TITLE:	Title I Accountability Project For School Improvement 2001-2002																												
REQUESTED ACTION:	Approve the submission of thirteen Title I Accountability Projects for School Improvement to the Florida Department of Education.																												
SUMMARY EXPLANATION AND BACKGROUND:	<p>The Florida Department of Education has identified thirteen Title I schools as 'low performing' for the 2001-2002 school year. Funds are allocated to Title I schoolwide schools having an 'F' Accountability grade in 2000 and 'D' schools with a minimum of 90 percent low-income, based on the number of students that were eligible for free and reduced price lunch for the fiscal year 2000-2001.</p> <p>Listed below are the Title I schools that received a grade of 'D' and have at least 90 percent of their students from low-income families. The allocation for each school is also indicated.</p> <table style="width: 100%; border: none;"><tr><td style="width: 33%;">Collins Elementary</td><td style="width: 16.5%; text-align: right;">\$40,639.65</td><td style="width: 33%;">Markham, Robert Elementary</td><td style="width: 16.5%; text-align: right;">\$69,049.19</td></tr><tr><td>Dillard Elementary</td><td style="text-align: right;">\$107,013.50</td><td>Marshall, Thurgood Elementary</td><td style="text-align: right;">\$114,529.92</td></tr><tr><td>Drew, Charles Elementary</td><td style="text-align: right;">\$76,056.02</td><td>North Side Elementary</td><td style="text-align: right;">\$82,808.07</td></tr><tr><td>King, Martin L. CURRICULUM & INSTRUCTION/STUDENT SUPPORT AND TECHNOLOGY
DR. EARLEAN C. SMILEY, DEPUTY SUPERINTENDENT

Approved in Open Board Meeting on: _____

By: _____ School Board Chairperson

Revised 7-03-2000

(FT/SMILEY/GEISMAR/GINN:l.turner)

Executive Summary

FY2002 Title I Accountability Project for School Improvement

F - 7

PROJECT INFORMATION

Project Title:	Title I Accountability Project for School Improvement 2001-2002
Applicant:	Title I (Title I, Migrant & Special Programs Department)
Funding Agency:	Federal Government
Grant Funds Requested:	\$1,281,231.87
Type of Grant:	Formula

PROJECT DESCRIPTION

The Florida Department of Education has identified thirteen Title I schools as 'low performing' (D) based upon student performance for fiscal year 2000-2001. 'D' schools selected have ninety percent or more of their children from low income families and have made less than adequate progress.

Each school was notified and instructed to complete the project application with approval from the area superintendents.

School Improvement funds must be used for activities leading to school improvement. The School Improvement Plan dictates how supplementary Title I funds will be used to improve reading, writing, mathematics, staff development, and parent involvement.

PROJECT OUTCOMES

The purpose of Title I is to fund and support schools in providing opportunities for students to acquire the knowledge and skills contained in State and District standards. This purpose shall be achieved on a school-by-school basis as each school designs its own objectives, programs, and strategies for implementation of the School Improvement Plan. Stated outcomes will meet the unique needs of each school's students, as reflected in their School Improvement Plans.

PROJECT EVALUATION

The State Department of Education requires annual student performance reports. In accordance with performance criteria specified in the State Plan, schools districtwide will be rated by the State as indicated below.

Reading and Mathematics

No less than 60% of elementary school students (grade 4), middle school students (grades 8), and high school students (grade 10) are expected to score at or above Level 2 on the Florida Comprehensive Assessment Test (FCAT) in Reading.

FY2002 Title I Accountability Project for School Improvement

F - 7

No less than 60% of elementary school students (grade 5), middle school students (grade 8), and high school students (grade 10) are expected to score at or above Level 2 on the Florida Comprehensive Assessment Test (FCAT) in Mathematics.

Performance at Level 2 indicates that the student has limited success with the challenging content of the Sunshine State Standards.

Writing

No less than 50% of grade 4, 67% of grade 8 and 75% of grade 10 students are expected to score three or above on the FCAT Writing Assessment.

The performance of each Title I school will be evaluated, along with all other district schools, using spring 2002 FCAT data.

The FY2002 Title I Accountability Project for School Improvement supports the following:

- Goal 1: All students will achieve at their highest potential.
- Goal 2: All schools will have equitable resources.

PROJECT STATUS

 x New Continuation

BASIS FOR PROJECT METHODOLOGY

The School Improvement funds will be used to supplement programs and services provided by the district. School Improvement Plans reflect objectives and strategies that allow students to achieve at high levels. School-developed programs and initiatives will meet the unique needs of students.

PROJECT MANAGEMENT

Title I programs and funds will be monitored by Title I staff, Budget and Accounting Department personnel, area superintendents' offices and school administrators, with guidance from the Deputy Superintendent, Curriculum & Instruction/Student Support.

