic and parking areas in a sound condition free of excavated material, construction equipment, Products, mud or other debris.
- B. Maintain existing and permanent paved areas used for construction; promptly repair breaks, potholes, low areas, standing water, and other deficiencies, to maintain paving and drainage in original, or specified, condition.

#### 3.12 REMOVAL, REPAIR

- A. Remove temporary materials and construction when permanent paving is usable.
- B. Remove underground work and compacted materials to a depth of 2 feet; fill and grade site as specified.
- C. Repair existing or permanent facilities damaged by use, to original or specified condition, whichever is most stringent.
- A. Remove equipment and devices when no longer required.
- B. Repair damage caused by installation.
- C. Remove post settings to a depth of 2 feet.

#### 3.13 MUD FROM SITE VEHICLES

A. Provide means of removing mud from vehicle wheels before entering streets.

Vehicular Access and Parking October 1, 1996

Section 01550 Page 4 of 4

# SECTION 01560 TEMPORARY BARRIERS AND ENCLOSURES

#### PART 1 GENERAL

#### 1.01 SECTION INCLUDES

- A. Barriers and Barricades
- B. Fences
- C. Enclosures
- D. General Environmental Controls
- E. Security Programs
- F. Tree and Plant Protection

## 1.02 RELATED DOCUMENTS

- A. Section 01110: Summary of Work: Work sequence, Owner occupancy.
- B. Section 01310: Project Management and Coordination: Project coordination.
- C. Section 01520: Construction Facilities: Temporary buildings and other temporary facilities.
- D. Section 01530: Temporary Construction: Temporary construction.
- E. Section 10620: Product Options: Hazardous Materials.

#### 1.04 SUBMITTALS

- A. Tree Surgeon's Certification: Submit written certification by a qualified tree surgeon that:
  - 1. Trees and other plant materials indicated to remain have been protected during the course of construction in accordance with recognized standards of the industry.
  - 2. Indicate that damaged trees or plant materials were promptly and properly treated.
  - 3. Indicate which damaged trees or other plant materials, if any, are incapable of retaining full growth protential and are recommended to be replaced.

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 1 of 13

## 1.03 BARRIERS AND BARRICADES

- A. Provide barriers to prevent unauthorized entry to construction areas to allow for Owner's use of site, and to protect existing facilities and adjacent properties from damage from construction operations.
  - 1. Comply with standards and code requirements for erection of structurally adequate barriers.
  - 2. Install barriers of a neat and uniform appearance. Surfaces exposed to public view: Paint with colors as selected by the Project Consultant.
  - 3. Provide graphics and warning signs to inform personnel and the public of the hazard being protected against.
  - 4. Where appropriate and needed provide lighting, including flashing red or amber lights.
  - 5. Provide barriers at public rights-of-way and for public access to existing buildings when adjacent to construction operations.
- B. Provide barricades with blinking beacon light at all open trenches and other excavations.
- C. Provide protection as specified below for plant life designated to remain.
- D. Protect non-owned vehicular traffic, stored materials, site and structures from damage.

#### 1.04 FENCING

A. Prior to the Start of Construction Activities: Provide temporary 8 foot high enclosure fencing around construction site; equipped with vehicular and pedestrian gates with locks.

#### B. Construction:

- 1. Commercial grade chain link fence.
  - a. Provide galvanized posts and fabric in new condition.
  - b. Provide vision screening where fencing is adjacent to student occupied areas.
  - c. Provide vision screening or other acceptable measures where fencing separates site from adjacent residential areas.
- 2. Barbed wire, concertina wire and other potentially injurious fencing materials: Not Permitted.

Temporary Barriers and Enclosures October 1, 1996

Section 01560 Page 2 of 13

3. Install in a manner that will prevent people, dogs and other animals from easily entering the site, except by the vehicular or pedestrian entrance gates.

#### C. Location:

- 1. Locate fencing as indicated on the drawings and as confirmed by the Project Consultant.
- 2. Locate vehicular entrance gate as indicated on drawings to accommodate convenient, controlled vehicular access to the Contractor's staging area, temporary facilities, and construction areas.
- 3. Locate pedestrian entrance gates as required to provide controlled personnel entry in suitable relation to construction parking facilities and Contractor's temporary offices.

## 1.05 ENCLOSURES

#### A. Exterior Enclosures

- Provide temporary weather tight closure of exterior openings to accommodate acceptable working conditions and protection for Products, to allow for temporary cooling, brief seasonal heating and maintenance of required ambient temperatures identified in individual specification sections, and to prevent entry of unauthorized persons.
- 2. Provide access doors with self-closing hardware and locks.

#### **B.** Interior Enclosures

1. Provide temporary partitions and ceilings to separate work areas from Owner occupied areas, to prevent penetration of dust and moisture into Owner occupied areas, and to prevent damage to existing materials and equipment.

#### 2. Construction:

- a. Separation Partitions: Where extended construction operations of more than 3 weeks are adjacent or within Owner occupied spaces, provide separation partitions constructed of wood or metal framing and gypsum board sheet materials with closed joints and sealed edges at intersections with existing surfaces:
  - 1) Insulated to R-19.
  - STC rating of 35 in accordance with ASTM E90.
  - 3) Maximum flame spread rating of 75 in accordance with ASTM E84.
  - 4) Paint surfaces exposed to view from Owner occupied areas.

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 3 of 13

- b. Temporary Dust Partitions: Where extended construction operations of less than 3 weeks are adjacent or within Owner occupied spaces, provide temporary dust partitions constructed of wood or metal framing and reinforced translucent polyethene sheet materials with closed joints and sealed edges at intersections with existing surfaces.
- c. Duct, Register and Grille Protection: Securely seal air conditioning and ventilation ducts, registers, grilles, outlets and other system components with polyethelene prior to conducting any dust or other contaminent producing construction activities.

#### C. Structural Enclosures:

- 1. Close openings through floor or roof decks and horizontal surfaces with load-bearing wood-framed construction or other structural elements necessary to render safe for the loads imposed.
- 2. Provide temporary roofing as necessary to provide appropriate watertight enclosure and to protect interior spaces and materials.

## 1.06 GENERAL ENVIRONMENTAL CONTROLS

#### A. Dust Control:

- 1. Execute Work by methods to minimize raising dust from construction operations.
- 2. Provide positive means to prevent air-borne dust from dispersing into atmosphere.
- 3. Periodically dampen construction areas prone to dust generation or blowing dust during periods of infrequent or below normal rainfall for south Florida and as necessary to prevent blowing dust from affecting adjacent properties, Owner occupied spaces or other elements of the Work.

## B. Noise Control:

- 1. Provide methods, means, and facilities to minimize noise produced by construction operations.
- 2. Schedule excessively noisy or disruptive operations during hours when normal classroom activities are not scheduled.
- 3. Observe local ordinances limiting noise generating operations within the neighborhoods adjacent to the area of the Work.

#### C Pollution Control:

1. Provide methods, means, and facilities to prevent contamination of soil, water, and atmosphere from discharge of noxious, toxic substances, and pollutants produced by construction operations.

Temporary Barriers and Enclosures October 1, 1996

Section 01560 Page 4 of 13

2. Do not violate environmentally sensitive lands without proper permits from the Authorities Having Jurisdiction and a written notice to proceed with those particular operations issued by the Owner.

## 1.07 SECURITY PROGRAMS

- A. Provide security and facilities to protect Work, and existing facilities, and Owner's operations from unauthorized entry, vandalism, or theft.
- B. Initiate security program in coordination with the Owner's existing security program and systems at project mobilization.

## C. Security Service:

- 1. For facilities not occupied by the Owner (new schools and remote facilities): Employ uniformed armed guard service to provide watchpersons at site during all non-working hours.
- 2. Coordinate identification of security service, emergency procedures, and after-hours site access with the Owner and the Project Consultant.
- D. Limit access of existing facilities by Contractor's personnel to only those areas directly involved in the Work.

## E. Entry Control:

- 1. Restrict entrance of persons and vehicles into Project site and existing facilities. Workmen and visitors desiring access to Owner occupied areas of the site shall sign in at the School's Administrative Office and be escorted as deemed necessary by the School Principal.
- 2. Allow entrance to areas of Work only to authorized persons with proper identification.
- 3. Maintain log of workmen and visitors, make available to Owner on request.
- 4. Owner will control entrance of persons and vehicles related to Owner's operations.

## F. Personnel identification:

## 1. Identification Cards:

- a. Provide identification card to each person authorized to enter premises.
- b. Card To Include: Personal photograph, name and assigned number, expiration date, and employer.
- c. Maintain a list of accredited persons, submit copy to Owner on request.
- d. Require return of cards at expiration of their employment on the Work.

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 5 of 13

2. Visual Identification: Utilize distinctively marked or colored shirts, hardhats or other visual identifiers. Utilize logos, text and other materials incorporated into the design of visual identifiers which are free from obscenity, slang or other content which might be deemed by the Owner, at its sole discretion, to be inappropriate for children.

#### G. Restrictions:

- 1. Do not allow cameras or video recorders within Owner occupied site areas or photographs or videos taken of students, faculty, or staff except by written approval of Owner.
- 2. Do not allow contact between workmen and students, faculty, and staff.
- 3. Do not allow workmen to congregate in or use facilities such as kitchens, restrooms, gymnasiums, playgrounds, or other school areas not within the area of Work.
- 4. Do not allow school students, faculty, or staff to congregate in or use facilities within the area of Work.
  - a. Notify School Administration of students found within Work areas.
  - b. Notify School Administration of evidence of students entering into Work areas.
- H. Provide all personnel with instruction as to the possible presence of children in and around the construction site and the precautions necessary to ensure children's safety while conducting construction operations, operating motor vehicles or equipment, or any other associated activity.

#### 1.08 TREE AND PLANT PROTECTION

- A. Temporary protection: Protect existing landscape materials and other site improvements designated to remain from damage through the use of temporary fencing and other protective procedures as further specified below.
- B. Do not allow fires on site.

Temporary Barriers and Enclosures October 1, 1996

Section 01560 Page 6 of 13

#### PART 2 PRODUCTS

## 2.01 PRODUCT REQUIREMENTS

#### A. General:

- 1. Provide new materials; if acceptable to the Project Consultant, undamaged previously used materials in serviceable condition may be used.
- 2. Provide materials suitable for the use intended.

## B. Barriers and Exterior Enclosures:

- 1. Lumber and Plywood: Comply with requirements in applicable Division 6 specification sections.
  - a. For exterior fences and vision barriers, provide exterior type, minimum 3/8" thick plywood.
  - b. For safety barriers, sidewalk bridges and similar uses, provide minimum 5/8" thick exterior plywood.
- 2. Roofing Materials: Provide UL Class "A" standard weight asphalt shingles complying with ASTM D 3018, or UL Class "C" mineral surfaced roll roofing complying with ASTM D 249, or other roofing materials approved by the Project Consultant on roofs of job-built temporary enclosures.
- 3. Paint: Comply with general painting requirements of Division 9:
  - 1. For job-built barriers, fences and other exposed lumber and plywood, provide exterior grade acrylic-latex emulsion over exterior primer.
  - 2. For sign panels and applying graphics, provide exterior grade alkyd gloss enamel over exterior primer.
- B. Barricades: Standard metal folding barricades with reflective finishes. Provide with or without battery powered flashing lights as appropriate for hazard..

## C. Fencing:

- 1. Galvanized Fabric: #9 wire (.148 inch) in diameter, 2 inch mesh fabric with top selvages knuckled.
- 2. 6 gage minimum bottom tension wire attached to fence fabric with hog rings at 24 inches on center.
- 3. Posts, top rails, braces, and gate frames: Schedule 40 galvanized pipe as per ASTM A 120 or SS40 Tube pipe. Finish all rails and posts to match fence fabric.

