Validating the SunBay Middle School Digital Mathematics Program

Broward County Public Schools

Statement of Work

BACKGROUND

SRI International, a non-profit organization with a track record of success in scaling up research-based educational innovations and conducting high quality evaluations at scale, has been funded under the Investing in Innovation Fund Grant Program (i3) with a validation grant under *Absolute Priority 4: Effective Use of Technology*. In the coming years, the State of Florida is transitioning from the Next Generation Sunshine State Standards (NGSSS) to the Mathematics Florida Standards (MAFS). In conjunction with this transition in standards, the current state assessment, the Florida Comprehensive Assessment Test (FCAT), is also transitioning to a new state assessment. In response to this need, SRI will validate and scale up its SunBay Mathematics program in Florida, which specifically aims to help middle schools transition their curriculum and instruction to these higher standards in mathematics.

SRI is partnering in this i3 validation grant with school districts in Broward and Palm Beach counties, where the curriculum will be validated; the University of Florida (UF), which will provide professional development and support for teachers in Broward and Palm Beach counties; USFSP, which will investigate innovative approaches to professional development in a Florida school district to be determined; and the University of Pennsylvania Consortium for Policy Research in Education (CPRE), which will lead the evaluation efforts.

Your school district (district) submitted a proposal to participate as a partner local education agency in SRI's said proposal to the Department of Education. Your district agreed to participate in a randomized control trial (specific parameters defined below in the Scope of Work section) for the continued development and implementation of targeted, research-based middle school mathematics units with complementary PD to develop teacher capacity (the SunBay program).

OBJECTIVE

SRI and its partners will validate the SunBay mathematics curriculum and pedagogy by conducting a randomized control trial (RCT) in two school districts (Palm Beach County Schools and Broward Schools), using FCAT and other state assessment scores as the outcome. The unit of measure for the experiment is the individual school (K-8 or 6-8) such that 30 eligible middle schools will be assigned to the treatment group receiving the SunBay materials while 30 schools participate in the control condition. As such, the implementation model of SunBay at your district must be school-wide, and it is designed so that all eligible math teachers in the treatment schools participate in the SunBay program, thereby dramatically increasing the capacity for effective teaching of digital mathematics for schools in the district. (SRI and its partners will simultaneously conduct a study of usage model variations with a separate partner district to test the cost and cost-effectiveness of our approach.)

REQUIREMENTS

The district will collaborate with SRI and all partners to ensure that the requirements of the grant are met in a timely manner.

The district will commit to recruiting all eligible schools to be in the sample of schools to be selected as treatment or control schools, and schools will remain in this condition over two school years, 2014-15 and 2015-16. This is required to support a proper statistical analysis with the unit of measure being the individual school. Eligible schools will represent the needs of the entire district. Schools should **not** include those that have been identified as in need of "turnaround", such as those currently identified as ETO (Educational Transformation Office) schools, which have existing priorities and initiatives that may make it difficult to identify the impact of the SunBay program.

Teachers in the treatment schools will be required to teach the full SunBay program over 2 school years (SY2014-15 and SY2015-16). This consists of 2 units for each of 6th, 7th, and 8th grades, where one is taught in the fall and the other in the spring. Each unit is approximately 3 weeks, or 15 hours of class time. (See Timeline – RCT.)

The technology-based SunBay materials are web-delivered, and as such, the mathematics classrooms in the treatment schools must have a reliable Internet connection during implementation. These classrooms also be able to access the project's external website that hosts the technology-based materials.

For the new SunBay units to be effective, it is expected that teachers will engage in a significant amount of teacher professional development (PD) before implementing the units in their classrooms. PD will be arranged by UF in coordination with the school districts and will be approved by SRI. The parties will come to a mutual agreement on PD arrangements that ensure teachers' participation in professional development activities. This includes scheduling PD activities, providing logistical support, and arranging for teacher release time and substitutes, as appropriate.