PROJECT PARTICIPANTS/SITES

Project participants will include elementary school students, teachers, administrators and district office support staff and instructional personnel.

School improvement funds will be allocated to thirteen 'low performing' Title I schools for the 2001-2002 school year. The schools and allocations are as follows:

Collins Elementary	\$40,639.65	Markham, R. Elementary	\$69,049.19
Dillard Elementary	\$107,013.50	Marshall, T. Elementary	\$114,529.92
Drew, C. Elementary	\$76,056.02	North Side Elementary	\$82,808.07
King, M. L. Elementary	\$114,402.53	Rock Island Elementary	\$71,087.54
Larkdale Elementary	\$131,855.92	Royal Palm Elementary	\$188,038.01
Lauderdale Manors Elementary	\$117,587.45	Sunland Park Elementary	\$72,871.10
		Westwood Heights Elementary	\$95,292.97

FY2002 Title I Accountability Project for School Improvement

F - 7

PROJECT IMPACT

Funds received from the federal government will supplement the budgets of schools with allocations for additional personnel, substitute teachers, and contracted services.

FINANCIAL IMPACT

The FY2002 Title I allocation is \$1,281,231.87 from the federal government, through the State Department of Education. There is no additional impact to the district.

CERTIFICATION/BUDGET BY SCHOOL DISTRICT/OTHER AGENCY

The governing body of the applicant has authorized the filing of this application and the undersigned representative has been duly authorized to file this application and act as the authorized representative of the applicant in connection with this application.

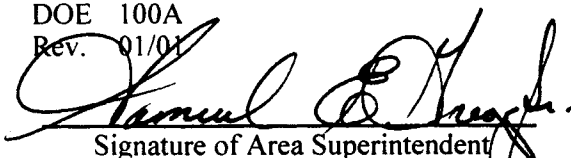

Dr. Frank Till

I, (Please Type Name) do hereby certify that all facts, figures, and representations made in this application are true, correct, and consistent with the statement of assurances signed and submitted previously. Furthermore, all applicable statutes, regulations, and procedures for program and fiscal control and records maintenance will be implemented to ensure proper accountability of funds distributed for this project. All records necessary to substantiate these items will be available for review by state and federal monitoring staff. I further certify that all disbursements will be obligated after project approval date and prior to the termination date, have not been previously reported, and were not used for matching funds on this or any special project.

DESCRIPTION OF PROFESSIONAL DEVELOPMENT SERVICES

(Complete a narrative for each school.)

1. Describe the professional development activities to be implemented to support the Title I school improvement activities under Section 1116(c).
 2. Describe how professional development activities will equip educators with the expertise, knowledge, and skills with the coordination of the Sunshine State Standards in the school curriculum.
-
1. The professional development activities to be implemented will involve teachers being trained by a district level consultant in the CRISS Reading Program. The professional development activities will be designed to ensure that the after school tutorial curriculum is linked directly to the Sunshine State Standards.
 2. As a result of these professional development opportunities, the teachers will acquire research-based, comprehensive strategies such as the use of graphic organizers, story mapping, identifying authors' purpose, etc. In addition, teachers will learn how to incorporate CRISS strategies into the curriculum to enable students to become better readers and FCAT test takers.

1. Describe the professional development activities to be implemented to support the Title I school improvement activities under Section 1116(c).
2. Describe how professional development activities will equip educators with the expertise, knowledge, and skills with the coordination of the Sunshine State Standards in the school curriculum.

Teachers in Kindergarten and First Grade will attend a six day Balanced Literacy staff development. Balanced Literacy will allow the staff to develop innovative reading and literacy strategies that will benefit students. Teachers will be trained in the organization of materials to implement the program. Via balanced literacy, the goals of the School Improvement Plan along with Sunshine State Standards will be addressed.

Teachers in third through fifth grade will have the opportunity to receive training in Creating Independent Student Strategies (CRISS). This program involves the use of critical thinking, one of the most important benchmarks within Sunshine State Standards. These staff development trainings are clearly stated throughout the School Improvement Plan.

**APPLICATION FOR TITLE I ACCOUNTABILITY PROJECT GRANT
FOR SCHOOL IMPROVEMENT UNDER TITLE I, PUBLIC LAW 103-382, SECTION 1116(c)
FISCAL YEAR 2001-2002**

DISTRICT NAME: Broward County
SCHOOL NAME: Sunland Park Elementary

**DESCRIPTION OF PROFESSIONAL DEVELOPMENT SERVICES
(Complete a narrative for each school.)**

1. Describe the professional development activities to be implemented to support the Title I school improvement activities under Section 1116(c).

