SUMMARY EXPLANATION AND BACKGROUND:
Each year, the legislature provides School Health Service Funds to the Florida Department of Health-Broward County (FDOH-Broward) which then funds services for Broward County schools and students. One allocation is for Basic School Health Services to all students in public and participating non-public schools in Broward County. The other allocation is for Full Service Schools which include Basic School Health Services and additional specialized services that integrate education, medical, social, and/or human services to meet the needs of the high risk student population and their families on school district property as required by 402.3026, Florida Statutes. These services are provided in accordance with the statutorily required School Health Services Plan (Section 381.0056[3][e], Florida Statutes).

The FDOH-Broward has contracted Full Service and Basic Health School Funds to Broward County Public Schools (BCPS) since 2000. The proposed contract funding, Full Service ($460,174.76), Basic School Health Services ($775,416.13), and Florida DOH-Broward General Revenue funds ($69,858.97).