SunBay Professional Development

This PD will be provided by the University of Florida Lastinger Center. It will be arranged to align with the partnership proposal and budget narrative as submitted by your district in accordance with these minimum requirements:

- 18 hours of initial PD for all first-time SunBay teachers. This will include a general introduction to SunBay as well as the specific PD for the first unit the teacher will be using.
- 16 hours of additional PD to be allocated across additional units to be used, with a minimum of 4 hrs. PD for each unit and for the teacher showcase.
- 8 hours of (refresher) PD to support teachers who continue with SunBay for a second year in SY 2015-16.

Additional Certificate and Master's Programs

The district is expected to encourage and support teachers' participation in the certificate and/or Master's program that will be offered at UF College of Education. UF anticipates enrolling 2 teachers per treatment school (60 teachers total across both RCT districts) in SY2014-15. UF will provide tuition for 10 of those teachers to continue to a Master's program in SY2015-16, but other interested teachers may participate at their own cost.

SCOPE OF WORK

TASK 1 MANAGEMENT

1. Provide a list of all schools teaching mathematics in the middle grades (grades 6-8) to be subject to randomization by SRI and the program evaluators, such that 50% of schools are selected to receive the SunBay treatment, and 50% will act as control schools that do not receive the SunBay treatment.
2. Hire or designate 1 full-time SunBay District Coordinator dedicated to supporting the implementation and success of the SunBay project through SY 2014-15 and SY 2015-16. This position will:
 - a. Work with SRI and the partners to secure IRB certification for the project and maintain compliance throughout. This includes monitoring the application to the district's Department of Research and Evaluation, assisting with requirements for visitors to schools (e.g., fingerprinting), facilitating the collection of consent forms and the de-identification of data to be shared with partners.
 - b. Collaborate and communicate with all project partners in the development, scheduling and delivery of professional development in the treatment schools to ensure maximum teacher participation.
 - c. Organize the logistics for PD and requested project meetings.
 - d. Be responsible for the dissemination of information and documents from SRI, the external evaluator, or UF as necessary to meet project requirements. These may include the distribution of surveys, links to online resources and evaluation instruments, and general project communications.
 - e. Provide feedback to UF to ensure the Master's and certificate programs meet the district's requirements for ongoing PD and teacher certification credits, e.g., IPDP and MPP.
 - f. Coordinate the provision of credits for professional development for participation in the UF professional development activities.
 - g. Serve as the SunBay technology support coordinator and ensures that teachers have the required technology and internet access to teach the units. This includes arranging for teachers to use the schools' existing technologies for SunBay implementation, purchasing additional class sets according to the SunBay technical specifications, and scheduling available resources (or making them available) to ensure teachers' participation in the program.
3. Provide the project with the reporting required by the i3 program (expected to be annual and final reports)
4. Allow for travel to project meetings at a location to be determined - possibly in Menlo Park, California- for 1 person for 2 days to meet with the team annually.

5. Allow local travel for the SunBay project director and technical support staff, etc., to visit schools as necessary
6. Assist SRI in its efforts to disseminate findings to appropriate audiences, e.g., research conferences and meetings with policymakers and funders.

TASK 2 DEVELOPMENT

7. Sun Bay District Coordinator will coordinate with SRI and UF in the development of the SunBay units aligned to the Common Core State Standards in Mathematics and district pacing guides to be used during the 2 years of experiment implementation.
8. As part of the curriculum development process, two district master math teachers will be engaged on an hourly basis to review and submit comments on the 6 modules produced by SRI. It is estimated that the level of effort will total approximately 16 hours per module for each master math teacher.
9. At the end of the subcontract, the district will receive a no-cost license to use the curricular materials developed for the randomized control trial with all its regular district middle schools. These curricular materials are electronic versions of teacher and student workbooks (in PDF format) and associated web-delivered technology-based activities (a URL address). Redistribution of the curricular materials to any user or recipient outside the district will not be licensed or permitted.