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 7 of 13

- 4. Gate Frames: As per C.L.F.M.I. requirements with welded connections.
- 5. Fabric Connections:
  - a. Securely fasten fabric to all terminal posts with 3/16 inch by 3/4 inch tension bars and bevelled edge 11-gage tension bands.
  - b. Number of tension bands: one band less than the height of the fabric in feet for each tension bar.
  - c. Fasten all fabric to intermediate posts with 9-gage galvanized wires not to exceed 14 inches apart.
  - d. Tie fabric to top rail with 9-gage galvanized wire not to exceed 24 inches apart.
  - e. Fasten bottom edge of fabric to bottom tension wire using hog rings at intervals not to exceed 24 inches on center.
  - f. Intermediate Post Tops: Malleable iron.
  - g. Hinges: Malleable Iron, hot dipped galvanized
  - h. Latches: Malleable Iron, hot dipped galvanized.
  - i. Hardware required for wide vehicular access gates: Adequately strong swinging or rolling hardware apparatus at Contractor's option.

## D. Separation Partitions:

- 1. Wood Framing: Comply with product and installation requirements of Division 6.
- 2. Metal Framing: Comply with product and installation requirements of Division 9.
- 3. Insulation: Provide glass fiber batt insulation.
- 4. Gypsum Wallboard: Comply with product and installation requirements of Division 9.

#### 5. Paint::

- a. Provide two coats interior latex semi-gloss wall paint.
- b. Color as selected by Project Consultant.
- c. Comply with product and installation requirements of Division 9.
- E. Temporary Dust Partitions: Where extended construction operations of less than 3 weeks are adjacent or within Owner occupied spaces, provide temporary dust partitions constructed of wood or metal framing and reinforced opaque polyethene

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 8 of 13

sheet materials with closed joints and sealed edges at intersections with existing surfaces.

- 1. Wood Framing: Comply with product and installation requirements of Division 6.
- 2. Metal Framing: Comply with product and installation requirements of Division 9.
- 3. Sheeting: Provide translucent nylon reinforced laminated polyethylene sheeting attached securely to wood or metal framing so as to avoid tears, leaks, or openings.

## F. Tree and Plant Protection:

- 1. Tree pruning compound: Waterproof, antiseptic, elastic and free of kerosene, coal tar, creosote, and other substances harmful to plants.
- 2. Drainage fill: selected stone or gravel, graded to pass a three inch sieve and retained on a one inch sieve.
- 3. Topsoil: In accordance with Division 2 requirements for topsoil.

#### 4. Wood fencing:

- a. Posts: 4 inch x 4 inch pressure treated wood.
- b. Rails: 2 inch x 4 inch pressure treated wood.
- c. Exposed height above grade: 6 feet 0 inches.

#### PART 3 EXECUTION

## 3.01 BARRIERS, BARRICADES AND ENCLOSURES

A. Install temporary items under provisions specified above or, where not specified, to level of quality suitable for the intended purpose as judged by the Project Consultant.

#### 3.02 PROTECTION OF TREES AND PLANT MATERIALS

#### A. Preparation:

- 1. Verify that existing plant life and features designated to remain are tagged or identified.
- 2. Identify branches and roots that may interfere with construction.

#### B. Continuous Protection of Trees and Plants:

1. Protect existing trees scheduled to remain against injury or damage, including cutting, breaking, or skinning of roots, trunks or branches; smothering by

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 9 of 13

stockpiled construction materials, excavated materials or vehicular traffic within branch spread.

- 2. Protect designated trees with a temporary 6 foot 0 inch high double rail wood fence enclosure:
  - a. Provide a minimum 8 foot 0 inch square enclosure centered on tree trunk.
  - b. Increase enclosure size as directed for large trees.
- 3. Erect temporary fencing before commencing site preparation work.
- 4. Maintain fencing during full construction period.

#### B. Root System Protection:

- 1. Do not store construction materials, debris, or excavated material within the drip line which is the outer perimeter of branches.
- 2. Do not permit vehicles within the drip line. Restrict foot traffic to prevent excessive compaction of soil over root systems.
- 3. Protect tree root systems from damage due to noxious materials in solution caused by run-off or spillage during mixing and placement of construction materials or drainage from stored materials.
- 4. Protect root systems from flooding, erosion, continuous running water or excessive wetting resulting from dewatering operations.
- C. Relocate and protect large boulders and rocks identified by Owner to remain as final landscaping elements.

#### D. Clearing and Grubbing:

- 1. After providing fenced protection for trees and plants to remain, clear and grub site areas as required in Division 2.
  - a. Selective Clearing:
    - 1) In areas where trees are to remain, remove all undergrowth, dead trees, stumps, roots, vines, and other debris.
    - 2) Strip grass materials to a maximum depth of 1" under tree canopies.
    - 3) Carefully till or scarify existing grade to a depth of 1".
  - b. Grubbing: Scarify the areas where vegetation or other unsuitable materials occur to a minimum depth of six inches until all such materials are loosened and remove from the site.

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 10 of 13

- 1) Use only hand methods for grubbing inside the drip line of trees indicated to remain.
- 2) Fill depressions caused by clearing and grubbing operations with satisfactory soil materials and compact and grade in accordance with Division 2 requirements.
- 2. Remove and stockpile topsoil under provisions of Division 2 except where removal will be detrimental to existing trees and plants.

## E. Root and Branch Trimming:

- 1. Consult with Project Consultant to request removal of roots and branches that interfere with construction.
- 2. Upon Project Consultant's approval of branch or root removal, employ qualified tree surgeon to:
  - a. Remove branches from trees which are to remain, if required to clear new construction.
  - b. Carefully and cleanly cut roots and branches of trees indicated to remain, where roots and branches obstruct new construction, with sharp pruning instruments.
    - 1) Do not break or chop roots or branches.
    - 2) Paint cuts over 1/2 inch in size with tree pruning compound.
  - c. Recommend procedures to compensate for loss of roots and perform initial pruning of branches and stimulation of root growth where removed to accommodate new construction.
  - d. Extend pruning operation to restore natural shape of entire tree.

#### F. Excavation Around Trees

- 1. Excavate within drip line of trees only where indicated.
- 2. Where trenching for utilities is required within the drip line, tunnel around roots by hand digging.
- 3. Do not cut main lateral roots or tap roots; cut smaller roots which interfere with installation of new work.
- 4. Cut roots with sharp pruning instruments: Do not break or chop.
- 5. Do not allow exposed roots to dry out before permanent backfill is placed:
  - a. Provide temporary earth cover, or pack with peat moss and wrap with burlap.

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 11 of 13

- b. Water and maintain in moist condition and temporarily support and protect from damage until permanently relocated and covered with earth.
- c. Utilize tree surgeon to prune branches to balance loss to root system caused by damage or cutting of root system.

## G. Grading And Filling Around Trees:

1. Maintain existing grade within drip line of trees, unless otherwise indicated.

## 2. Lowering grades:

- a. Where existing grade is above new finish grade shown around trees, carefully hand excavate within drip line to new finish grade.
- b. Cut roots exposed by excavation or provide permanent protections as recommended by tree surgeon.

#### H. Raising Grades:

#### 1. Minor filling:

- a. Where existing grade is six inches or less below elevation of finish grade shown, use a topsoil fill material.
- b. Place in single layers and do not compact; hand grade to required finish elevations.

## 2. Moderate filling:

- a. Where existing grade is more than 6 inches, but less than 12 inches, below finish grade elevation, place a layer of drainage fill on existing grade prior to placing topsoil.
- b. Carefully place against tree trunk approximately 2 inches above finish grade and extend not less than 18 inches from tree trunk on all sides.
- c. For balance of area within drip line perimeter, place drainage fill to an elevation six inches below grade and complete fill with a layer of topsoil to finish grade elevation.
- d. Do not compact stone or gravel or topsoil layers; hand grade to required elevations.

## I. Repair And Replacement Of Trees:

1. Repair trees damaged by construction operations. Make repairs promptly after damage occurs to prevent progressive deterioration of damaged trees.

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 12 of 13

- 2. Remove and replace dead and damaged trees which are determined by the tree surgeon to be incapable of restoration to normal growth pattern.
- 3. Provide new trees of same size and species as those replaced, up to 6 inch caliper. For replacement of trees over 6 inches in caliper taken 12 inches above grade, provide new trees of 6 inch caliper, and of the same species as selected by the Project Consultant.
- 4. Repair and replacement of trees scheduled to remain and damaged by construction operations or lack of adequate protection during construction operations shall be at Contractor's expense.

# 3.03 REMOVAL OF TEMPORARY BARRIERS, ENCLOSURES AND PROTECTIONS

- A. Remove temporary barriers, barricades, fencing, enclosures and protections as warranted by the progress of the Work and prior to Substantial Completion.
- B. Remove underground installations to a minimum depth of 2 feet. Grade site as indicated.
- C. Clean and repair damage caused by installation or use of temporary work.
- D. Restore existing facilities used during construction to original condition or as specified elsewhere in the Contract Documents.
- E. Restore permanent facilities used during construction to specified condition.

END OF SECTION

Temporary Barriers and Enclosures October 1, 1996 Section 01560 Page 13 of 13

## SECTION 01570 TEMPORARY CONTROLS

#### PART 1 GENERAL

#### 1.01 SECTION INCLUDES

- A. Erosion and Sediment Control
- B. Pest Control

#### 1.02 RELATED DOCUMENTS

- A. Section 01110: Summary of Work: Work sequence, Owner occupancy.
- B. Section 01310: Project Management and Coordination: Project coordination.
- C. Section 01520: Construction Facilities: Temporary buildings and other temporary facilities.
- D. Section 01530: Temporary Construction: Temporary construction.
- E. Section 01560: Temporary Barriers and Enclosures

#### 1.03 WATER CONTROL

- A. Grade site to drain. Maintain excavations free of water. Provide, operate, and maintain pumping equipment.
- B. Protect site from puddling or running water.
- C. Provide water barriers as required to protect site from soil erosion.
- D. Dewatering Facilities and Drains:
  - 1. For temporary drainage and dewatering facilities and operations not directly associated with construction activities included under individual specification sections, comply with dewatering requirements of applicable Division 2 Sections.
  - 2. Where feasible, utilize the same facilities.
  - 3. Maintain the site, excavations and construction free of water.
  - 4. Comply with environmental limitations on dewatering as imposed by Broward County, the South Florida Water Management District, or other applicable jurisdictional authority.

Temporary Controls October 1, 1996 Section 01570 Page 1 of 3

# 1.04 EROSION AND SEDIMENT CONTROL

- A. Plan and execute construction by methods to control surface drainage from cuts and fills, from borrow and waste disposal areas. Prevent erosion and sedimentation.
- B. Minimize amount of bare soil exposed at one time.
- C. Provide temporary measures such as berms, dikes, and drains, to prevent water flow.
- D. Construct fill and waste areas by selective placement to avoid erosive surface silts or clays.
- E. Provide earthen embankments and similar barriers in and around excavations and subgrade construction sufficient to prevent flooding by runoff of stormwater from heavy rains.
- F. Periodically inspect earthwork to detect evidence of erosion and sedimentation; promptly apply corrective measures.