The professional development activities to be implemented will involve teachers being trained by a district level consultant in the CRISS and EL-Star Reading Programs. During the 2000-2001 school year, 14 teachers were inserviced in CRISS. Teachers who did not participate in CRISS inservice offered during the previous year will be trained in CRISS during Fall 2001. As a result of these professional development opportunities, 75% of the teachers will acquire research-based, comprehensive strategies such as the use of graphic organizers, story mapping, identifying authors purpose, and etc. In addition, teachers will learn how to incorporate CRISS and L-Star strategies into the curriculum to enable students to become better readers and FCAT test takers.

Our plan is to enrich the total curriculum of our school and to reinforce essential comprehension strategies in the After School Tutorial Programs (Saturday School and Academic Camps). In the After School Tutorial Programs, teachers will employ CRISS and EL-Star comprehensive reading strategies that are used during the regular school day. They will use the new acquired knowledge to ensure that children view their participation in the Academic Camp and Saturday School as a more meaningful and positive experience. It is expected that students will be motivated to participate in both After School Tutorial Programs.

2. Describe how professional development activities will equip educators with the expertise, knowledge, and skills with the coordination of the Sunshine State Standards in the school curriculum.

The professional development activities will be designed to ensure that the Academic Camp and Saturday School curriculum is linked directly to the Sunshine State Standards. The strategies of EL-Star and CRISS will be invaluable to teachers participating in these professional development activities. They will be given an opportunity to become experts in modifying curriculum not only to address the needs of students, but also to correlate with the Sunshine State Standards. The professional development activities will also "empower" teachers in their delivery of reading instruction. Students will be motivated to acquire necessary comprehension skills to take ownership in their learning experiences that will result in having a positive impact on student achievement.

SCHOOL NAME: Westwood Heights

DESCRIPTION OF PROFESSIONAL DEVELOPMENT SERVICES
(Complete a narrative for each school.)

1. Describe the professional development activities to be implemented to support the Title I school improvement activities under Section 1116(c).
2. Describe how professional development activities will equip educators with the expertise, knowledge, and skills with the coordination of the Sunshine State Standards in the school curriculum.

The "I Care" program will be implemented at Westwood Heights for the 2001-2002 school year. Inservice will be facilitated by, Title I Parent Involvement Coordinator. This program will help to improve Parent Involvement at Westwood Heights. This staff development program includes training staff members to employ the skills necessary to increase student achievement in all subject areas, measurement of parental and mentor involvement, building partnerships with parents and mentors and enhancing student and parent self-esteem.

This will be done in accordance with the Sunshine State Standards within the School Curriculum. Sixteen faculty members grades K-2 will participate in the seven hour training program. The program will be coordinated and monitored by the School's Community Liaison.

In the areas of Reading, Writing and Mathematics inservice training will be provided to focus on aligning standards through curriculum, and ensuring appropriate educational use of existing technology, and gathering and application of meaningful data. Teachers will be equipped with research on effective practices in teaching reading, mathematics and writing. Teachers will increase their knowledge in the use of multiple measures of student assessments.

DESCRIPTION OF TECHNICAL ASSISTANCE SERVICES

1. Describe the technical assistance and the appropriate intervention the district will provide under Section 1116(c)(4) to schools identified for improvement; such as, but not limited to, extending learning opportunities, before and after school tutoring, mentors and tutors, and the use of inclusive approaches to strengthen the school.
2. Describe how this program will be coordinated with other Title I programs and state and local programs.

1. Technical assistance and interventions provided by the district include:
 - A fulltime on-site reading coach to provide assistance with all aspects of the reading program.
 - A math curriculum coach to provide assistance to teachers and students.
 - A curriculum coach to provide staff development and assistance to teachers and students in literacy and technology.
 - Alliance of Quality Schools provides on-site support, including a coach, to model and provide support with reading, writing and math.
 - After school camps in reading, writing and math
 - Bilingual resource teacher for students needing additional assistance and intervention.
 - Parent technology trainer to provide computer training in the evening.
 - Computerized reading and math programs, networked lab (CCC, AR & CEI).
2. The Co-nect model aligns itself with strategies in the areas of standards based curriculum, technology and staff development. The Curriculum Facilitator and Reading Resource Teacher are funded through Title I. Each person will focus on the specific curriculum needs of each grade. The Curriculum Facilitator and Reading Resource Teacher will monitor and evaluate the success of the curriculum in the after school tutorial and Co-nect program.

