

***SUNBAY i3 Validation Grant
Middle School Participation***

BCPS provided data on all of our middle schools for participation consideration. Schools were selected based on the criteria established by the principal investigator, SRI International, working in conjunction with the University of Florida. The research-based project uses an experimental design strategy, which calls for a comparative experiment where schools are divided into either a treatment group or control group. SRI International provided BCPS with a list of the schools that fall into either category. The following chart indicates the schools in each category. Note that some of our middle schools were not placed in either category.

Treatment Group. These 15 middle schools will be implementing the SUNBAY mathematics digital curriculum:

Crystal Lake	TREATMENT
Driftwood Middle	TREATMENT
Lauderdale Lakes	TREATMENT
Millennium Middle	TREATMENT
Nova Middle	TREATMENT
Parkway Middle	TREATMENT
Pioneer Middle	TREATMENT
Pompano Beach Middle	TREATMENT
Ramblewood Middle	TREATMENT
Sawgrass Springs Middle	TREATMENT
Silver Lakes Middle	TREATMENT
Sunrise Middle	TREATMENT
Tequesta Trace Middle	TREATMENT
Westglades Middle	TREATMENT
Westpine Middle	TREATMENT

Control Group. These 15 middle schools will not implement the digital curriculum; however, comparative student achievement data will be collected.

Apollo Middle	CONTROL
Bair Middle	CONTROL
Dillard 6-12	CONTROL
Falcon Cove Middle	CONTROL
Glades Middle	CONTROL
Indian Ridge Middle	CONTROL
Margate Middle	CONTROL
New River Middle	CONTROL
Pines Middle	CONTROL
Plantation Middle	CONTROL
Rickards, James S	CONTROL
Seminole Middle	CONTROL
Silver Trail Middle	CONTROL
Young, Walter C	CONTROL
Lyons Creek Middle	CONTROL