## 1.05 PEST CONTROL

- A. Provide methods, means, and facilities to prevent pests, insects and rodents from infesting the area of the Work and adjacent premises.
- B. Prior to construction of footings, foundations or slabs: Retain a local exterminator or pest control company to:
  - 1. Recommend practices to minimize attraction and harboring of rodents, roaches and other pests.
  - 2. Provide extermination and control procedures at regular intervals so the Project will be relatively free of pests and their residues at Substantial Completion.
  - 3. Ensure that pest, insect and rodent control operations are conducted in a lawful manner using environmentally safe materials.
- C. Refer to Division 2 requirements for termiticide treatments and other pest control requirements.

# 1.06 REMOVAL OF UTILITIES, FACILITIES, AND CONTROLS

- A. Remove temporary above grade or buried controls as warranted by the progress of the Work or prior to Substantial Completion.
- B. Remove underground installations to a minimum depth of 2 feet. Grade site as indicated.

Temporary Controls October 1, 1996 Section 01570 Page 2 of 3

- C. Clean and repair damage caused by installation or use of temporary work.
- D. Restore existing facilities used during construction to original condition or as specified elsewhere in the Contract Documents.
- E. Restore permanent facilities used during construction to specified condition.

#### PART 2 PRODUCTS

\\Not Used

## PART 3 EXECUTION

\\Not Used

**END OF SECTION** 

Temporary Controls October 1, 1996 Section 01570 Page 3 of 3

# SECTION 01720 PREPARATION

#### PART 1 GENERAL

#### 1.01 SECTION INCLUDES

- A. Construction Layout and Field Engineering
- B. Surveying
- C. Protection of Adjacent Construction

#### 1.02 RELATED DOCUMENTS

- A. Section 01560: Temporary Barriers and Enclosures
- B. Section 01740: Cleaning
- C. Section 01780: Closeout Submittals

## 1.03 QUALITY CONTROL

- A. Employ a Land Surveyor registered in the State of Florida and acceptable to Project Consultant.
- B. Employ a Professional Engineer of the discipline as required for specific services on Project, licensed in the State of Florida.

#### 1.04 SUBMITTALS

- A. Submit name, address, and telephone number of Surveyor before starting survey work.
- B. Submit evidence of Surveyor's Errors and Omissions insurance coverage in the form of an Insurance Certificate.
- C. Project Closeout Submittals: Submit the following under provisions of Section 01780, Closeout Submittals:
  - 1. Certificates: Submit a copy of registered site drawing and a certificate signed by the Land Surveyor or Professional Engineer certifying that the location and elevation of improvements comply with the Contract Documents.
  - 2. Final Property Survey: Submit one (1) reproducable vellum original and ten (10) copies of the final property survey including two (2) electronic copies of the survey in CAD and media formats as required by Section 01780, Closeout Submittals.

Preparation October 1, 1996 Section 01720 Page 1 of 8 Facilities and Construction Management Division
Norcrest Elementary School – Phased Replacement
SBBC Project Number: 0561-94-02

3. Project Record Documents: Submit a logged record of Work performed and record survey data.

#### 1.05 PROJECT RECORD DOCUMENTS

- A. Maintain a complete and accurate log of control and survey work as it progresses.
- B. On completion of major site improvements, prepare a certified survey illustrating dimensions, locations, angles, and elevations of construction and site work.

#### 1.06 CONSTRUCTION LAYOUT AND FIELD ENGINEERING

- A. Provide field engineering services. Utilize recognized engineering survey practices.
- B. Locate and protect survey control and reference points.
- C. Control datum for survey is that established by Owner provided survey.
- D. Protect survey control points prior to starting site work; preserve permanent reference points during construction.
- E. Establish a minimum of two permanent bench marks on site, referenced to established control points.
  - 1. Record locations, with horizontal and vertical data, on project record documents.
  - 2. Set one bench mark at the base of the facility's flag pole if one is required in the scope of the Work.
- F. Protect survey control points prior to starting site work; preserve permanent reference points during construction.
- G. Promptly report to Project Consultant the loss or destruction of any reference point or relocation required because of changes in grades or other reasons.
- H. Replace dislocated survey control points based on original survey control. Make no changes without prior written notice to Project Consultant.
- I. Establish elevations, lines and levels. Locate and lay out by instrumentation and similar appropriate means:
  - 1. Site improvements including pavements; stakes for grading, fill and topsoil placement; utility locations, slopes, and invert elevations; and site features or improvements as required by the Project Consultant.
    - 2. Grid or axis for structures.
    - 3. Building foundation, column locations, ground floor elevations, and other features as required by the Project Consultant.

Preparation October 1, 1996 Section 01720 Page 2 of 8

## The School Board of Broward County, Florida Facilities and Construction Management Division

J. Periodically verify layouts by same means.

## 1.07 SURVEYING

- A. Working from lines and levels established by the property survey, establish benchmarks and markers to set lines and levels at each story of construction and elsewhere as needed to properly locate each element of the Project.
  - 1. Calculate and measure required dimensions within indicated or recognized tolerances.
  - 2. Do not scale Drawings to determine dimensions.
  - 3. Advise entities engaged in construction activities, of marked lines and levels provided for their use.
  - 4. As construction proceeds, check every major element for line, level and plumb.
- B. Surveyor's Log: Maintain a surveyor's log of control and other survey Work. Make this log available for Project Consultant's and Inspector's reference.
  - 1. Record deviations from required lines and levels, and advise the Project Consultant when deviations that exceed indicated or recognized tolerances are detected.
  - 2. On Project Record Drawings, record deviations that are accepted and not corrected.
  - 3. On completion of foundation walls, major site improvements, and other Work requiring field engineering services, prepare a certified survey showing dimensions, locations, angles and elevations of construction and sitework.
- C. Site Improvements: Locate and lay out site improvements, including pavements, stakes for grading, fill and topsoil placement, utility slopes and invert elevations by instrumentation and similar appropriate means.
- D. Building Lines and Levels: Locate and lay out batter boards for structures, building foundations, column grids and locations, floor levels and control lines and levels required for mechanical and electrical Work.

# E. Existing Utilities:

- 1. Furnish information necessary to adjust, move or relocate existing structures, utility poles, lines, services or other appurtenances located in, or affected by construction.
- 2. Coordinate with local authorities having jurisdiction.
- F. Final Property Survey: Before Substantial Completion, prepare a final property survey showing significant features (real property) for the Project.

Preparation October 1, 1996 Section 01720 Page 3 of 8

- EAMIBII J
- 1. Include on the survey a certification, signed by the Surveyor, to the effect that principal metes, bounds, lines and levels of the Project are accurately positioned as shown on the survey.
- 2. Show all fences, walls, walks, building(s) and appurtenances, fire hydrant(s), manholes, catch basins, meters, valve boxes, asphalt playing area, parking, drives, curbs, football goal posts, basket ball back boards, tennis courts, ball fields, trees and shrubs.
- 3. Base survey on the mean sea level datum.
- 4. Show elevations to the 0.01 foot in sufficient number of points to clearly indicate the scope of parking, sidewalks, floor and other improved areas.
- 5. Show grate and invert elevation for all manholes and catch basins.
- 6. Indicate elevations to 0.1 foot at all changes in ground level, such as ditches, and at intervals not exceeding 100 feet including all adjacent rights-of-way.
- 7. Replace all permanent corner markers which have been removed.
- 8. Update and correct initial survey furnished to the Contractor by the Owner to accurately illustrate the Work's relationships to the previously existing site and its previously existing improvements and appurtanences.
- G. Recording: At Substantial Completion, have the final property survey recorded by or with local governing authorities as the official "property survey".

## 1.08 PROTECTION AND MOVING OF FURNITURE AND EQUIPMENT

A. Protect and move existing furniture and equipment as required elsewhere in the Contract Documents and as specified below and in Section 01710, Examination.

#### 1.09 PROTECTION OF ADJACENT CONSTRUCTION

- A. Cleaning And Protection:
  - 1. During handling and installation, clean and protect existing facilities, construction in progress and adjoining materials in place.
  - 2. Apply protective covering where required to ensure protection from damage or deterioration.
  - 3. Clean and maintain adjacent construction as frequently as necessary through the remainder of the construction period to remove debris, dust and other deleterious items as caused by construction operations under provisions of Section 01740, Cleaning.

Preparation October 1, 1996 Section 01720 Page 4 of 8 4. Adjust and lubricate operable components to ensure operability without damaging effects.

## B. Limiting Exposures:

- 1. Take precautions and supervise construction activities to ensure that no part of the construction (completed or in progress), adjacent spaces or neighboring facilities are subject to harmful, dangerous, damaging, or otherwise deleterious exposure during the construction period.
- 2. Where applicable, such exposures include, but are not limited to, the following construction related elements:
  - a. Excessive static or dynamic loading.
  - b. Excessive internal or external pressures.
  - c. Excessively high or low temperatures.
  - d. Thermal shock.
  - e. Excessively high humidity.
  - f. Air contamination or pollution.
  - g. Water.
  - h. Solvents.
  - i. Chemicals.
  - j. Light.
  - k. Radiation.
  - Puncture.
  - m. Abrasion.
  - n. Heavy traffic.
  - o. Soiling, staining and corrosion.
  - p. Bacteria.
  - q. Rodent and insect infestation.
  - r. Combustion.
  - s. Electrical current.

Preparation October 1, 1996 Section 01720 Page 5 of 8

# The School Board of Broward County, Florida Facilities and Construction Management Division

- t. High speed operation.
- u. Improper lubrication.
- v. Unusual wear or other misuse.
- w. Contact between incompatible materials.
- Destructive testing.
- y. Misalignment.
- z. Excessive weathering.
- aa. Unprotected storage.
- bb. Improper shipping or handling.
- cc. Theft.
- dd. Vandalism.

#### PART 2 PRODUCTS

## 2.01 EQUIPMENT

A. Equipment: As required to achieve a successful move of furniture.

#### 2.02 MISCELLANEOUS ACCESSORIES

A. Provide pads, packing materials, and other accessories with which to ensure protection of moved items.

#### PART 3 EXECUTION

#### 3.01 FURNITURE MOVING

- A. Preparation for Moving:
  - 1. Ensure completion of pre-move conference, inspections and inventory as required by Section 01710, Examination.
  - 2. Ensure placement of barricades, barriers, and other safeguards as required in Section 01500.
  - 3. Ensure availability and readiness of temporary storage and staging areas.
  - 4. Protect existing building, furniture, classroom aids, equipment, and other room contents from damage during moving operations.
  - Maintain protection of moved items during storage intervals and after relocation.

Preparation October 1, 1996 Section 01720 Page 6 of 8

# **EXHIBIT J**

## B. Moving:

- 1. Relocate furniture to temporary storage, staging area or designated temporary location as prelocated and coordinated with Owner.
- 2. Maintain stored furniture in safe, clean condition.

## C. Furniture Relocation

- 1. After Owner's inspection and acceptance of other interior work in individual rooms, relocate stored furniture to original respective locations.
- 2. Place furniture in locations and in classroom arrangements as before move.

## D. Cleaning:

- 1. Remove protective materials from moved items.
- 2. Thoroughly and carefully remove tape, tags and other adhesive materials from all surfaces.
- 3. Protect surfaces from damage during cleaning to avoid mars, tears, and discoloration.
- 4. Vacuum carpeted floor surfaces after relocation of furniture and equipment.
- 5. Mop resilient and tile floor surfaces after relocation of furniture and equipment.
- Clean and retouch painted wall surfaces damaged as a result of moving operations to match previous condition or conditions required for the Work as applicable.
- 7. Provide final cleaning under provisions of Section 01740, Cleaning.

