

**The School Board Of Broward County, Florida**  
**The Building Department**  
 Lee Martin, Chief Building Official

August 6, 2004

TO: Mr. David Jones, Principal  
 Coral Glades High School

FROM: Lee Martin, Chief Building Official  
 The Building Department

SUBJECT: Coral Glades High School  
 Project No. 3861-22-01  
 Temporary Certificate of Occupancy

My understanding is that interior and exterior stairs have been repaired to comply with NFPA 101 and the Florida Prevention Code, and additional tactile warning is being installed on stairs in certain locations.

Pursuant to Chapter 106.1 of the Florida Building Code, 2001, a Temporary Certificate of Occupancy is hereby issued this date for the entire facility at Coral Glades High School (J)). This Temporary Certificate of Occupancy for Coral Glades High School is being issued for a 90-day period contingent upon the following:

Before shop equipment can be used, each piece must be wired to a shunt trip breaker. Before showers can be used, full-depth handicapped accessible seats must be installed where required. Before science laboratories can be stocked with chemicals, 1/2" lips must be placed on all shelves. Before gas can be used in laboratories, all piping must be fully-concealed and gas valves modified to permit shut-off without prior knowledge of equipment. Please refer to the inspection report attached for additional deficiencies that must be corrected within the ninety (90)-day TCO period.

This Temporary Certificate of Occupancy will no longer be valid upon the expiration date of November 6, 2004; therefore, the subject building shall not be occupied beyond that date without corrections of the attached list. Violations of any of the provisions of this TCO will be grounds for immediate revocation.

LEM/tl