Broward

Thurgood Marshall Elementary

DESCRIPTION OF TECHNICAL ASSISTANCE SERVICES

1. Describe the technical assistance and the appropriate intervention the district will provide under Section 1116(c)(4) to schools identified for improvement; such as, but not limited to, extending learning opportunities, before and after school tutoring, mentors and tutors, and the use of inclusive approaches to strengthen the school.
 2. Describe how this program will be coordinated with other Title I programs and state and local programs.
1. The district and Title I fund a Curriculum Specialist and a Reading Resource Teacher. These individuals provide additional assistance and support to students and teachers in the areas of reading, writing, and math. The Alliance of Quality Schools also provides an on-site coach to model, train and assist teachers in reading, writing and math.
 - **"I Care" Positive Parenting** - Cynthia Williams, Title I Parent Involvement Coordinator/"I Care" Positive Parenting certified facilitator, will provide professional development training for all new staff members.
 2. Our present Title I Schoolwide model will be our base program. Included also, we will continue our district's at- risk reform model - Alliance of Quality Schools and Upward Bound assistance initiatives.

**APPLICATION FOR TITLE I ACCOUNTABILITY PROJECT GRANT
FOR SCHOOL IMPROVEMENT UNDER TITLE I, PUBLIC LAW 103-382, SECTION 1116(c)
FISCAL YEAR 2001-2002**

DESCRIPTION OF TECHNICAL ASSISTANCE SERVICES

1. Describe the technical assistance and the appropriate intervention the district will provide under Section 1116(c)(4) to schools identified for improvement; such as, but not limited to, extending learning opportunities, before and after school tutoring, mentors and tutors, and the use of inclusive approaches to strengthen the school.
2. Describe how this program will be coordinated with other Title I programs and state and local programs.

1. The Alliance of Quality Schools (AQS) provides support staff and supplemental materials to assist with academic achievement.

We have implemented CCC (Computer Curriculum Corporation) in grades 1-3 and have a full service Representative available for support and training.

We have the assistance and support of the Upward Bound Team. The team provides modeling and Coaching assistance to enhance the delivery of instruction.

The district offers staff development activities throughout the year including FCAT strategies, early literacy, and critical content in the areas of mathematics, reading and writing.

2. The interventions outlined support the schoolwide Title I School Improvement Plan and are aligned with state and local goals. Activities will be incorporated into daily academic routines and programs.

**APPLICATION FOR TITLE I ACCOUNTABILITY PROJECT GRANT

DESCRIPTION OF TECHNICAL ASSISTANCE SERVICES

1. Describe the technical assistance and the appropriate intervention the district will provide under Section 1116(c)(4) to schools identified for improvement; such as, but not limited to, extending learning opportunities, before and after school tutoring, mentors and tutors, and the use of inclusive approaches to strengthen the school.
2. Describe how this program will be coordinated with other Title I programs and state and local programs.

1. The District will provide matching days (5) for a consultant that is funded through Title I. The consultant will:
 2. Train teachers in the Deliberate Curriculum Model.
 3. Set-up daily learning agendas and organize classrooms.
 4. Analyze test data/assessment
 5. Provide inservice early in the year for teachers to review the disaggregate FCAT and SAT test data.
 6. Develop a calendar to encompass required curriculum to meet benchmark requirements.
 7. Model lessons in reading, writing and math in classrooms.
 8. Classroom visitations.

A district funded after school tutorial program will be implemented for 1st and 2nd grade students in the areas of Reading and Math, twice a week from October 2001 through April 2002. Also, the district will provide assistance with curriculum personnel maximizing student achievement through sustained school-based support model. Additionally, the district will provide curriculum personnel to model lessons and support teachers in the classroom.

Learning Communities and an on site facilitator will be provided by the district to train teachers in the areas of Reading and Math.

2. Currently, our Curriculum Facilitator is funded through Title I. Providing us with an additional Resource teacher will afford us the opportunity of having a Primary and Intermediate Curriculum Facilitator. These grade level specific Facilitators will narrow their focus, honing in on the specific curriculum needs of their assigned grades. This will also provide increased teacher and student contact which will improve teacher and student performance. These grade specific Curriculum Facilitators will be able to monitor and evaluate the success of our primary and intermediate after school tutorial programs and curriculum.

DESCRIPTION OF TECHNICAL ASSISTANCE SERVICES

1. Describe the technical assistance and the appropriate intervention the district will provide under Section 1116(c)(4) to schools identified for improvement; such as, but not limited to, extending learning opportunities, before and after school tutoring, mentors and tutors, and the use of inclusive approaches to strengthen the school.
2. Describe how this program will be coordinated with other Title I programs and state and local programs.

The Title I Parental Involvement Coordinator will conduct the "I Care" Curriculum training for sixteen faculty members, grades K-2.

Westwood Heights has a school-wide CCC program will be coordinated with assistance from Judy Word, the monitor with CCC services. The computer lab will be used for the enhancement of basic skills in Reading Comprehension, Critical Thinking and Mathematics. This program will also complement the "I Care" curriculum that is being supported by Title I staff.

An After School Tutorial Program will be implemented for 1st –5th grade students in the areas of Reading, Writing and Math, four hours per week, from October 2001 through March 2002.