TASK 3 IMPLEMENTATION

10. The district will make every reasonable effort to support the implementation of the SunBay program in the treatment schools and to ensure that the SunBay program is not implemented in the control schools.
11. The SunBay District Coordinator will procure the necessary data to support the experiment and analysis, based on a list of data requirements to be provided by SRI and the evaluator. It is anticipated that these data requirement lists will be provided on an annual basis over the project duration. The required data will include FCAT and/or other state assessment scores, interim assessment scores, and demographic data. It is expected that SRI and the evaluators will use student and teacher district ID numbers. These ID numbers will (a) allow for tracking the students or teachers through the duration of the study; (b) allow for tracking the student or teachers in the event that the student changes schools; and (c) be able to be associated with specific teachers (for students only), classes, and schools. SRI and the evaluator will also be provided with email and other contact information for teachers and administrators in the study to allow for the administration of online surveys and other instruments.
12. The SunBay District Coordinator will work with SRI and its technology partners to support the use of the SunBay technology in classrooms. The District Coordinator's responsibilities will include uploading login data (e.g., by student, teacher and classroom) and maintaining any changes in class rosters to ensure seamless use of SunBay in classrooms.
13. If appropriate, the district will work with SRI to develop an MOU with the teacher's union or any appropriate organizations that would enable SRI and the project evaluator to conduct the following activities:
 - a. Administration and department leader surveys
 - b. Classroom visits and observations
 - c. Teacher interviews

- d. Teacher surveys and assessments of student knowledge (TASKs): every participating teacher would be requested to complete 5 40-minute surveys, including "TASKs".
The evaluator expects to provide teachers an incentive of \$25 per completed task.
14. SRI will provide print materials as necessary for the SunBay implementation directly to the district's treatment schools. SINGLE AUDIT REQUIREMENTS (Applicable if you are subject to A-133 reporting.)

(1) Non-Federal entities that expend \$500,000 or more in a year in Federal Awards are required to have a single audit conducted for that year except when they elect under paragraph (2) to have a program specific audit conducted for that year (A-133 § .200 (a & b)).

(2) When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal programs laws, regulations, or grant agreements do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit conducted. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit (A-133 § .200 (c)).

(3) Non-Federal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements under A-133 for that year, except where noted in the circular, but records must be available for review or audit by the appropriate officials of the Federal agency, pass-through entity, and General Accounting Office (GAO). If a program statute requires audits of grants under that program, either at a lower threshold or in all cases, grantees must comply with the program statute (A-133 § .200 (d)).

(4) A grantee must submit the audit results to the audit clearinghouse within the earlier of 30 days after the receipt of the auditors report(s), or within nine months after end of the audit period, unless a longer period is agreed to in advance by the Federal agency that provided the funding or a different period is specified in a program-specific audit guide (A-133 § .320 (a)).

Grantees are strongly urged to obtain the "OMB Circular A-133 Compliance Supplement" and to contact their cognizant agency for single audit technical assistance.

The designated cognizant agency for single audit purposes is "the Federal awarding agency that provides the predominant amount of direct funding to the recipient." Grantees should obtain a copy of the OMB Circular A-133 Compliance supplement. This supplement will be instructive to both grantees and their auditors. Appendix III of the supplement provides a list of Federal Agency Contacts for A-133 Audits, including addresses, phone numbers, fax numbers, and e-mail addresses for technical assistance.

If the U.S. Department of Education is the cognizant agency, grantees should contact the Non-Federal Audit Team in the Departments Office of Inspector General, at the address, phone, or fax number provided in page 2 of this attachment.

IV. Cost Principles (§74.27, §80.22) (Applicable based on the type of organization you qualify as, if you are a For-Profit Organization then FAR Part 31.2 is applicable to you and is hereby incorporated by reference.)