## 3.02 PREPARATION

- A. Cover, protect existing or adjacent finished building surfaces (walls, floors, ceilings, etc.), furniture, equipment and fixtures to remain from soiling or damage when selective demolition work and other construction activities are performed in rooms or areas from which items have not been removed or in rooms which contain other new elements of construction.
- B. Erect, maintain dust-proof partitions and other closures as required to prevent spread of dust or fumes to occupied portions of the building or other portions of the building containing new construction.
- C. Where selective demolition or other construction activities which will create execssive dust occurs immediately adjacent to or within occupied portions of building, construct dust-proof partitions or barriers to mitigate spread of airborne dust or debris.

Preparation October 1, 1996 Section 01720 Page 7 of 8

## Facilities and Construction Management Division

- D. Provide weatherproof closures for exterior openings resulting from cutting and patching and other selective demolition work.
- E. Locate, identify, stub off and disconnect utility services that are not indicated to remain.
- F. Provide by-pass connections as necessary to maintain continuity of service to occupied areas of building. Provide minimum of five (5) working days advance notice to Owner if shut-down of services is necessary.

END OF SECTION

Preparation October 1, 1996 Section 01720 Page 8 of 8

# SECTION 01740 CLEANING

#### PART 1 GENERAL

#### 1.01 SECTION INCLUDES

- A. Final Cleaning
- B. Progress Cleaning
- C. Site Maintenance

#### 1.02 RELATED DOCUMENTS

- A. Document 00520: Agreement Form
- B. Section 01350: Special Procedures
- C. Section 01410: Regulatory Requirements
- D. Section 01520: Construction Facilities
- E. Section 01570: Temporary Controls
- F. Specification Sections Division 2 through 16: Cleaning for specific products or elements of the Work.

## 1.03 GENERAL REQUIREMENTS

- A. Maintain premises and public properties free from accumulations of waste, debris, and rubbish, caused by operations.
- B. At completion of Work, remove waste materials, rubbish, tools, equipment, machinery and surplus materials, and clean all sight-exposed surfaces; leave project clean and ready for occupancy.

## 1.04 QUALITY ASSURANCE

#### A. Cleaning:

- 1. Employ experienced workers or professional cleaners for final cleaning.
- 2. Clean each surface or unit to the condition expected in a normal, commercial building cleaning and maintenance program.
- 3. Comply with manufacturer's instructions:

Cleaning October 1, 1996 Section 01740 Page 1 of 5 Facilities and Construction Management Division
Norcrest Elementary School – Phased Replacement
SBBC Project Number: 0561-94-02

- a. Use only those cleaning methods recommended by manufacturer of the surface materials to be cleaned.
- b. Use cleaning materials only on surfaces recommended by manufacturer of the surface materials to be cleaned.

#### 1.05 SAFETY REQUIREMENTS

- A. Standards: Maintain Project in accord with safety and Insurance standards.
- B. Hazards Control:
  - 1. Do not utilize volatile or noxious substances without approval of Project Consultant.
  - 2. Maintain proper ventilation when using cleansing agents and other chemicals.
- C. Conduct cleaning and disposal operations to comply with local ordinances and antipollution laws.
  - 1. Do not burn or bury rubbish and waste materials on project site.
  - 2. Do not dispose of volatile wastes such as mineral spirits, oils, or paint thinner in storm or sanitary drains.
  - 3. Do not dispose of any wastes into canals, streams or waterways.

#### 1.06 COLLECTION AND DISPOSAL REQUIREMENTS

- A. Conduct cleaning and disposal operations to comply with codes, ordinances, regulations, and anti-pollution laws.
- B. Utilize waste disposal franchise specified by municipal jurisdictional authority if required in the municipality in which the project site is located.
- C. Collect waste from construction areas and elsewhere daily:
  - 1. Comply with requirements of NFPA 241 for removal of combustible waste material and debris. Enforce requirements strictly.
  - 2. Handle hazardous, dangerous, or unsanitary waste materials separately from other waste by properly containerizing and appropriately ventilating.
  - 3. Dispose of material in a lawful manner.

#### 1.07 PEST CONTROL

Cleaning October 1, 1996 Section 01740 Page 2 of 5

EXHIBIT K

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

- A. Engage exterminator to make final eradication of rodents, insects and other pests as specified in Section 01570, Temporary Controls.
- B. Repeat final treatments as necessary until Owner occupancy to ensure rodent, insect and pest free facilities.

### PART 2 PRODUCTS

#### 2.01 MATERIALS

A. Use only cleaning materials recommended by product manufacturer suitable for surface to be cleaned.

#### PART 3 EXECUTION

#### 3.01 DURING CONSTRUCTION

- A. Execute cleaning to ensure that site and grounds, and public properties adjacent to site are maintained free from accumulations of waste materials and rubbish.
- B. Wet down dry materials and rubbish to lay dust and prevent blowing dust.
- C. Each day during progress of Work, clean immediate work site and adjacent areas, and dispose of project related waste materials, debris and rubbish.
- D. Remove waste materials, debris and rubbish from site and legally dispose of at public or private dumping areas off Owner's property. Coordinate with municipality's franchise as specified above.
- E. Vacuum clean interior of building areas:
  - 1. When surfaces are ready to receive painting.
  - 2. Prior to the installation of finish flooring materials.
  - 3. Prior to application or installation of materials, finishes or equipment which would be degraded by dust or dirt.
  - 4. On an as-needed basis to maintain clean work areas through substantial and final completion.
- F. Handle materials in a controlled manner with as few handlings as possible; do not drop or throw materials from heights.
- G. Schedule cleaning operations so that dust and other contaminants resulting from cleaning process will not fall on wet, newly painted surfaces.

# 3.02 CLEANING PRIOR TO SUBSTANTIAL COMPLETION

Cleaning October 1, 1996 Section 01740 Page 3 of 5 Facilities and Construction Management Division
Norcrest Elementary School – Phased Replacement
SBBC Project Number; 0561-94-02

A. Conduct inspection of sight-exposed interior and exterior surfaces and concealed spaces: Ensure clean condition and removal of debris.

- B. Complete the following cleaning operations before requesting Substantial Completion Inspection:
  - 1. Remove labels that are not permanent labels.
  - 2. Clean transparent materials, including mirrors and glass in doors and windows.
    - a. Remove glazing compound and other substances that are noticeable vision-obscuring materials.
    - b. Replace chipped or broken glass and other damaged transparent materials.
  - 3. Clean exposed exterior and interior hard-surfaced finishes to a dust-free condition, free of stains, films and similar foreign substances:
    - a. Restore reflective surfaces to their original reflective condition.
    - b. Leave concrete floors broom clean.
  - 5. Vacuum carpeted and other "soft" finished surfaces:
    - a. Remove and repair stains, discolorations, abrasions, cuts or other damage.
    - b. Do not "spot patch" sheet or roll products unless approved by the Project Consultant and Owner.
  - 4. Wipe surfaces of mechanical and electrical equipment:
    - a. Remove excess lubrication and other substances.
    - b. Clean plumbing fixtures to a sanitary condition.
    - c. Clean light fixtures and lamps, including reflectors, bulbs and diffusers.
  - 5. Clean ducts, blowers, coils, diffusers and other elements of air conditioning systems.
  - 6. Replace air conditioning filters.
  - 7. Clean the site, including landscape development areas, of rubbish, litter and other foreign substances:
    - a. Sweep paved areas broom clean; remove stains, spills and other foreign deposits.

Cleaning October 1, 1996 Section 01740 Page 4 of 5

b. Rake grounds that are neither paved nor planted, to a smooth even-textured surface.

#### 3.03 FINAL CLEANING

- A. Site ammenities and manufactured items:
  - 1. In preparation for final completion or occupancy, conduct final inspection of sight-exposed exterior surfaces.
  - 2. Remove grease, dust, dirt, stains, label, fingerprints, and other foreign materials, from sight-exposed exterior finished surfaces.
  - 3. Repair, patch and touch up marred surfaces to specified finish, to match adjacent surfaces.
- B. Broom clean paved surfaces adjacent to playground; rake clean other surfaces of grounds adjacent to playgrounds.
- C. Maintain cleaning until Owner occupancy.

END OF SECTION

Cleaning October 1, 1996 Section 01740 Page 5 of 5

# SECTION 01780 CLOSEOUT SUBMITTALS

#### PART 1 GENERAL

#### 1.01 SECTION INCLUDES

- A. Final Site Survey
- B. Maintenance Contracts
- C. Operation and Maintenance Data
- D. Maintenance Materials
- E. Product Warranties
- F. Product Bonds
- G. Project Record Documents
- H. Spare Parts
- I. Electronic Media
- J. Miscellaneous Schedules

#### 1.02 RELATED DOCUMENTS

- A. Document 00520: Agreement Form
- B. Document 00700: General Conditions of the Contract
- C. Section 01330: Submittal Procedures
- D. Section 01350: Special Procedures
- E. Section 01770: Closeout Procedures
- F. Section 01810: Commissioning
- G. Section 01820: Demonstration and Training
- H. Related requirements specified in respective specification Sections of Divisions 2 through 16.

Closeout Submittals October 1, 1996

Section 01780 Page 1 of 22

# **EXHIBIT** L

The School Board of Broward County, Florida Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

#### 1.03 SUBMITTALS

- A. Project closeout submittals required by the Contract Documents for the Work, or a portion thereof, shall be submitted by the Contractor at or prior to the time of his request for the Project Consultant's inspection (submittal of Standard Form 772: Contractor's Request for Substantial Completion Inspection) unless otherwise specified in this Section or elsewhere in the Contract Documents.
- B. The Project Consultant (assisted by the Owner's Commissioning Agent and others as applicable) will review project closeout submittals with the Owner for content, accuracy, and format:
  - 1. If the Project Consultant disapproves or rejects any project closeout submittal, it shall be returned to the Contractor for correction and modification.
  - 2. The Contractor shall then submit his revised and corrected project closeout submittals to the Project Consultant for review and approval.
  - 3. The Contractor shall continue to revise and resubmit project closeout submittals until all required submittals have been accepted by the Project Consultant.
  - 4. The Project Consultant will forward approved project closeout submittals to the Owner prior to the Owner's Substantial Completion Inspection.
  - 5. Corrections or modifications of Project Closeout Submittals shall not be used as justification for an extension of Time.
- C. Submit closeout submittals under provisions of Section 01330, Submittal Procedures, with content and in formats specified within this Section and elsewhere in the Contract Documents

#### 1.04 FINAL SITE SURVEY

- A. Submit the certificates, copies of final property survey, electronic media files and project record documents as required by Section 01720, Preparation.
- B. Electronic Media: Conform to requirements for electronic media specified below.

#### 1.05 MAINTENANCE CONTRACTS

#### A. Preparation Of Submittals

1. Obtain maintenance contracts as may be required by the Contract Documents executed in duplicate by responsible Subcontractors, suppliers, or manufacturers, within ten days after completion of the applicable item of work. Except for items put into use with Owner's permission, leave date of beginning of time of maintenance contracts until the Date of Substantial Completion is determined.

Closeout Submittals October 1, 1996 Section 01780 Page 2 of 22

#### **SECTION 06400**

#### BUILT-IN CASEWORK

#### PART 1 GENERAL

#### 1.1 SYSTEM DESCRIPTION

- A. Provide the following items of Architectural Casework:
  - 1. Casework.
  - 2. Work Surfaces, Backsplashes, and Side splashes.
  - 3. Hardware for Casework including locks and magnetic catches.
  - 4. Tracks for sliding drawer and cabinet door assemblies.
  - 5. Plastic Laminate.
  - 6. Glazing.
  - 7. Sealant.
- B. Related Sections
  - 1. Section 06100 Carpentry
  - 2. Section 09650 Resilient Flooring.
  - 3. Section 09215 Veneer Plaster.
  - 4. Section 09250 Gypsum Board.