The district will provide curriculum assistance in Reading and Math to enhance student achievement through modeling lessons and giving support to teachers in classrooms. This program will be funded through this grant.

2. Describe research-based models to be implemented (if applicable). Has the model been replicated successfully in a wide range of schools and districts; e.g., urban, rural, suburban?

1. The school improvement plan provides for an array of activities to support student achievement in reading, writing, math and science. These activities include:
 - Strengthening the standards-based approach to curriculum content through curriculum alignment and mapping to standards
 - Chapter and leveled books in the classrooms
 - Technology based reading programs, including AR
 - Providing classrooms with print rich materials
 - Continuous teacher training, with additional concentration in literacy and technology
2. Co-nect will provide Markham with resources, the roadmap and professional development activities that will effectively address strategic goals and objectives. Co-nect will also sustain the on-going design initiatives currently in place at the school by continuing the focus on aligning standards through the curriculum alignment process, integrating technology and projects into teaching and learning and by building engaging activities that bring the standards to life. Through these efforts, Co-nect will dramatically improve student achievement and school-wide performance. Markham will be supported with on-line tools, content, and customized training. Co-nect has been successfully implemented in several Broward County schools.

**DESCRIPTION OF SCHOOL IMPROVEMENT ACTIVITIES
(Complete a narrative for each school)**

1. Describe the school improvement activities that will be implemented in correlation with other existing Title I programs and state and local programs.
2. Describe research-based models to be implemented (if applicable). Has the model been replicated successfully in a wide range of schools and districts; e.g., urban, rural, suburban?

1. The school will implement a school-wide, uninterrupted reading block. Students will use Curriculum Corporation Reading programs to increase reading comprehension. Students will participate in reading incentive programs including, but not limited to, Reading Across Broward, Book It and Accelerated Reader to expose them to a variety of genres. Students will also use Junior Great Books as a supplement to increase recreational reading. The school will coordinate Family Reading Night for parents and students to learn successful reading strategies that can be taught at home.

The school will coordinate a Family Math Training Night for students and families. Family Math Night will be held to teach students and parents how to implement math concepts strategies in the home. Also, students will participate in math openers to build skills in math application and critical thinking and use Curriculum Corporation Math program to build math concepts and application.

The school will provide opportunities for students to participate in a daily writing block which will consist of writing instruction, student practice and student sharing. Students will also respond monthly to writing prompts. These prompts will be assessed by the teacher and immediate feedback will be given through individual student conferences. Teachers will provide Narrative and Expository writing prompts. Students will use computers to create, publish and edit writing assignments at least once every quarter (ie. Storybook Weaver, Apple Works, The Writing Center). The school will coordinate Family Writing Night for students (4th Grade) and parents to learn steps to be incorporated at home to assist students in writing a 3.0 or higher Narrative and Expository prompts.

2. Not applicable.

Sunland Park Elementary

**DESCRIPTION OF SCHOOL IMPROVEMENT ACTIVITIES
(Complete a narrative for each school)**

1. Describe the school improvement activities that will be implemented in correlation with other existing Title I programs and state and local programs.

The After School Tutorial Programs correlate with many existing state and local Title I programs and are documented in our School Improvement Plan. The activities are as follows:

READING

- Teachers will learn and implement instructional methods to incorporate supplemental reading materials into the daily curriculum.
- Teachers will learn how to analyze test data, recommend placement, evaluate progress, and prepare individualized reading assessment for each child in the program.
- Teachers will learn how to probe reading responses, stimulate reading critiques, and provide enrichment activities with supplemental materials such as Highlights for Children, Ranger Rick, Time for Kids, Scholastic News and Weekly Reader.
- Teachers and staff will learn strategies to increase vocabulary and reading comprehension skills.
- Students will be instructed using various supplemental Reading resources such as Florida Coach, Blast Off, Taking the High Road, Versatiles, STARS, Barnell-Loft Specific Skills Series, and SRA Reading Laboratory Kit.

MATHEMATICS

- Students will review, compare, and evaluate mathematical concepts using FCAT preparation materials and manipulatives.
- Students will participate in remedial mathematics facts, problem solving, and mathematical equations in the After School Tutorial Programs.
- Parents will learn school-to-home mathematics facts, problem solving, and mathematical equations in the After School Tutorial Programs.
- Teachers will provide a daily instructional focus to increase student testing and mathematical skills through ongoing professional development.
- Teachers will learn stimulating academic games to increase mathematical skills and participation in the annual Title I Math Challenge, Math SuperStars, and Broward County Council for Teachers of Mathematics (BCCTM) Math Competition.

2. Describe research-based models to be implemented (if applicable). Has the model been replicated successfully in a wide range or schools and districts; e.g., urban, rural, suburban?