All costs incurred under any grant are subject to cost principles found in 2 CFR that are applicable to particular types of organizations that serve as grantees under Federal grant programs. The applicable cost principles provide lists of selected items of allowable and unallowable costs, and can be found on the Web at the following URLs:*)

VII. Audit Requirements (§74.26, §80.26) (Applicable if this award will put you over the \$500,000 threshold described in the clause and you are subject to OMB A-133.)

The Single Audit Act requires that grantees obtain a non-Federal audit of their expenditures under their Federal grants if the grantee expends more than \$500,000 in Federal funds in one fiscal year. OMB Circular A-133 contains the requirements imposed on grantees for audits done in connection with the law. The full text of the most recent version of the circular can be found at:

<http://www.whitehouse.gov/omb/circulars/a133/a133.html>

The Department recommends hiring auditors who have specific experience in auditing Federal awards under the circular and the Compliance Supplement, which can be found at:

OTHER CONSIDERATIONS (Applicable if your award under this subaward includes cost sharing or matching funds or you will be furnished or acquiring equipment and other capital expenditures.)

Some other topics of financial management covered in EDGAR that might affect particular grants include program income (§§74.24, 80.25), cost sharing or matching (§§74.23, 80.24), property management requirements for equipment and other capital expenditures (§§74.34, 80.32).

MEMORANDUM

ENCLOSURE4

June 15, 2010

(Applicable for all subawards. In this memorandum "subrecipient" means you.)

To: Recipients of grants and cooperative agreements

From: Thomas Skelly, Delegated to Perform Functions of Chief Financial Officer

Subject: Department of Education Cash Management Policies for Grants and Cooperative Agreements

The purpose of this memorandum is to remind the Department of Education's (the Department's) grant and cooperative agreement recipients (recipients) of existing cash management requirements regarding payments. The Department expects that recipients will ensure that subrecipients are also aware of these policies by forwarding a copy of this memorandum to them.

There are two different sets of payment requirements that apply to the draw of funds from recipient accounts at the Department. Payments to a State under programs covered by a State's Treasury State Agreement (TSA) are subject to the requirements of the *Cash Management Improvement Act of 1990 (CMIA)* as published in 31 United States Code 6503.

All other payments to States and all payments to other types of recipients are subject to the requirements in either 34 Code of Federal Regulation (CFR) Part 74, applicable to nongovernmental entities, or 34 CFR Part 80, applicable to State, local, and Indian tribal governments. These regulations are part of the Education Department General Administrative Regulations (EDGAR) and are available on the Web at

http://www.access.gpo.gov/nara/cfr/waisidx_08/34cfrv1_08.html.

CMIA Requirements

Flowdowns for Department of Education Grant U411B130019

1/11/14 – Exhibit C

States that draw funds under programs subject to the *CMIA* must draw funds as required under the TSA for the State. If a State draws funds under one of these programs to make payments to a subrecipient, the payment request to the Department should only be made at the request of the subrecipient, which must make draw requests to the State as required under the requirements in EDGAR, as described below.

EDGAR Requirements

Payments to States under programs not covered by the State's TSA and payments to other governments are subject to the requirements in Part 80 of EDGAR. These payment requirements also apply to all other types of recipients under Part 74 of EDGAR, which applies to nonprofit organizations, institutions of higher education, hospitals, and commercial organizations. States that draw funds on behalf of subrecipients under programs not covered by a TSA should remind subrecipients that they may only request funds from the State under the payment standards in Part 74 or Part 80, as applicable.