#### 1.2 SUBMITTALS

- A Shop Drawings: Indicate AWI Quality Grades, plans, elevations, details of construction and installation, dimensions, finishes, fittings and fastenings, hardware and accessories.
- B. Product Data: Submit data for items not manufactured by architectural woodworker.
- C. Samples: Submit plastic laminate manufacturer's sample chain of color chips and samples of hardware.

#### 1.3 QUALITY ASSURANCE

- A. Lumber Grading: Comply with NIST PS20.
- B. Standards: Custom grades as defined by AWI 'Quality Standards'.
- C. Cabinets shall be designed to support 75lbs per linear foot per row of shelving. This includes design of attachment to wall or blocking.
- D. Mock-up:
  - 1. Product mock-up of full size base cabinet, which includes plumbing accessories and fittings.
  - Locate where directed.

BUILT-IN CASEWORK S+A Project No. 04202 Page 1 of 5

- 3. Mock-up may not remain as part of the work.
- E. Protect units from damage and moisture.
- F. Counter tops to have rounded corners in the horizontal plane.

#### PART 2 PRODUCTS

#### 2.1 PRODUCTS AND MATERIALS

#### A. General:

- 1. Quality Grade: AWI Custom.
- 2. Construction: Details conforming to AWI Flush overlay design (unless shown otherwise on Drawings).

#### B. Panel Materials:

- 1. Core: Body members other than back, drawer bottoms, pigeonhole partitions, etc. not less than 7 ply 3/4-inch thick plywood. Tops in which sinks occur must have a core of exterior grade plywood.
- 2. Backs and Drawer Bottoms: Minimum 1/4-inch thickness tempered fiberboard with factory applied gloss surface.
- 3. Shelves: 3/4 or one (1) inch thickness plywood as per AWI and Section 1.3 C.
- 4. Particleboard is not permitted.

#### C. Laminate Materials:

- 1. Plastic Laminate: NEMA LD 3, GP-50 General Purpose type; 0.050 inches thick; for horizontal and vertical applications; colors as selected by Project Consultant.
- Cabinet Liner: NEMA LD 3, BK20, Backing grade, undecorated plastic laminate; 0.020 inches thick plus or minus 0.004 inches; Color: White.
- Acceptable manufacturers
  - (a) Nevamar
  - (b) Formica
  - (c) Pionite
  - (d) Wilsonart

#### D. Accessories:

- 1. Adhesive: Type recommended by laminate manufacturer to suit application.
- Glass: As specified in Section 08800.
- 3. Fasteners: Size and type to suit application.
- 4. Bolts, Nuts, Washers, Lags, Pins, and Screws: Of size and type to suit application; corrosive-resistant finish in concealed locations and chrome-plated finish in exposed locations.

BUILT-IN CASEWORK S+A Project No. 04202 Page 2 of 5

#### E. Hardware:

- 1. Drawer Slides: Grant Model No. 329, self-closing clear chromate finish.
- 2. Surface Mounted Adjustable Shelf Standards: Knape & Vogt #80; satin. All standards within 6 inches of the end of the shelving and space not more than 30 inches apart.
- 3. Surface Mounted Adjustable Shelf Brackets: Knape & Vogt #180.
- 4. Recessed Mounted Adjustable Shelf Standards: Knape & Vogt Mfg. Co. No. 255 aluminum shelf standards; length to suit application; unfinished.
- 5. Recessed Mounted Adjustable Shelf Clips: Knape & Vogt Mfg. Co. No. 239; zinc-plated steel.
- 6. Fixed Shelf Brackets: Hafele America No. 287.31.035 and No. 287.31.044; finish: stainless steel.
- 7. Full Mortise Hinges: Stanley Model No. CB1960; Standard weight, three (3) knuckle concealed bearing, steel hinge; stainless steel non-rising pin; US32D finish.
- 8. Cabinet Hinges: Julius Blum, Inc. Modul 90 Series; zinc die cast cup, nickel plated steel hinge arm, nickel plated; free-swinging type.
- 9. Cabinet Pulls: Stanley 4484-US 26D, wire pull.
- 10. Continuous Hinges: Stanley No. STS314-1/4; Type 302 stainless steel; plain finish.
- 11. Cabinet Locks and Cylinders: Schlage No. CL1000-Series Door Lock or Olympus 700 SC; Solid Brass Cylinder; 626 finish.
- 12. Drawer Locks and Cylinder: Schlage No. CL2000 Series Drawer Lock or Olympus 800 SC; Solid Brass Cylinder, 626 finish.
- 13. Cabinet Keys: All casework in individual rooms shall be keyed alike.
- 14. Surface Bolts: Stanley No. CD4060; solid brass; US3 finish.
- 15. Grommets: Doug Mockett & Co., Inc. No. EDP-3 Set; Color: Light Grey.
- F. Glazing:
  - 1. 1/8 inch thick tempered clear.

#### 2.2 FABRICATION

- A. Shop assemble casework for delivery to site in units easily handled and to permit passage through building openings. Field fabricated cabinetwork is not acceptable.
- B. Fit shelves, doors, and exposed edges with plastic laminate edging. Use full-length pieces only.

BUILT-IN CASEWORK S+A Project No. 04202 Page 3 of 5

- C. Door and Drawer Fronts: 3/4 inch thick.
- D. When necessary to cut and fit on site, provide materials with ample allowance for cutting. Provide trim for scribing and site cutting.
- E. Apply plastic laminate finish in full-uninterrupted sheets consistent with manufactured sizes. Make corners and joints hairline. Locate counter butt joints minimum two (2) feet from edge of sink cutouts.
- F. Cap exposed plastic laminate edges with material of same finish and pattern.
- G. Mechanically fasten backsplash to countertops with steel brackets at 16 inches on center.
- H. Apply cabinet liner to reverse side of plastic laminate finished surfaces.
- Provide cutouts for plumbing fixtures, inserts, appliances, outlet boxes, and other fixtures and fittings. Verify locations of cutouts from on-site dimensions. Seal cut edges.
- J. Accurately locate and securely install all hardware. Job adjust to operate properly and re-align doors, drawers, etc. as required for proper operation.

#### PART 3 EXECUTION

#### 3.1 PRÉPARATION

- A. Verify adequacy of backing and support framing.
- B. Verify location and sizes of utility rough-in associated with work of this section.
- C. Field measurements: Verify all critical dimensions in field prior to fabrication.

#### 3.2 INSTALLATION

- A. Do not proceed with casework installation until resilient flooring has been installed under casework locations.
- B. Set and secure casework in place rigid, plumb, and level, under provisions of Drawings.
- C. Carefully scribe casework, which is against other building materials, leaving gaps of 1/16 inch maximum. Do not use additional overlay trim for this purpose.
- D. Use purpose designed fixture attachments at concealed locations for wall mounted components.
- E. Use threaded steel concealed joints fasteners to align and secure adjoining cabinet units and counter tops.
- F. Secure cabinet and counter bases to floor using appropriate angles and anchorages.

- G. Counter-sink anchorage devices at exposed locations used to wall mount components, and conceal with solid plugs of material to match surrounding material. Finish flush with surrounding surfaces.
- H. After installation, fill gaps between casework and walls, soffits, etc. with sealant. Provide continuous bead of sealant at joint between cabinet base and flooring. Color to match cabinets.
- I. Adjust doors, drawers, hardware, fixtures and other moving or operating parts to function smoothly and correctly.
- J. Clean casework, counters, shelves, hardware, fittings and fixtures.

**END OF SECTION** 

## **SECTION 08520**

## **ALUMINUM WINDOWS**

#### PART 1 GENERAL

#### SYSTEM DESCRIPTION

- A. Performance requirements: Fabricate units to comply with these requirements and performance.
  - 1. Florida Building Code, 2004
  - High Performance requirements of ANSI/AAMA A101, Section 3.
  - 3. Provide windows with 45-condensation resistance factor, under provisions of AAMA 1502.6.
  - Limit air infiltration to 0.10 cubic feet per minute per foot of crack at edge of operable sash; tested by ASTM E283, for 20 percent of pressure resulting from design wind loading.
  - Structural Performance: Provide units with no failure or permanent deflection for a positive (inward) and negative (outward) test pressure of that meets or exceeds the design pressures shown on the Contract Documents, and the missile impact criteria.

#### B. References:

#### SUBMITTALS

Aluminum Windows S + A Project No. 04202 Page 1 of 6

Facilities and Construction Management Division Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

- C. Product Data: Manufacturer's specifications and catalog cuts, demonstrating compliance with Florida Building Code and containing product approval conforming to requirements of the Florida Building Code.
- D. Shop Drawings: Indicate elevations, locations, markings, quantities, materials, jamb conditions, metal thickness, sizes, shapes, dimensions, finishes, and wind pressures.
  - 1. Indicate locations for installing frames.
  - Indicate methods of assembling, connecting, anchoring, fastening and bracing.
  - 3. Indicate types, material, finishes, sizes and locations of hardware.
  - 4. Indicate which panels of each window unit are operable and which are fixed.
  - 5. Identify each type of mullion and anchorage system.
  - 6. Identify maximum allowable design pressures for windows and mullions.

#### E. Samples:

- Aluminum and color finish including metal materials, glass, screen and screen frame, and glazing gaskets.
- 2. Sealants: Provide manufacturer color chart and sample for selection by Project Consultant.
- Rotary cranks.
- F. Certification: Provide certification required by the Florida Building Code from the manufacturer showing that each type, grade and size of window unit complies with requirements where the manufacturer's standard window units have been tested under provisions of specified tests and meet performance requirements specified.

#### **QUALITY ASSURANCE**

- G. Regulatory Requirements:
  - Notify Uniform Building Code Inspector (UBCI) within 24-hours after completion of windows to arrange for inspection.
  - 2. Do not conceal anchors and connections until inspection is complete.
- H. Single Source Responsibility: Provide aluminum windows produced by a single manufacturer capable of showing prior production of units similar to those required.
- Means of egress must comply with the requirements the FBC and Florida Fire Prevention Code without compromising the aesthetics of the windows.
- J. Coordination of Fabrication:
  - 1. Check actual window openings in construction work by accurate field measurement before fabrication, and show recorded measurements on final shop drawings.
  - 2. Coordinate fabrication schedule with construction progress as directed by Contractor to avoid delay of work.
- K. Deliver packaged materials in manufacturer's original, unopened, labeled containers.
- L. Store items to prevent damage to materials or structure and in approximate order of use to avoid excessive rehandling.
- M. Repair damaged materials and replace materials that cannot be repaired to original condition. Replace materials that are warped.

Aluminum Windows S + A Project No. 04202

Page 2 of 6

N. Protect exposed surfaces of metal with removable covering to prevent damage to finish. Protect metal while adjacent painting and caulking is being performed.

#### WARRANTY

- O. Submit written warranty, signed jointly by manufacturer, installer and Contractor, agreeing to replace aluminum window units, which fail in materials or installations within three (3) years of date of acceptance. The three (3) parties jointly and separately are responsible for the installation for the period stated herein.
- P. Failure of materials or installation: include, but not be limited to, excessive leakage or air infiltration, excessive deflections, faulty operation of sash, deterioration of finish or metal in excess or normal weathering and defects in hardware and weather-stripped.