Project CRISS became part of the National Diffusion Network (NDN). The NDN, part of the U.S. Office of Educational Research and Improvement, provided validated projects with grant support for dissemination. Funds were received from the Department of Education to spread the CRISS program to other districts. Over the last decade, Project CRISS has been used with teachers throughout the United States. The CRISS program is now being used by teachers in 43 states, in three Canadian provinces, and in Norway.

**EVALUATION OF PROGRESS
(Complete a narrative for each school)**

Describe the process your school will utilize to evaluate the implementation of the School Accountability Project and its overall effectiveness. Provide evidential data of progress. The plan should include student improvement targets and other indicators that can be used to evaluate the effectiveness of the plan and to make revisions as needed; e.g:

- Pre-post evaluation assessment;
- Review School Improvement Plan quarterly; and
- Assessment of students on quarterly basis.

Our two most important objectives for the 2001- 2002 school year will be that 60% of our children will be at or above a level II in FCAT reading and math. In order to achieve this goal, we have implemented a variety of programs including the Saturday School Tutorial Program.

In our efforts to evaluate the effectiveness of our school and the Saturday School Tutorial Program, each students will be administered a pre and post assessment in reading and math. The assessments used are:

- STAR reports provide a daily assessment of students on AIP's.
- CCC reports are evaluated daily
- Accelerated reader reports are evaluated monthly
- Leadership Resources in math and reading are assessed monthly
- Reading rate and accuracy checkouts are assessed monthly
- Writing prompts are assessed monthly
- Writing on demand samples are assessed bi-monthly

These assessments will ensure the effectiveness of the curriculum and programs implemented to increase student achievement.

**APPLICATION FOR TITLE I ACCOUNTABILITY PROJECT GRANT

**EVALUATION OF PROGRESS
(Complete a narrative for each school)**

Describe the process your school will utilize to evaluate the implementation of the School Accountability Project and its overall effectiveness. Provide evidential data of progress. The plan should include student improvement targets and other indicators that can be used to evaluate the effectiveness of the plan and to make revisions as needed; e.g:

- Pre-post evaluation assessment;
- Review School Improvement Plan quarterly; and
- Assessment of students on quarterly basis.

The evaluation process outlined in our School Improvement Plan consist of:

- ◆ Data disaggregation of student scores (FCAT, SAT, STAR, IRI)
- ◆ Pre/Post assessments for math and reading using the Stanford Diagnostic (SDRI/SDMI)
- ◆ Feedback to students and teachers on the Monthly Writing Prompts
- ◆ Reviewing monthly/quarterly reports generated through computerized management systems for software such as CCC (Computer Curriculum Corporation)
- ◆ Direct Instruction program assessments (timed/mastery tests)
- ◆ After School Reading/Math Camp Evaluations
- ◆ Quarterly review of School Improvement Plan activities and benchmarks.

School Performance Grade – three-year summary

	1999	2000	2001	
FCAT READING	50%	58%	77%	(At or Above Level 2)
FCAT WRITING	67%	76%	80%	(At or Above 3.0)
FCAT MATH	52%	70%	69%	(At or Above Level 2)
 GRADE	 D	 D	 C

Describe the process your school will utilize to evaluate the implementation of the School Accountability Project and its overall effectiveness. Provide evidential data of progress. The plan should include student improvement targets and other indicators that can be used to evaluate the effectiveness of the plan and to make revisions as needed; e.g:

- Pre-post evaluation assessment;
- Review School Improvement Plan quarterly; and
- Assessment of students on quarterly basis.

Student's Pre and Post evaluations will be administered as a means of evaluation. Ongoing review and monitoring of the School Improvement will occur and changes will be made as warranted. Chapter tests, quizzes and teacher-made tests will be administered. The school improvement plan provides for mid-year benchmark assessments using instruments that will measure progress similar to FCAT Writing, Reading and Math. Teachers, leadership team and administration will carefully monitor the progress of the students. IRI's are administered in the spring or as needed during the school year. CCC reports are monitored weekly and can be run daily when needed.

Two objectives for the 2001-2002 school year will be that 60% of all fourth and fifth grade students will be at or above the level II in FCAT Reading and Math. In order to achieve this goal, we have implemented a variety of programs. Each teacher is required to submit a quarterly monitoring plan to the administration which tracks and evaluates the following areas: Number of referrals, reading program and lesson, IRI scores, Stanford Diagnostic Test Scores, Accelerated Reader Levels, and progress in the Computer Curriculum Corporation Lab. All monitoring plans will be reviewed and monitored by administration and support staff to redirect and/or direct instructional strategies for individual students in grades K-5. In addition, the district will be providing mini tests to evaluate mastery of Sunshine State Standards to be used by classroom teachers. The FCAT and norm referenced test will also serve as tools for student assessment.

