SUMMARY EXPLANATION AND BACKGROUND:				
The School Board of Broward County, Florida (SBBC), received four (4) bids for Bid 15-024R, Propane Mobile Fueling for School Buses. SBBC purchased ninety-eight (98) new propane-fueled buses for the 2014-15 school year. Bid 15-024R is intended to be utilized as a temporary and/or emergency means to fuel the alternative school buses (propane autogas) until a Request for Proposal for permanent on-site fueling stations can be awarded and installed. Propane fuel will be used to decrease our dependency on diesel fuel, reduce emissions, and the use of propane-fueled buses reduces the cost of routine vehicle maintenance and fuel costs. In addition, propane offers diversity in fuels during natural disasters.