#### PART 2 PRODUCTS

#### 2.1 COMMERCIAL - FIXED WINDOWS

- A. Shall be Series 3062, .125" inches thick, 2" inches deep, fixed window as manufactured by SOL-A-TROL Aluminum Products, Inc.
- B. Equivalent products by Efco, YKK AP America, and Superior Window Corp are acceptable.
- C. Other manufacturers seeking approval shall submit the required product information, certified test data, samples, and evidence of meeting the FBC "Product Approval Requirements" for review and acceptance by the Architect. A Professional Engineer registered in the State of Florida must certify compliance with all listed standards.
- D. Approval: Window system must meet current requirements for Florida Building Code Product Approval in compliance with ASCE 7-02 wind and missile impact requirements for the window system.
- E. Furnish any additional reinforcing materials determined to be required for compliance with ASCE 7-02 under this section.
- F. All window units shall meet the FBC requirements for missile impact resistance and any other code requirements.

#### 2.2 COMMERCIAL - CASEMENT WINDOWS

- A. Shall be Series 3062, .125" inches thick, 2" inches deep, casement window as manufactured by SOL-A-TROL Aluminum Products, Inc.
- B. Equivalent products by Efco, YKK AP America and Superior Windows are acceptable.
- C. Other manufacturers seeking approval shall submit the required product information, certified test data and samples for review and acceptance by the Architect. Compliance with all listed standards must be certified by a Professional Engineer registered in the State of Florida.
- D. Approval: Window system must meet current Florida Building Code Product Approval in compliance with ASCE 7-02 wind and missile impact requirements for the window system.
- E. Any additional reinforcing materials determined to be required for compliance with ASCE 7-02 shall be furnished under this section.

#### 2.4 COMMERCIAL - SINGLE HUNG WINDOWS

- F. Shall be Series 500-S, .078" inches thick, 2 3/4" inches deep, single hung window as manufactured by SOL-A-TROL Aluminum Products, Inc.
- G. Equivalent products by Efco, YKK AP America and Superior Windows are acceptable.
- H. Other manufacturers seeking approval shall submit the required product information,

Aluminum Windows S + A Project No. 04202 Page 3 of 6

Norcrest Elementary School – Phased Replacement

SBBC Project Number: 0561-94-02

certified test data and samples for review and acceptance by the Architect. Compliance with all listed standards must be certified by a Professional Engineer registered in the State of Florida.

- 1. Approval: Window system must meet current Florida Building Code Product Approval in compliance with ASCE 7-02 wind and missile impact requirements for the window system.
- J. Any additional reinforcing materials determined to be required for compliance with ASCE 7-02 shall be furnished under this section.

#### 2.5 MATERIALS

- A. Frame and vent members shall be extruded aluminum shapes of 6063-T5 alloy, having a minimum tensile strength of 22,000 PSI and minimum yield strength of 16,000 PSI
- B. Fasteners: Nonmagnetic stainless steel warranted by manufacturer to be non-corrosive and compatible with the aluminum window members, trim, hardware, anchors, and others components of the window units.
  - Reinforcement: Where fasteners screw anchor into aluminum less than 0.125" thick, reinforce interior with nonmagnetic stainless steel to receive screw threads, or provide standard non-corrosive pressed in spline grommet nuts.
  - Exposed fasteners shall not be used except where unavoidable for application of hardware. Match finish of adjoining metal.
  - 3. Phillips flat head machine screws shall be used for exposed fasteners.
- C. Anchors, Clips, and Window Accessories: Depending on strength and corrosion-inhibiting requirements, fabricate units of aluminum, nonmagnetic stainless steel, or hot-dip zinc coated steel or iron complying with ASTM A386.
- D. Compression Glazing Strips and Weather-stripping: At manufacturer's option, provide molded neoprene gaskets complying with ASTM D2000 Designation 2BC415 to 3BC620, molded PVC gaskets complying with ASTM D2287, or molded expanded neoprene gaskets complying with ASTM C509, Grade 4.
- E. Sealant: Unless otherwise indicated for sealants required within fabricated window units, provide type recommended by window manufacturer for joint size and movement, to remain permanently elastic, non-shrinking and non-migrating. Comply with paragraph 3.02 for application and installation of project sealants.
- F. Friction Shoes: Nylon or other non-abrasive, non-metallic, non-staining, non-corrosive durable material.

#### 2.6 CONSTRUCTION AND FABRICATION

- A. Frame joints shall be neatly fitted with intersections between horizontal and vertical members notched and mechanically joined with two or more screws in integral screw grooves. Vent comers shall be mitered and welded to form a hairline watertight joint and afford maximum rigidity.
- B. General: Fabrication and accessories shall comply with the specified standards and windows units shall be re-glazable without dismantling of sash framing. Include complete system for assembly of components and anchorage of window units. Prepare sash for job site glazing if sashes are not pre-glazed at the factory.
- C. Window Sizes and Profiles: Required sizes of window units and profile requirements are as indicated on the Drawings. Details on Drawings are based upon standard details by on manufacturer. It is intended that similar details by other manufacturers will be acceptable, provided they comply with size requirements, minimum/maximum profile requirements, and performance standards as indicated or specified.
- D. Coordination of Fabrication: Verify actual window openings of construction work by accurate field measurement before fabrication and show recorded measurements on

Aluminum Windows S + A Project No. 04202 Page 4 of 6

**EXHIBIT** N

final shop drawings. Coordinate fabrication schedule with construction progress to avoid delay of work.

E. Pre-glazed Fabrication: At option of Contractor, pre-glaze window units at factor in lieu of job site glazing. Comply with requirements of ANSI/AAMA 102-88 and Glazing Section 08800.

F. Provide means of drainage for water and condensation, which may accumulate in members of window units.

G. Sliding Weather-stripping: Provide double weather-stripping using silicone-coated woven pile with polypropylene fin center complying with AAMA 701.

H. Provide sub-frames with anchors for all window units as detailed, of profile and dimensions indicated but not less than 0.062" thickness extruded aluminum; with mitered or coped corners, welded and dressed smooth or with concealed mechanical joint fasteners; finish to match window units.

Provide mullions and cover plates as detailed, matching window units, and complete
with anchors for support and installation. Allow for erection tolerances and provide for
movements of window units due to thermal expansion and building deflections.

#### 2.7 HARDWARE

- A. All hardware shall be stainless steel.
- B. Sash lock: Lever handle with cam lock.
- C. Threshold: Extruded aluminum sloped to exterior.
- Insect Screen Frames: Rolled aluminum of rectangular sections; fit frames with adjustable hardware.

#### 2.8 GLAZING

- A. Vents shall be inside glazed using a preformed butyl tape at the exterior and an EPDM drive in wedge at the interior with ½" neoprene setting blocks at the sill and spacer shims at other sides. Glazing rabbet shall be a minimum of ¾" with a minimum edge bite on glass of ½". Full height aluminum glazing bead shall be supplied with nominal wall thickness of .050". Vents shall be designed to accommodate glass thicknesses from ¾" minimum up to 1" maximum. Unless otherwise indicated, glass thickness for this project shall be ¾" thickness. Refer to Section 08800 for glass type for glazing.
- B. Comply with applicable codes and regulations and with the Consumer Product Safety Commission CPSC 16 CFR 1201 and with applicable recommendations of Flat Glass.
- C. Provide labels showing glass manufacturer's identity, type of glass, thickness, and quality. Labels shall remain on glass until it has been set and approved by the Architect.

#### 2.9 SCREENS

A. Screens shall be provided for each venting sash units indicated on the Drawings. Standard screens shall be an extruded aluminum frame with 18 by 16 dark coated fiberglass mesh. Screens shall be retained with either fixed rigid clips or integral extruded members with aluminum plungers as required.

#### 2.10 FINISH

- A. Sections shall be free of scratches and other serious surface blemishes and chemically cleaned.
- B. Both interior and exterior aluminum sections shall have the following finish:
  - A44 anodized to 215-R1, prepared with a chemical C pre-treatment. Finish to be anodized to a standard color as selected by the Architect.

Aluminum Windows S + A Project No. 04202 Page 5 of 6

Norcrest Elementary School – Phased Replacement SBBC Project Number: 0561-94-02

#### PART 3 EXECUTION

#### INSTALLATION

- A. Install windows under provisions of Section 08805 Glass and Glazing and manufacturer's printed instructions and accepted shop drawings under direct supervision of manufacturer's representative(s).
- B. Erect windows plum, level and true.
  - Do not distort windows by erection screws or fittings.
  - 2. After window erection, apply an even spray coat of liquid wax to window surfaces for protection against stains and scratches.
- C. Separate aluminum from masonry and ferrous metals by use of bituminous coating or gasketing to eliminate possibility of corrosion from electrolytic action.
- D. Protect work from corrosion, prime coat concealed steel stiffeners, anchors, brackets, fasteners and the like prior to installation and seal joints between window frames and building tightly and continuously.
- E. Maintain wire or clips holding ventilators closed in place until windows are completely erected and hardware is attached.
- F. Adjust operating sash and hardware to provide tight fit at contact points and at weather-stripping, and to ensure smooth operation and weathertight closure.
- G. Cleaning:
  - 1. Clean surfaces promptly after installation of windows, exercising care to avoid damage to protective coatings and finishes.
  - 2. Remove excess glazing and sealant compounds, dirt and other substances.
  - 3. Lubricate hardware and moving parts.
  - Clean glass of preglazed units promptly after installation of windows.
- H. Protection: Provide protection to prevent damage to window units.

SUBJECT:

MANAGEMENT RESPONSE TO OFFICE OF THE CHIEF AUDITOR,

AUDIT REPORT FOR AUDIT COMMITTEE MEETING ON OCTOBER 10, 2013, REVIEW OF THE NORCREST ELEMENTARY SCHOOL, PHASED REPLACEMENT PHASE III of III, PROJECT #0561-24-01/P.000105 - FINANCIAL

CLOSE OUT - FINAL CHANGE ORDER NO. 5, AGENDA ITEM JJ-99D

The following is Management's response to your e-mail of July 18, 2013, and the Review of the Norcrest Elementary School project as state above.

FINDING #1 - The Office of Facilities and Construction (OFC) approved payments to the Construction Manager for charges that were not allowed per the Terms and Conditions of the CM Agreement as a Cost of the Work charge.

#### FINDING #1 - RECOMMENDATION:

The District should seek a reimbursement in the amount of \$653,142.97 from the construction Manager for the questionable costs and strengthen controls over the payment process over construction projects.

# Finding #1 - MANAGEMENT RESPONSE:

In Finding # 1 the Office of the Chief Auditor (OCA) recommends that the District should seek a reimbursement in the amount of \$643,142.97 from the Construction Manager for questionable costs, and strengthen controls over the payment process over construction projects. It is alleged that the Office of Facilities and Construction (OFC) approved payments to the Construction Manager for charges that were not allowed per the Terms and Conditions of the CM Agreement as a Cost of the Work charge.

The OFC recently enhanced procedures to strengthen controls over the payment process. See attached Contract Bulletin Nos. 016 and 036, both issued on January 31, 2013.

Page 2 of 5 September 17, 2013
RESPONSE TO OFFICE OF THE CHIEF AUDITOR, OCTOBER 10, 2013, REVIEW OF THE NORCREST ELEMENTARY SCHOOL, PHASED
REPLACEMENT PHASE III of III, PROJECT #0561-24-01/P.000105 - FINANCIAL CLOSE OUT - FINAL CHANGE ORDER NO. 5, AGENDA
ITEM JJ-99D

To the matter of reimbursement, the OFC's interpretation and application of the CM agreement differs from that of the OCA.

The OCA's CONDITION as to Finding # 1 stated, "Our review of the Construction Manager's Final Cost of the Work Binders revealed that the Construction Manager was incorrectly paid for Cost of the Work that was included in the Construction Phase Fee and General Conditions Fee."