- Pre-post evaluation assessment;
- Review School Improvement Plan quarterly; and
- Assessment of students on quarterly basis.

Our school employs multiple assessments throughout the year. In the fall, the EPES test (FCAT and SAT 9 equivalency) is given. Chapter tests, quizzes and teacher-made tests are administered. The school improvement plan provides for mid year benchmark assessments using instruments that will measure progress similar to FCAT Writing, Reading and Math. Progress is carefully monitored by teachers, leadership team and administration. FCAT and Stanford 9 are administered in spring. IRI's are administered in spring or as needed during the school year. CCC reports are monitored weekly and can be run daily when needed.

EVALUATION OF PROGRESS

(Complete a narrative for each school)

Describe the process your school will utilize to evaluate the implementation of the School Accountability Project and its overall effectiveness. Provide evidential data of progress. The plan should include student improvement targets and other indicators that can be used to evaluate the effectiveness of the plan and to make revisions as needed; e.g:

- Pre-post evaluation assessment;
- Review School Improvement Plan quarterly; and
- Assessment of students on quarterly basis.

The Informal Reading Inventory (IRI) is administered at the end of each school year. Based on the results students are placed in appropriate reading groups and taught on their instructional reading level. Reading assessments are given after each reading strand is taught. Reading strands are implemented in grades 3 – 5. Grades 1-2 are given an assessment after every twenty lessons. Students are also assessed by teacher observations, daily assignments, quizzes and other informal tests.

In October the students will begin Writing prompts. Teachers will assess each Expository and Narrative prompt and provide immediate feedback to the students. Teachers and curriculum support staff use the writing rubric to score writing prompts from 0 – 6.

Math strands are taught in grades 3 – 5 and teachers evaluate each strand. Based on the assessments, teachers adjust math lessons in order to teach strands that are not passed by the students. End of the book tests, chapter tests, daily assignments and teacher observations are used to assessed the progress of students in grades 1 and 2.

Pre and post tests are given to all students in the areas of reading, writing and math. The curriculum leadership team and the curriculum consultant review assessments to adjust the curriculum and reallocate resources to meet the academic needs of the students. The culminating assessments are the FCAT (3 – 5) and the SAT test (1 – 2).

The School Improvement Plan is evaluated at each School Improvement monthly meeting. The plan is evaluated to determine if we are meeting our objectives in the areas of reading, writing and math. Adjustments are made as needed with the committee's approval.

The school uses Interim Reports every four weeks to report students' progress to parents. Also, the school uses the District's approved Progress Report to inform parents of their child's progress that has been made on strands assessments, chapter tests, quizzes, daily assignments and other informal tests.

EVALUATION OF PROGRESS
(Complete a narrative for each school)

Describe the process your school will utilize to evaluate the implementation of the School Accountability Project and its overall effectiveness. Provide evidential data of progress. The plan should include student improvement targets and other indicators that can be used to evaluate the effectiveness of the plan and to make revisions as needed; e.g:

- Pre-post evaluation assessment;
- Review School Improvement Plan quarterly; and
- Assessment of students on quarterly basis.

The purpose of The After School and Saturday School Tutorial Programs is to increase achievement in Reading and Mathematics for all students. Summer school assessment and FCAT results will be used to analyze and monitor student progress. Each student will be given a weekly assessment and the results will be utilized to tailor the curriculum for future instructional focus. This practice correlates with the School Improvement Plan for increasing Reading comprehension and Mathematics skills so that Sunland Park can meet the higher performing criterion of having 50% or more of its students scoring at or above Level 3 in Reading and Mathematics.

- By June, 2002, 65% of 5th grade students meeting the criteria of DOE Administrative Rule 6A-1.09981 will score Level 2 & above on the FCAT math assessment.
 - By June, 2002, 61% of the 4th grade students meeting the criteria of DOE Administrative Rule 6A-1.09981 will score Level 2 & above on the FCAT reading assessment.
 - By June, 2002, 96% of 4th grade students meeting the criteria of DOE Administrative Rule 6A-1.09981 will score Level 3.0 & above on the FCAT writing assessment.

I Care -

Provided in the "I Care" curriculum are the following assessments to be used to monitor the involvement of the teachers, parents and children. The assessments are:

"I Care" Feedback form used to recognize at least 5 additional positive activities done with the child/mentee during the month.

Parental/Mentor Involvement Measure used on a monthly basis to record activities done on "I Care" Feedback Forms.

Class Parental/Mentor Involvement Measure- Teachers used this instrument to plot total number of completed activities done at home.

A disk is provided for teachers to input family participation and graphs are produced to give a visual picture of progress made.

After-School Tutorial -

Pre and Post tests and Bi-weekly assessments will be administered to students in the After School Tutorial Program to measure student progress.