For any cash drawn from your program or project account at the Department:

- Recipients must minimize the time between the recipient's draw down of funds from its grant account at the Department and the time the recipient disburses those funds to payees via electronic transfer, check redemption or other means of transfer. See 34 CFR 74.22(a) and 80.21 (b). Specifically, recipients may only draw funds to meet the immediate cash needs of the grant or cooperative agreement.
- For recipients subject to Part 74 of EDGAR, unless the conditions described in 34 CFR Part 74 Section 22(k) exist, these recipients must deposit advances of Federal funds in interest bearing accounts.
- Recipients subject to Part 74 of EDGAR must return to the U.S. Department of Health and Human Services (HHS) the interest earned on advances of grant funds except that the recipient may retain up to \$250 of interest earned on the account each year to pay for the costs of maintaining the account. These requirements also apply to subrecipients subject to Part 74 Section 22 (l) which requires these recipients and subrecipients to annually remit interest earned on advances of funds. The address for interest remittances to HHS is:

U.S. Department of Health and Human Services
P.O. Box 6120
Suite 1133
Rockville, MD 20852

The remittance should be accompanied by a letter stating that the remittance is for "interest earned on Federal funds" and should include the DUNS number.

- Recipients subject to Part 80 of EDGAR must return to the Department the interest earned on advances of grant funds except that the recipient may retain up to \$100 of interest earned on the account each year to pay for the costs of maintaining the account. Section 80.21(i) requires these recipients to promptly (at least quarterly) remit interest earned on advances to the Department. These requirements also apply to subrecipients subject to Part 80. The address for interest remittances to the Department is:

U.S. Department of Education
P.O. Box 979053
St. Louis, MO 63197-9000

The remittance should be accompanied by a letter stating that the remittance is for "interest earned on Federal funds" and should include the DUNS number.

- Recipients must use grant funds only for obligations incurred during the funding period.
- Recipients must distribute Federal funds to subrecipients only when requested by the subrecipient and as needed to pay program costs.

Recipients have other responsibilities regarding the use of Federal funds. We highlight the following practices related to the draw of Federal funds that are either required by EDGAR or will assist recipients in meeting their responsibilities under EDGAR.

Flowdowns for Department of Education Grant U411B130019
1/11/14 – Exhibit C

- Recipients must regularly monitor the payment requests made by their subrecipients to ensure that those requests conform to the same payment requirements that apply to the recipient. See 34 CFR Part 80 Section 20(b)(7);
- Recipients must regularly monitor the fiscal activity of their subrecipients on a continuous basis and ensure that their subrecipients return interest earned;
- If expenditures under the program or project require the recipient's board or specified officials to approve expenditures, the recipient should obtain that approval before making the payment request for any expenditure, thus minimizing the period of time that funds remain in the recipient's bank account pending disbursement of the funds for expenditures under the program or project. See 34 CFR 74.21(b)(5) and 80.22(a); and
- Plan carefully for cash flows for your grant project and review projected cash requirements before each drawdown. See 34 CFR 74.21 and 74.22 or 80.20 and 80.21, as applicable.

Recipients that do not follow the cash management requirements applicable to their grants could be:

- Placed on a "cash-reimbursement" payment method, i.e., a recipient would have to pay for grant activities with its own money and submit documentation of the expenditures to the Department before receiving reimbursement from the Department;
- Designated a "high-risk" recipient under 34 CFR 74.14 or 80.12, as applicable, which may involve the imposition of conditions in addition to that of being placed on a reimbursement payment system;
- Subjected to further corrective action, including withholding of funds, suspension, and termination of the award. See 34 CFR 74.62 or 80.43, as applicable;
- Denied funding under future Department discretionary grant competitions. See 34 CFR Part 75 Section 217(d)(3)(ii); and
- Debarred or suspended under 34 CFR Part 85 from receiving future Federal awards from any executive agency of the Federal government.

A small number of ED grant programs have program-specific cash management and payment requirements based on the authorizing legislation or program regulations. These program-specific requirements may supplement or override the general EDGAR cash management or payment requirements. If you have any questions about your specific grant, please contact the program officer, whose contact information is on your Grant Award Notification (GAN).

ED's Office of the Chief Financial Officer will provide ongoing outreach efforts regarding cash management and payment requirements, including supplementary webinars, URL links and Frequently Asked Question sheets.

Thank you for your attention to this matter. If you have any questions, please contact Cynthia Heath at (202) 245-8043 or cvnthia.heath@ed.gov