The OFC maintains that <u>Construction Manager's Final Cost of the Work Binders</u> were not the final determination used in establishing the Cost of Work as presented in the Financial Close-Out of the Project for the Final Credit Change Order. See EXHIBIT # 1 (Excel Spread Sheet of Comments; after five separate meetings with the CM.) They were used for the purpose of beginning discussions with the CM and the details of the cost items were amended after several deliberations with the CM. The final determination of the Cost of Work was as a result of amending the information contained within the original document.

The OFC previously reviewed and arrived at the recommendation for a Final Credit Change Order with respect to the Financial Close-Out, based on the following criteria:

[1] Construction Manager's Service

The CM Agreement supersedes the Project Manual, Divisions 0 and 1, when there is a conflict between both. See Article below:

Article 3.5.1 Construction Phase

"The Construction Manager shall fully comply with the provision of the Owner's Project Manual, including but not limited to Division 0 and 1, and the attached General Conditions of this contract. In the event of a conflict between this Agreement and such documents the Agreement shall control."

[2] GMP Amends The Agreement

GMP includes the Schedule of Values and Construction Scope of Work with Clarifications, Alternates and Exclusions. See Article below:

**Article 1.3 Entire Agreement** "....an <u>Addendum to the Agreement shall be signed</u> by the Owner and the Construction Manager, acknowledging the GMP amount and the drawings, specifications and other descriptive documents upon which the GMP is based......"

# i. GMP Amendment - (Schedule of Values)

- GMP Amendment includes a detailed Schedule of Values Distribution for Cost of Work (COW); see Article 8 below:
  - a. Article 8 Payments to the Construction Manager, 8.1
    Schedule of Values: (.3) "The Construction Manager's
    Schedule of Values apportions the GMP among the different

Page 3 of 5 September 17, 2013
RESPONSE TO OFFICE OF THE CHIEF AUDITOR, OCTOBER 10, 2013, REVIEW OF THE NORCREST ELEMENTARY SCHOOL, PHASED
REPLACEMENT PHASE III of III, PROJECT #0561-24-01/P.000105 - FINANCIAL CLOSE OUT - FINAL CHANGE ORDER NO. 5, AGENDA
ITEM JJ-99D

elements of the required Work for purposes of periodic and final payments and shall be submitted as detailed support for the Contractor's monthly Application for Payment."

#### ii. Surveying - Schedule of Values

- GMP Amendment includes Schedule of Values Cost of Work
- See Schedule of Values in GMP Amendment (COW)
  - a. Division 2 Section 02200 Paragraph 1.4.A BENCH
    MARKS: "Employ an experienced and competent State of
    Florida licensed surveyor to establish the benchmarks, determine
    all lines and grades."

As required, Division 2 Section 02200 Paragraph 1.4.A BENCH MARKS establishes that a State of Florida licensed surveyor is to be employed for the transferring of benchmarks, and to include the determination of all lines and grades. The CM's Schedule of Values and the list of Sub-Contracts provided evidence that the services were classified as a Cost of Work item.

#### iii. Final Cleaning - Schedule of Values (COW)

- Division 1 Section 01740 CLEANING
  - a. Division 1 Section 01740 CLEANING Paragraph 1.6
    QUALITY ASSURANCE (A) Cleaning: (1) "Employ
    experienced workers or professional cleaners for Final Cleaning"
  - b. Division 2 through 17: Cleaning for specific products or elements of the Work

As required, Division 1 Paragraph 1.6 QUALITY ASSURANCE (A) Cleaning: establishes that experienced workers or professional cleaners are to be employed for the final cleaning . The CM's Schedule of Values and the list of Sub-Contracts provided evidence that the services were classified as a Cost of Work item.

# iv. Temporary Fencing - Schedule of Values & Division 1

Temporary Fencing interpreted to be COW by OFC:

- See Schedule of Values in GMP Amendment Temporary Fencing defined as COW
- Section 01560 TEMPORARY BARRIERS AND ENCLOSURES
  - a. **Paragraph 1.4 A.** "Provide barriers to prevent unauthorized entry to construction areas to allow for the Owner's use of site, and protect existing facilities and adjacent properties from damage from construction activities."

Page 4 of 5 September 17, 2013
RESPONSE TO OFFICE OF THE CHIEF AUDITOR, OCTOBER 10, 2013, REVIEW OF THE NORCREST ELEMENTARY SCHOOL, PHASED
REPLACEMENT PHASE III of III, PROJECT #0561-24-01/P.000105 - FINANCIAL CLOSE OUT - FINAL CHANGE ORDER NO. 5, AGENDA
ITEM JJ-99D

b. **Paragraph 1.5** A. "Prior to the start of Construction Activities: provide temporary 6 foot high enclosures/ fencing around construction site; equipped with vehicular and pedestrian gates."

As required, Division 1 Section 01560 TEMPORARY BARRIERS AND ENCLOSURES provides for barriers to prevent unauthorized entry to construction areas to allow for the Owner's use of site, and protect existing facilities and adjacent properties from damage from construction activities. The CM's Schedule of Values and the list of Sub-Contracts provided evidence that the services were classified as a Cost of Work item.

#### v. General Requirement Division 1

Cost of Work per GMP Amendment

- See the Schedule of Values:
  - a. Item 2111 Surveying;
  - b. Item 2110 Demo;
  - c. Item 2821 Fencing and Gates and Final Cleaning

#### [3] General Conditions

Description of General Conditions Items included in the CM Fees.

**Article 7 Construction Manager's Fees see paragraph 7.1** "General Conditions include items of Labor, Materials and Services set forth in General Conditions."

Article 26.02 Subsection 04, 06, 09, 10, 13, 15, 16, and 18

#### [4] CM's Affidavit vs. Sub-Contractors' Sworn Statement

**Article 8 Payments To the Construction Manager 8.16 (.1)** "....An Affidavit that Construction Manager's obligations to all subcontractors, laborers, equipment or suppliers, or other third parties in connection with the Project, have been paid or otherwise satisfied;...".

**Article 5.2.03** "Prior to being entitled to receive final payment, and as a condition precedent thereto, the Construction Manager shall provide the Owner, in the form and manner required by Owner, if any, the following (.1) An affidavit that Construction Manager's obligations to all subcontractors, laborers, equipment or suppliers, or other third parties in connection with the Project, have been paid or otherwise satisfied."

#### [5] Change Orders using Owner's Savings

Funding Additional Scope:

Article 6 Guaranteed Maximum Price for Construction

• 6.1.2 "..... The Owner may utilize funds from the Owner saving line item in the Schedule of Values to fund added scope change orders."

Page 5 of 5 September 17, 2013
RESPONSE TO OFFICE OF THE CHIEF AUDITOR, OCTOBER 10, 2013, REVIEW OF THE NORCREST ELEMENTARY SCHOOL, PHASED
REPLACEMENT PHASE III of III, PROJECT #0561-24-01/P.000105 - FINANCIAL CLOSE OUT - FINAL CHANGE ORDER NO. 5, AGENDA
ITEM JJ-99D

# [6] Additional Cost Item of Work not included in GMP

For Example:

Additional Demolition Scope of Work shown on drawings but not included in the original demolition Sub-Contractor's scope of work.

Article 25 Construction Manager's Fees 25.1 (4) "The Construction Manager shall not be paid overhead and profit on any additional cost item of work not included in the GMP, for which the Construction Manager to the best of its ability should have reasonably discovered in their review of Contract Documents (see also Paragraph 3.3.2 and exhibits G and H), review of other project documentation and existing site conditions."

Telephone: (754) 321-2050 Facsimile: (754) 321-2705

J. PAUL CARLAND, II GENERAL COUNSEL

#### <u>MEMORANDUM</u>

TO:

Robert Goode, Manager, Facility Audits

FROM:

Thomas C. Cooney, Assistant General Counsel

VIA:

J. Paul Carland, II, General Counsel

DATE:

November 5, 2013

SUBJECT:

**Requests for Legal Opinions** 

Norcrest Elementary School - Project #0561-24-01/P000105

This is in response to your memoranda dated August 8, 2013 and September 17, 2013 requesting legal opinions regarding the entitlement of Stiles Construction Co. ("Stiles") to payment for various items charged as "Cost of Work" pursuant to the terms of the Construction Management at Risk Agreement on the above referenced project.

In its audit of the subject Project, the Office of the Chief Auditor ["OCA"] references and incorporates as Exhibit "A" to its audit a list of sixty-nine (69) individual costs/services charged by Stiles totaling \$9,706,429.52. Of this amount, the OCA questions the payment of \$790,037.97. Please note that this Office did not conduct an independent accounting or audit and has relied upon the non-legal conclusions of the OCA.

After review of all items questioned by the OCA and applying both the OCA's rationale and the terms of the Construction Manager at Risk Agreement as more fully set forth below, this Office supports the OCA's conclusion that items 1 through 67 may not be charged to The School Board of Broward County, Florida ("SBBC") as direct cost items (Cost of Work) based both upon contract language and the lack of additional, supporting documentation. However, for the reasons set forth below under "Question 2 - Subcontractor Bonds," portions of costs identified in Items 68 and 69 may be chargeable as direct cost items if supporting documentation is provided.

#### Question 1 - from OCA Memorandum dated August 8, 2013:

Do the provisions of the Construction Manager at Risk Agreement ("CM Agreement") preclude the Construction Manager from charging the SBBC for those costs and services identified in Exhibit "A" to the OCA's audit as Cost of Work items?

#### Answer:

With the limited exception of certain subcontractor bonds, yes, the provisions of the CM Agreement (and other documents which constitute the Contract Documents) preclude charges which are considered to be part of either the Construction Phase Fee or General Conditions. Several sections of the Contract Documents provide guidance for determination of what may be charged and under which category it must be charged. Such provisions are provided below.

#### Rationale:

The School Board and Stiles, as the Construction Manager ("CM"), entered into a valid and enforceable CM Agreement as approved at the Regular School Board Meeting of July 26, 2005, and as amended by the Guaranteed Maximum Price Addendum on July 24, 2007 (the "GMP Addendum"). The GMP Addendum incorporates by reference documents upon which Stiles' Guaranteed Maximum Price is based. Such documents themselves list numerous, specific assumptions, allowances, alternates and identification of guaranteed maximum prices by CSI (Construction Specifications Institute) section. All documents taken together define and determine what may be charged by the CM as part of General Conditions, part of the CM's fee, or as a Direct Cost (Cost of Work).

Article 3.01 of the General Conditions provides that "[w]ith respect to the intent and interpretation of this Contract "[t]he Owner shall be the initial interpreter of the requirements of the Contract Documents and the judge of the performance thereunder ...." The Contract Documents consist of "... the Agreement Form ... Documents contained in the Project Manual (including but not limited to Division 0 and 1), a listing of which is attached to the GMP Addendum, General and Supplementary Conditions, Addenda...". Art. 1.4, CM Agreement.

Article 3.5.1 of the CM Agreement states that the Construction Manager is required to "... fully comply with the provision of the Owner's Project Manual, including but not limited to Division 0 and 1, and the attached General Conditions of this contract." Further, "[i]n the event of a conflict between this Agreement and such documents the Agreement shall control."

The requirement to "... fully comply with the provision of the Owner's Manual, including but not limited to Division 0 and 1, and the ... General Conditions..." does not provide guidance as to which items may or may not be charged to the SBBC; rather, such statement simply affirms the CM's obligation to comply with such provisions. It is instructive that the Guaranteed Maximum Price Summary prepared by Stiles (the last page of Exhibit 2 of the GMP) indicates that Stiles did not consider either Division 0 or Division 1 items to be part of the Cost of Work.