Computerized Lab -

Assessment of students will be done on a weekly, monthly and quarterly basis. Deficiencies will be highlighted and assistance will be given in the CCC lab under the supervision of the classroom teacher.

Reading -

A Pre and Post Star Assessment is administered to all students to measure the student's achievement and growth.

Instructions
Budget Recap and Description Form

This form should be completed based on the required information as outlined in the Request for Proposal (RFP) or Request for Application (RFA).

A. Enter District/Agency Name.

B. DOE USE ONLY.

(1 AND 2)

FUNCTION/

OBJECT:

SCHOOL DISTRICT APPLICANTS:

Use the function and object codes as described in Financial and Program Cost Accounting and Reporting for Florida Schools.

(2) OBJECT:

COMMUNITY COLLEGE APPLICANTS:

Use the object code as described in the Accounting Manual for Florida's Public Community Colleges.

(2) OBJECT:

UNIVERSITY/STATE AGENCY APPLICANTS:

Use the object codes as described in the State of Florida Automated Accounting Subsystem.

(2) OBJECT:

OTHER AGENCY APPLICANTS:

Use the object/account codes as described in the agency's expenditure chart of accounts.

ALL APPLICANTS:

(3) DESCRIPTION:

Provide a description for each budget item by category. Include all information requested in the RFP or RFA for Salaries and Benefits, Purchased Services, Expenses, and Capital Outlay.

(4) AMOUNT:

For each function/object indicate the budget amount requested for funding this application.

- Note: Only School District Applicants are required to complete the function code.

INSTRUCTIONS FOR PERSONNEL LISTING FOR SCHOOL LEVEL TITLE I FUNDED POSITIONS

Record all position types including Other Personal Services for school district or other agency personnel employed on a regular or temporary basis to be funded from the Title I Migrant project. School districts must use the required function and object numbers defined in Financial and Program Cost Accounting and Reporting for Florida Schools. Other agencies must use accounting numbers describing these types of positions in the agency's accounting system.

Other Personal Services is defined as compensation paid to persons, including substitute teachers not under written contract, who are employed to provide temporary service to the school district or other agency.

- (1) For each position type described in column (2), record the appropriate function and object numbers. School districts must use functions 5100-9100. Use the object numbers for salaries or Other Personal Services. School districts must use objects 110-170 and 750 respectively as described in the Financial and Program Cost Accounting and Reporting for Florida Schools (Red Book).
- (2) Enter a brief description of the type of position to be funded for this project. Each position type must be listed as described in the Red Book or according to the district's chart of accounts, if the district does not use the Red Book salary object numbers. Additional information may be requested to justify the relationship of a position as it relates to student achievement.
- (3) Indicate the Full-Time Equivalent (FTE) number of positions to be funded. Determine FTE by dividing the standard number of weekly work hours for the position into the actual work hours to be funded by the project.

INSTRUCTIONS FOR PROFESSIONAL AND TECHNICAL SERVICES SCHEDULE

On this schedule, report only the purchase of professional and technical services and related travel. School districts must use the required function and object numbers defined in Financial and Program Cost Accounting and Reporting for Florida Schools. Other agency applicants must use the accounting numbers which describe this type of disbursement in the agency's accounting system.

Professional and Technical Services are services rendered by personnel, other than regular district school board employees, who provide specialized skills and knowledge acquired through intensive academic preparation. Included are services of architects, accountants, auditors, lawyers, doctors, and consultants.

- (1) For the services described in column (3), record the appropriate function number. School districts use functions 5000 or 6100-9100.
- (2) Record the object number most appropriate to the services described in column (3). Note: When the contract with a consultant is for a single amount which covers both services and expenses (including travel), the total contract amount should be recorded in the object for professional and technical services. When the contract calls for a daily or fixed rate plus travel and per diem or expenses, or includes equipment purchases, these amounts should be reported separately under the objects for professional and technical services, travel, and equipment respectively. School districts must use object 310 for professional and technical services, object 330 for travel, and objects 641 and/or 642 for equipment.
- (3) Enter a description of the professional and technical services to be purchased with project funds.
- (4) Record the proposed disbursement in column (4).

INSTRUCTIONS FOR LISTING OF CAPITAL OUTLAY ITEMS

On this listing, report only proposed disbursements for nonexpendable items. School districts must use the function and object numbers as defined in Financial and Program Cost Accounting and Reporting for Florida Schools (Red Book). Other agency applicants must use the accounting number, which describes the type of disbursement in the agency's accounting system.

- (1) Record the appropriate function number for each Capital Outlay item requested in Column (3). School districts use functions 5100-9100, as appropriate.
- (2) Record the appropriate object number for the Capital Outlay item requested in Column (3). School districts use objects 610-692.
- (3) List each Capital Outlay item requested to be purchased with project funds. Items are to be listed by the appropriate function and object numbers.