#### Direct Cost Items (Cost of Work)

Article 26 of the General Conditions specifically defines Direct Cost Items to include the following sub-sections:

- .02 The cost of all materials, supplies and equipment incorporated into the Project, including costs of transportation and storage thereof;
- .03 Payments due to subcontractors from the [CM] or made by the CM to subcontractors for their work performed ... [including] any sub-contractor bonds the CM is required to procure;
- .05 Rental charges;
- .07 Specific taxes;
- .11 Costs incurred due to an emergency affecting the safety of persons and property;
- .12 When approved by the SBBC, work self-performed by the CM;
- .14 Costs for watchman and security services for the Project; and
- .17 Wages for labor.

#### Costs - General Conditions

Article 7.1 of the CM Agreement defines General Conditions to "... include items of Labor, Materials and Services set forth in General Conditions [the following subsections of] Article 26.02:

- .04 Transportation and maintenance of all materials, supplies, equipment, temporary facilities and hand tools not owned by the workmen, which are employed or consumed in the performance of the work;
- 06 Cost of the premiums for all insurance and cost of premiums for all bonds¹ which the Construction Manager is required to procure by this Agreement specifically for the construction project;
- Minor expenses at the site such as telegrams, long distance telephone costs, telephone service, expressage, postage, and similar petty cash items in connection with the Project to be billed at cost;

The bonds required to be procured by the CM include its own payment and performance bonds in addition to those subcontractor bonds required under Art. 24.18.1 through .5. However, Art. 26.02.03 specifically states that required subcontractor bonds are chargeable as direct cost items. Therefore, the CM's bonds are part of the General Conditions; required subcontractor bonds are chargeable as direct costs (Cost of Work); and non-required subcontractor bonds may not to be charged to the SBBC under any circumstance.

#### Robert Goode Page 4 of 5

- .10 Cost for trash and debris removal from site;
- .13 Transportation for personnel;
- .15 Costs for efficient logistical control of the site, including horizontal and vertical transportation of materials and personnel. Also, costs for adequate storage and parking space];
- .16 Costs for temporary facilities at the Project site during construction, as approved by the Owner, including temporary water, heat, power, sanitary facilities and telephones; and
- .18 Wages shall not be paid for holidays not worked and shall exclude bonuses and other similar extraordinary benefits."

#### Costs - Construction Manager Fees

The costs and expenses which are included in the CM Fees and that are not part of the cost of the project include "those services set forth in Article 3 of the [CM] Agreement between Owner and Construction Manager." Art. 25.02.01.f., General Conditions. Article 3 of the CM Agreement identifies CM services starting in the Pre-Design Phase through Warranty. Article 7.1 of the CM Agreement, as amended by the GMP Addendum, provides a breakdown of all fees by phase.

#### Costs - Not to be Reimbursed

Article 26.03 of the General Conditions clearly identifies costs <u>not</u> to be reimbursed, which include, but which are not limited to the following:

- .04 Any cost not specifically and expressly described in subsection 26.02 above; and
- .09 Costs of subcontractor bonds not required by this agreement or approved in writing by Owner.

### Question 2 - from OCA Memorandum dated September 17 2013:

May the CM charge subcontractor payment and performance bonds as "Cost of Work?"

#### Answer:

Yes, the CM may charge for <u>required</u> subcontractor bonds as Cost of Work, however, the CM may not charge for non-required subcontractor bonds. See rationale below.

Robert Goode Page 5 of 5

#### Rationale:

As noted in the answer to Question 1 above, Article 7.1 of the CM Agreement states that "General Conditions [shall] include items of Labor, Materials and Services set forth in General Conditions Article 26.02 Subsection[].06 [cost of the premiums for all insurance and cost of premiums for all bonds which the Construction Manager is required to procure by this Agreement specifically for the construction project]."

The bonds required to be procured by the CM include both its own payment and performance bonds in addition to specifically required subcontractor bonds identified in Art. 24.18.1 through .5 of the General Conditions (HVAC/Mechanical, Electrical, Plumbing, Roofing and Shell Contractor). The CM's own bonds are part of General Conditions, however, Art. 26.02.03 of the General Conditions specifically states that <u>required</u> subcontractor bonds are chargeable as direct cost items.

Therefore, the <u>CM's own bonds</u> are part of the General Conditions; <u>required</u> subcontractor bonds are chargeable as direct costs (Cost of Work); and <u>non-required</u> subcontractor bonds may not be charged to the SBBC under the provisions of the CM Agreement.

Based on the information provided by the OCA in your memorandum of September 17, 2013, it appears to be permissible for Stiles to charge the SBBC (as a direct cost) for subcontractor bonds provided by Tilt Con, Healy Plumbing, Ion Electric, Hyvac, Pre Stressed Conc., Southern State Masonry and Steel Fabricators only.

If any of the foregoing information upon which this opinion is based is incorrect, please notify this Office as changes in such information may require this Office to draw different conclusions. It should also be noted that the Construction Manager disputes the conclusions of the OCA and is likely to initiate litigation against the SBBC.

<u>Management</u>

PHINTABLE VERSION

•

JJ-8. Approve Guaranteed Maximum Price -Norcrest Elementary School, Pompano Beach -Phased Replacement III of III - Project No. 0561-24-01 - Stiles Construction Co. (OPEN AGENDA)

[Status: ] [Open Agenda]

Mac dall a Max EDWARD.

PREVIOUS ITEM

▼Requested Action

Approve the Final Guaranteed Maximum Price (GMP) in the amount of \$19,614,434 with Stiles Construction Co., Norcrest Elementary School, Phased Replacement III of III, Project No. 0561-24-01, and increase the Construction Manager (CM) fees to \$3,225,000.

**▼Summary** 

Project Consultant: Song & Associates, Inc.

Scope: Construct a new classroom building including administration spaces, construct a new cafeteria/multi-purpose building, expand and remodel the existing media building, and construct extensive on-site and off-site improvements including parking, utilities, sidewalks, bus-loop, recreational areas, and, demolish buildings 1, 2, 3, 4, 5, 12 and 13.

The Board previously approved CM fees of \$2,315,000 and a construction budget of \$10,500,000.

The Final GMP Manual is available for review at the Facilities and Construction Management Division.

#### ▼School Board Goals

Goal 2 - All schools will have equitable resources.

▼Financial Impact

The financial impact is \$19,614,434 including the Cost of Work of \$16,389,434 and additional CM Fees of \$910,000. This project is included in the Tentative District Educational Facilities Plan, Fiscal Years 2007-2008 to 2011-2012.

**▼Ouick Summary / Abstract** 

Approve the Final Guaranteed Maximum Price (GMP) in the amount of \$19,614,434 with Stiles Construction Co., Norcrest Elementary School, Phased Replacement III of III, Project No. 0561-24-01, and increase the Construction Manager (CM) fees to \$3,225,000.

Project Consultant: Song & Associates, Inc.

Scope: Construct a new classroom building including administration spaces, construct a new cafeteria/multi-purpose building, expand and remodel the existing media building, and construct extensive on-site and off-site improvements including parking, utilities, sidewalks, bus-loop, recreational areas, and, demolish buildings 1, 2, 3, 4, 5, 12 and 13.

The Board previously approved CM fees of \$2,315,000 and a construction budget of \$10,500,000.

The Final GMP Manual is available for review at the Facilities and Construction Management Division.

The financial impact is \$19,614,434 including the Cost of Work of \$16,389,434 and additional CM Fees of \$910,000. This project is included in the Tentative District Educational Facilities Plan, Fiscal Years 2007-2008 to 2011-2012.

Mr. Michael Garretson The School Board of Broward County, Florida The Facilities and Construction Management Division 1700 SW 14th Court Fort Lauderdale, Florida 33312

RE: Replacement School Phase III of III - CM at Risk- Guaranteed Maximum Price Norcrest Elementary School - Pompano, Florida SBBC Project No. 0561-24-01

Dear Mr. Garretson.

We are pleased to present our Guaranteed Maximum Price (GMP) proposal for Construction Management (CM) services for Newcrest Elementary School- Phase III Replacement, based on 100% Construction Documents prepared by Song and Associates. We have summarized the cost, on the adaptived Lane Item Breakdown, in eight different categories: Original Site. Demolition Phase 1. Added Site, Original Scope Building 15, Original Scope Building 14, Added Building Scope (i.e. design singularities related to limiting conditions of the remodeling and new construction on an exasting campus). Added Bridge and Added Media Building expansion.

We have revised our CM fee to reflect changes to the scope of the work and incorporate increases to construction costs and market corrections experienced since 2005, when this job was negotiated, up to current 2007 actual rates. Thus, this revision adequately amends rates that were negotiated for a 2005 construction start date for this project. General Liability (GL) and Builder's Risk (BR) insurance rates have been adjusted to reflect current 2007 market conditions and are presented as an Allowance. (See 'Norcrest Elementary CM at Risk – 2007 Fee Summary.)

The original schedule of twenty four months (24) calendar days from Notice to Proceed has been extended by three (3) additional months [sixty five (65) working days] due additional scope increase (see attached "Norcrest Elementary School 7-2-07, For Bidding Purposes"). We have included additional Construction Phase Fee and General Conditions to the cost of this added scope expenses at an amended rate \$1.854/working day (reflecting CM fee market corrections).

The estimate GMP has been based on Approval of GMP on July24, 2007 and Notice to Proceed for Construction (NTPC) to be received no later than August 27, 2007.

For clarity, we have summarized this cost information below, giving as a frame of reference the initial budget (Fixed Limit Construction Cost) and itemizing its development to today's cost.

GMP proposal summarizes as fellows:

Fixed Limit Construction Cost as of 06/07/05		\$10,500,000
Additional Scope Rems  Escalation (rorn 2005 (25%) to June 2007 (27mos Const. 15%), in lieu of 5%. Exclusive of fee, see below for Additional Insurance.	2,517,658	
Added Site (Offsite Utilisies, Structures, Entry Tower, etc.)	1,007,094	
Added Buildings Scope (Design Singularities, Std. Seam, Grilles, etc.)	451,129	
Added Connecting Bridge	167,546	
Media Expansion	567,129	
Broaden Site Scope (S) M budgeted versus \$4,86M)	3,860,261	
CM Per 2007 Markot Corrections	790,805	
Extended Construction Schedule (65 working days GC & Const. Ph. Fee)	132,937	-
Additional Insurance Allowance	619,984	
Additional Scope Retris Subjoint		\$10,114,544
Adjusted FLCC/GMP Proposal		\$20,614,544

Please refer to Guaranteed Maximum Price (GMP): Construction Scope of Work with Clarifications. Allowance and Alternates' document that provides further detail to the basis of this GMP proposal

We trust that the releasurement we have provided herein has been of service to you, facilitating your evaluation process. Please let as know should you need any additional information or further clarifications to this review.

Respectfully.

#### VIA FACSIMILE #754-321-1583 & US MAIL

Mr. Belici The School Board of Breward County Facilities and Construction Management Division 1700 W 14th Court Fort Lauderdale, FL 33312

Dear Mr. Sellor

With regard to the Norcest Dementary Replacement School Project and the Styles Corp. GMP dated July 6, 2001, negotiated and revised Findey. July 13, 2007, Song + Associates believes the headshated GMP projets to be \$19,614,434,00.

As we understand the final Scope of this Project, it is not unreasonable to assume that this price reflects the following

- The Campus will remain operational during the entire replacement phase for the school
- The Project Site is very horged because of its 15-acre size and current buildout states.
- 3 tigms #1 and 2 are oriving a three phases, 27-month construction period resulting in higher than normal general conditions costs.
- 4 Ste work includes a complete radesign of the site and off-site improvements.

For these reasons, Song + Associates recommends the award of this GMP.

Very may yours,

David Erik Chast, AIA, REFP, opsm
